

Defense and Homeland Security Expert Joins Plymouth Rock Technologies

Plymouth, Massachusetts--(Newsfile Corp. - April 29, 2020) - **Plymouth Rock Technologies Inc. (CSE: PRT) (OTCQB: PLRTF) (FSE: 4XA) (WKN# A2N8RH) ("Plymouth Rock", "PRT", or the "Company")** a leader in the development of cutting edge threat detection technologies, announced today that Douglas Smith, a member of the advisory board, and a director of the operating subsidiary Plymouth Rock Technologies (USA) Inc., joined the board of directors of the public entity, Plymouth Rock Technologies Inc., to take a more active role in the development of the company.

Douglas Smith is the former Assistant Secretary for the U.S. Department of Homeland Security. Douglas is currently the Managing Partner of Kent Strategies and brings over two decades of international experience in business development, communications, coalition building, public policy, and creating and managing public-private partnerships among Federal, State and local governments, and private industry. He has managed large-scale special projects and initiatives both within and outside of government. Douglas is a frequent public speaker both domestically and internationally and regularly appears on national television as an expert on national security and managing crisis.

"I am honored to have Douglas join the board of Plymouth Rock Technologies at this critical time in our company's growth cycle. His expertise has been invaluable to the management team. His input and participation as a board member will broaden the scope of his current role." added Dana Wheeler, CEO & President of Plymouth Rock Technologies.

Vivian Katsuris will step down as a director to accommodate Douglas Smith's appointment but will remain as the Company's Corporate Secretary. The Board of Plymouth Rock on behalf of the shareholders wishes to thank Ms. Katsuris for her service as a longstanding board member.

About Plymouth Rock Technologies Inc.

We are on a mission to bring engineering-driven answers to the most critical problems that threaten our safety. We work with government, law enforcement and military to innovate solutions for national security, defense and space systems. The Company is developing the next generation of threat detection solutions, The PRT X1 is a purpose built multirotor Unmanned Aircraft System (UAS). The unit contains an integrated sensor package that combines Thermal detection with 4K HD real-time air-to-ground streaming. Our advanced threat detection methods fuse artificial intelligence with augmented reality interfaces to eliminate human operating error. Plymouth Rock products, both airborne and land-based, will scan for threat items at greater "stand-off" distances than current existing technologies. Our unique radar imaging and signal processing technology creates new opportunities for remotely operated, non-intrusive screening of crowds in real time.

Plymouth Rock's other core technologies include: (1) A Millimeter Remote Imaging from Airborne Drone ("**MIRIAD**"); (2) A compact microwave radar system for scanning shoe's ("**Shoe-Scanner**").

Forward Looking Statements

Certain information set forth in this news release may contain forward-looking statements that involve substantial known and unknown risks and uncertainties. All statements other than statements of historical fact are forward-looking statements, including, without limitation, statements regarding future financial position, business strategy, use of proceeds, corporate vision, proposed acquisitions, partnerships, joint-ventures and strategic alliances and co-operations, budgets, cost and plans and objectives of or involving the Company. Such forward-looking information reflects management's current beliefs and is based on information currently available to management. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "predicts", "intends", "targets", "aims", "anticipates" or "believes" or variations (including negative variations) of such words and phrases or may be identified by statements to the effect that certain actions "may", "could", "should", "would", "might" or "will" be taken, occur or be achieved. A number of known and unknown risks, uncertainties and other factors may cause the actual results or performance to materially differ from any future results or performance expressed or implied by the forward-looking information. These forward looking statements are subject to numerous risks and uncertainties, certain of which are beyond the control of the Company including, but not limited to, the impact of general economic conditions, industry conditions and dependence upon regulatory approvals. Readers are cautioned that the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, undue reliance should not be placed on forward-looking

statements. The Company does not assume any obligation to update or revise its forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by securities laws.
