Notes to Condensed Interim Financial Statements

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

30 April 2014

1. Nature and Continuance of Operations

Rheingold Exploration Corp. (the “Company”) was incorporated under the laws of the province of British Columbia on 29 July 2010.

The Company is a mining exploration company that is exploring for gold and other precious metals in the Rainy River district of northwestern Ontario. The Company’s current objective is to maximize shareholder value by exploring and developing its Pattullo mineral project in a cost effective and technically sound manner.

The Company’s head office is located at 128 Dunsmuir Street, Vancouver, BC, V6B 1X7, and the Company’s registered and records office is located at Suite 600, 1090 West Georgia Street, Vancouver, BC, V6E 3V7.

The Company’s condensed interim financial statements for the three month period ended 30 April 2014 and for the year ended 31 January have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The continuing operations of the Company are dependent upon the Company being able to satisfy its liabilities as they become due and to obtain the necessary financing to acquire, explore and develop its mineral property interests, the attainment of profitable mining operations or the receipt of proceeds from the disposition thereof. The Company had a net loss of \$31,851 for the three month period ended 30 April 2014 (2013 - \$32,587) and had working capital of \$160,664 as at 30 April 2014 (31 January 2014 - \$192,658).

The Company had cash and cash equivalents of \$166,367 at 30 April 2014 (31 January 2014 - \$187,647) but management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital. However, management believes that the Company’s capital resources should be adequate to continue operating and maintain its business strategy during fiscal 2015. However, if the Company is unable to raise additional capital in the near future, due to the Company’s liquidity problems, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favorable terms and/or pursue other remedial measures. These condensed interim financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

2. Significant Accounting Policies

Basis of Presentation

These condensed interim financial statements have been prepared on the basis of accounting policies and methods of companies consistent with those applied in the Company’s annual financial statements for the year ended 31 January 2014.

Statement of Compliance

The condensed interim financial statements of the Company have been prepared in accordance with International Accounting Standards (“IAS”) 34, “*Interim Financial Reporting*” using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

Rheingold Exploration Corp.

Notes to Condensed Interim Financial Statements

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

30 April 2014

Significant accounting judgments, estimates and assumptions

The preparation of the Company's condensed interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the condensed interim financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Areas requiring a significant degree of estimation and judgment relate to the recoverability of the carrying value of exploration and evaluation assets, fair value measurements for financial instruments and share-based payments, the recoverability and measurement of deferred tax assets and liabilities, and ability to continue as a going concern. Actual results may differ from those estimates and judgments.

New accounting standards and interpretations not yet adopted

At the date of authorization of these condensed interim financial statements, the IASB and IFRIC has issued the following new and revised standards, amendments and interpretations which are not yet effective.

IFRS 7 (Amendment) '*Financial Instruments: Disclosures*' is effective for annual periods beginning on or after 1 January 2015 and requires modification of associated disclosures upon application of IFRS 9 '*Financial Instruments: Classification and Measurement*'.

IFRS 9 '*Financial Instruments: Classification and Measurement*' is a new financial instruments standard effective for annual periods beginning on or after 1 January 2015 that replaces IAS 39 and IFRIC 9 for classification and measurement of financial assets and financial liabilities.

IAS 32 (Amendment) '*Financial instruments: presentation*' is effective for annual periods beginning on or after 1 January 2014 and includes amendments regarding presentation related to offsetting financial assets and financial liabilities.

The Company has not early adopted these standards, amendments and interpretations and anticipates that the application of these standards, amendments and interpretations will not have a material impact on the financial position and financial performance of the Company.

3. Financial Instruments and Risk Management

Fair values

As at 30 April 2014, the Company's carrying values of cash and cash equivalents and trade payables approximate their fair values due to their short term maturity.

	Fair value hierarchy	FVTPL, at fair value	Other liabilities, at amortized cost
As at 30 April 2014			
Cash and cash equivalents	Level 1	166,367	-
Trade payables	N/A	-	36,361
As at 31 January 2014			
Cash and cash equivalents	Level 1	187,647	-
Trade payables	N/A	-	23,990

Disclosure of a three-level hierarchy for fair value measurements based upon transparency of inputs to the valuation of financial instruments carried on the balance sheet at fair values is as follows:

Level 1: inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2: inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability.

Level 3: inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Credit risk

Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents and amounts receivable. The Company manages its credit risk relating to cash and cash equivalents by dealing only with high-rated financial institutions as determined by rating agencies. As at 30 April 2014, amounts receivable of \$27,775 comprised of Goods and Services Tax/Harmonized Sales Tax ("GST/HST") receivable of \$26,775 (31 January 2014 - \$25,862). As a result, credit risk is considered insignificant.

Liquidity risk

The Company manages liquidity risk by maintaining an adequate level of cash and cash equivalents to meet its ongoing obligations. The Company has been successful in raising equity financing in the past; however, there is no assurance that it will be able to do so in the future. As at 30 April 2014, the Company had working capital of \$160,806 (31 January 2014 - \$192,658). Liquidity risk is considered insignificant.

Other risks

11. Capital Management

Capital under management is considered to be the Company's shareholders' equity and any debt that it may issue. As at 30 April 2014, the Company's shareholders' equity was \$350,347 and it had no long-term debt. The Company's objectives when managing capital are to maintain financial strength and to protect its ability to meet its on-going liabilities, to continue as a going concern, to maintain creditworthiness and to maximize returns for shareholders over the long term. Protecting the ability to pay current and future liabilities includes maintaining capital above minimum regulatory levels, current financial strength rating requirements and internally determined capital guidelines and calculated risk management levels. The capital for expansion was mostly from proceeds from the issuance of common shares. This strategy is unchanged from fiscal 2014.

The Company is not subject to externally imposed capital requirements.

12. Commitment

The Company has certain obligations related to its exploration and evaluation properties (Note 7).

13. Subsequent Events

There are no reportable events occurring from the three month period ended 30 April 2014 to the date the condensed interim financial statements were authorized by the Board of Directors on 30 June 2014.
