

INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

**As at and for the Period Ended May 31, 2022, 2021 and 2020
(with Comparative AUDITED Figures as at November 30, 2021)**

(Unaudited – Prepared by Management)

(Expressed in Canadian Dollars)

PLYMOUTH ROCK TECHNOLOGIES INC.
(the “Company”)

INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
As at and for the period ended May 31, 2022

NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

Management of the Company is responsible for the preparation of the accompanying unaudited interim condensed consolidated financial statements. The unaudited interim condensed consolidated financial statements have been prepared using accounting policies in compliance with International Financial Reporting Standards (“IFRS”) for the preparation of interim condensed financial statements and are in accordance with IAS 34 – Interim Financial Reporting.

The Company’s auditor has not performed a review of these interim condensed consolidated financial statements in accordance with the standards established by the Canadian Institute of Chartered Professional Accountants for a review of interim financial statements by an entity’s auditor.

PLYMOUTH ROCK TECHNOLOGIES INC.
NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
As at and for the period ended May 31, 2022
(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND ABILITY TO CONTINUE AS A GOING CONCERN

Plymouth Rock Technologies Inc. (the “Company”) was incorporated under the Business Corporations Act of British Columbia on October 17, 2011. The head office, principal address and registered and records office of the Company are located at 206 – 1045 West 8th Avenue, Vancouver, B.C., V6H 1C3.

On March 10, 2016, the Company’s common shares commenced trading on the CSE. On January 8, 2019, the Company’s common shares commenced trading on the Frankfurt Stock Exchange in Germany under the Symbol: 4XA, WKN# - A2N8RH. Effective August 27, 2019, the Company’s common shares commenced trading on the OTC Markets Group (“OTCQB”) under the symbol: PLRTF.

Since the Company completed its business acquisition with Plymouth Rock Technologies Inc. (“Plymouth Rock USA”) in 2018, it has changed its name from Alexandra Capital Corp. to Plymouth Rock Technologies Inc. with the trading symbol “PRT” on November 1, 2018. As a result of the acquisition, the Company’s principal business activity through its subsidiary, Plymouth Rock USA (“PRT USA”), was changed to focus on developing technologies related to remotely detecting assault firearms and suicide bombs concealed on the person or a carry bag. The Company focuses on detection methods with and without the need for a checkpoint of the suspect who is being screened. The Company’s planned products encompass the very latest radar, imaging, and Unmanned Aerial System (“UAS”) technologies for quickly detecting, locating and identifying the presence of threats and for search and rescue missions for law enforcement.

On March 26, 2021, the Company incorporated a subsidiary in United Kingdom, Plymouth Rock Technologies UK Limited (“PRT UK”). The purpose of PRT UK is to augment the Company’s existing research and development of its drone technologies for the US and EMEA markets.

On June 4, 2021, the Company completed its acquisition of Tetra Drones Limited (“Tetra”) (Note 3). The acquisition of Tetra provides the Company with drones production line in the United Kingdom.

Going Concern

These consolidated financial statements are prepared on a going concern basis, which contemplates that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. At present, the Company’s operations do not generate cash flows from operations. The Company has incurred losses since inception and has a comprehensive loss of \$1,228,697 for the period ended May 31, 2022 (2021 - \$2,385,464) and had an accumulated deficit of \$15,095,917 (November 30, 2021 - \$13,861,962). The ability of the Company to continue as a going concern is dependent on achieving profitable operations, commercializing its technologies, and obtaining the necessary financing in order to develop these technologies further. The outcome of these matters cannot be predicted at this time. The Company will continue to review the prospects of raising additional debt and equity financing to support its operations until such time that its operations become self-sustaining, to fund its research and development activities and to ensure the realization of its assets and discharge of its liabilities. While the Company is expending its best efforts to achieve the above plans, there is no assurance that any such activity will generate sufficient funds for future operations. These factors and uncertainty casts significant doubt about the Company’s ability to continue as a going concern and therefore it may be unable to realize its assets and discharge its liabilities in the normal course of business.

The Company is not expected to be profitable during the ensuing 12 months, and therefore, must rely on securing additional funds from either issuance of debt or equity financing for cash consideration. During the period ended May 31, 2022, the Company received net cash proceeds of \$Nil (May 31, 2021 – \$2,095,166) pursuant to financing activities. Management has been successful in raising capital through periodic private placements of the Company’s common shares in the past, however there is no certainty that financing will be available in the future, or certainty that management’s planned actions to address this situation will be successful.

1. NATURE OF OPERATIONS AND ABILITY TO CONTINUE AS A GOING CONCERN (continued)

These interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future rather than a process of forced liquidation. These interim condensed consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence. Such adjustments could be material.

In March 2020, the World Health Organization declared a global pandemic known as COVID-19. The expected impacts on global commerce are expected to be far reaching. Material uncertainties may come into existence that could influence management’s going concern assumption. The duration and impact of the COVID-19 outbreak is currently unknown and it is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its subsidiary, in future periods, such as:

- This will and has impacted demand and testing for the Company’s products and services in the near term and will and has impacted the Company’s supply chains.

Management continues to closely evaluate the impact of COVID-19 on the Company’s business.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

These interim condensed consolidated financial statements (“Financial Statements”) have been prepared using accounting policies consistent with IFRS as issued by the International Accounting Standard Board (“IASB”) and in accordance with International Accounting Standards (“IAS”) 34, Interim Financial Reporting, using accounting policies that the Company expects to adopt in its interim condensed consolidated financial statements for the period ended May 31, 2022. These interim condensed consolidated financial statements do not include all the information required for the annual consolidated financial statements and should be read in conjunction with the Company’s most recent audited consolidated financial statements for the year ended November 30, 2021, which are available on www.sedar.com.

These Financial Statements are authorized for issue by the Board of Directors on July 28, 2022.

These Financial Statements have been prepared on the historical cost basis. In addition, these Financial Statements have been prepared using the accrual basis of accounting.

These Financial Statements are presented in Canadian dollars, which is the Company’s functional currency. The functional currency of Plymouth Rock USA is U.S. Dollars and the functional currency of PRT UK and Tetra Drones is British Pound Sterling. The assets and liabilities of Plymouth Rock USA and PRT UK are translated into Canadian dollars at the rate of exchange prevailing at the reporting date and their income and expense items are translated at average exchange rates for the period. Exchange differences arising on the translation are recognized in other comprehensive income.

Significant accounting judgments, estimates and assumptions

The preparation of these Financial Statements in conformity with IFRS requires management to make judgments and estimates and form assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and reported amounts of income and expenses during the period. Actual results could differ from these estimates.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Significant accounting judgments, estimates and assumptions (continued)

Significant estimates used in preparing the Financial Statements include, but are not limited to the following:

a. Deferred taxes

The calculation of deferred tax is based on the ability of the Company to generate future taxable income, the estimation of which is subject to significant uncertainty as to the amount and timing. The calculation of deferred tax is also based on assumptions, which are subject to uncertainty as to timing and which tax rates are expected to apply when temporary differences reverse. Deferred tax recorded is also subject to uncertainty regarding the magnitude on non-capital losses available for carry forward and of the balances in various tax pools as the corporate tax returns have not been prepared as of the date of financial statement preparation.

b. Stock-based payments

The fair value of stock options and finders' warrants issued are subject to the limitations of the Black-Scholes option pricing model that incorporates market data and involves uncertainty in estimates used by management in the assumptions. Because the Black-Scholes option pricing model requires the input of highly subjective assumptions, including the expected life, volatility of share prices, risk-free rate and dividend yield, changes in subjective input assumptions can materially affect the fair value estimate.

c. Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit ("CGU") exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model.

Significant judgments used in the preparation of these Financial Statements include, but are not limited to the following:

(i) Going concern

Management has applied judgements in the assessment of the Company's ability to continue as a going concern when preparing its Financial Statements for the period ended May 31, 2022. Management prepares the Financial Statements on a going concern basis unless management either intends to liquidate the entity or to cease trading or has no realistic alternative but to do so.

In assessing whether the going concern assumption is appropriate, management accounts for all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Significant accounting judgments, estimates and assumptions (continued)

(ii) Business combinations

Determination of whether a set of assets acquired and liabilities assumed constitute the acquisition of a business or asset may require the Company to make certain judgments as to whether or not the assets acquired and liabilities assumed include the inputs, processes and outputs necessary to constitute a business as defined in IFRS 3 – Business Combinations. Based on an assessment of the relevant facts and circumstances, the Company concluded that the acquisition disclosed in Note 3 met the criteria for accounting as a business combination.

(iii) Intangible assets

Intangible assets can be capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use or sell the asset. To determine if the future economic benefit is probable depends on the successful commercialization of its technologies and that in turn depends on the management’s judgement and knowledge. As at May 31, 2022, the development costs are not capitalized as management was unable to demonstrate the future economic benefits to be generated from the utilization of the associated expenditures.

Cash

Cash consists of amounts held in banks and highly liquid investments with limited interest and credit risk.

Consolidation

The Financial Statements include the accounts of the Company and its wholly-owned subsidiary. All significant intercompany balances, transactions and any unrealized gains and losses arising from intercompany transactions, have been eliminated. The Company’s subsidiary is presented in the table below. Plymouth Rock USA was incorporated under the General Corporation Law of the State of Delaware on March 22, 2018. Plymouth Rock UK was incorporated under the General Corporation Law for England and Wales on March 26, 2021.

Entity	Country of Incorporation	Effective Economic Interest
Plymouth Rock Technologies Inc. ("Plymouth Rock USA")	USA	100%
Plymouth Rock Technologies Inc. ("PRT UK")	UK	100%
Tetra Drones Ltd. ("Tetra Drones")	UK	100%

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Intangible assets

Intangible assets that are reflected in the consolidated statements of financial position consist of assets acquired through business combinations. Intangible assets acquired in a business combination are recognized separately from goodwill and are initially recognized at their fair value at the acquisition date (which is regarded as their cost). An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows. Accordingly, the Company does not amortize these intangible assets, but reviews them for impairment, annually or more frequently if events or changes in circumstances indicate that the assets might be impaired.

Development costs for internally-generated intangible assets are capitalized when all of the following conditions are met:

- technical feasibility can be demonstrated;
- management has the intention to complete the intangible asset and use it;
- management can demonstrate the ability to use the intangible asset;
- it is probable that the intangible asset will generate future economic benefits;
- the Company can demonstrate the availability of adequate technical, financial and other resources to complete the development and to use the intangible asset; and
- costs attributable to the asset can be measured reliably.

The amount initially recognized for internally-generated intangible assets is the sum of the expenditures incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognized, development expenditures are charged to the consolidated statements of loss and comprehensive loss in the period in which they are incurred.

Customer relationships acquired through the acquisition of subsidiary, Tetra Drones, are amortized for a period of three years from acquisition date.

Equipment

Recognition and measurement

On initial recognition, equipment is valued at cost, being the purchase price and directly attributable cost of acquisition or construction required to bring the asset to the location and condition necessary to be capable of operating in the manner intended by the Company, including appropriate borrowing costs and the estimated present value of any future unavoidable costs of dismantling and removing the items. The corresponding liability is recognized within provisions.

Equipment is subsequently measured at cost less accumulated depreciation, less any accumulated impairment losses.

When parts of an item of equipment have different useful lives, they are accounted for as separate items (major components) of equipment.

Gains and losses

Gains and losses on disposal of an item of equipment are determined by comparing the proceeds from disposal with the carrying amount and are recognized net within other income in profit or loss.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Equipment (continued)

Depreciation

Half of the normal depreciation is taken in the year of acquisition for equipment with declining balance method. The depreciation rates applicable to each category of property and equipment are as follows:

Computer equipment	55% declining balance	Furniture	20% declining balance
Machinery	20% declining balance	Vehicles	30% declining balance
Leasehold improvements	30% declining balance		

Inventories

The Company values inventories at the lower of cost and net realizable value. Cost includes the costs of purchases net of vendor allowances plus other costs, such as transportation, that are directly incurred to bring the inventories to their present location and condition.

Business combinations

Business combinations are accounted for using the acquisition method. The cost of the acquisition is measured at the aggregate of the fair values at the date of acquisition, of assets transferred, liabilities incurred or assumed, and equity instruments issued by the Company. The acquiree's identifiable assets and liabilities assumed are recognized at their fair value at the acquisition date. Acquisition related costs are recognized in profit or loss as incurred. The excess of the consideration over the fair value of the net identifiable assets and liabilities acquired is recorded as goodwill. Any gain on a bargain purchase is recorded in profit or loss immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities. Any goodwill that arises is tested annually for impairment.

Share capital

The Company records proceeds from the issuance of its common shares as equity. Proceeds received on the issuance of units, consisting of common shares and warrants are allocated between the common share and warrant component. The Company has adopted a residual value method with respect to the measurement of shares and warrants issued as private placement units. The residual value method first allocates value to the most easily measurable component based on fair value and then the residual value, if any, to the less easily measurable component.

The fair value of the common shares issued in the private placement was determined to be the more easily measurable component and were valued at their fair value, as determined by the closing quoted price on the issuance date. The remaining proceeds, if any, are allocated to the attached warrants. Any fair value attributed to the warrants is recorded as warrant reserve. Management does not expect to record a value to the warrant in most equity issuances as unit private placements are commonly priced at market or at a permitted discount to market. If the warrants are issued as share issuance costs, the fair value of agent's warrants are measured using the Black-Scholes option pricing model and recognized in equity as a deduction from the proceeds.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Share capital (continued)

If the warrants are exercised, the related amount is reclassified as share capital. If the warrants expire unexercised, the related amount remains in warrant reserve.

Incremental costs directly attributable to the issue of new common shares are shown in equity as a deduction, net of tax, from the proceeds. Common shares issued for consideration other than cash are valued based on their market value at the date that shares are issued.

Stock-based payment

The Company recognizes share-based payment expense for the estimated fair value of equity-based instruments granted to both employees and non-employees. Compensation expense is recognized when the options are granted with the same amount being recorded as contributed surplus. The expense is determined using an option pricing model that accounts for the exercise price, the term of the option, the current share price, the expected volatility of the underlying shares, the expected dividend yield, and the risk-free interest rate for the term of the option. If the options are exercised, contributed surplus will be reduced by the applicable amount. Share-based payment calculations have no effect in the Company's cash position.

Earnings (loss) per share

Basic earnings (loss) per share are calculated using the weighted average number of common shares outstanding during the period. Diluted earnings (loss) per share are calculated using the treasury stock method. This method assumes that common shares are issued for the exercise of options, warrants and convertible securities and that the assumed proceeds from the exercise of options, warrants and convertible securities are used to purchase common shares at the average market price during the period. The difference between the number of shares assumed issued and the number of shares assumed purchased is then added to the basic weighted average number of shares outstanding to determine the fully diluted number of common shares outstanding. No exercise or conversion is assumed during the periods in which a net loss is incurred as the effect is anti-dilutive.

Financial instruments

Financial assets

The Company recognizes financial assets when it becomes party to the contractual provisions of the instrument. Financial assets are measured initially at their fair value plus, in the case of financial assets not subsequently measured at fair value through profit or loss, transaction costs that are directly attributable to their acquisition. Transaction costs attributable to the acquisition of financial assets subsequently measured at fair value through profit or loss are expensed in profit or loss when incurred.

Subsequent to initial recognition, all financial assets are classified and subsequently measured at amortized cost. Interest income is calculated using the effective interest method and gains or losses arising from impairment, foreign exchange and derecognition are recognized in profit or loss. Financial assets measured at amortized cost are comprised of cash, accounts receivable and due from related parties.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial assets (continued)

The Company reclassifies debt instruments only when its business model for managing those financial assets has changed. Reclassifications are applied prospectively from the reclassification date and any previously recognized gains, losses or interest are not restated.

The Company recognizes a loss allowance for the expected credit losses associated with its financial assets. Expected credit losses are measured to reflect a probability-weighted amount, the time value of money, and reasonable and supportable information regarding past events, current conditions and forecasts of future economic conditions.

The Company applies the simplified approach for accounts receivable that do not contain a significant financing component. Using the simplified approach, the Company records a loss allowance equal to the expected credit losses resulting from all possible default events over the assets' contractual lifetime.

Financial assets are written off when the Company has no reasonable expectations of recovering all or any portion thereof.

The Company derecognizes a financial asset when its contractual rights to the cash flows from the financial asset expire.

Financial liabilities

The Company recognizes a financial liability when it becomes party to the contractual provisions of the instrument. At initial recognition, the Company measures financial liabilities at their fair value plus transaction costs that are directly attributable to their issuance, with the exception of financial liabilities subsequently measured at fair value through profit or loss for which transaction costs are immediately recorded in profit or loss.

Subsequent to initial recognition, all financial liabilities are measured at amortized cost using the effective interest rate method. Interest, gains, and losses relating to a financial liability are recognized in profit or loss. Financial liabilities measured at amortized cost are comprised of accounts payable, lease liability, and due to related parties.

The Company derecognizes a financial liability only when its contractual obligations are discharged, cancelled or expire.

Interest

Interest income and expense are recognized in profit or loss using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments over the expected life of the financial instrument to the gross carrying amount of the financial asset or the amortized cost of the financial liability. The effective interest rate is calculated considering all contractual terms of the financial instruments, except for the expected credit losses of financial assets.

The 'amortized cost' of a financial asset or financial liability is the amount at which the instrument is measured on initial recognition minus principal repayments, plus or minus any cumulative amortization using the effective interest method of any difference between the initial amount and maturity amount and adjusted for any expected credit loss allowance. The 'gross carrying amount' of a financial asset is the amortized cost of a financial asset before adjusting for any expected credit losses.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Interest (continued)

Interest income and expense is calculated by applying the effective interest rate to the gross carrying amount of the financial asset (when the asset is not credit-impaired) or the amortized cost of the financial liability.

Where a financial asset has become credit-impaired subsequent to initial recognition, interest income is calculated in subsequent periods by applying the effective interest method to the amortized cost of the financial asset. If the asset subsequently ceases to be credit-impaired, calculation of interest income reverts to the gross basis.

Offsetting

Financial assets and financial liabilities are offset, with the net amount presented in the statement of financial position, when, and only when, the Company has a current and legally enforceable right to set off the recognized amounts and intends either to settle on a net basis or realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under IFRS, or when arising from a group of similar transactions if the resulting income and expenses are not material.

Goodwill

Goodwill is initially measured as the excess of the aggregate of the consideration transferred over the fair value of net identifiable assets acquired and liabilities assumed. Separately recognized goodwill is tested for impairment on an annual basis or when there is an indication of impairment. Impairment losses on goodwill are not reversed.

Revenue recognition

Revenue is recognized by applying the five-step model under IFRS 15. The Company recognizes revenue when, or as the goods or services are transferred to the control of the customer and performance obligations are satisfied. The Company's revenue is comprised of sales of its radar systems, radar components and engineering design and development services. The Company's revenue is recognized when control of the goods has been transferred, being when the goods are delivered to customers and when all performance obligations have been fulfilled. The amounts recognized as revenue represent the fair values of the considerations received or receivable from third parties on the sales of goods to customers, net of goods and services taxes and less returns, and discounts, at which time there are no conditions for the payment to become due other than the passage of time. For its engineering design and development services, revenue is recognized when the service has been rendered.

Government Grants

Government grants are recognized at fair value once there is reasonable assurance that the Company will comply with the conditions attached to the grants and that the grants will be received. Government grants are recognized in profit or loss on a systematic basis over the periods in which the Company recognizes as expenses the related costs for which the grants are intended to compensate. A forgivable loan from government is treated as a government grant when there is reasonable assurance that the entity will meet the terms for forgiveness of the loan.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Income taxes

Income tax is recognized in profit or loss except to the extent that it relates to equity items, in which case it is recognized in equity. Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted at period end, adjusted for amendments to tax payable with regards to previous years. Deferred tax is recorded using the liability method, providing for temporary differences, between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences do not result in deferred tax assets or liabilities: goodwill not deductible for tax purposes; the initial recognition of assets or liabilities that affect neither accounting profit (loss) nor taxable profit (loss); and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the financial position date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Related party transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions.

Parties are also considered to be related if they are subject to common control and related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

Leases

The company adopted IFRS 16 effective December 1, 2019. The Company chose to adopt the modified retrospective approach on transition to IFRS 16 and has chosen not to restate comparative information in accordance with the transitional provisions in IFRS 16. As a result, the comparative information continues to be presented in accordance with the Company's previous accounting policies. The adoption of IFRS 16 resulted in the recognition of a right-of-use asset and a lease liability measured at the present value of the future lease payments on the consolidated statements of financial position. An amortization expense on the right-of-use asset and an interest expense on the lease liability has replaced the operating lease expense. IFRS 16 has changed the presentation of cash flows relating to leases in the Company's consolidated statements of cash flows, however, it does not cause a difference in the amount of cash transferred between the parties of the lease. In accordance with the transition of IFRS 16, as at December 1, 2019, the Company recognized a right-of-use asset and lease liability of \$152,864. When measuring lease liabilities, the Company's incremental borrowing rate applied was 15% per annum.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounting standards, amendments and interpretations not yet effective

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB or the IFRIC during the period but are not yet effective. Some updates that are not applicable or are not consequential to the Company may have been excluded from the list below.

IAS 1 – Presentation of Financial Statements (“IAS 1”) – *Classification of Liabilities as Current or Noncurrent* were amended to clarify that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period, specify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability, explain that rights are in existence if covenants are complied with at the end of the reporting period, and introduce a definition of ‘settlement’ to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services. The amendments are effective for annual reporting periods beginning on or after January 1, 2023. Earlier adoption is permitted.

IAS 16 – Property, Plant and Equipment — *Proceeds before Intended Use* – The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced before that asset is available for use, i.e. proceeds while bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Consequently, an entity recognizes such sales proceeds and related costs in profit or loss. The entity measures the cost of those items in accordance with IAS 2 Inventories. The amendments are effective for annual reporting periods beginning on or after January 1, 2022. Earlier adoption is permitted.

These new and amended standards are not expected to have a material impact on the Company's Financial Statements.

3. ACQUISITION

On June 4, 2021, the Company acquired the 100% issued and outstanding ordinary shares of Tetra from two arm's length parties for £350,000. Tetra was a privately held UK-based company which develops custom-made, Unmanned Aircraft Systems (“UAS”). The consideration of £350,000 (\$579,682) is payable as follows:

- 1) An amount of £35,000 (\$60,021) (paid) within 7 days after the date the Definitive Agreement were executed and delivered by all parties;
- 2) An amount of £35,000 (\$60,479) (paid) within 21 days of the initial payment as described in instalment 1 above;
- 3) An amount of £140,000 (\$236,411) (paid) within 120 days of the second instalment as described above; and
- 4) The remaining balance of £140,000 (\$222,771) is included in accounts payable and accrued liabilities) and will be paid within 120 days of the third instalment.

The Company applied the optional concentration test permitted under IFRS 3 to the acquisition which resulted in the acquired assets being accounted for as an asset acquisition. As such the purchase price was allocated to the identifiable assets and liabilities based on their fair values at the date of acquisition.

PLYMOUTH ROCK TECHNOLOGIES INC.
NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
As at and for the period ended May 31, 2022
(Expressed in Canadian Dollars)

3. ACQUISITION (continued)

The allocation of the consideration for the purposes of the consolidated statements of financial position is as follows:

<u>Total Consideration</u>	
Cash	\$ 579,682
<u>Net assets acquired (liabilities assumed)</u>	
Cash indebtedness	\$ (12,127)
Equipment	27,799
Prepaid expenses	11,131
Due to a related party	(13,699)
Bank loan	(40,447)
Accounts payable	(19,210)
Vehicle loan	(30,859)
<u>Net assets acquired (liabilities assumed)</u>	<u>\$ (77,412)</u>
<u>Purchase price allocation</u>	
Net identifiable assets acquired	\$ (77,412)
Customer relationships	657,094
	<u>\$ 579,682</u>

4. PREPAID EXPENSES

As at May 31, 2022 and November 30, 2021, the Company's prepaid expenses consist of the following:

	May 31, 2022	November 30, 2021
Advertising and Promotions	\$ 54,100	\$ 127,664
Rent	10,910	11,211
Others	12,415	39,446
	\$ 77,425	\$ 178,321

The prepayments for advertising include prepayments for marketing and awareness programs handled by an arms' length parties for a six to twelve-month period.

Others include prepayments for insurance and some transfer agent and filing fees.

As at May 31, 2022, others include \$Nil prepayment to related parties (November 30, 2021 – \$5,513) (Note 8).

8. RELATED PARTY TRANSACTIONS AND BALANCES

Key management compensation

The amounts due to and from related parties are due to the directors and officers of the Company. The balances are unsecured, non-interest bearing and due on demand. These transactions are in the normal course of operations and have been valued in these consolidated financial statements at the exchange amount, which is the amount of consideration established and agreed to by the related parties. Key management is comprised of directors and officers of the Company.

8. RELATED PARTY TRANSACTIONS AND BALANCES (continued)

As at May 31, 2022, \$Nil (November 30, 2021– \$6,038) prepayment to directors and officers of the Company:

	May 31, 2022	November 30, 2021
Company controlled by the Corporate Secretary	\$ -	\$ 5,513
Company controlled by the CFO	-	525
Former Director	-	-
	\$ -	\$ 6,038

As at May 31, 2022, \$290,010 (November 30, 2021 - \$52,728) was due to directors and officers of the Company:

	May 31, 2022	November 30, 2021
Company controlled by CFO	\$ 34,782	\$ -
Company controlled by Corporate Secretary	-	10,500
CEO of the Company	119,890	561
Director	135,338	41,667
	\$ 290,010	\$ 52,728

During the periods ended May 31, 2022 and 2021 and 2020, the Company entered into the following transactions with related parties:

	May 31, 2022	May 31, 2021	May 31, 2020
Management fees	\$ 45,372	\$ 51,000	\$54,250
Consulting fees	125,000	125,000	17,996
Accounting fees	-	4,500	-
Rent	-	2,000	15,000
Share-based payments	-	345,160	190,524
Salaries and benefits to CEO	155,963	113,507	62,712
	\$ 326,335	\$ 641,167	\$340,482

Management fees consisted of the following:

	May 31, 2022	May 31, 2021	May 31, 2020
Company controlled by the Former Corporate Secretary	\$ 10,500	\$ 21,000	\$ 26,250
Company controlled by Former CFO	-	30,000	28,000
Company controlled by the CFO	34,872	-	-
	\$ 45,372	\$ 51,000	\$ 54,250

Consulting fees of \$125,000 were paid or accrued to a Director of the Company (2021 – \$125,000).

During the period ended May 31, 2022, accounting fees of \$Nil (2021 – \$4,500) and rent of \$Nil (2021- \$2,000) were paid or accrued to a Company controlled by the former CFO.

PLYMOUTH ROCK TECHNOLOGIES INC.
NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
As at and for the period ended May 31, 2022
(Expressed in Canadian Dollars)

8. RELATED PARTY TRANSACTIONS AND BALANCES (continued)

During the period ended May 31, 2022, the Company had 1,650,000 (2021 – 1,725,000) stock options held by the CEO, Former CFO, the Former Corporate Secretary, and the Company's directors. The amount recognized as expense for these options for the periods ended May 31, 2022, 2021 and 2020 are as follows:

	May 31, 2022		May 31, 2021		May 31, 2020	
	Number of Options held	Expense for the year (vested)	Number of options held	Expense for the year (vested)	Number of Options held	Expense for the year (vested)
CEO	600,000	\$ -	600,000	\$ 112,167	400,000	\$ 33,528
Former CFO	150,000	-	150,000	28,042	100,000	8,382
Corporate Secretary	150,000	-	150,000	28,042	100,000	8,382
Directors	750,000	-	825,000	176,909	750,000	140,232
	1,650,000	\$ -	1,725,000	\$ 345,160	1,350,000	\$ 190,524

As at May 31, 2022, 4,100,000 options were vested, and stock-based compensation amounting to \$Nil (2021 – \$657,906) was recognized in profit or loss; of which \$Nil (2021 – \$254,151) were for the Company's officers and directors as above (Note 12).

9. GOVERNMENT ASSISTANCE RECEIVED

On May 4, 2020, the Company received a CARES Act Paycheck Protection Program Loan ("PPP Loan") of USD\$75,000. The PPP Loan bears interest at 1% per annum and is repayable monthly starting on December 4, 2020. The loan is forgivable if PRT USA meets the requirements outlined below.

- i) The loan proceeds are used to cover payroll costs, and most mortgage interest, rent, and utility costs over the 24-week period after the loan is made; and
- ii) Employee and compensation levels are maintained. Payroll costs are capped at \$100,000 on an annualized basis for each employee.

During the year ended November 30, 2021 it was determined that the Company met the requirements for loan forgiveness, and Company received notice of loan forgiveness on March 16, 2021, therefore there was no loan recognized. As such, the PPP Loan was treated as a government grant and was offset against operating expenses on the consolidated statement of loss and comprehensive loss for the year ended November 30, 2021.

10. LOANS PAYABLE

Upon acquisition of Tetra Drones (Note 3), the Company assumed the latter's outstanding loans. These loans pertain to the following:

	Principal (in GBP)	Principal (in CAD)	Interest	Commencement	Maturity	Balance, May 31, 2022
Vehicle	£ 13,000	\$ 30,859	6.95%	May 2, 2019	June 2, 2024	\$ 23,968
Current portion						11,387
Loans Payable	£ 13,000	\$ 30,859				\$ 12,581

The vehicle is a collateral for the loan. This loan also adds an interest of 13.91% of the overdue amount in case of default.

11. CAPITAL MANAGEMENT

The Company considers its capital structure to include net residual equity of all assets, less liabilities. The Company's objectives when managing capital are to (i) maintain financial flexibility in order to preserve its ability to meet financial obligations and continue as a going concern; (ii) maintain a capital structure that allows the Company to pursue the development of its projects and products; and (iii) optimize the use of its capital to provide an appropriate investment return to its shareholders commensurate with risk.

The Company's financial strategy is formulated and adapted according to market conditions in order to maintain a flexible capital structure that is consistent with its objectives and the risk characteristics of its underlying assets. The Company manages its capital structure and adjusts it in light of changes in economic conditions and the risk characteristics of its underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares or acquire or dispose of assets.

12. SHARE CAPITAL

(a) Common Shares

Authorized: Unlimited number of common shares without par value

As at May 31, 2022, there were 59,317,461 common shares issued and outstanding (November 30, 2021 – 59,239,336).

During the period ended May 31, 2022:

On December 31, 2021, the Company issued 78,125 common shares were issued as compensation for consulting fees to a director valued at a total of \$17,189.

During the year ended November 30, 2021:

On June 1, 2021, 30,240 warrants were exercised at a price of \$0.25 per share.

On June 1, 2021, 4,240 warrants were exercised at a price of \$0.25 per share.

On August 9, 2021, the Company issued 5,750,000 Units at \$0.40 per unit for proceeds of \$2,300,000. Each unit comprised one common share and one full non-transferable common share purchase warrant, with each warrant entitling the holder to purchase one additional common share at a price of \$0.50 for five years. The Company paid finders' fees in the amount of \$63,700, issued 325,500 common shares to finders, and issued 166,250 "Finders' Units" comprising of one common share and one full non-transferable common share purchase warrant for each unit. The Units, Finders Units, common shares, share purchase warrants, finders' warrants and shares issued upon exercise of the share purchase warrants and/or the finders' warrants are subject to a four month hold period, expiring December 9, 2021.

On October 8, 2021, 275,000 warrants were exercised at a price \$0.25 per share.

On October 13, 2021, 75,000 warrants were exercised at a price \$0.25 per share.

On January 29, 2021, the Company issued 3,180,000 Units at \$0.20 per unit for proceeds of \$636,000. Each unit comprised one common share and one full non-transferable common share purchase warrant, with each warrant entitling the holder to purchase one additional common share at a price of \$0.25 for five years. The Company paid finders' fees in the amount of \$10,480, issued 170,000 common shares to finders, and issued 8% broker warrants in connection with some subscribers.

August 9, 2026	0.50	6,242,000	2.33	0.32
		9,830,742	3.53	0.42

13. FINANCIAL RISK MANAGEMENT

The Company's financial assets consist of cash, and due from related parties. The estimated fair values of cash, subscription receivable, and due from related parties approximate their respective carrying values due to the short period to maturity.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- a. Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities;
- b. Level 2 – inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- c. Level 3 – inputs that are not based on observable market data.

For the periods ended May 31, 2022 and November 30, 2021, the fair value of the cash, accounts receivable, accounts payable, and due to and from related parties approximate the book value due to the short-term nature.

The Company is exposed to a variety of financial instrument related risks. The Board approves and monitors the risk management processes, inclusive of counterparty limits, controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations when they become due. The Company ensures, as far as reasonably possible, it will have sufficient capital in order to meet short-term business requirements, after taking into account cash flows from operations and the Company's holdings of cash. The Company believes that these sources will be sufficient to cover the likely short-term cash requirements.

The Company's cash is currently invested in business accounts which is available on demand by the Company for its operations.

Interest Rate Risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company has no significant interest rate risk due to the short-term nature of its interest generating assets.

Credit Risk

Credit risk is the risk of a loss when a counterparty to a financial instrument fails to meet its contractual obligations. The Company's exposure to credit risk is limited to its cash. The Company limits its exposure to credit risk by holding its cash in deposits with high credit quality Canadian financial institutions.

Foreign Currency Risk

The Company is exposed to foreign currency risk on fluctuations related to cash, leases, due from related parties and accounts payable and accrued liabilities that are denominated in US dollars. 10% fluctuations in the US dollar and UK Sterling Pound against the Canadian dollar have affected comprehensive loss for the year by approximately \$38,297 (May 31, 2021 – \$13,064).

Fair value of options exercised	-	158,106	-
Fair value of warrants granted	-	95,395	-
Fair value of warrants exercised	-	35,040	-
Non-cash investing activities:			
Shares issued for consulting services	\$ 17,189	125,000	-

15. COMMITMENTS

As at May 31, 2022, the Company has the following commitments:

The Company signed a consulting agreement with an unrelated party whereby the consultant will assist the expansion of the Company's network in Europe. The agreement commenced in October 2021 for a period of 12 months with a fee of \$90,000.

PRT UK has a license fee agreement whereby it will lease a parcel of land for an annual fee of £1,500 until April 30, 2024.

In November 2018, Plymouth Rock USA entered into two-year lease agreement for leased premises (Note 16) in Plymouth, Massachusetts, commencing December 1, 2018 and ending on November 30, 2020. On December 31, 2020, the Company renewed this lease agreement to November 30, 2023. The minimum base rent for the remaining lease term are: USD\$3,005 (CAD\$3,726) per month from December 1, 2019 to November 01, 2020; USD\$3,095 (CAD\$3,838) per month from December 1, 2020 to November 30, 2021; USD\$3,188 (CAD\$3,953) per month from December 1, 2021 to November 30, 2022; and USD\$3,284 (CAD\$4,072) per month from December 1, 2022 to November 30, 2023 (Note 16).

The Company has certain commitments related to key management compensation for \$35,875 per month with no specific expiry of terms (Note 8).

16. RIGHT-OF-USE ASSETS AND LEASE LIABILITY

Right-of-use Assets

The following is the continuity of the cost and accumulated depreciation of right-of-use assets, for the period ended May 31, 2022 and for the year ended November 30, 2021:

	As at May 31, 2022	
Balance, November 30, 2020	\$	114,648
Amortization expense		(35,654)
Cumulative translation adjustment		(6,260)
Balance, November 30, 2021	\$	72,734
Amortization Expense		(18,025)
Cumulative translation adjustment		(634)
Balance, May 31, 2022	\$	54,075

During the year ended November 30, 2021, the Company recognized right-of-use assets and corresponding lease liabilities upon the adoption of IFRS 16 related to its Massachusetts premises under lease (Note 15). The right-of-use building is depreciated on a straight-line basis over the terms of the underlying lease agreements.

Lease liability

The following is the continuity of lease liability, for the period ended May 31, 2022 and for the year ended November 30, 2021:

	As at May 31, 2022	
Balance, November 30, 2020	\$	113,340
Lease payments		(48,175)
Interest on lease liability		14,760
Cumulative translation adjustment		(5,079)
Balance, November 30, 2021	\$	86,346
Lease payments		(24,193)
Interest on lease liability		5,540
Cumulative translation adjustment		(751)
Balance, May 31, 2022	\$	66,942
Current Portion	\$	29,620
Long-term portion	\$	37,322

As at May 31, 2022 and November 30, 2021, the minimum lease payments for the lease liabilities are as follows:

	May 31,		November 30,	
	2022		2021	
Period Ended:				
2022	\$	24,290	\$	48,943
2023		50,043		50,403
		74,332		99,346
Less: Interest expense on lease liabilities		(7,390)		(13,000)
Total present value of minimum lease payments	\$	66,942	\$	86,346

Selling expenses consist of business development expenses amounting to \$156,635 (2021 - \$210,539; 2020 - \$606,201).

18. SEGMENTED INFORMATION

The Company operates in one business segment, focusing on developing technologies as described in Note 1. With the acquisition of PRT USA, the Company's principal business activity through its subsidiary was changed to focus on developing technologies related to remotely detecting assault firearms and suicide bombs concealed on the person or a carry bag. The Company now focuses on detection methods with and without the need for a checkpoint of the suspect who is being screened. The Company's planned technologies encompass the very latest radar, imaging and Unmanned Aerial System (UAS) technologies for quickly detecting, locating and identifying the presence of threats and for search and rescue missions for law enforcement.

The Company's revenues were generated in the US and were mostly composed of sales of engineering design services and radar components to well-known US government agencies and prime contractors. All the long-lived assets are located in the U.S. as of May 31, 2022 and 2021. The following table summarizes the revenue by geographical location:

	Canada	USA	UK	Total
For the period ended May 31, 2022				
Revenues	\$ -	\$ 97,803	\$ 398,859	\$ 496,662
Gross Profit	-	60,970	307,060	368,030
For the period ended May 31, 2021				
Revenues	\$ -	\$ 22,540	\$ -	\$ 22,540
Gross Profit	-	3,665	-	3,665

19. SUBSEQUENT EVENTS

There were no subsequent events noted after May 31, 2022.
