Notes to Condensed Interim Financial Statements (unaudited, in Canadian dollars)

For the nine-month period ended June, 30 2017

1. INCORPORATION AND NATURE OF OPERATIONS

Lamêlée Iron Ore Ltd. (the «Company») is an exploration Company with activities in Canada.

The Company's principal property is an interest in the Meston Lake West Property located near Chibougamau, Quebec, Canada. The Company has no income from production since all its properties are at the exploration stage.

The Company's financial year ends on September 30.

2. GOING CONCERN

These financial statements were prepared on a going concern basis, using the historical cost, except for the financial assets accounted for at fair value through profit and loss.

The financial statements have been prepared on the basis of the going concern assumption, meaning the Company will be able to realize its assets and discharge its liabilities in the normal course of operations.

Given that the Company has not yet determined whether its mineral properties contain mineral deposits that are economically recoverable, it has neither yet generated income nor cash flows from its operations. As at June, 30 2017, the Company has a deficit of \$11,090,487 (\$10,812,528 as at June, 30 2016). This material uncertainty may cast a significant doubt regarding the Company's ability to continue as a going concern.

The Company's ability to continue as a going concern is dependent upon its ability to raise additional financing to further explore its mineral properties. Even if the Company has been successful in the past in doing so, there is no assurance that it will manage to obtain additional financing in the future.

The carrying amounts of assets, liabilities, revenues and expenses presented in the financial statements and the classification used in the statement of financial position have not been adjusted as would be required if the going concern assumption was not appropriate.

3. BASIS OF PREPARATION AND ADOPTIONS OF IFRS

The Company's condensed interim financial statements have been prepared based on International Financial Reporting Standards (IFRS) in accordance with IAS 34 standard, Interim Financial Reporting. The condensed interim financial statements are presented in Canadian currency which is also the functional currency of the Company. The functional currency has remained unchanged during the reporting period.

The condensed interim financial statements must be read in conjunction with the most recent annual financial statements and the accompanying notes as at September 30, 2016 and for the period then ended.

The condensed interim financial statements for the reporting period ended June, 30 2017 (including comparatives) were approved and authorized for issue by the Board of Directors on August 25, 2017.

Notes to Condensed Interim Financial Statements (unaudited, in Canadian dollars)

For the nine-month period ended June, 30 2017

4. SIGNIFICANT ACCOUNTING POLICIES

These unaudited condensed interim financial statements have been prepared using accounting policies consistent with International Financial Reporting Standards ("IFRS") and in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*. The unaudited condensed interim financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the annual financial statements for the year ended September 30, 2016, as they follow the same accounting policies and methods of application.

Share consolidation

On August 2, 2016, the Company completed a consolidation of its issued and outstanding common shares on a 20-to-1 basis ("Share Consolidation"). The Share Consolidation affected all shareholders, optionholders and warrantholders uniformly and thus did not materially affect any securityholder's percentage of ownership interest. All references in these interim financial statements to common shares, options and share purchase warrants have been retroactively adjusted to reflect the Share Consolidation.

5. EXPLORATION AND EVALUATION ASSETS

The carrying amount can be analyzed as follows:

	Balance			
	as at			Balance as at
	October 1st			June 30
	2016	Additions	Disposal	2017

All impairment charges (or reversals, if any) are included within Impairment of non-financial assets in profit or loss.

Meston Lake West Property

On May 19, 2016, the Company acquired the rights, titles and interests in 36 mining claims of the property located 50 km SSW of the town of Chibougamau. Notes to Condensed Interim Financial Statements (unaudited, in Canadian dollars)

For the nine-month period ended June, 30 2017

6. SHARE-BASED PAYMENTS

The Company has established a stock option plan pursuant to which options to purchase common shares may be granted to certain officers, directors and employees of the Company as well as persons providing services to the Company. Under this plan, options to purchase the common shares from time-to-time may be granted for a variable number whereby the number should never represent more than 10% of the issued and outstanding capital stock of the Company. Exercise price of options equals the market price of the Company's stock on the date of grant. Stock options are exercisable over a three year period: 33% after 12 months, 24 months and 36 months respectively from the date of grant for a maximum term of ten years. Among the options outstanding, none is subject to an escrow agreement.

All share-based payments will be settled in equity. The Company has no legal or constructive obligation to repurchase or settle the options.

An amount of \$3,139 (\$53,504 in 2016) and \$nil (\$13,514 in 2016) of the share-based payments was recorded respectively in earnings as share-based payments and investors' relation and credited to contributed surplus.
