Description of Business

Bethpage was incorporated pursuant to the Business Corporations Act of British Columbia on May 13, 2010. The Company is domiciled in Canada and its office is at Suite 918 – 1030 West Georgia Street, Vancouver, BC. Bethpage is an exploration stage company engaged in the evaluation and exploration of its interests in the Hall Lake Property, situated in the Fort Steele Mining Division, British Columbia. Pursuant to a prospectus filed with the British Columbia and Alberta Securities Commissions, the Company completed an Initial Public Offering ("IPO") on June 19, 2012 and its shares were listed for trading on the TSX Venture Exchange (the "Exchange"), as a Tier 2 issuer on June 21, 2012.

Performance Summary

The Company entered into an option agreement with Eagle Plains Resources Ltd. ("Eagle Plains") on September 16, 2011 to earn a 60% interest in the Hall Lake property situated in the Fort Steele Mining Division, British Columbia (the "Option Agreement"). The Option Agreement provided for the Company to earn its interest by incurring exploration expenditures of \$3,000,000 and making payments consisting of \$260,000 in cash and issuing 1,000,000 shares to the optionor over a period of 54 months after the Company's shares were listed on the Exchange. On June 3, 2013 the Company and Eagle Plains amended the terms of the Option Agreement. The amendment increased the total cash payment required to be made to Eagle Plains to \$600,000 but deferred payments, expenditures and share issuances to later dates, the next being December 31, 2014. The Hall Lake Property consists of three contiguous claim blocks covering 15,283 hectares.

During 2011, an exploration program was carried out on the Hall Lake Property, consisting of a 479.1 line km airborne geophysical survey. The survey was flown in conjunction with four other properties in the Purcell Basin. The survey was flown by GeoTech Limited, a geophysical contractor based in Aurora, Ontario. The airborne geophysical survey identified five anomalous features or targets.

Critical Accounting Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions about future events that affect amounts reported in the financial statements. Actual results could differ from these estimates. Details of the Company's significant accounting policies can be found in Note 2 of the interim financial statements for the period ended September 30, 2013.

Accounting standards issued by not yet effective

New standard IFRS 9 "Financial Instruments"

IFRS 9 replaces IAS 39, "Financial Instruments: Recognition and Measurement". IFRS 9 requires that all financial assets be classified and subsequently measured at amortized cost or at fair value based on the company's business model for managing financial assets and the contractual cash flow characteristics of the financial assets. Financial liabilities are classified and subsequently measured at amortized cost except for financial liabilities classified at fair value through profit or loss, financial guarantees and certain other exceptions. The new standard is effective for periods beginning on or after January 1, 2015.

The Company has not early adopted this revised standard and is currently assessing the impact that these standards will have on its consolidated financial statements. Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

Risk Factors

Exploration-stage mineral exploration companies face a variety of risks and, while unable to eliminate all of them, Bethpage aims at managing and reducing such risks as much as possible. Few exploration projects successfully achieve development stage, due to factors that cannot be predicted or anticipated, and even one such factor may result in the economic viability of a project being detrimentally impacted such that it is neither feasible nor practical to proceed. Bethpage closely monitors its activities and those factors that could impact them, and employs experienced consultants to assist in its risk management and to make timely adequate decisions.

Environmental laws and regulations could also impact the viability of a project. Bethpage has ensured that it has complied with these regulations, but there can be changes in legislation outside Bethpage's control that could also add a risk factor to a project.

Approval

The Board of Directors of the Company approved the disclosure contained in this MD&A on November 12, 2013.
