

**PLYMOUTH ROCK TECHNOLOGIES INC.
(FORMERLY ALEXANDRA CAPITAL CORP.)
FORM 51-102F1
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

For the Six Months Ended May 31, 2019

The following information, prepared as of July 26, 2019, should be read in conjunction with the unaudited interim condensed consolidated financial statements of Plymouth Rock Technologies Inc. (“the Company” or “Plymouth Rock”) for the six months ended May 31, 2019 as well as the audited consolidated financial statements of Plymouth Rock Technologies Inc. (“the Company” or “Plymouth Rock”) for the year ended November 30, 2018; including the notes thereto. The financial statements and financial data contained in this discussion and analysis are presented in accordance with International Financial Reporting Standards (“IFRS”). The reporting currency is the Canadian dollar.

The following discussion and analysis provide information that management believes is relevant to the assessment and understanding of the Company’s results of operations and financial conditions. Certain statements herein contain forward-looking statements relating to the operations or to the environment in which we operate, which are based on our operations, forecasts, and projections. Forward-looking statements are not guaranteed of future performance. They involve risks, uncertainties and assumptions; and actual results may differ materially from those anticipated in these forward-looking statements. The risks include those outlined under the “Risk Factors” section of this MD&A and elsewhere in the Company’s public disclosure documents.

BUSINESS OVERVIEW

The Company was incorporated under the *Business Corporations Act* of British Columbia on October 17, 2011. The head office, principal address and registered and records office of the Company are located at 300 – 2015 Burrard Street, Vancouver, B.C., V6J 3H4.

On August 13, 2014, the Company commenced trading on the TSX Venture Exchange as a Tier 2 Mining Issuer.

On March 7, 2016, the Company announced that it received final approval to list its common shares on the Canadian Securities Exchange (the “CSE”) and voluntarily delisted its common shares from the TSXV. The Company’s common shares commenced trading on the CSE at market open on March 10, 2016 and were delisted from the TSXV effective March 9, 2016. The Company’s common shares were traded under symbol “AXC” on the CSE.

On October 31, 2018, the Company completed its business acquisition of Plymouth Rock Technologies Inc. and changed its name from Alexandra Capital Corp. to Plymouth Rock Technologies Inc. with new trading symbol “PRT” on November 1, 2018 (See “Business Acquisition” section of this report).

On January 8, 2019, the Company’s common shares commenced trading on the Frankfurt Stock Exchange in Germany under the Symbol: 4XA, WKN# - A2N8RH.

On February 12, 2019, the Company’s common shares are now eligible for electronic clearing and settlement through the Depository Trust Company (“DTC”) in the United States (“US”). DTC is a subsidiary of the Depository Trust & Clearing Corporation, a U.S. company that manages the electronic clearing and settlement of publicly traded companies. DTC eligibility is expected to simplify the process of trading and enhance liquidity of the Company's common shares.

On March 12, 2019, the Company announced that Manchester Metropolitan University assigned the Millimeter Wave, Shoe Scanning technology IP to the Company for the consideration of \$30,000. The Millimeter Wave Shoe Scanner is a floor-mounted 3D imaging system that uses harmless millimeter wave imaging techniques to inspect footwear. The scanner is then able to identify if the footwear has been altered or is being used to transport concealed items, such as weaponry, substances, compounds, or electronic items.

On April 9, 2019, the Company announced it has been accepted as a member of the USA National Safe Skies Alliance, Inc, which is a non-profit organization that works with airports, government, and industry to maintain a safe and effective aviation security system.

On April 25, 2019, the Company announced it has been accepted as a member of the Canadian Association of Defence and Security Industries, which is dedicated to scientific, engineering, industrial, and management preparedness for the common defence of Canada.

Letter of Intent

On December 1, 2017, the Company entered into a non-binding letter of intent (“LOI”), which superseded and replaced the previous letter of intent announced on November 10, 2017, with WMC ApS (“WMC”), a private Danish company based in Copenhagen which brokers and develops payment processes in crypto currency transactions. On April 10, 2018, the Company announced that it cancelled the proposed acquisition of WMC.

Business Acquisition

On April 10, 2018, the Company entered into a non-binding letter of intent (“LOI”) with Plymouth Rock Technologies Inc. (“Plymouth Rock USA”), followed by a definitive agreement on June 21, 2018. Plymouth Rock USA is a private Delaware corporation that is developing systems using Wi-Fi radar techniques for threat detection screening in Wi-Fi enabled zones in buildings and places, like airports, shopping malls, schools and sports venues. Plymouth Rock USA is also developing a millimeter wave imaging system, which can be drone mounted to detect weapons, such as guns, suicide vests, and explosives in mass gatherings and has both military and civilian applications. PRT is also working on other threat detection systems and technologies that can be integrated into existing screening environments.

On October 31, 2018, pursuant to the definitive agreement with Plymouth Rock USA, the Company received shareholder approval to change the name of the Company and symbol with the acquisition of Plymouth Rock USA. For the acquisition, the Company issued 3,000,000 common shares of the Company to the four shareholders of Plymouth Rock USA. The Company also issued 231,250 common shares of the Company as a finder’s fee. The Company changed its name from Alexandra Capital Corp. to Plymouth Rock Technologies Inc. with the new trading symbol “PRT” on November 1, 2018.

With the acquisition, the Company’s principal business activity through its subsidiary, Plymouth Rock USA, is to focus on developing technologies related to remotely detecting assault firearms and suicide bombs concealed on the person or a carry bag. The Company focuses on detection methods without the need for a checkpoint or the compliance of the suspect who is being screened. The Company’s planned technologies encompass the very latest radar and imaging technologies for quickly detecting, locating and identifying the presence of threats.

DEVELOPED TECHNOLOGIES

The Company's core technologies include: (1) A Millimeter Remote Imaging system from Airborne Drone ("MiRIAD"); (2) A compact microwave radar system for scanning shoe's ("Shoe-Scanner"); and (3) Wi-Fi radar techniques for threat detection screening in Wi-Fi enabled zones in buildings and places, such as airports, shopping malls, schools and sports venues ("Wi-Ti").

MiRIAD (Millimeter Remote Imaging from Airbone Drone) Updates

On April 3, 2019, the Company announced that its MiRIAD system has passed internal payload flight testing demonstrations in the Morongo and Coachella Valley, California, USA. The test allowed the Company to assess the stability and maneuverability of a UAS (Unmanned Aircraft System) with a MiRIAD system attached. With the successful payload test and lightweight antenna design, the Company's management and scientific advisor are confident that Plymouth Rock would be the first company to realize millimeter-wave imaging from commercial drones.

In the near future, the Company will field multispectral imaging capabilities aboard small drones by combining visible, IR (infrared) and millimeter-wave imaging sensors on a single aerial vehicle. Increasing threat of terrorist activities, rising territorial conflicts, and geopolitical instabilities have led to the rise in the demand for threat detection systems. Also, increasing need for large-scale surveillance systems at public and commercial places is driving the demand for threat detection equipment.

The threat detection systems market is led by the public infrastructure that is further segmented into airports, railway stations, sports stadiums, shopping malls, pilgrimages, and others. The high demand for threat detection devices from airports and shopping malls, especially for explosive detectors, video surveillance systems, and biometric systems, is one of the major factors driving the growth of the threat detection systems market for the public infrastructure application.

Millimeter Wave, Shoe Scanning Technology

On March 12, 2019, the Company announced that Manchester Metropolitan University assigned the Millimeter Wave, Shoe Scanning technology IP to the Company for the consideration of \$30,000. The Millimeter Wave Shoe Scanner is a floor-mounted 3D imaging system that uses harmless millimeter wave imaging techniques to inspect footwear. The scanner is then able to identify if the footwear has been altered or is being used to transport concealed items, such as weaponry, substances, compounds, or electronic items.

The Millimeter Wave Shoe Scanner allows for the rapid screening of footwear without necessitating removal of shoes. With a screening time of 30 PPM (Persons/Minute) the Shoe Scanner is ideal for airport terminals, prison/correctional facilities, public events and other high throughput, screening applications. This safe, proven technology is already sanctioned by US FDA, Health Canada and EU Airport legislation.

Wi-Ti Updates

On February 19, 2019, the Company signed a memorandum of understanding ("MOU") with Abicom International Ltd. ("Abicom International"), a Qualcomm authorized design partner, to assist in the continued development of the Plymouth Rock Wi-Ti (Wireless Threat Indication) system and prototype. Wi-Ti is a passive detection system that uses artificial-intelligence ("AI") to analyze the radio waves within an area. The system uses radar-based algorithms to filter common items such as cell phones and general pocket items from concealed threats items such as assault weaponry and improvised explosive devices ("IED'S").

The past three years have seen significant advances in the monitoring of Wi-Fi radio wave analysis. This includes Wi-Fi used to track and trace the movements of people in real time through walls. Similar techniques have used Wi-Fi radio waves to detect subtle changes in breathing and heart rates. The Plymouth Rock Wi-Ti technology advances that analysis to concealed threat detection. Unlike other emerging screening technologies Wi-Ti can be used in airport concourse areas, stadiums and open spaces at stand-off distances. Our unique radar imaging and signal processing technology allows for none intrusive screening of crowds in real time. Further, with Wi-Ti, there are no radio emissions, so this method of detection can be freely used in any Wi-Fi enabled environment without special license or regulatory approval.

Abicom International has worked with many prominent security and technology companies, including Bosch Security, Siemens Transportation, QinetiQ, Harris Systems and Northern Light Technologies. “Abicom International’s status as a Qualcomm design center is an assurance of excellence that is granted to less than eleven companies globally”. The partnership between Plymouth Rock and Abicom International is about the drive to continuously expand the realm of possibilities for Wi-Fi based technologies.

INTEREST IN MINERAL PROPERTIES

On February 17, 2014, and further amended on May 2, 2014, the Company entered into an Option Agreement, with Eastland Management Ltd. whereby the Company acquired an option to earn an undivided 100% interest in and to the eight (8) mineral claims comprising the Southern Bell ("SB") Property, located approximately 25 kilometers west of Merritt, British Columbia totaling 3,517 hectares. The Option Agreement was amended on May 2, 2014 to substitute Eastland Management Ltd. for Qualitas Holdings Corp. as the optionor of the claims.

On August 26, 2015, the Company and Eastland Management amended the Option Agreement so that on the first anniversary of Exchange approval (August 11, 2015) the Company must arrange for payment of \$10,000 to Eastland Management in lieu of the original obligation to issue 200,000 common shares. All other aspects of the Option Agreement remain unchanged.

In order to maintain the Option in good standing and earn a 100% interest in the SB Property, the Company was required to incur exploration expenditures totaling \$100,000 on or before August 11, 2015 (completed). The Company was also required to make cash payments to the vendors of the Option of \$10,000 upon receipt of the Technical Report (paid), \$15,000 at the time of Exchange approval (paid) and \$10,000 on the first anniversary of Exchange approval (paid). Additionally, the Company had to issue 500,000 shares (200,000 upon Exchange approval (issued) and 300,000 on or before the second anniversary (issued).

During the year ended November 30, 2018, the Company sold its entire interest in the SB Property for a cash payment of \$15,000, incurring a loss on the disposition of exploration and evaluation assets of \$156,012. With the business acquisition and the sale of the mineral interest of the SB Property, the Company no longer pursues the exploration and development of mineral properties.

RESULTS OF OPERATIONS

Six Months ended May 31, 2019 and 2018

During the six months ended May 31, 2019, the Company had a comprehensive loss of \$1,020,736 compared to a comprehensive loss of \$344,063 for the six months ended May 31, 2018.

During the six months ended May 31, 2019 and 2018, the Company’s expenses by category consisted of:

- Accounting fees of \$30,469 (2018 - \$21,124),

- Amortization of \$859 (2018 - \$Nil)
- Business development of \$359,208 (2018 - \$7,346),
- Consulting fees of \$127,688 (2018 - \$118,850),
- General office expenses of \$26,200 (2018 - \$14,069),
- Insurance fees of \$2,373 (2018 - \$Nil),
- Legal fees of \$35,263 (2018 - \$91,677),
- Management fees of \$62,661 (2018 - \$34,212),
- Rent of \$38,354 (2018 - \$15,000),
- Transfer agent and filing fees of \$58,710 (2018 - \$37,351), and
- Wages, salaries and benefits of \$284,856 (2018 - \$Nil).

The increase in net loss in the six months ended May 31, 2019 compared with the six months ended May 31, 2018 was primarily due to significant increases in business development, consulting fees, accounting fees, and wages, salaries, and benefits due to the increase in operating activities associated with the administration, development and promotion of the Company's technology. General office expenses and management increased as a result of increased activities associated with the due diligence and administration costs pursuant to new agreements and current administration of the Companies' projects. Rent expenses also increased for the Company's occupancy in Canada and the US.

Interest income earned for the six months ended May 31, 2019 was \$10,041 compared to \$1,866 during the six months ended May 31, 2018. The increase in interest income was primarily due to the increase of funds in the Company's bank accounts.

Interest expense incurred for the six months ended May 31, 2019 was \$396 (2018 - \$Nil) due to the loan received in September 2018.

Foreign exchange loss incurred for the six months ended May 31, 2019 was \$3,740 (2018 - \$6,300) as a result of the foreign exchange translation of transactions incurred in the foreign subsidiary, Plymouth Rock USA.

SUMMARY OF QUARTERLY RESULTS

The following table sets out selected financial data in respect of the last eight quarters of the Company. The data is derived from the financial statements of the Company prepared in accordance with International Financial Reporting Standards ("IFRS").

	Qtr 2 May 31, 2019 \$	Qtr 1 February 28, 2019 \$	Qtr 4 November 30, 2018 \$	Qtr 3 August 31, 2018 \$	Qtr 2 May 31, 2018 \$	Qtr 1 February 28, 2018 \$	Qtr 4 November 30, 2017 \$	Qtr 3 August 31, 2017 \$
Total Revenue (interest income)	10,041	6,153	5,966	798	1,226	640	242	41
Net loss	(626,323)	(394,413)	(557,166)	(85,672)	(186,002)	(158,060)	(78,434)	(8,532)
Basic and diluted loss per common share	(0.02)	(0.01)	(0.02)	(0.01)	(0.01)	(0.01)	(0.00)	(0.00)

The increase net loss in the quarter ended November 30, 2017 compared with the quarter ended August 31, 2017 was primary due to significant increase in accounting fees of \$15,010 and legal fees of \$33,472 incurred in the

quarter ended November 30, 2017 and significant increase in consulting fees and legal fees associated with the LOI with WMC.

The increase net loss in the quarter ended February 28, 2018 compared with the quarter ended November 30, 2017 was primarily due to significant increase in consulting fees, legal fees, accounting fees, and transfer agent and filing fees associated with the LOI with WMC and the non-brokered private placement announced on December 27, 2017.

The significant increase in net loss in the quarter ended May 31, 2018 compared with the quarter ended February 28, 2018 was primarily due to significant increase in consulting fees, legal fees and accounting fees and transfer agent and filing fees associated with the LOI with WMC and PRT and the non-brokered private placement closed on May 18, 2018.

The decreased net loss in the quarter ended August 31, 2018 compared with the quarter ended May 31, 2018 was primarily due to decrease in consulting fees, legal fees, accounting fees, and transfer agent and filing fees, as the Company has substantially completed the LOI with PRT and the non-brokered private placement was closed on May 18, 2018.

The increased net loss in the quarter ended November 30, 2018 compared with the quarter ended August 31, 2018 was primarily due to increase in consulting expense, legal fees, management and salaries, transfer agent and regulatory fees, and acquisition costs for completing the transaction of the Plymouth Rock USA acquisition. The expenditures also increased due to the costs incurred associated with the development of the Company's technologies.

The decreased net loss in the quarter ended February 28, 2019 compared with the quarter ended November 30, 2018 was primarily due to loss on disposition of exploration and evaluation, the acquisition costs for completing the transaction of the Plymouth Rock USA acquisition and the high legal and accounting fees associated with the acquisition and year-end filing incurred in the three months ended November 30, 2018. Other costs increased in the quarter ended February 28, 2019 associated with the development and promotion of the Company's technology.

The increased net loss in the quarter ended May 31, 2019 compared with the quarter ended February 28, 2019 was primarily due to significant increase in business development and consulting fees for the Company's technology promotion and development, and higher legal and accounting fees associated with the year-end compliance incurred in the quarter ended May 31, 2019.

LIQUIDITY AND CAPITAL RESOURCES

The Company's approach to managing its liquidity is to ensure that it has sufficient resources to meet its liabilities as they come due and have sufficient working capital to fund operations for the ensuing fiscal year. Financing of operations has been achieved solely by equity financing. The Company anticipates that it will require significant funds from either equity or debt financing for the development of its technologies and to support general administrative expenses.

At May 31, 2019, the Company had \$1,767,631 in current assets (November 30, 2018 - \$2,811,971) and \$111,228 in current liabilities (November 30, 2018 - \$166,941) for a working capital position of \$1,652,070 compared to a working capital position of \$2,645,030 as at November 30, 2018.

Current assets at May 31, 2019 were represented by cash of \$1,614,006 (November 30, 2018 - \$2,743,694), prepaid expenses of \$134,269 (November 30, 2018 - \$49,891), due from related parties of \$5,615 (November 30, 2018 - \$7,400), and sales tax receivable of \$13,741 (November 30, 2018 - \$10,986). Current liabilities were comprised of

\$111,228 in accounts payable and accrued liabilities (November 30, 2018- \$112,757), loan payable of \$Nil (November 30, 2018 - \$51,184), and due to related parties of \$4,333 (November 30, 2018 - \$3,000).

At May 31, 2019, the Company had a share capital balance of \$5,565,908 (November 30, 2018 - \$5,311,034) and an accumulated deficit of \$2,622,821 (November 30, 2018 - \$1,602,085).

Financing of operations has been achieved solely by equity financing. As the Company will not generate funds from operations for the foreseeable future, the Company is primarily reliant upon the sale of equity securities in order to fund future operations. Since inception, the Company has funded limited operations through the issuance of equity securities on a private placement basis. The Company's ability to raise funds through the issuance of equity will depend on economic, market and commodity prices at the time of financing. The Company expects to generate similar losses quarter over quarter for the next fiscal year in relation to the Company's development, administration and promotion of its technologies. Management anticipates that the funds raised to date will be sufficient to sustain operations and the development of the Companies technologies for the current fiscal year.

Detailed discussions related to the Company's cash flows during the six months ended May 31, 2019

Cash balances decreased by \$1,129,688 during the six months ended May 31, 2019 (May 31, 2018 – increased by \$2,860,850).

During the six months ended May 31, 2019, cash used in operating activities was \$1,100,848 compared to cash used in operating activities of \$288,571 during the six months ended May 31, 2018. The increase in cash used in operating activities is primarily attributed to higher expenditures on wages, salary and benefits, business development and the consulting fees in the six months ended May 31, 2019.

Cash used in investing activities during the six months ended May 31, 2019 was \$104,880 (2018 - \$Nil). The cash used in investing activities was primarily attributed to the acquisition of equipment and development expenses on the Company's technology during the six months ended May 31, 2019.

Cash provided by financing activities during the six months ended May 31, 2019 was \$76,040 compared to cash provided by financing activities of \$3,149,421 during the six months ended May 31, 2018. The cash used in financing activities was due to the loan repayments of \$51,580, and the cash provided by financing activities was due to the warrants exercised of \$127,620 during the six months ended May 31, 2019. The cash provided by financing activities in the six months ended May 31, 2018 was a result of the net proceeds from issuance of common shares of the Company from the private placement announced during the 4th quarter ended November 30, 2017.

Detailed discussions related to the Company's cash flows during the year ended November 30, 2018

Cash balances increased by \$2,647,542 during the year ended November 30, 2018 (November 30, 2017 – \$85,876).

During the year ended November 30, 2018, cash used in operating activities was \$663,765 compared to cash used in operating activities of \$126,124 during the year ended November 30, 2017. The increase in cash used in operating activities is primarily attributed to increased expenditures on consulting fees, professional fees and transfer agent and filing fees associated with the letter of intent with WMC, the business acquisition of Plymouth Rock USA, the development costs of technologies, and the non-brokered private placement closed on May 18, 2018.

Cash provided by investing activities during the year ended November 30, 2018 was \$62,467 (2017 - \$90,000). The change in cash provided in 2018 was due to the proceeds of the disposition of the SB property and

acquisition of business.

Cash provided by financing activities during the year ended November 30, 2018 was \$3,248,840 compared to cash provided by financing activities of \$122,000 during the year ended November 30, 2017. The cash provided by financing activities was a result of the net proceeds from issuance of common shares of the Company from the private placement announced during the 4th quarter ended November 30, 2017, and options and warrants exercised during the year ended November 30, 2018. The Company also received \$50,000 loan bearing annual interest rate of 12%.

OFF-BALANCE SHEET ARRANGEMENTS

To the best of Management's knowledge, there are no off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on the results of operations or financial condition of the Company.

CONTRACTUAL COMMITMENTS

In November 2018, Plymouth Rock USA entered into a two-year lease agreement for leased premises in Plymouth, Massachusetts, commencing December 1, 2018 and ending on November 30, 2020. The minimum monthly base rent is US\$2,917 for the period from December 1, 2018 to November 30, 2019 and US\$3,005 from December 1, 2019 to November 30, 2020.

On April 1, 2019, the Company entered into a one-year lease agreement for leased premises in Vancouver, BC, commencing on April 1, 2019 and ending on March 31, 2020. The minimum monthly base rent is \$2,500.

As at May 31, 2019, \$5,615 (2018 - \$5,613) prepayment was made to the corporate secretary of the Company for consulting services.

As at May 31, 2019, \$Nil (2018- \$1,787) prepayment was made to the CEO of the Company.

As at May 31, 2019, no amount is due from any other of the Company's directors, officers and related entities to the Company's directors and officers.

SIGNIFICANT ACCOUNTING POLICIES AND CRITICAL ACCOUNTING ESTIMATES

All significant accounting policies and critical accounting estimates are fully disclosed in Note 2 of the audited consolidated financial statements for the year ended November 30, 2018 and the interim condensed consolidated financial statements for the six months ended May 31, 2019 that are available on SEDAR at www.sedar.com.

FINANCIAL RISK MANAGEMENT

The Company's financial assets consist of cash and short-term investments. The estimated fair values of cash and short-term investments approximate their respective carrying values due to the short period to maturity.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- a. Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities;
- b. Level 2 – inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- c. Level 3 – inputs that are not based on observable market data.

For the six months ended May 31, 2019 and November 30, 2018, all the Company's cash is classified as Level 1.

The Company is exposed to a variety of financial instrument related risks. The Board approves and monitors the risk management processes, inclusive of counterparty limits, controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations when they become due. The Company ensures, as far as reasonably possible, it will have sufficient capital in order to meet short-term business requirements, after taking into account cash flows from operations and the Company's holdings of cash. The Company believes that these sources will be sufficient to cover the likely short-term cash requirements. The Company's cash is currently invested in business accounts which is available on demand by the Company for its operations.

Interest Rate Risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company is exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates. The Company has no significant interest rate risk. As of May 31, 2019, the Company had cash balance of \$1,614,006 (November 30, 2018: 2,743,694).

Credit Risk

Credit risk is the risk of a loss in a counterparty to a financial instrument when it fails to meet its contractual obligations. The Company's exposure to credit risk is limited to its cash. The Company limits its exposure to credit risk by holding its cash in deposits with high credit quality Canadian financial institutions.

RISKS RELATED TO OUR BUSINESS

The Company believes that the following risks and uncertainties may materially affect its success.

Limited Operating History

The Company has no history of business operations, revenue generation or production history. The Company was incorporated on October 17, 2011 and has yet to generate a profit from its activities. The Company is subject to all of the business risks and uncertainties associated with any new business enterprise, including the risk that it will not achieve its growth objective. The Company anticipates that it may take several years to achieve positive cash flow from operations.

Substantial Capital Requirements and Liquidity

Substantial additional funds for the establishment of the Company's current and planned operations will be required. No assurances can be given that the Company will be able to raise the additional funding that may be required for such activities, should such funding not be fully generated from operations. Revenues, taxes, transportation costs, capital expenditures, operating expenses and development costs are all factors which will have an impact on the amount of additional capital that may be required. To meet such funding requirements, the Company may be required to undertake additional equity financing, which would be dilutive to shareholders. Debt financing, if available, may also involve restrictions on financing and operating activities. There is no assurance that additional financing will be available on terms acceptable to the Company or at all. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations or anticipated expansion, and pursue only those development plans that can be funded through cash flows generated from its existing operations.

Regulatory Requirements

The current or future operations of the Company require permits from various governmental authorities, and such operations are and will be governed by laws and regulations governing development, production, taxes, labour standards, occupational health, waste disposal, toxic substances, land use, environmental protection, site safety and other matters. There can be no assurance that all permits which the Company may require for the facilities and conduct of operations will be obtainable on reasonable terms or that such laws and regulation would not have an adverse effect on any development project which the Company might undertake.

Failure to comply with applicable laws, regulations and permitting requirements may result in enforcement actions, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment or remedial actions. Parties engaged in operations may be required to compensate those suffering losses or damages, and may have civil or criminal fines or penalties imposed upon them for violation of applicable laws or regulations. Amendments to current laws, regulation and permits governing operations and activities of companies, or more stringent implementation thereof, could have a material adverse impact on the Company and cause increases in capital expenditures or development costs or require abandonment or delays in the development of new projects.

Financing Risks and Dilution to Shareholders

The Company will have limited financial resources, no operations and no revenues. There can be no assurance that the Company will be able to obtain adequate financing in the future or that such financing will be available on favourable terms or at all. It is likely such additional capital will be raised through the issuance of additional equity, which will result in dilution to the Company's shareholders.

Competition

There is competition within the security screening and threat detection market. The Company will compete with other companies, many of which have greater financial, technical and other resources than the Company, as well as for the recruitment and retention of qualified employees and other personnel.

Intellectual Property

The Company has developed security screening technologies that are adequate to counter various threats. The Company may be unable to prevent competitors from independently developing or selling products similar to or duplicate of the Company, and there can be no assurance that the resources invested by the Company to protect the Intellectual Property will be sufficient. The Company may be unable to secure or retain ownership or rights. In addition, the Company may be the target of aggressive and opportunistic enforcement of patents by third parties, including non-practicing entities. Regardless of the merit of such claims, responding to infringement claims can be expensive and time-consuming. If the Company is found to infringe any third-party rights, it could be required to pay substantial damages, or it could be enjoined from offering some of products and services. Also, there can be no assurances that the Company will be able to obtain or renew from third parties the licenses it needs in the future, and there is no assurance that such licenses can be obtained on reasonable terms.

Reliance on Management and Dependence on Key Personnel

The success of the Company will be largely dependent upon on the performance of the directors and officers and the ability to attract and retain key personnel. The loss of the services of these persons may have a material adverse effect on the Company's business and prospects. The Company will compete with numerous other companies for the recruitment and retention of qualified employees and contractors. There is no assurance that the Company can maintain the service of its directors and officers, or other qualified personnel required to operate its business. Failure to do so could have a material adverse effect on the Company and its prospects.

Governmental Regulations and Processing Licenses and Permits

The activities of the Company are subject to various government approvals, various laws governing prospecting, development, land resumptions, production taxes, labour standards and occupational health, toxic substances and other matters. Although the Company believes that its activities are currently carried out in accordance with all applicable rules and regulations, no assurance can be given that new rules and regulations will not be enacted or that existing rules and regulations will not be applied in a manner, which could limit or curtail production or development. Amendments to current laws and regulations governing operations and activities, or more stringent implementation thereof, could have a material adverse impact on the business, operations and financial performance of the Company. Further, the licenses and permits issued in respect of its projects may be subject to conditions that, if not satisfied, may lead to the revocation of such licenses.

Conflicts of Interest

Certain of the directors and officers of the Company will be engaged in, and will continue to engage in, other business activities on their own behalf and on behalf of other companies and, as a result of these and other activities, such directors and officers of the Company may become subject to conflicts of interest. The British Columbia Business Corporations Act ("BCBCA") provides that in the event that a director has a material interest in a contract or proposed contract or agreement that is material to the issuer, the director must disclose his interest in such contract or agreement and refrain from voting on any matter in respect of such contract or agreement, subject to and in accordance with the BCBCA. To the extent that conflicts of interest arise, such conflicts will be resolved in accordance with the provisions of the BCBCA.

Litigation

The Company and/or its directors may be subject to a variety of civil or other legal proceedings, with or without merit.

As certain of the Company's officers have other outside business activities and, thus, may not be in a position to devote all of their professional time to the Company, the Company's operations may be sporadic, which may result in periodic interruptions or suspensions.

FORWARD-LOOKING STATEMENTS

This MD&A may include certain "forward-looking statements" within the meaning of applicable securities legislation. All statements, other than statements of historical facts, included in this MD&A that address activities, events or developments that the Company expects or anticipates will or may occur in the future, including such things as future business strategies competitive strengths, goals, expansion and growth of the Company's businesses, operations, plans and other such matters are forward-looking statements. When used in this MD&A, the words "estimate", "plan", "anticipate", "expect", "intend", "believe" and similar expressions are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, risks that actual results of current exploration activities will differ, changes in project parameters as plans continue to be refined, unavailability of financing, fluctuations in precious and/or base metals prices and other factors, as outlined in the Company's preliminary long form prospectus filed on SEDAR. Although the Company has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.

CAPITAL MANAGEMENT

The Company considers its capital structure to include net residual equity of all assets, less liabilities. The Company's objectives when managing capital are to (i) maintain financial flexibility in order to preserve its ability to meet financial obligations and continue as a going concern; (ii) maintain a capital structure that allows the Company to pursue the development of its projects and products; and (iii) optimize the use of its capital to provide an appropriate investment return to its shareholders commensurate with risk.

The Company's financial strategy is formulated and adapted according to market conditions in order to maintain a flexible capital structure that is consistent with its objectives and the risk characteristics of its underlying assets. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of its underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares or acquire or dispose of assets.

DIRECTORS

Certain directors of the Company are also directors, officers and/or shareholders of other companies that may be engaged in the similar business of developing technologies. Such associations may give rise to conflicts of interest from time to time. The directors of the Company are required to act in good faith with a view to the best interests of the Company and to disclose any interest they may have in any project opportunity of the Company. If a conflict of interest arises at a meeting of the board of directors, any director in a conflict will disclose his/her interest and abstain from voting in the matter(s). In determining whether or not the Company will participate in any project or opportunity, the directors will primarily consider the degree of risk to which the Company may be exposed and its financial position at the time.
