

# Plymouth Rock Technologies Inc. Announces Listing on Frankfurt Exchange

Vancouver, British Columbia--(Newsfile Corp. - January 8, 2019) - **Plymouth Rock Technologies Inc. (CSE: PRT)** ("**Plymouth**" or the "**Company**") is pleased to announce that its common shares are now trading on the Frankfurt Stock Exchange in Germany under the Symbol: **4XA**, **WKN# - A2N8RH**. Plymouth Rock Technologies Inc. will continue to trade on the CSE under its existing symbol "PRT".

Trading on the Frankfurt market is an important milestone for Plymouth Rock. This allows for greater visibility and introduces the company to a global audience. Not only will this improve liquidity for shareholders, it will also bring Director, President and CEO Dana Wheeler's vision to bear.

Mr. Wheeler said:

"Our journey started April 15th, 2013 - the day of the Boston Marathon Attacks. Our team made a commitment to use our experience and expertise to deliver technologies that would detect threats and bad actors before their intentions became a tragic event. I know that these technologies can be deployed for simple-to-use, yet highly effective detection of threats. No doubt, stand-off detection of IED emplacements can lead to thousands of avoidable military and civilian casualties. The Plymouth Rock team is seriously focused on a near future where these horrific tools of terrorism no longer threaten our peacekeepers, law enforcement officers and the citizens they are pledged to protect. Our company takes great pride and conviction in what we are doing. We are moving aggressively to bring these technologies to the final product stage, so they can be quickly deployed wherever need requires."

## **Plymouth Rock Technologies Inc.**

Plymouth Rock Technologies Inc. is focused on developing technologies related to remotely detecting assault firearms and suicide bombs concealed on the person or a carry bag. Plymouth Rock focuses on detection methods without the need for a checkpoint or the compliance of the suspect who is being screened. Plymouth Rock's planned technologies encompass the very latest radar technologies for quickly detecting, locating and identifying the presence of threats.

Plymouth Rock's core technologies include: (1) Wi-Fi radar techniques for threat detection screening in Wi-Fi enabled zones in buildings and places, such as airports, shopping malls, schools and sports venues ("**Wi-Ti**"); (2) A Millimeter Remote Imaging from Airborne Drone ("**MIRIAD**"); and (3) A compact microwave radar system for scanning shoe's ("**Shoe-Scanner**").

## **Forward Looking Statements**

Certain information set forth in this news release may contain forward-looking statements that involve substantial known and unknown risks and uncertainties. All statements other than statements of historical fact are forward-looking statements, including, without limitation, statements regarding future financial position, business strategy, use of proceeds, corporate vision, proposed acquisitions, partnerships, joint-ventures and strategic alliances and co-operations, budgets, cost and plans and objectives of or involving the Company. Such forward-looking information reflects management's current beliefs and is based on information currently available to management. Often, but not always,

forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "predicts", "intends", "targets", "aims", "anticipates" or "believes" or variations (including negative variations) of such words and phrases or may be identified by statements to the effect that certain actions "may", "could", "should", "would", "might" or "will" be taken, occur or be achieved. A number of known and unknown risks, uncertainties and other factors may cause the actual results or performance to materially differ from any future results or performance expressed or implied by the forward-looking information. These forward-looking statements are subject to numerous risks and uncertainties, certain of which are beyond the control of the Company including, but not limited to, the impact of general economic conditions, industry conditions and dependence upon regulatory approvals. Readers are cautioned that the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, undue reliance should not be placed on forward-looking statements. The Company does not assume any obligation to update or revise its forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by securities laws.
