1. NATURE OF OPERATIONS AND GOING CONCERN

bioMmune Technologies Inc. (the "Company") was incorporated on January 28, 2011 pursuant to the *Business Corporations Act* (British Columbia) under the name MC Partners Inc. as a capital pool company, as defined by Policy 2.4 (the "CPC Policy") of the TSX Venture Exchange. On May 24, 2013, the Company acquired all of the issued and outstanding shares of bioMmune Advanced Technologies Inc. (formerly bioMmune Technologies Inc.) ("BAT"), a private company (incorporated on July 5, 2013) formed to commercially exploit a number of patents and patent applications that surround three technologies. The acquisition constituted the Company's Qualifying Transaction pursuant to the CPC Policy of the Exchange. On May 22, 2013, the Company changed its name to bioMmune Technologies Inc. and BAT changed its name to bioMmune Advanced Technologies Inc. The Company is a Tier 2 Research and Development Issuer engaged in the research and development of products for the treatment of cancers, and for improvement of the immune system, trading on the Exchange under the trading symbol "IMU".

The Company's registered office is Suite 1780 - 400 Burrard Street, Vancouver, BC, Canada, V6C 3A6.

The Company has not generated any revenues and has incurred losses of $1,264,137 since inception. The Company expects to spend a significant amount of capital to fund research and development and on further laboratory and animal studies. As a result, the Company expects that its operating expenses will increase significantly, and consequently, will require significant revenues to become profitable. Even if the Company does become profitable, it may not be able to sustain or increase profitability on a quarterly or annual basis. The Company cannot predict when, if ever, it will be profitable. There can be no assurances that the Intellectual Property of the Company, or other technologies it may acquire, will meet applicable regulatory standards, obtain required regulatory approvals, be capable of being produced in commercial quantities at reasonable costs, or be successfully marketed. The Company plans to undertake additional laboratory and animal studies with respect to the Intellectual Property, and there can be no assurance that the results from such studies or trials will result in a commercially viable product or will not identify unwanted side effects.

These condensed consolidated interim financial statements have been prepared under the assumptions of a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The Company's ability to maintain its existence is dependent upon the continuing support of its creditors and its success in obtaining new equity financing for its ongoing operations. Financing options available to the Company include public equity financings and loans. Realization values may be substantially different from carrying values, as shown in these condensed consolidated interim financial statements, should the Company be unable to continue as a going concern.

Management believes it will be able to continue operations for the next 12 months without raising additional capital, as it has the ability to reduce certain discretionary expenses if required.

2. STATEMENT OF COMPLIANCE

These condensed consolidated interim financial statements are unaudited and have been prepared in accordance with International Financial Reporting Standards ("IFRS") and in accordance with the International Accounting Standards ("IAS") 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB").

These condensed consolidated interim financial statements of the Company were authorized for issue by the Board of Directors on July 30, 2014.

Basis of preparation

These condensed consolidated interim financial statements have been prepared on the accrual basis and are based on historical costs, modified where applicable. The consolidated financial statements are presented in Canadian dollars unless otherwise noted.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements have been prepared in accordance with the accounting policies described in Note 3 of the Company's Annual Financial Statements as at and for the year ended November 30, 2013. Accordingly, these condensed consolidate interim financial statements for the six months ended May 31, 2014 and 2013 should be read together with the Annual Financial Statements as at, and for the year ended November 30, 2013.

Effective December 1, 2013, the Company adopted the following accounting standards issued by IASB.

IFRS 10 *Consolidated Financial Statements* builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company. The standard provides additional guidance to assist in the determination of control where this is difficult to assess. The Company does not believe the adoption of this standard will have a significant effect on its financial statements.

IFRS 13 *Fair Value Measurement* aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRS's. The requirements, which are largely aligned between IFRS's and US GAAP, do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRS's or US GAAP. The Company does not believe the adoption of this standard will have a significant effect on its financial statements.

4. SHORT-TERM INVESTMENT

As at May 31, 2014, the Company has a short-term deposit of $775,000 of principal (November 30, 2013: $1,099,000) maturing June 4, 2014 with an annual interest rate of 1.25%. Included in the balance is accrued interest of $9,200 (November 30, 2013: $6,468).

(Expressed in Canadian Dollars - unaudited)

5. ASSET ACQUISITION

On May 24, 2013, the Company acquired all of the issued and outstanding common shares of BAT in exchange for 5,600,000 common shares of the Company fair valued at $0.15 per common share. The cost of the Acquisition is based on the fair value of the consideration given.

As BAT was not considered to be an acquired business under accounting guidance, the Acquisition was accounted for as an asset acquisition. The purchase consideration is $840,000 and the purchase price allocation relating to the Acquisition has been accounted for as follows:

Cash	$	10,544
Accounts receivable		349
Prepaid expenses		994
Intangible assets		872,516
Accounts payable and accrued liabilities		(44,403)
Net asset value of BAT	$	840,000

The difference between the purchase consideration and the fair values of BAT's net assets as at May 24, 2013 has been assigned to intangible assets ($854,827). Accordingly, the $854,827 was added to BAT's intangible assets' carrying value of $17,689 as at May 24, 2013, for a total of $872,516 as above.

8. SHARE CAPITAL

(a) Authorized

The authorized share capital of the Company consists of an unlimited number of common shares without par value.

(b) Common shares

During the six months ended May 31, 2014, the Company:

- Issued 175,000 common shares at $0.10 per common share in relation to the exercise of 175,000 options.
- Issued 1,048,667 common shares at $0.25 per common share and 484,750 common shares at $0.10 per common share in relation to the exercise of warrants.

8. SHARE CAPITAL (Continued)

(b) Common shares (continued)

During year ended November 30, 2013, the Company:

- Issued 365,000 common shares at $0.10 per common share in relation to the exercise of 365,000 options. Share issuance costs totaled $852, for net proceeds of $35,648;

- Issued 5,600,000 common shares at $0.15 per common share in relation to the Acquisition (note 5); and

- Completed a non-brokered private placement of 10,000,000 units at a price of $0.15 per unit for gross proceeds of $1,500,000 (the “Financing”). Cash share issuance costs totaled $108,941 for net proceeds of $1,391,059. Each unit consisted of one share and one transferable share purchase warrant of the Company (the “Warrant”). Each Warrant entitles the holder to purchase one additional share in the Company at a price of $0.25 for a period of 12 months from the completion of the private placement and is subject to an exercise acceleration clause. Under the acceleration clause, which the Company may exercise once the private placement units are free of the resale if the shares of the Company are trading at or above a volume weighted average price of $0.40 for more than 20 consecutive trading days, the Warrants will expire 30 days from the date the Company provides notice in writing to the warrant holders via a news release. Pursuant to the terms of the Financing, the Company paid to Haywood Securities Inc. a finders’ fee of $100,020 and issued 1,000,200 finders warrants (each, a “Finder Warrant”) fair valued at $53,044. Each Finder Warrant is exercisable into one common share of the Company for a period of 12 months at a price of $0.25.

(c) Escrowed shares

As at May 31, 2014, the Company has 4,620,000 (2013: 6,930,000) common shares held in escrow. These shares will be released from escrow pro rata to the shareholders as to 15% every six months after May 24, 2013 for a period of 30 months.

(d) Stock options

During the year ended November 30, 2012, the Company adopted a stock option plan, which provides that the Board of Directors may from time to time, in its discretion, and all in accordance with the Exchange requirements, grant to directors, officers, employees and consultants of the Company, non-transferable options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the issued and outstanding common shares exercisable for five years from the date of grant.

On January 27, 2014, the Company granted 200,000 stock options to a consultant providing advisory services to the Company. The options are exercisable for four years at a price of $0.25 and vest every three months during the first year. The fair value of the stock options granted was estimated using the Black Scholes option pricing model with the following weighted average assumptions: risk-free interest rate of 1.00%; expected dividend rate of 0%; expected volatility of 108%; and expected life of four years. The fair value of these options was calculated at 8,565, which was recognized as share-based payment expense.

On September 24, 2013, the Company granted 150,000 stock options to a director of the Company at an exercise price of $0.20 per common share. The options are exercisable for a period of five years from date of grant. The fair value of the stock options granted was estimated using the Black-Scholes option pricing model with the following weighted average assumptions: risk-free interest rate of 1.40%; expected dividend rate of 0%; expected volatility of 109%; and expected life of 5 years. These options vest every three months from grant date for three years. The fair value of these options was calculated at $3,958, which was recognized as share-based payments.

On June 19, 2013, the Company granted 1,325,000 stock options to officers, directors and a consultant. The options are exercisable at a price of $0.23 per share. The shares will be exercisable for a period of five years from the grant date. The fair value of the stock options granted was estimated using the Black-Scholes option pricing model with the following weighted average assumptions: risk-free interest rate of 1.40%; expected dividend rate of 0%; expected volatility of 109%; and expected life of 5 years. These options vest every three months from grant date for three years. The fair value of these options was calculated at $31,866, which was recognized as share-based payments.

(d) Stock options (continued)

On May 3, 2012, the Company granted 700,000 stock options to its officers and directors. The options are exercisable at a price of $0.10 per share. The options will be exercisable for a period of five years from the grant date. The fair value of the stock options granted was estimated using the Black-Scholes option pricing model with the following weighted average assumptions: risk-free interest rate of 1.56%; expected dividend rate of 0%; expected volatility of 100%; and expected life of 5 years. The fair value of these options was calculated at $36,500, which was recognized as share-based payments.

Companies are required to utilize an estimated forfeiture rate when calculating the expense for the reporting period. Based on the best estimate, management applied the estimated forfeiture rate of 0% in determining the expense recorded in the accompanying consolidated statements of operations.

The expected volatility used in calculating the fair value of stock options granted is determined based on the historical share price of peer group companies over the estimated lives of the stock options.

The options outstanding and exercisable at May 31, 2014 are as follows:

Number Outstanding	Weighted Average Exercise Price ($)	Weighted Average Remaining Contractual Life (Years)

12. FINANCIAL INSTRUMENTS

(a) Fair values

Financial instruments recognized at fair value on the consolidated statements of financial position must be classified in one of the following three fair value hierarchy levels:

(Expressed in Canadian Dollars - unaudited)

12. FINANCIAL INSTRUMENTS (Continued)

Level 1 – measurement based on quoted prices (unadjusted) observed in active markets for identical assets or liabilities;

Level 2 – measurement based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability; or

Level 3 – measurement based on inputs that are not observable (supported by little or no market activity) for the asset or liability.

As at May 31, 2014 and 2013, the Company's financial instruments are comprised of cash and cash equivalents, short-term investments, and accounts payable and accrued liabilities. With the exception of cash and cash equivalents and short-term investments, all financial instruments held by the Company are measured at amortized cost.

(b) Credit risk

Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash and cash equivalents and short-term investments. The Company limits its exposure to credit loss by placing its cash and cash equivalents, and short-term investments with high credit quality financial institutions. The carrying amount of financial assets represents the maximum credit exposure.

	2014	2013
Cash and cash equivalents	$ 138,316	$ 1,521,211
Short-term investments	784,200	-
	$ 922,516	$ 1,521,211

(c) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meets its financial obligations as they become due. The Company's approach to managing liquidity is to ensure that it will have sufficient liquidity to meet its liabilities when due.

At May 31, 2014, the Company had cash and cash equivalents of $138,316 (2013: $1,521,211) and short-term investments of $784,200 (2013: $nil) available to apply against short-term business requirements and current liabilities of $38,073 (2013: $198,091). All of the liabilities presented as accounts payable and accrued liabilities are due within 90 days of May 31, 2014.
