GEONOVUS COMPLETES SUCCESSFUL DRILLING PROGRAM AT SILVER BELL WEST PORPHYRY COPPER PROJECT, ARIZONA

February 19th, 2013, VANCOUVER, B.C. – **GEONOVUS MINERALS CORP. (TSX-V: GNM)** (“GeoNovus” or the “Company”) is pleased to provide a drilling update at the Company’s Silver Bell West porphyry copper property in south central Arizona. Two core holes were drilled for a total of 696.47 meters (2,285 ft.). The first hole, located just south of the haul road and oriented at an azimuth of N42.5E at an inclination of 60 degrees, encountered hydrothermally altered granite with a visually-estimated average of 2.1% by volume total sulphide starting at 122 meters (400 ft.) and extending over 100 meters (330 ft). The second hole was drilled vertically from the same site and encountered similar alteration but less intense mineralization with 1.2% by volume total sulphides from surface to 54.86 meters depth (580 ft.), also by visual estimates. Core from the first hole has been logged, and samples have been shipped out for assay.

The Silver Bell West claims cover portions of the Silver Bell Mine haul road owned by ASARCO. Silver Bell Mine began operations in 1954 and produced 46.3 million pounds of high-purity copper cathodes in 2010 (*ASARCO mining giant notching 100 years of operation in AZ*; *Arizona Daily Star*, March 4, 2012).

The Silver Bell West property is under lease from Bronco Creek Exploration (*see Geo Minerals News Release August 27, 2009*), a wholly-owned subsidiary of Eurasian Minerals Inc. (NYSE MKT: EMXX; TSX-V: EMX).

The technical contents of this release were approved by Dr. Tom E. McCandless, P. Geo., Technical Advisor to GeoNovus Minerals and qualified person as defined by National Instrument 43-101.

GeoNovus Minerals Corporation (TSX-V: GNM) is a junior exploration company actively seeking mineral opportunities for the benefit of all our stakeholders, with three active porphyry copper exploration projects in Arizona.

Eurasian Minerals Inc. (NYSE MKT: EMXX; TSX-V: EMX) is a global gold and copper exploration company utilizing a partnership business model to explore the world's most promising and underexplored mineral belts. EMX generates wealth via grassroots prospect generation, strategic acquisition, and royalty growth.

ON BEHALF OF THE BOARD

Signed “Michael England”

Michael England, President
