

## **Lobe Sciences Ltd. Announces 2024 AGM Voting Results**

Vancouver, British Columbia, July 29, 2024 -- Lobe Sciences Ltd. (CSE: LOBE) (OTCQB: LOBEF) ("Lobe" or the "Company"), a North American Biopharmaceutical Company committed to discovering and developing patient-focused medicines for Orphan and Rare diseases announced the voting results from its 2024 Annual General Meeting held on July 22, 2024.

At the AGM, a total of 87,263,323 common shares were voted, representing approximately 51% of the votes attached to all outstanding common shares as of the record date.

As a result of the voting, Fred Sancilio, Harry Jacobson and Wesley Ramjeet have been appointed to the board. Philip Young and Baxter Phillips, III, have both stepped down as directors, but will continue in their respective roles as officers of the Company.

Shareholders also approved the re-appointment of Davidson LLP, Chartered Professional Accountants as the Company's auditor.

### **About Lobe Sciences Ltd.**

Lobe Sciences is a biopharmaceutical company focused on developing transformative medicines to treat rare diseases. The Company, through collaborations with industry-leading partners, is additionally engaged in drug research and development using non-hallucinatory doses of stabilized psilocin based compounds to address unmet medical needs in orphan neurological therapeutic applications.

### ***Forward Looking Statements***

*This news release contains forward-looking statements relating to the future operations of the Company and other statements that are not historical facts. Forward-looking statements are often identified by terms such as "will", "may", "should", "anticipate", "expects" and similar expressions. All statements other than statements of historical fact included in this news release (including, without limitation, statements regarding the future plans and objectives of the Company, research and development using psychedelic compounds, and the development of innovative devices and delivery mechanisms to improve mental health and wellness) are forward-looking statements that involve risks and uncertainties. There can be no assurance that such statements will prove to be accurate, and actual results and future events could differ materially from those anticipated in such statements. Readers are cautioned that assumptions used in the preparation of the forward-looking statements may prove to be incorrect. Events or*

*circumstances may cause actual results to differ materially from those predicted, as a result of numerous known and unknown risks, uncertainties, and other factors, many of which are beyond the control of the Company, including changes to the regulatory environment; that the Company's drug research and development activities may be unsuccessful; that drugs and medical devices produced by, or on behalf of, the Company, may not work in the manner intended or at all, and may subject the Company to product liability or other liability claims; that the Company may not be able to attain the Company's corporate goals and objectives; and other risk factors detailed in the Company's continuous disclosure filings from time to time, as available under the Company's profile at [www.sedar.com](http://www.sedar.com). As a result, the Company cannot guarantee that any forward-looking statement will materialize and the reader is cautioned not to place undue reliance on any forward-looking information. Forward-looking statements contained in this news release are expressly qualified by this cautionary statement. The forward-looking statements contained in this news release are made only as of the date of this news release and the Company does not intend to update any of the included forward-looking statements except as expressly required by applicable Canadian securities laws.*

*Drug development involves long lead times, is very expensive and involves many variables of uncertainty. Anticipated timelines regarding drug development are based on reasonable assumptions informed by current knowledge and information available to the Company. Every patient treated on future studies can change those assumptions either positively (to indicate a faster timeline to new drug applications and other approvals) or negatively (to indicate a slower timeline to new drug applications and other approvals). This news release may contain certain forward-looking statements regarding anticipated or possible drug development timelines. Such statements are informed by, among other things, regulatory guidelines for developing a drug with safety studies, proof of concept studies, and pivotal studies for new drug application submission and approval, and assumes the success of implementation and results of such studies on timelines indicated as possible by such guidelines, other industry examples, and the Company's development efforts to date. In addition to the risk factors set out above and those detailed in the Company's continuous disclosure filings from time to time, as available under the Company's profile at [www.sedar.com](http://www.sedar.com), other factors not currently viewed as material could cause actual results to differ materially from those described in the forward-looking statements. Although Lobe has attempted to identify important risks and factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors and risks that cause actions, events or results not to be anticipated, estimated or intended. Accordingly, readers should not place any undue reliance on forward-looking statements.*
