

# Bee Vectoring Technologies Announces Acceleration of Warrant Expiry Date

Mississauga, Ontario and Sacramento, California--(Newsfile Corp. - February 24, 2020) - **Bee Vectoring Technologies International Inc.** (TSXV: BEE) (OTCQB: BEVVF) (the "**Company**" or "**BVT**") announced today that market conditions have triggered the acceleration of the expiry of the following common share purchase warrants of the Company (the "**Warrants**"):

- 1,251,000 unexercised Warrants issued on September 19, 2017, that were subsequently extended on August 14, 2019 to expire on September 19, 2020, with an exercise price of \$0.35 per common share.

Under the terms of the Warrants, if for any 20 consecutive trading days, the closing price of the Company's common shares on the TSX Venture Exchange closes at or exceeds \$0.50, then the term of the Warrants will expire on the fifteenth (15<sup>th</sup>) business date after the date of notice to Warrant holders by way of a news release. Accordingly, the expiry date for the Warrants is accelerated to March 16, 2020. From and after 5:00 p.m. (Vancouver time) on March 16, 2020, all unexercised Warrants will be void and of no effect. Warrant holders who wish to exercise their Warrants should ensure that they allow sufficient time for delivery of their Warrants and the related exercise price funds for the Warrants, including consulting with and instructing their investment advisors if they hold their Warrants through an investment advisor.

If all outstanding warrants are exercised gross proceeds to the Company will total \$437,850. The proceeds from the exercise of Warrants will primarily be used for general corporate and working capital purposes.

## About [Bee Vectoring Technologies International Inc.](#)

BVT, an agriculture technology company, is a market disruptor with a significant global market opportunity in the \$240 billion crop protection and fertilizer market. BVT has pioneered a natural precision agriculture system that replaces chemical pesticides and wasteful plant protection product spray applications by delivering biological pesticide alternatives to crops using commercially grown bees. BVT's award-winning technology, precision vectoring, is completely harmless to bees and allows minute amounts of naturally-derived pesticides (called biologicals) to be delivered directly to blooms, providing improved crop protection and yield results than traditional chemical pesticides - and improving the health of the soil, the microbiome and the environment. Currently, BVT has over 65 granted patents, over 35 patents pending in all major agricultural countries worldwide, and has US EPA registration of its VECTORITE™ with CR-7 (EPA Registration No. 90641-2) for sale as a registered biological fungicide for use on the labeled crops.
