If the minimum subscription is not raised within 90 days of the issuance of a receipt for the final prospectus or such other time as may be consented to by Persons (as hereinafter defined)

who subscribed within that period and the applicable regulatory authorities, all subscription monies will be returned to subscribers without interest or deduction, unless the subscribers have otherwise instructed the Agent.

Pursuant to the Agency Agreement, the Agent will be granted the Agent's Option to purchase that number of Common Shares equal to 10% of the number of Common Shares sold under the Offering at an exercise price of \$0.10 per Common Share. The Agent's Option will be exercisable for a period of 24 months from the date the Company's Common Shares are listed on the Exchange. The Agent's Option is qualified for distribution under this prospectus. In addition, subject to Exchange approval, the Company intends to grant incentive stock options (the "Options") to its directors and officers to purchase an aggregate of 700,000 Common Shares under the Company's incentive stock option plan (the "Plan") at a price of \$0.10 per Common Share, which Options may be exercised for a period of 5 years from the date of grant. The Options to be granted to the directors and officers of the Company are qualified for distribution under this prospectus. See "Plan of Distribution" and "Options to Purchase Securities".

Other than the initial distribution of the Common Shares pursuant to this prospectus, the grant of the Agent's Option and the grant of the Options to the directors and officers of the Company, trading in all securities of the Company is prohibited during the period between the date a receipt for this preliminary prospectus is issued by the securities commission that is designated the principal regulator pursuant to Multilateral Instrument 11-102 - Passport System and National Policy 11-202 - Process for Prospectus Reviews in Multiple Jurisdictions and the time the Common Shares are listed for trading on the Exchange except, subject to prior acceptance of the Exchange, where appropriate registration and prospectus exemptions are available under securities legislation or where the applicable securities regulatory authority(ies) grants a discretionary order.

The Company has applied to list its Common Shares on the Exchange. Listing will be subject to the Company fulfilling all the listing requirements of the Exchange.

As at the date of this prospectus, the Company does not have any of its securities listed or quoted, has not applied to list or quote any of its securities, and does not intend to apply to list or quote any of its securities, on the Toronto Stock Exchange, a U.S. marketplace, or a marketplace outside Canada and the United States of America other than the Alternative Investment Market of the London Stock Exchange or the PLUS markets operated by PLUS Markets Group plc.

Investment in the Common Shares offered by this prospectus is highly speculative due to the nature of the Company's business and its present stage of development. This Offering is suitable only to those investors who are prepared to risk the loss of their entire investment. See "Risk Factors".

There is currently no market through which the Common Shares offered by this prospectus may be sold and purchasers may not be able to resell securities purchased under this prospectus. This may affect the pricing of the securities in the secondary market, the transparency and availability of trading prices, the liquidity of the securities, and the extent of issuer regulation. See "Risk Factors".

There can be no assurance that an active and liquid market for the Company's Common Shares will develop. As such, purchasers of the Common Shares may find it difficult to resell the Common Shares. Assuming completion of the Offering, purchasers of the Common Shares will suffer an immediate dilution on investment of \$0.0143 or 14.3% per Common Share, calculated on the basis of total gross proceeds raised by the Company from this Offering and prior sales, without deduction of the Agent's Commission and other expenses related to this Offering.

The Company was only recently incorporated and has no active business or assets other than cash. The business objective of the Company is to identify and evaluate assets or businesses with a view to completing a Qualifying Transaction. Any proposed Qualifying Transaction must be accepted by the Exchange and, in the case of a Non Arm's Length Qualifying Transaction, is also subject to Majority of the Minority Approval in accordance with the CPC Policy; however, there can be no assurance that the Company will successfully complete a Qualifying Transaction. The Company has commenced the process of identifying potential acquisitions, but to date, the Company has not yet identified any potential acquisitions. The Company may determine that current markets, terms of acquisition, or pricing conditions make such potential acquisitions uneconomic. The Company has not entered into an Agreement in Principle (as hereinafter defined). The

Company may find that even if the terms of a potential acquisition are economic, the Company may not be able to finance such acquisition and the Company may not be able to obtain additional financing. Since the Company has not placed any geographical restrictions on the location of a Qualifying Transaction, such Qualifying Transaction may involve the acquisition of a business located outside of Canada and, as such, investors should be aware that it may be difficult or may not be possible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and that it may not be possible to enforce against such Persons or the Company, judgments obtained in Canadian courts predicated upon the civil liability provisions of applicable securities laws in Canada. Where the investment or acquisition is financed by the issuance of shares from the Company's treasury, control of the Company may change and its shareholders may suffer further dilution of their investment. The Company will be in competition with other entities with greater resources. The Company has neither a history of earnings nor has it paid any dividends and it is unlikely to generate earnings or pay dividends in the immediate or foreseeable future.

The Exchange may suspend from trading or delist the Common Shares where the Exchange has not issued a Final Exchange Bulletin (as hereinafter defined) to the Company within 24 months after the date the Company's Common Shares are listed on the Exchange. Investors must rely solely on the expertise of the Company's promoters, directors and officers for any possible return on their investment. The Company's promoters, directors, officers and Control Persons (as hereinafter defined), and their Associates (as hereinafter defined) and Affiliates (as hereinafter defined), as a group, currently own 100% of the issued and outstanding Common Shares before giving effect to this Offering and will own 28.56% of the issued and outstanding Common Shares after giving effect to this Offering, assuming that no Common Shares are bought by the foregoing Persons under this prospectus and before the exercise of any Options. The directors and officers of the Company will only devote part of their time to the affairs of the Company and there are potential conflicts of interest to which some of the directors and officers of the Company will be subject in connection with the operations of the Company. See "Business of the Company", "Use of Proceeds", "Capitalization", "Officers, Directors and Promoters – Conflicts of Interest", "Dilution" and "Risk Factors".

The Agent of the Company, offers these Common Shares on a commercially reasonable efforts basis, if, as and when subscriptions are accepted by the Company, subject to prior sale, in accordance with the terms and conditions of the Agency Agreement referred to under the heading "Plan of Distribution" and subject to the approval of certain legal matters by Thomas, Rondeau LLP, Vancouver, B.C. on behalf of the Company and by McCullough O'Connor Irwin LLP, Vancouver, B.C. on behalf of the Agent. Pursuant to the CPC Policy, no purchaser of the Common Shares is permitted to directly or indirectly purchase more than 2% of the total Common Shares offered under this prospectus being 100,000 Common Shares (\$10,000). In addition, the maximum number of Common Shares that may directly or indirectly be purchased by that purchaser, together with any Associates (as hereinafter defined) or Affiliates (as hereinafter defined) of that purchaser, is 4% of the total number of Common Shares offered under this prospectus being 200,000 Common Shares (\$20,000).

Subscriptions will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. The Offering is only suitable to investors who are prepared to rely entirely on the directors and management of the Company and can afford to risk the loss of their entire investment. The directors and officers of the Company will only devote part of their time and attention to the affairs of the Company and there are potential conflicts of interests to which some of the directors and officers of the Company will be subject in connection with the operations of the Company. Assuming completion of the Offering, an investor will suffer an immediate dilution of investment of 14.3% or \$0.0143 per Common Share. There can be no assurance that an active and liquid market for the Company’s Common Shares will develop and an investor may find it difficult to resell the Common Shares. Until Completion of the Qualifying Transaction, the Company will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Company has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Company will be able to identify or complete a suitable Qualifying Transaction.

If the Company identifies a suitable business or asset, the Exchange may not approve the transaction as a Qualifying Transaction or management may determine that market conditions make the terms of the acquisition uneconomic. Furthermore, the Company may require additional financing to both secure and exploit the business opportunity and there is no guarantee that such financing will be available.

If the Company fails to complete a Qualifying Transaction acceptable to the Company’s shareholders and the Exchange within 24 months of the date of listing, or if the Company fails to comply with the Exchange’s listing maintenance requirements, the Common Shares may be suspended from trading or delisted.

An acquisition financed by the issuance of treasury shares could result in a change in the control of the Company and may cause the interests of the shareholders in the Company to be further diluted.

The Qualifying Transaction may involve the acquisition of a business or assets located outside of Canada. It may therefore be difficult or impossible to effect service or notice to commence legal proceedings upon the directors, officers and experts outside of Canada and it may not be possible to enforce against such persons or companies judgments obtained in Canadian courts predicated upon the civil liability provisions applicable to securities laws in Canada. See “Business of the Company”, “Risk Factors”, “Officers, Directors and Promoters - Conflicts of Interest”.

A portion of the proceeds of the Offering will be used to satisfy the obligations of the Company related to the Offering, including the expenses of its legal counsel and auditor and fees of the Agent and the Agent's legal counsel. See "Use of Proceeds".

Proposed Operations until Completion of a Qualifying Transaction

The Company is a capital pool company pursuant to the CPC Policy. The principal business of the Company is to identify and evaluate businesses and assets with a view to completing a Qualifying Transaction. Any proposed Qualifying Transaction must be accepted by the Exchange and in the case of a Non Arm's Length Qualifying Transaction is also subject to Majority of the Minority Approval in accordance with the CPC Policy. The Company has not conducted commercial operations other than to enter into discussions for the purpose of identifying potential acquisitions or interests.

Until Completion of a Qualifying Transaction, the Company will not carry on any business other than the identification and evaluation of businesses or assets with a view to completing a potential Qualifying Transaction. With the consent of the Exchange, this may include the raising of additional funds in order to finance an acquisition. Except as described under "Use of Proceeds – Private Placement for Cash" and "Use of Proceeds – Restrictions on Use of Proceeds", the funds raised pursuant to this Offering and any subsequent financing will be utilized only for the identification and evaluation of potential Qualifying Transactions and not for any deposit, loan or direct investment in a potential acquisition. The Company currently intends to pursue a Qualifying Transaction in the technology sector, but there is no assurance that this will, in fact, be the business sector of a proposed Qualifying Transaction or of the Company following Completion of the Qualifying Transaction.

Although the Company has commenced the process of identifying potential acquisitions with a view to completing the Qualifying Transaction, the Company has not yet entered into an Agreement in Principle.

Method of Financing

The Company may use cash, bank financing, the issuance of treasury shares, public debt or equity financing or a combination of these for the purpose of financing its proposed Qualifying Transaction. **A Qualifying Transaction financed by the issue of treasury shares could result in a change in the control of the Company and may cause the shareholders' interest in the Company to be further diluted.**

Criteria for a Qualifying Transaction

The board of directors of the Company must approve any proposed Qualifying Transaction. In exercising their powers and discharging their duties in relation to a proposed Qualifying Transaction, the directors will act honestly and in good faith with a view to the best interests of the Company and will exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

The potential acquisitions will be screened initially by management of the Company to determine their economic viability. Approval of acquisitions will be made by the board of directors. The board of directors will examine proposed acquisitions having regard to, among other things, the (a) projected rate of return; (b) risk of loss; (c) prospects for growth; (d) skill of the management team; and (e) basic financing considerations, including the costs of the acquisition and the prospect of obtaining debt or equity financing to complete the acquisition

Filings and Shareholder Approval of a Non Arm's Length Qualifying Transaction

Upon the Company reaching an Agreement in Principle, the Company must issue a comprehensive news release, at which time the Exchange generally will halt trading in the Company's Common Shares until the filing requirements of the Exchange have been satisfied as set forth under the subheading "Trading Halts, Suspensions and Delisting". Within 75 days after issuance of such news release, the Company shall be required to submit for review to the Exchange either an information circular that complies with applicable corporate and securities laws or a filing statement that complies with Exchange requirements. An information circular must be submitted where there is a Non Arm's Length Qualifying Transaction. A filing statement must be submitted where the Qualifying Transaction is not a Non Arm's Length Qualifying Transaction. The information circular or filing statement, as applicable, must contain prospectus level disclosure of the Target Company and the Company, assuming Completion of the Qualifying Transaction, and be prepared in accordance with the CPC Policy and Form 3B1 or Form 3B2, as applicable, of the Exchange. Upon acceptance by the Exchange, the Company must then either:

- (a) file the filing statement on SEDAR at least seven business days prior to closing of the Qualifying Transaction, and issue a news release which discloses the scheduled closing date for the Qualifying Transaction as well as the fact that the filing statement is available on SEDAR; or
- (b) mail the information circular and related proxy material to its shareholders in order to obtain the Majority of the Minority Approval of the Qualifying Transaction or other requisite approval, at a meeting of shareholders.

Unless waived by the Exchange, the Company will also be required to retain a Sponsor, who must be a Member of the Exchange, and who will be required to submit to the Exchange a sponsor report prepared in accordance with the policies of the Exchange. The Company will no longer be considered to be a CPC upon the Exchange having issued the Final Exchange Bulletin. The Exchange will generally not issue the Final Exchange Bulletin until the Exchange has received:

- (a) in the case of a Non Arm's Length Qualifying Transaction, confirmation of Majority of Minority Approval of the Qualifying Transaction;
- (b) confirmation of closing of the Qualifying Transaction; and
- (c) all post-meeting or final documentation, as applicable, otherwise required to be filed with the Exchange pursuant to the CPC Policy.

Upon issuance of the Final Exchange Bulletin, the CPC Policy will generally cease to apply, with the exception of the escrow provisions of the CPC Policy and the restrictions in the CPC Policy precluding the Company from completing a reverse take-over for a period of one year from the Completion of the Qualifying Transaction.

Initial Listing Requirements

The Resulting Issuer must satisfy the Exchange's Minimum Listing Requirements for the particular industry sector in either Tier 1 or Tier 2 as prescribed under the applicable policies of the Exchange.

Trading Halts, Suspensions and Delisting

The Exchange will generally halt trading in the Common Shares from the date of the public announcement of an Agreement in Principle until all filing requirements of the Exchange have been satisfied, which includes the submission of a Sponsorship Acknowledgment Form, where the Qualifying Transaction is subject to sponsorship. In addition, personal information forms or, if applicable, declarations, for all individuals who may be directors, senior officers, promoters, or Insiders of the Resulting Issuer must be filed with the Exchange and any preliminary background searches that the Exchange considers necessary or advisable must also be completed before the trading halt will be lifted by the Exchange.

Even if all filing requirements have been satisfied and preliminary background checks completed, the Exchange may continue or reinstate a halt in trading of the Common Shares for public policy reasons including:

- (a) the unacceptable nature of the business of the Resulting Issuer; or
- (b) the number of conditions precedent to, or the nature and number of deficiencies required to be resolved prior to, completion of the Qualifying Transaction, are so significant or numerous as to make it appear to the Exchange that the halt should be reinstated or continued.

A trading halt may also be imposed by the Exchange where the Company fails to file the supporting documents relating to the Qualifying Transaction within a period of 75 days after public announcement of the Agreement in Principle or if the Company fails to file post-meeting or final documents, as applicable, within the time required. A trading halt may also be imposed if a Sponsor terminates its sponsorship.

The Exchange may suspend from trading or delist the Common Shares of the Company where the Exchange has not issued a Final Exchange Bulletin to the Company within 24 months of the date of listing of the Company's Common Shares of the Exchange. In the event that the Common Shares of the Company are delisted by the Exchange, within 90 days from the date of such delisting, the Company shall wind up pursuant to the BCBCA and shall make a pro rata distribution of its remaining assets to its shareholders, unless shareholders, pursuant to a majority vote exclusive of the votes of Non Arm's Length Parties to the Company, determine to deal with the Company or its remaining assets in some other manner. See "Business of the Company - Criteria for a Qualifying Transaction, Shareholder Approval of a Qualifying Transaction, Initial Listing Requirements and Refusal of Qualifying Transaction".

If the Company does not complete a Qualifying Transaction within 24 months of the date of listing, it may apply for listing on NEX rather than be delisted. In order to be eligible to list on the NEX, the Company must:

- (a) either:
 - (i) cancel all escrowed Common Shares purchased by Non Arm's Length Parties to the Company at a discount to the Offering price, in accordance with section 11.2(a) of the CPC Policy, as if the Company had delisted from the Exchange or
 - (ii) subject to majority shareholder approval, cancel the escrowed Common Shares purchased by Non Arm's Length Parties to the Company so that the average costs of the remaining seed shares is at least equal to the Offering price; and

- (b) obtain majority shareholder approval for the transfer to NEX, exclusive of the votes of Non Arms Length Parties of the Company.

If the Company lists the Common Shares on NEX it must continue to comply with all requirements and restrictions of the CPC Policy.

Refusal of Qualifying Transaction

The Exchange, in its sole discretion, may not accept a Qualifying Transaction where:

- (a) the Resulting Issuer fails to satisfy the applicable Minimum Listing Requirements of the Exchange;
- (b) the aggregate number of securities of the Resulting Issuer owned, directly or indirectly, by:
 - (i) a Member firm of the Exchange;
 - (ii) registrants, unregistered corporate finance professionals, employee shareholders and partners of such Member firm; and
 - (iii) Associates of any such Person;collectively, would exceed 20% of the issued and outstanding securities of the Resulting Issuer;
- (c) the Resulting Issuer will be a financial institution, finance company, finance issuer or mutual fund, as defined in the securities legislation;
- (d) the majority of the directors and senior officers of the Resulting Issuer are not residents of Canada or the United States or are individuals who have not demonstrated positive association as directors or officers with public companies that are subject to a regulatory regime comparable to the companies listed on a Canadian exchange; or
- (e) notwithstanding the definition of a Qualifying Transaction, there is any other reason for denying acceptance of the Qualifying Transaction.

Until required for the Company's purposes, the proceeds will only be invested in securities of, or those guaranteed by, the Government of Canada or any Province or territory of Canada or the Government of the United States of America, in certificates of deposit or interest bearing accounts of Canadian chartered banks, trust companies or credit unions.

The proceeds from this Offering and any prior sale of Common Shares, after deducting the expenses associated with this Offering, will only be sufficient to identify and evaluate a finite number of assets and businesses, and additional funds may be required to finance any acquisition to which the Company may commit.

Permitted Use of Funds

Until the Completion of the Qualifying Transaction and except as otherwise specifically provided by the CPC Policy and described under the subheadings "Restrictions on Use of Proceeds", "Private Placements for Cash", and "Prohibited Payments to Non Arm's Length Parties", the gross proceeds realized from the sale of all securities issued by the Company will be used by the Company only to identify and evaluate businesses or assets and obtain shareholder approval for a proposed Qualifying Transaction.

In addition, with the prior acceptance of the Exchange, up to an aggregate of \$225,000 may be advanced as a refundable deposit or secured loan by the Company to a Vendor or Target Company, as the case may be, for a proposed arm's length Qualifying Transaction that has been publicly announced at least 15 days prior to the date of such advance, due diligence with respect to the Qualifying transaction is well underway and either a Sponsor has been engaged or sponsorship has been waived. A maximum aggregate amount of \$25,000 may also be advanced as a non-refundable deposit, unsecured deposit or advance to a Vendor or Target Company, as the case may be, to preserve assets without the prior acceptance of the Exchange.

Restrictions on Use of Proceeds

Until Completion of a Qualifying Transaction, not more than the lesser of 30% of the gross proceeds from the sale of all securities issued by the Company or \$210,000 will be used for purposes other than those described above. After the closing of the Offering and until the Completion of the Qualifying Transaction, the Company will not issue any securities unless written acceptance of the Exchange is obtained before issuance. Prior to the Completion of a Qualifying Transaction, the Exchange generally will not accept a private placement by the Company where the gross proceeds raised from the issuance of securities both prior to and pursuant to the Offering, together with any proceeds

anticipated to be raised upon closing of the private placement, will exceed \$5,000,000. The only securities issuable pursuant to such a private placement will be Common Shares. Except as described under the heading "Options to Purchase Securities" and under the above subheading "Restrictions on Use of Proceeds", the Company has not made and, until the Completion of the Qualifying Transaction, will not make any payment of any kind, directly or indirectly, to a Non Arm's Length Party to the Company, to a Non Arm's Length Party to the Qualifying Transaction or to a Person engaged in investor relations activities, by any means, including:

- (a) remuneration, which includes but is not limited to salaries, consulting fees, management contract fees or directors' fees, finders' fees, loans, advances and bonuses; and
- (b) deposits and similar payments.

Further, no such payment will be made on or after the Completion of a Qualifying Transaction if such payment relates to services rendered or obligations incurred prior to or in connection with the Qualifying Transaction.

Notwithstanding the above, the Company may reimburse a Non Arm's Length Party to the Company for reasonable expenses for office supplies, office rent and related utilities, equipment leases (excluding vehicle leases), and legal services (provided that neither the lawyer providing the legal services nor any member of the law firm providing the services is a promoter of the Company or, in the case of a law firm, no member of the firm owns greater than 10% of the outstanding Common Shares of the Company). The Company may also reimburse a Non Arm's Length Party to the Company for reasonable out-of-pocket expenses incurred in pursuing the business of the Company described under the above subheading "Permitted Use of Funds".

The foregoing restrictions on the use of proceeds and prohibitions on payments to Non Arm's Length Parties and Persons engaged in investor relations activities continue to apply until the Completion of the Qualifying Transaction.

ESCROWED SECURITIES

Securities Escrowed Prior to the Completion of the Qualifying Transaction

All of the 2,000,000 Common Shares issued prior to this Offering at a price below \$0.10 per Common Share, all Common Shares that may be acquired by Non Arm’s Length Parties of the Company either under the Offering or otherwise prior to Completion of the Qualifying Transaction and all Common Shares acquired by members of the Aggregate Pro Group prior to this Offering will be deposited with the Escrow Agent under the Escrow Agreement.

All Common Shares acquired pursuant to the exercise of Options under the Plan prior to the Completion of a Qualifying Transaction must also be deposited in escrow and will be subject to escrow until the Final Exchange Bulletin is issued.

In addition, all Common Shares of the Company acquired in the secondary market prior to the Completion of a Qualifying Transaction by any Person who becomes a Control Person are required to be deposited in escrow. Subject to certain exemptions permitted by the Exchange, all securities of the Company held by Principals of the Resulting Issuer will also be escrowed.

The following table sets out, as the date hereof, the number of Common Shares of the Company, which will be held in escrow.

Name and Municipality of Residence of Shareholder	Common Shares	Number of Common Shares held in escrow	Percentage of Common Shares prior to giving effect to the Offering	Percentage of Common Shares after giving effect to the Offering ⁽¹⁾
John Morgan Surrey, B.C.	500,000	500,000	25%	7.14%
Robin Hutchison Surrey, BC	500,000	500,000	25%	7.14%

Total	2,000,000	2,000,000	100%	28.56%

Notes:

- (1) The percentages in this column assume that no Common Shares are purchased by the above shareholders under the Offering and exclude the Common Shares to be issued upon the exercise of the Options and Agent's Options.
- (2) This company is held jointly by Richard Jordens and Sandra MacKinnon.

Where the Common Shares of the Company which are required to be held in escrow are held by a non-individual (a "**Holding Company**"), each Holding Company pursuant to the Escrow Agreement, has agreed, or will agree, not to carry out any transactions during the currency of the Escrow Agreement which would result in a change of control of the Holding Company, without the consent of the Exchange. Any Holding Company must sign an undertaking to the Exchange that, to the extent reasonably possible, it will not permit or authorize any issuance of securities or transfer of securities that could reasonably result in a change of control of the Holding Company. In addition, the Exchange may require an undertaking from any Control Person of the Holding Company not to transfer the shares of that Holding Company.

The Escrow Agreement provides that holders of escrowed Common Shares shall not sell, transfer, assign, mortgage, enter into a derivative transaction concerning or otherwise deal in any way with their escrowed Common Shares. The Escrow Agreement provides that if the holder of the escrowed shares becomes bankrupt, the Common Shares will be transferred within escrow to the trustee in bankruptcy or to such other person as is legally entitled to the Common Shares. The Escrow Agreement further provides that upon the death of the holder of the escrowed shares, the Common Shares will be released from escrow and certificates for the Common Shares will be delivered to the legal representative of the deceased shareholder.

Under the Escrow Agreement, 10% of the escrowed Common Shares will be released from escrow on the issuance of the Final Exchange Bulletin (the "**Initial Release**") and an additional 15% will be released on the dates 6 months, 12 months, 18 months, 24 months, 30 months and 36 months following the Initial Release.

If the Resulting Issuer meets the Exchange's Tier 1 Minimum Listing Requirements either at the time the Final Exchange Bulletin is issued or subsequently, the release of the escrowed Common Shares will be accelerated. An accelerated escrow release will not commence until the Resulting Issuer has made application to the Exchange for listing as a Tier 1 Issuer and the Exchange has issued a bulletin that announces the acceptance for listing of the Resulting Issuer on Tier 1 of the Exchange.

The Exchange's prior consent must be obtained before a transfer within escrow of escrowed Common Shares. Generally, the Exchange will only permit a transfer within escrow to be made to incoming Principals in connection with a proposed Qualifying Transaction.

If a Final Exchange Bulletin is not issued, the escrowed Common Shares will not be released. Under the Escrow Agreement, each Non Arm's Length Party to the Company who holds escrowed Common Shares acquired at a price below the Offering price under this prospectus has irrevocably authorized and directed the Escrow Agent to immediately:

- (a) cancel all of those escrowed Common Shares upon the issuance by the Exchange of a bulletin delisting the Common Shares of the Company; or
- (b) if the Company lists on NEX, either:
 - (i) cancel all Seed Shares purchased by Non Arm's length Parties to the CPC at a discount from the IPO price, in accordance with section 11.2(a) of the CPC Policy, or
 - (ii) subject to majority shareholder approval, cancel an amount of Seed Shares purchased by Non Arm's Length Parties to the CPC so that the average cost of the remaining Seed Shares is at least equal to the IPO price.

Escrowed Securities on Qualifying Transaction

Generally, if at least 75% of the securities issued pursuant to the Qualifying Transaction are Value Securities, then all the securities issued to Principals of the Resulting Issuer pursuant to the Qualifying Transaction will be deposited into escrow pursuant to a Value Security Escrow Agreement. Value Securities are securities issued pursuant to a transaction, for which the deemed value of the securities at least equals the value ascribed to the assets, using a valuation method acceptable to the Exchange, or securities that are otherwise determined by the Exchange to be Value Securities and required to be placed in escrow under a Value Security Escrow Agreement. However, if at least 75% of the securities issued pursuant to the Qualifying Transaction are not Value Securities, all securities issued pursuant to the Qualifying Transaction will be deposited into a surplus security escrow agreement (a "**Surplus Security Escrow Agreement**").

The principal distinction between a Value Security Escrow Agreement and a Surplus Security Escrow Agreement is the time period for release of securities from escrow.

In the case of a Resulting Issuer that will be a Tier 2 Issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for a three year escrow release mechanism with 10% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 15% of the escrowed securities being releasable on each of the 6, 12, 18, 24, 30 and 36 month anniversaries of the Final Exchange Bulletin. In the case of a Resulting Issuer that will be a Tier 2 Issuer, when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a three-year escrow release mechanism with:

- (a) 5% of the escrowed securities being releasable upon the issuance of the Final Exchange Bulletin and an additional 5% releasable on the first six month anniversary of the Final Exchange Bulletin;
- (b) 10% of the escrowed securities being releasable on each of the 12 and 18 month anniversaries after the Final Exchange Bulletin;

- (c) 15% of the escrowed securities being releasable on each of the 24 and 30 month anniversaries after the Final Exchange Bulletin; and
- (d) 40% of the escrowed securities being releasable on the 36 month anniversary after the Final Exchange Bulletin.

In the case of a Resulting Issuer that will be a Tier 1 Issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for an 18 month escrow release mechanism with 25% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and with 25% of the escrowed securities being releasable every 6 months thereafter. In the case of a Resulting Issuer that will be a Tier 1 Issuer when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for an 18-month escrow release mechanism with:

- (a) 10% of the escrowed securities being releasable upon the issuance of the Final Exchange Bulletin;
- (b) 20% of the escrowed securities being releasable on the first 6 month anniversary after the Final Exchange Bulletin;
- (c) 30% of the escrowed securities being releasable on the 12 month anniversary after the Final Exchange Bulletin; and
- (d) 40% of the escrowed securities being releasable on the 18 month anniversary after the Final Exchange Bulletin.

Escrowed Securities on Private Placement

Securities issued pursuant to a private placement to Principals of the Company and the proposed Resulting Issuer will generally be exempt from escrow requirements where:

- (a) the private placement is announced at least five trading days after the news release announcing the Agreement in Principle and the pricing for the financing is at not less than the discounted market price, as determined in accordance with the Policies of the Exchange; or
- (b) private placement is announced concurrently with the Agreement in Principle, and:
 - (i) at least 75% of the proceeds from the private placement are not from Principals of the Company or the proposed Resulting Issuer;
 - (ii) if subscribers, other than Principals of the Company or the proposed Resulting Issuer, will obtain securities subject to hold periods, then in addition to any resale restrictions under applicable securities legislation, any securities issued to such Principals will be subject to a four month hold period; and
 - (iii) none of the proceeds of the private placement are allocated to pay compensation or to settle indebtedness owing to Principals of the Resulting Issuer.

Conflicts of Interest

There are potential conflicts of interest to which the directors, officers, Insiders and promoters of the Company will be subject in connection with the operations of the Company. DILUTION

Purchasers of Common Shares under this prospectus will suffer an immediate dilution of 14.3% or \$0.0143 per Common Share on the basis of there being 7,000,000 Common Shares of the Company issued and outstanding

following completion of the Offering. Dilution has been computed on the basis of total gross proceeds to be raised by this prospectus and from sales of securities prior to the filing of this prospectus, without deduction of commissions or related expenses incurred by the Company, as set forth below:

Item	Total Offering
Gross proceeds from prior issuance of Common Shares	\$100,000
Gross proceeds of this Offering	\$500,000
Total gross proceeds after this Offering	\$600,000
Offering price per Common Share	\$0.10
Gross proceeds per share after this Offering	\$0.086
Dilution per Common Share to subscriber	\$0.0143
Percentage of dilution in relation to offering price	14.3%

RISK FACTORS

A purchase of Common Shares of the Company will be highly speculative and the purchaser's investment and the Company are subject to substantial risks, including the following, which list is not exhaustive:

- (a) the Company was only recently incorporated, has not commenced commercial operations and has no assets other than cash. It has no history of earnings, and shall not generate earnings or pay dividends until at least after Completion of the Qualifying Transaction;
- (b) investment in the Common Shares offered by the prospectus is highly speculative given the proposed nature of the Company's business and present stage of development;
- (c) the directors and officers of the Company will only devote a portion of their time to the business and affairs of the Company and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time;
- (d) assuming completion of the Offering, an investor will suffer an immediate dilution to its investment of 14.3% or \$0.0143 per Common Share as set forth under "*Dilution*" above;
- (e) there can be no assurance that an active and liquid market for the Company's Common Shares will develop and an investor may find it difficult to resell its Common Shares;
- (f) until Completion of a Qualifying Transaction, the Company is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions;
- (g) the Company has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Company will be able to identify a suitable Qualifying Transaction;
- (h) even if a proposed Qualifying Transaction is identified, there can be no assurance that the Company will be able to successfully complete the transaction;
- (i) Completion of the Qualifying Transaction is subject to a number of conditions including acceptance by the Exchange and, in the case of a Non Arm's Length Qualifying Transaction, Majority of the Minority Approval;
- (j) unless the shareholder has the right to dissent and be paid fair value in accordance with applicable corporate or other law, a shareholder who votes against a proposed Non Arm's Length Qualifying

Transaction for which Majority of the Minority Approval by shareholders has been given, will have no rights of dissent and no entitlement to payment by the Company of fair value for the Common Shares;

- (k) upon public announcement of a proposed Qualifying Transaction, trading in the Common Shares of the Company will be halted and will remain halted for an indefinite period of time, typically until a Sponsor has been retained and certain preliminary reviews have been conducted. The Common Shares of the Company will be reinstated to trading before the Exchange has reviewed the transaction and before the Sponsor has completed its full review. Reinstatement to trading provides no assurance with respect to the merits of the transaction or the likelihood of the Company completing the proposed Qualifying Transaction;
- (l) trading in the Common Shares of the Company may be halted at other times for other reasons, including for failure by the Company to submit documents to the Exchange in the time periods required;
- (m) the Exchange will generally suspend trading in the Company's Common Shares or delist the Company in the event that the Exchange has not issued a Final Exchange Bulletin within 24 months from the date of listing;
- (n) neither the Exchange nor any securities regulatory authority passes upon the merits of the proposed Qualifying Transaction;
- (o) in the event that management of the Company resides outside of Canada or the Company identifies a foreign business as a proposed Qualifying Transaction, investors may find it difficult or impossible to effect service of notice to commence legal proceedings upon any management resident outside of Canada or upon the foreign business and may find it difficult or impossible to enforce against such Persons, judgments obtained in Canadian courts;
- (p) the Qualifying Transaction may be financed in whole or in part by the issuance of additional securities by the Company and this may result in further dilution to the investor, which dilution may be significant and which may also result in a change of control of the Company; and
- (q) subject to prior acceptance by the Exchange, the Company may be permitted to loan or advance up to an aggregate of \$250,000 of its proceeds to a target business without requiring shareholder approval and there can be no assurance that the Company will be able to recover that loan.

As a result of these factors, this Offering is only suitable to investors who are willing to rely solely on management of the Company and who can afford to lose their entire investment. Those investors who are not prepared to do so should not invest in the Common Shares.

INDEPENDENT AUDITORS' REPORT

TO THE DIRECTORS OF MC PARTNERS INC.

We have audited the accompanying financial statements of MC Partners Inc., which comprise the statement of financial position as at November 30, 2011 and the statements of operations and comprehensive loss, changes in shareholders' equity and cash flows for the period from January 28, 2011 (date of incorporation) to November 30, 2011, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of MC Partners Inc. as at November 30, 2011, and the results of its operations and its cash flows for the period from January 28, 2011 (date of incorporation) to November 30, 2011 in accordance with International Financial Reporting Standards.

Emphasis of Matter

Without qualifying our opinion, we draw attention to note 1 in the financial statements, which indicates that the Company's continuing operations as intended are dependent upon its ability to identify, evaluate and acquire an interest in a business or asset. When the Company completes its Qualifying Transaction within the required period, additional funding may be required. This condition indicates the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

1. NATURE OF OPERATIONS AND GOING CONCERN

MC Partners Inc. (the "Company") was incorporated on January 28, 2011 pursuant to the *Business Corporations Act*, British Columbia, and is a capital pool company as defined by Policy 2.4 (the "CPC Policy") of the TSX Venture Exchange (the "Exchange"). The Company's registered office is Suite 300 – 576 Seymour Street, Vancouver, BC, Canada. The principal business of the Company is to identify and evaluate business opportunities with the objective of completing the acquisition of an interest in properties, assets or a business ("Qualifying Transaction") under Exchange rules. Under these rules, a Qualifying Transaction must be entered into within 24 months of listing. The Company has made an application to have its common shares listed and called for trading on the Exchange.

The Company has not generated any revenues and has incurred losses of \$14,447 since inception. The ability of the Company to continue as a going concern depends upon the acquisition of a successful project and also on the ability of the Company to obtain necessary financing to fund ongoing operations. The Company's ability to achieve these objectives cannot be determined at this time.

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The Company's continuing operations as intended are dependent upon the Company's ability to complete a Qualifying Transaction. Such an acquisition will be subject to shareholder and regulatory approval. In the case of a non-arm's-length transaction (as defined in the CPC Policy) a majority of the minority shareholder approval must also be obtained in accordance with the CPC Policy. Should the Company fail to complete a Qualifying Transaction, its ability to raise sufficient financing to maintain operations may be impaired and, accordingly, the Company may be unable to realize the carrying value of its net assets.

The financial statements of the Company were authorized for issue by the Board of Directors on February 9, 2012.

2. BASIS OF PRESENTATION

(a) Statement of compliance

These financial statements are prepared in accordance with IFRS as issued by the International Accounting Standards Board ("IASB").

(b) Basis of measurement

The financial statements have been prepared on a historical cost basis, except for financial instruments classified as fair value through profit or loss ("FVTPL"), which are stated at their fair values. In addition, these financial statements have been prepared using the accrual basis of accounting.

The financial statements are presented in Canadian dollars, which is also the Company's functional currency, and all values are rounded to the nearest dollar, unless otherwise indicated.

MC PARTNERS INC.
Notes to Financial Statements
For the Period from January 28, 2011 (date of incorporation)
to November 30, 2011
(Expressed in Canadian Dollars)

2. BASIS OF PRESENTATION (Continued)

(b) Basis of measurement (Continued)

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies.

3. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are summarized below:

(a) Significant accounting judgments, estimates and assumptions

The preparation of these financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the date of the statement of financial position, could result in a material adjustment to the carrying amounts of assets or liabilities.

(b) Financial instruments

(i) Financial assets

All financial assets are initially recorded at fair value and designated upon inception into one of the following four categories: held-to-maturity, available-for-sale, loans and receivable or at FVTPL. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Financial assets classified as FVTPL are measured at fair value with unrealized gains and losses recognized through profit and loss. At November 30, 2011, the Company classified cash as FVTPL.

Financial assets classified as loans and receivables and held-to-maturity are measured at amortized cost. At November 30, 2011, the Company has not classified any financial assets as loans and receivables.

Financial assets classified as available-for-sale are measured at fair value with realized gains and losses recognized in other comprehensive income ("OCI") except for losses in value that are considered other than temporary. At November 30, 2011, the Company has not classified any financial assets as available-for-sale.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Financial instruments (Continued)

(ii) Financial liabilities

All financial liabilities are initially recorded at fair value and designated upon inception as FVTPL or other financial liabilities.

Financial liabilities classified as other financial liabilities are measured at amortized cost. The Company's accounts payable and accrued liabilities are classified as other financial liabilities.

Financial liabilities classified as FVTPL are measured at fair value with unrealized gains and losses recognized through comprehensive loss. As at November 30, 2011, the Company has not classified any financial liabilities as FVTPL.

(iii) De-recognition of financial liabilities

The Company de-recognizes financial liabilities when the obligations are discharged, cancelled or expire.

(iv) Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the investments have been negatively impacted. Evidence of impairment could include: significant financial difficulty of the issuer or counter party, or default or delinquency in interest or principle payments, or the likelihood that the borrower will enter bankruptcy or financial reorganization.

The carrying amount of financial assets is reduced by an impairment loss directly for all financial assets.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Financial instruments (Continued)

(v) Financial instruments recorded at fair value

Financial instruments recorded at fair value on the statement of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels: Level 1 – valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 – valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and Level 3 – valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs). As of November 30, 2011, cash is recorded at fair value on the statement of financial position.

(vi) Risk factors

Credit risk

Credit risk is the risk of loss associated with a counter party's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash, which is held in a large Canadian financial institution. The Company believes this credit risk is insignificant.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations when they become due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at November 30, 2011, the Company had a cash balance of \$61,253 to settle current liabilities of \$10,077. In general, the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company has cash balances and no interest-bearing debt. The Company believes it has no significant interest rate risk.

The Company does not have any derivative financial instruments.

to November 30, 2011

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Income taxes

The Company follows the asset and liability method of accounting for income taxes. Under this method of tax allocation, deferred income tax assets and liabilities are determined based on differences between financial statement carrying values and their respective income tax basis (temporary differences). Deferred income tax assets and liabilities are measured using the tax rates expected to be in effect when the temporary differences are likely to reverse. The effect on deferred income tax assets and liabilities of a change in tax rates is included in operations in the period in which the change is enacted or substantially enacted. The amount of deferred income tax assets recognized is limited to the amount of the benefit that is more likely than not to be realized.

(d) Earnings (loss) per share

The Company presents basic and diluted earnings (loss) per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted earnings (loss) per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive.

Shares held in escrow, other than where their release is subject to the passage of time, are not included in the calculation of the weighted average number of common shares outstanding.

(e) Related party transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

(f) Share capital

Common shares issued by the Company are classified as equity. Incremental costs directly attributable to the issuance of shares are recognized as a deduction from equity.

(g) New standards and interpretations not yet adopted

The Company will be required to adopt certain standards and amendments issued by the IASB, as described below, for which the Company is currently assessing the impact on its financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

- (g) New standards and interpretations not yet adopted (Continued)

Accounting standards issued, but not yet effective:

IFRS 9 *Financial Instruments* (2009)

IFRS 9 introduces new requirements for classifying and measuring financial assets, as follows:

- Debt instruments meeting both a “business model” test and a “cash flow characteristics” test are measured at amortized cost (the use of fair value is optional in some limited circumstances)
- Investments in equity instruments can be designated as “fair value through other comprehensive income” with only dividends being recognized in profit or loss
- All other instruments (including all derivatives) are measured at fair value with changes recognized in the profit or loss
- The concept of “embedded derivatives” does not apply to financial assets within the scope of the standard and the entire instrument must be classified and measured in accordance with the above guidelines.

This standard is only applicable if it is optionally adopted for annual periods beginning before January 1, 2013. For annual periods beginning on or after January 1, 2013, the Company must adopt IFRS 9 (2010).

IFRS 9 *Financial Instruments* (2010)

A revised version of IFRS 9 incorporating revised requirements for the classification and measurement of financial liabilities, and carrying over the existing de-recognition requirements from IAS 39 *Financial Instruments: Recognition and Measurement*.

The revised financial liability provisions maintain the existing amortized cost measurement basis for most liabilities. New requirements apply where an entity chooses to measure a liability at FVTPL – in these cases, the portion of the change in fair value related to changes in the entity's own credit risk is presented in OCI rather than within profit or loss.

Applies to annual periods beginning on or after January 1, 2013. This standard supersedes IFRS 9 (2009). However, for annual reporting periods beginning before January 1, 2013, an entity may early-adopt IFRS 9 (2009) instead of applying this standard.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

- (g) New standards and interpretations not yet adopted (Continued)

IFRS 13 *Fair Value Measurement*

Replaces the guidance on fair value measurement in existing IFRS accounting literature with a single standard.

This IFRS defines fair value, provides guidance on how to determine fair value and requires disclosures about fair value measurements. However, IFRS 13 does not change the requirements regarding which items should be measured or disclosed at fair value.

IFRS 13 applies when another IFRS requires or permits fair value measurements or disclosures about fair value measurements (and measurements, such as fair value less costs to sell, based on fair value or disclosures about those measurements). With some exceptions, the standard requires entities to classify these measurements into a "fair value hierarchy" based on the nature of the inputs:

- **Level 1** - quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date
- **Level 2** - inputs other than quoted market prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- **Level 3** - unobservable inputs for the asset or liability.

Entities are required to make various disclosures depending upon the nature of the fair value measurement (e.g., whether it is recognized in the financial statements or merely disclosed) and the level in which it is classified.

Applicable to annual reporting periods beginning on or after January 1, 2013.

Amendments to IFRS 7 *Financial Instruments: Disclosures*

Makes amendments resulting from the IASB's comprehensive review of off balance sheet activities.

The amendments introduce additional disclosures, designed to allow users of financial statements to improve their understanding of transfer transactions of financial assets (for example, securitizations), including understanding the possible effects of any risks that may remain with the entity that transferred the assets. The amendments also require additional disclosures if a disproportionate amount of transfer transactions are undertaken around the end of a reporting period.

Applies to annual periods beginning on or after July 1, 2011.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(g) New standards and interpretations not yet adopted (Continued)

Presentation of Items of Other Comprehensive Income (Amendments to IAS 1)

Amends IAS 1 *Presentation of Financial Statements* to revise the way OCI is presented.

The amendments:

- Preserve the amendments made to IAS 1 in 2007 to require profit or loss and OCI to be presented together, i.e., either as a single “statement of profit or loss and comprehensive income”, or a separate “statement of profit or loss” and a “statement of comprehensive income” – rather than requiring a single continuous statement as was proposed in the exposure draft
- Require entities to group items presented in OCI based on whether they are potentially reclassifiable to profit or loss subsequently, i.e., those that might be reclassified and those that will not be reclassified
- Require tax associated with items presented before tax to be shown separately for each of the two groups of OCI items (without changing the option to present items of OCI either before tax or net of tax).

Applicable to annual reporting periods beginning on or after July 1, 2012.

4. SHARE CAPITAL

Authorized – Unlimited number of common shares without par value.

During the period from January 28, 2011 (date of incorporation) to November 30, 2011, the Company issued 2,000,000 founders’ common shares to be held in escrow following the Company’s initial public offering (note 8) at \$0.05 per share to officers and directors of the Company for total proceeds of \$100,000. These shares will be released from escrow pro rata to the shareholders as to 10% upon issuance of the Final Exchange Bulletin and as to the remainder in six equal tranches of 15% every six months thereafter for a period of 36 months. These shares have been excluded from the calculation of loss per share.

5. INCOME TAXES

A reconciliation of income taxes at statutory rates with the reported taxes is as follows:

	2011
Income tax benefit computed at Canadian statutory rate (26.5%)	\$ (4,017)
Effect of change in tax rate	217
Changes in valuation allowance	3,800
Total income tax recovery	\$ -

Notes to Financial Statements

to November 30, 2011

5. INCOME TAXES (Continued)

The significant components of the Company's future income tax assets are as follows:

	2011
Future income tax assets	
Non-capital loss carry-forwards	\$ 3,800
Valuation allowance	(3,800)
Net future income tax assets	\$ -

The Company has available for deduction against future taxable income non-capital losses of approximately \$14,000 for Canadian tax purposes. These losses, if not utilized, will expire in 2031. Future tax benefits that may arise as a result of these non-capital losses have not been recognized in these financial statements and have been offset by a valuation allowance due to the uncertainty of their realization.

6. CAPITAL RISK MANAGEMENT

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to pursue the development of any identified business opportunities and to maintain a flexible capital structure for the benefit of its stakeholders.

The Company includes equity, comprised of issued share capital, reserves and deficit in the definition of capital.

The Company manages the capital structure and makes adjustments to it in light of changes in the economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, enter into joint venture arrangements, acquire or dispose of assets, or adjust the amount of cash.

The Board of Directors does not establish quantitative return on capital criteria for management, but rather promotes year over year sustainable growth. The Company is not subject to externally imposed capital requirements.

7. RELATED PARTIES

(a) Ultimate controlling party

As at November 30, 2011, there was no ultimate controlling party of the Company.

(b) Key management personnel compensation and director transactions

During the period January 28, 2011 (date of incorporation) to November 30, 2011, the Company did not pay any key management personnel compensation.

Two directors held, directly or indirectly, 500,000 common shares each and another director held 250,000 common shares.
