1. NATURE OF OPERATIONS AND GOING CONCERN

SHARC International Systems Inc. (the "Company" or "SHARC Energy") was incorporated under the *Business Corporations Act* (British Columbia) on February 4, 2011. The Company's shares are listed on the Canadian Securities Exchange (the "CSE") under the trading symbol "SHRC", Frankfurt Stock Exchange (the "FSE") under the trading symbol "IWIA" and the OTC under the symbol "INTWF". The Company is engaged in providing wastewater heat exchange expertise and products that service commercial, industrial, public utilities and residential development projects objectives of reducing their carbon footprint while saving on energy costs. The Company's registered and records office is located at 1443 Spitfire Place, Port Coquitlam, British Columbia, Canada, V3C 6L4.

These condensed consolidated interim financial statements (the "Financial Statements") have been prepared under the assumption that the Company will continue as a going concern. The going concern basis of presentation assumes that the Company will be able to meet its obligations and continue its operations for the and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Realization values may be substantially different from the carrying values as shown, and these Financial Statements do not give effect to adjustments that would be necessary to the carrying values and classifications of assets and liabilities should the Company be unable to continue as a going concern. As at June 30, 2021, the Company has an accumulated deficit of \$27,404,121 and positive working capital of \$2,629,917. The Company will continue to pursue opportunities to raise additional capital through equity markets and/or debt to fund its operating activities. Management anticipates it has sufficient working capital to maintain its activies for the subsequent 12 months. These Financial Statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position that would be necessary if the going concern assumption were inappropriate, and these adjustments could be material.

For the six months ended June 30, 2021

(Unaudited - Expressed in Canadian dollars)

2. BASIS OF PRESENTATION

[a] Statement of compliance

These Financial Statements have been prepared in accordance with International Accounting Standard ("IAS") 34 "Interim Financial Reporting". They do not include all of the information required for full annual financial statements and should be read in conjunction with the Company's audited annual financial statements for the fiscal year ended December 31, 2020, which have been prepared with International Financial Reporting Standards ("IFRS"). These Financial Statements were approved by the Company's Board of Directors on August 20, 2021.

[b] Basis of measurement and consolidation

These Financial Statements have been prepared on a historical cost basis, except for certain financial assets and financial liabilities measured at fair value.

These Financial Statements include the accounts of the Company's subsidiaries:

		June 30, 2021 Ownership	December 31, 2020 Ownership
Company	Location	%	%
SHARC Energy Systems Inc. ("SES")	Canada	100	100
SHARC Energy Systems Australasia Pty Ltd. ("SHARC Australasia") (1)	Australia	80	80
2336882 Ontario Inc. (1)	Canada	100	100

⁽¹⁾The subsidiary was inactive.

The Company includes assets, liabilities and operations of subsidiaries from the date of acquisition to the date of disposal.

All significant intercompany transactions, balances and unrealized gains and losses from intercompany transactions are eliminated on consolidation.

Certain comparative period balances have been reclassified for comparative purposes.

[c] Presentation currency

These Financial Statements are presented in Canadian dollars, which is the functional and presentationa currency of the Company and its subsidiaries.

For the six months ended June 30, 2021

(Unaudited - Expressed in Canadian dollars)

2. BASIS OF PRESENTATION (CONTINUED)

[d] Significant accounting estimates and judgments

The preparation of these Financial Statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. These Financial Statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the Financial Statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Company reviews its estimates and underlying assumptions on an ongoing basis.

Critical Judgments

The following are critical judgments that management has made in the process of applying accounting policies and that have the most significant effect on the amounts recognized in the Financial Statements:

- i. Research costs are recognized as an expense when incurred but development costs may be capitalized as intangible assets if certain conditions are met as described in IAS 38, *Intangible Assets*. Management has determined that development costs do not meet the conditions for capitalization under IAS 38 and all research and development costs have been expensed.
- ii. The Company recognizes the deferred tax benefit related to deferred income and resource tax assets to the extent recovery is probable. Assessing the recoverability of deferred tax assets requires management to make significant estimates of future taxable profit. In addition, future changes in tax laws could limit the ability of the Company to obtain tax deductions from deferred income and resource tax assets.
- iii. In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effect on the Company's business or ability to raise funds.

2. BASIS OF PRESENTATION (CONTINUED)

[d] Significant accounting estimates and judgments (continued)

Estimation Uncertainty

The following are key assumptions concerning the future and other key sources of estimation uncertainty that have a significant risk of resulting in a material adjustment to the carrying amount of assets and liabilities within the next financial year:

- i. Provisions for income taxes are made using the best estimate of the amount expected to be paid based on a qualitative assessment of all relevant factors. The Company reviews the adequacy of these provisions at the end of the reporting period. However, it is possible that at some future date an additional liability could result from audits by taxation authorities. Where the final outcome of these tax-related matters is different from the amounts that were originally recorded, such differences will affect the tax provisions in the period in which such determination is made.
- ii. Warranty provisions are recognized for the future obligations to provide services for the repairs and maintenance of products sold to its customers. The Company assesses its warranty provision based on experience. Actual costs incurred may differ from those amounts estimated.
- iii. The Company estimates the net realizable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realization of these inventories may be affected by future technology or other market drive changes that may reduce future selling prices.
- iv. The Company has service agreements with regards to some of its product sales which requires management to make judgments regarding the timing and allocation of revenue. Specifically, installation is generally not assumed to have standalone value and is often recognized on the same basis as the remainder of the services fees. However, the Company defers the recognition of revenue associated with fees for services agreements or warranty costs that are built in to the original sales price and recognizes the assosciated revenue evenly over the term of the service or warranty is provided.
- v. The equity component of the convertible debenture is calculated using a discounted cash flow method which requires management to make an estimate on an appropriate discount rate.

3. SIGNIFICANT ACCOUNTING POLICIES

11. CONVERTIBLE DEBENTURES

[i] On May 30, 2017 and June 29, 2017, the Company issued two tranches of unsecured convertible debenture units with total principal amounts of \$1,320,000 and \$1,023,000, respectively. The debentures mature on May 30, 2020 and June 29, 2020, respectively, and bear interest at an annual rate of 12% due semi-annually. The debentures are convertible, in whole or in part, at the option of the holder at any time prior to the maturity date into common shares of the Company at a conversion price of \$1.05 per common share.

Each debenture unit consisted of one \$1,000 principal amount senior unsecured convertible debenture and 714 share purchase warrants, each exercisable into one common share of the Company at \$1.05 per share three years from issuance.

The Company may abridge the exercise period of the warrants at any time after the date that is four months after the closing date, by providing written notice to the warrant holders within 30 days, in the event that the volume weighted average closing price of the Company's common shares is greater than \$2.10 per common share for twenty consecutive trading days. The warrants will, unless exercised, expire on the 30th day after the Company provides such written notice to the warrant holders.

Total finders' fees of \$157,010 in cash and 110,900 finders' warrants valued at \$35,815 were incurred on the issuances. Each finders' warrant is exercisable into one common share of the Company at \$1.40 per share two years from issuance. The fair value of \$35,815 was assigned to the 110,900 finders' warrants using the Black-Scholes valuation model with the following weighted average assumptions: expected dividend yield of 0%, expected volatility of 102.68% which is based on historical volatility, risk-free rate of return of 0.85% and an expected maturity of 2 years.

The convertible debentures are compound financial instruments with the equity component being the residual value after accounting for the debt component. The Company valued the debt component of the debentures by calculating the present value of the principal and interest payments, discounted at a rate of 20%, being management's best estimate of the rate that a non-convertible debenture with similar terms would bear. The equity component consists of the warrants and the equity conversion feature. The values attributed to each was based on the relative fair value approach.

On initial recognition, the liability components were \$1,962,798 (\$1,801,419 net of transaction costs), the warrants were \$190,101 (\$125,042 net of transaction costs and tax effect) and the residual equity components were \$190,101 (\$125,042 net of transaction costs and tax effect).

On May 29, 2020, the Company settled with all holders ("**Debentureholders**") of the Company's 12% unsecured, convertible debentures which were set to mature on May 30, 2020 and June 29, 2020 (the "**Maturing Debentures**").

For the six months ended June 30, 2021

(Unaudited - Expressed in Canadian dollars)

11. CONVERTIBLE DEBENTURES (CONTINUED)

The Debentureholders have entered into settlement agreements with the Company (the "Settlement Agreements") for the remaining principal of \$2,343,000 pursuant to which the Debentureholders accepted 75% cash payout of the outstanding principal amount of the Maturing Debentures, the payout of any accrued and unpaid interest up to the date of maturity and the amendment of 1,673,571 common share purchase warrants (the "Warrants") in consideration for the cancellation of the Maturing Debentures and a release of the Company's obligations under the Maturing Debentures. The expiry date of the Warrants will be extended by two years from May 30, 2020 and June 29, 2020 to May 30, 2022 and June 29, 2022, respectively, and the exercise price of the Warrants are repriced to \$0.25 from \$1.05 (collectively, the "Warrant Amendments").

Pursuant to the Settlement Agreements, the Company recognized a forgiveness of debt of \$585,750. The fair value of the Warrants Amendment was \$194,074 estimated by using the Black-Scholes valuation model with the following assumptions: expected dividend yield of 0%, expected volatility of 123.44% which is based on historical volatility, risk-free rate of return of 0.26% and an expected maturity of 2 years. These have been recorded as a gain on debt settlement and revaluation of warrants on debt settlement in the statement of loss and comprehensive loss.

Accretion charges, included in interest and financing expense, attributable to the debentures for the three and six months ended June 30, 2020 was \$105,081 and \$230,304, of which \$125,637 relates to accrued interest.

[ii] On March 8, 2019, May 9, 2019 and June 28, 2019, the Company issued three tranches of unsecured convertible debenture units with total principal amounts of \$810,000, \$1,330,000 and \$550,000 respectively. The debentures mature on March 8, 2022, May 9, 2022 and June 28, 2022, respectively, and bear interest at an annual rate of 8% due semi-annually. The debentures are convertible, in whole or in part, at the option of the holder at any time after the first anniversary of the date of issuance and prior to the maturity date into common shares of the Company at a conversion price of \$0.32 per common share.

Each debenture unit consisted of one \$1,000 principal amount unsecured convertible debenture and 1,563 share purchase warrants, each exercisable into one common share of the Company at \$0.40 per share three years from issuance.

If at any time after the first year anniversary of the closing date the closing price of the common shares of the Company is \$0.64 or greater for 20 consecutive trading days, the Company may, at its option, convert the debenture and any accrued and unpaid interest thereon into common shares by disseminating a press release, in which case the debentures shall be converted into common shares on the second business day after dissemination of such press release. The warrants will not be subject to acceleration.

13. SHARE CAPITAL (CONTINUED)

[e] Restricted Share Units ("RSU")

On August 7, 2020, the Company adopted an RSU plan for directors, officers, employees and consultants of the Company. Under the terms of the plan, each vested RSU awarded entitles the RSU holder to receive, subject to adjustment as provided for in the RSU Plan, either one common share in the Company or, at the Company's option, an equivalent cash payment. The maximum number of RSUs granted should not exceed 10% of the issued shares of the Company aggregated with all other security-based compensation arrangements. The Company did not grant any RSU's for the period ended June 30, 2021.

14. COMMITMENTS AND CONTINGENCIES

[a]Parent Company Guarantee to Scottish Water Horizon Ltd. ("SWH") for the Finance Facility to Bandwidth Energy Ltd. ("Bandwidth")

During the year ended December 31, 2018, the Company entered into a joint arrangement and held a 50% interest in Bandwidth for £10,000 (\$17,357) with the other 50% held by SWH. As the Company held joint control of the arrangement but the legal form of the arrangement and the contractual terms of the arrangement did not give or specify that the parties had rights to the assets, and obligations for the liabilities and therefore, the investment was treated as a joint venture and accounted for as an equity investment.

The Company provided a guarantee to SWH for the finance facility provided to Bandwidth for the execution of certain works, namely the design, installation, testing and commissioning of a new sewage heat recovery system ("Aqualibrium") totalling £604,726. The guarantee is limited to 50% of the finance facility provided, excluding any interest accrued per the original loan facility.

On September 17, 2019, the Company agreed to sell its 50% interest in Bandwidth for £10,000 cash to SWH, the other 50% shareholder, and terminated the agreement ("**Termination Agreement**") for Aqualibrium with Bandwidth for £15,000.

[b]Parent Company Guarantee for Bandwidth for Installation and Operations and Maintenance of Aqualibrium

The Company provided certain guarantees over the installation and operations and maintenance of Aqualibrium (the "Performance Guarantees"). During the year ended December 31, 2019, on sale of the Company's interest in Bandwith to SWH, the parties entered into a Termination Agreement (Note 14[a]).

For the six months ended June 30, 2021

(Unaudited - Expressed in Canadian dollars)

15. CAPITAL MANAGEMENT

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to support the development of its business and maintain the necessary corporate and administration functions to facilitate these activities. The capital of the Company consists of items included in shareholders' deficiency.

The Company manages and adjusts its capital structure when changes to the risk characteristics of the underlying assets or changes in economic conditions occur. To maintain or adjust the capital structure, the Company may attempt to raise new funds.

There were no changes to the Company's approach to capital management during the period. The Company is not subject to externally imposed capital requirements.

16. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Fair value

IFRS 13 establishes a fair value hierarchy for financial instruments measured at fair value that reflects the significance of inputs used in making fair value measurements as follows:

Level 1 – quoted prices in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liabilities, either directly (i.e. as prices) or indirectly (i.e. from derived prices); and

Level 3 – inputs for the asset or liability that are not based upon observable market data.

The fair value of cash is based on Level 1 inputs. The fair value of the Company's cash, receivables, accounts payable and accrued liabilities and loans payable approximate their carrying values due to the short-term to maturity. The fair value of long-term liabilities are initially recorded at fair value and subsequently carried at amortized cost using rates comparable to market interest rates.

[a] Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's cash and receivables are exposed to credit risk. The Company reduces its credit risk on cash by placing these instruments with institutions of high credit worthiness. Receivables are primarily from sales or loans. The Company believes these parties to be of sound creditworthiness, and to date, all receivables have been settled in accordance with agreed upon terms and conditions. As at June 30, 2021 the Company is nominally exposed to credit risk arising from receivables.

[b] Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The Company manages liquidity risk by maintaining sufficient cash balances to enable settlement of transactions on the due date. The Company addresses its liquidity through debt financing. While the Company has been successful in securing financings in the past, there is no assurance that it will be able to do so in the future. The Company is exposed to liquidity risk.

For the six months ended June 30, 2021

(Unaudited - Expressed in Canadian dollars)

16. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

[c] Market risk

[i] Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As at June 30, 2021 the Company is not exposed to any significant interest rate risk.

17. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS
