Q3 2020 Accomplishments

- During Q3 2020, the Company delivered 2 PIRANHA units, representing the [first PIRANHA shipment to the US](#) and 2nd to Australia which is the [1st unit to be installed in a senior's living facility](#). The Company also delivered and installed wastewater holding tanks to a site for a district energy project expected to commence and be fulfilled in 2021.
- [On July 16, 2020](#), the Company hired Matt Engelhardt as its Chief Operating Officer.
- On July 29, 2020, the Company announced it has accelerated the expiry of 2,972,404 common share purchase warrants with an exercise price of \$0.10. These warrants have been exercised in full and additional warrants have been exercised providing proceeds of \$0.315M.
- [On September 15, King County Council unanimously approved legislation](#) allowing three wastewater heat recovery projects. SHARC Energy participated in the opportunity that King County provided for public consultation with regards to the development of the template contract that could be used for agreements with private parties (users) for sewer heat recovery. This is significant development for the industry of wastewater energy recovery in North America.
- During Q3 2020, the Company saw the conversion of \$580,000 of convertible debt into 5.8M common shares.

Subsequent Accomplishments

- [On October 14th, 2020](#), utilities, municipalities and private sector investors in the United States were shown results achieved during a three-month demonstration of a unique wastewater thermal recovery technology PIRANHA HC at the EPRI sponsored [Incubatenergy Labs and Ameren Accelerator Demo Day](#). Key results of the demonstration included:
 - 61 per cent energy savings reported by building management.
 - 99 per cent GHG reduction from gas boiler use.
 - Production of 100% of the hot water at 140°F, completely offsetting the use of gas boilers.
 - An average Co-efficiency of Performance ("COP") for hot-water production of over 3.5 over the project term and peak COP of over 5.
 - Reduction of thermal water pollution. PIRANHA HC removes the heat from wastewater, so that it reduces impact on ambient water temperature in rivers, lakes, and oceans when it is released.
- SHARC Energy has been selected to participate in two programs through Global Affairs Canada Trade Commissioners Service. The Company will be participating in the [Canadian Technology Accelerator](#) focused on promoting Canadian Cleantech companies in Southeast Asia and more specifically, the ASEAN region. The Company is also participating in a B2B matchmaking [Virtual Trade Mission](#) for Canadian Water and Wastewater companies and Brazilian companies

and organization in the public and private sector.

“Q3 2020 is the largest revenue quarter we have had in over two years and saw a number of promising developments for wastewater energy recovery and SHARC Energy,” says Hanspaul Pannu, Chief Financial Officer of SHARC Energy, “The Company is encouraged by the results and feedback from the EPRI demonstration and the relationships created. As the Company continues to bring awareness to the PIRANHA as a key player in the energy retrofit market, it will look to leverage these relationships created to penetrate the market. We are focused on driving growth through additions to sales pipeline and sales order backlog generation and that is where the focus lies for the remainder of 2020 and moving forward.”
