Bee Vectoring Closes Second Tranche and Completes \$1,428,500 Private Placement

Mississauga, ON – April 21, 2017 – Bee Vectoring Technologies International Inc. (the “Company” or “BVT”) (TSXV: BEE) is pleased to announce the closing of the second tranche of its non-brokered private placement for aggregate gross proceeds of \$1,428,500 (the “Offering”). In connection with the second tranche closing, the Company issued 1,112,000 Units (the “Units”) at a price of \$0.25 per Unit (the “Second Tranche”).

As previously announced, each Unit consists of one common share and one-half of one common share purchase warrant. Each whole common share purchase warrant (“Warrant”) entitles the holder to purchase one additional common share at a price of C\$0.40 per common share until April 21, 2019, subject to the Company's right to accelerate the expiry date of the Warrants if the closing market price of the common shares of the Company on the TSX Venture Exchange is equal to or exceeds C\$0.65 for a period of 30 consecutive trading days commencing 4 months after the date the Warrants are issued. The Company will be entitled to accelerate the expiry of the Warrants upon notice given by press release (disseminated through a newswire service in Canada) and the Warrants will then expire on the fifteenth (15th) business day after the date of the press release unless exercised by the holder prior to such date.

BVT will apply the net proceeds of the Offering to support its commercialization plans for the US, continuation of selective market expansion projects including developing opportunities in additional crops and advancing registration activities in new countries, and for general working capital purposes.

The Company paid an aggregate of \$59,880 and issued 239,520 Finders Warrants in connection with the Offering. Each Finder's Warrant entitles the holder to acquire one common share of the Company at \$0.40 per share for 2 years from the issuance date of the Finder's Warrant, subject to the acceleration terms as mentioned above.

All securities issued under the Second Tranche are subject to a four-month hold period expiring on August 22, 2017, in addition to such other restrictions as may apply under applicable securities laws in jurisdictions outside of Canada.

Final closing of this Offering is subject to final acceptance by the TSX Venture Exchange.

The Company also announces that it has granted a total of 360,000 incentive stock options to a consultant of the Company, subject to TSX Venture Exchange acceptance. Each option is exercisable to purchase one common share of the Company for five years at a price of C\$0.25 per common share in accordance with the terms of the Company's stock option plan.

About [Bee Vectoring Technologies International Inc.](#)

BVT has developed and owns patent-pending bee vectoring technology that is designed to harmlessly utilize bumblebees and honeybees as natural delivery mechanisms for a variety of powdered mixtures comprised of organic compounds that inhibit or eliminate common crop diseases, while at the same time stimulating and enhancing the same crops. This unique and proprietary process enables a targeted delivery of crop controls using the simple process of bee pollination to replace traditional crop spraying, resulting in better yields, superior quality and less impact on the environment without the use of water or disruptions to labour.
