#### **1. *INCORPORATION, NATURE OF OPERATIONS AND GOING CONCERN***

Gimus Resources Inc. (la «Company») is an exploration Company with activities in Canada.

These financial statements were prepared on a going concern basis, using the historical cost, except for the financial assets accounted for at fair value through profit and loss.

The Company's ability to continue as a going concern depends on its ability to realize its assets and to obtain additional financing. While it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future. As at December 31, 2012, the Company has a deficit of \$237,945. The application of IFRS on a going concern basis may be inappropriate, since there is a doubt as to the appropriateness of the going concern assumption.

These financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported amounts of revenues and expenses and the classification of statement of financial position items if the going concern assumption was deemed inappropriate, and these adjustments could be material. Management did not take these adjustments into account as it believes in the validity of the going concern assumption.

The Company's financial year ends on September 30.

#### **2. *GENERAL INFORMATION AND STATEMENT OF COMPLIANCE WITH IFRS***

The Company's condensed interim financial statements have been prepared based on International Financial Reporting Standards (IFRS) in accordance with IAS 34 standard, Interim Financial Reporting. The condensed interim financial statements are presented in Canadian currency which is also the functional currency of the Company. The functional currency has remained unchanged during the reporting period.

The interim condensed financial statements must be read in conjunction with the most recent annual financial statements and the accompanying notes as at September 30, 2012 and for the period then ended.

The condensed interim financial statements for the reporting period ended December 31, 2012 (including comparatives) were approved and authorized for issue by the Board of Directors on February 28, 2013.

**6. SHARE-BASED PAYMENTS**

The Company has established a stock option plan pursuant to which options to purchase common shares may be granted to certain officers, directors and employees of the Company as well as persons providing services to the Company. Under this plan, options to purchase the common shares from time-to-time may be granted for a variable number whereby the number should never represent more than 10% of the issued and outstanding capital stock of the Company. Exercise price of options equals the market price of the Company's stock on the date of grant. Stock options are exercisable on the day of grant and are for a maximum term of ten years except for broker options which have a term of 2 years. Among the options outstanding, none is subject to an escrow agreement.

All share-based payments will be settled in equity. The Company has no legal or constructive obligation to repurchase or settle the options.
