(Formerly - Rheingold Exploration Corp.) Notes to the Condensed Consolidated Interim Financial Statements Nine Months Ended October 31, 2018 and 2017 (Expressed in Canadian Dollars)

### 1. Nature and Continuance of Operations

International Battery Metals Ltd. (formerly Rheingold Exploration Corp.), (the "Company") was incorporated under the laws of the province of British Columbia on 29 July 2010. The Company changed its name from Rheingold Exploration Corp. to International Battery Metals. Ltd. on August 28, 2017.

The Company's head office is located at Suite 510 744 West Hastings Street, Vancouver, British Columbia, V6C 1A5 and the Company's registered and records office is located at 725 Granville Street, Pacific Centre, Suite 400, Vancouver, BC V7Y 1G5.

The Company is an advanced technology company focused on Lithium brine extraction from oil field brines for petro lithium extraction projects.

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to a going concern which assumes that the Company will be able to continue its operations and will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

# 2. Basis of preparation and consolidation

These condensed consolidated interim financial statements of the Corporation have been prepared in accordance with International Financial Reporting Standards ("IFRS") and in accordance with International Accounting Standard ("IAS") IAS 34 "Interim Financial Reporting".

All inter-company transactions and balances have been eliminated upon consolidation. The Company's functional and presentation currency is the Canadian dollar.

These condensed consolidated interim financial statements do not include all of the information required for complete annual financial statements and should be read in conjunction with the Company's audited annual financial statements for the year ended January 31, 2018.

These condensed consolidated interim financial statements were approved and authorized for issue by the Board of Directors on December 31, 2018.

### 3. Summary of Significant Accounting Policies

The same accounting policies are used in the prepation of these condensed consolidated interim financial statements as for the most recent audited annual financial statements and reflect all the adjustments necessary for fair presentation of the results for the interim periods presented, with exception to the following:

(Formerly - Rheingold Exploration Corp.) Notes to the Condensed Consolidated Interim Financial Statements Nine Months Ended October 31, 2018 and 2017 (Expressed in Canadian Dollars)

### 3. Summary of Significant Accounting Policies (Continued)

#### **Basis of Consolidation**

In addition to the Company, the condensed consolidated interim financial statements incorporate the financial statements of its wholly owned subsidiary in the United States, Selective Adsorption Lithium ("SAL") (Note 5). A subsidiary is an entity over which the Company has control, directly or indirectly, where control is defined as the power to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. A subsidiary is consolidated from the date upon which control is acquired by the Company and all intercompany transactions and balances have been eliminated on consolidation.

#### Financial Instruments – "IFRS 9"

Effective February 1, 2018, the Company adopted IFRS 9 which replaced IAS 39, Financial Instruments: Recognition and Measurement ("IAS 39"). The Company applied the new standard retrospectively. The adoption of IFRS 9 did not have an impact on the Company's consolidated financial statements. The nature and effects of the key changes to the Company's accounting policies resulting from the adoption of IFRS 9 are summarized below.

### Classification of financial assets and financial liabilities

IFRS 9 contains three principal classification categories for financial assets: measured at amortized cost, fair value through other comprehensive income and fair value through profit or loss ("FVTPL"). The previous IAS 39 categories are eliminated. IFRS 9 bases the classification of financial assets on the contractual cash flow characteristics and the company's business model for managing the financial asset. The differences between the two standards did not impact the Company at the time of transition.

### Impairment of financial assets at amortized cost

IFRS 9 replaces the incurred loss model in IAS 39 with an expected credit loss ("ECL") model. The credit loss model groups receivables based on similar credit risk characteristics and days past due in order to estimate bad debts. The ECL model applies to the Company's receivables.

#### **Transition**

The following table shows the original measurement categories under IAS 39 and the new measurement categories under IFRS 9 as at January 1, 2018 for each class of the Company's financial assets and liabilities. There were no adjustments to the carrying amounts of financial instruments as a result of the change in classification from IAS 39 to IFRS 9. The Company has determined that the application of IFRS 9's impairment requirements as at January 1, 2018 does not result in any additional impairment allowances.

	Measurement category	
	IAS 39	IFRS 9
Cash	FVTPL	FVTPL
Amounts recievable	Loans and receivables	Amortized cost
Trade payables and other payables	Other financial liabilities	Amortized cost
Loan payable	Other financial liabilities	Amortized cost

(Formerly - Rheingold Exploration Corp.) Notes to the Condensed Consolidated Interim Financial Statements Nine Months Ended October 31, 2018 and 2017 (Expressed in Canadian Dollars)

### 3. Summary of Significant Accounting Policies (Continued)

# **Intangible assets**

Intangible assets include patented technology acquired by the Company and have finite useful lives measured at cost less accumulated amortization and any accumulated impairment losses. Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditures are recognized in profit or loss as incurred. Amortization is recorded using the straight-line method and is intended to amortize the cost of the assets over their estimated useful lives as follows:

• Patented technology 10 years

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

### **Foreign currency**

The functional and presentation currency of the Company is the Canadian dollar. Transactions in currencies other than the functional currency are recorded at the rates of exchange prevailing on dates of transactions. At each financial position reporting date, monetary assets and liabilities that are denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary assets and liabilities carried at fair value that are denominated in foreign currencies are translated at rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. The Company has determined that the functional currency of its foreign subsidiary is the US Dollar. Assets and liabilities are translated to the presentation currency at the year-end rates of exchange, and the results of their operations are translated at average rates of exchange for the year. The resulting translation adjustments are included in the consolidated statements of net loss comprehensive loss.

#### **Research and development**

Research costs are expensed in the period in which they are incurred. Development costs are expensed in the period in which they are incurred unless certain criteria, including technical feasibility, commercial feasibility, intent and ability to develop and use the technology, are met for deferral and amortization. Costs incurred in obtaining licenses are recorded at cost less accumulated amortization and any impairment losses. Transaction costs relating to the acquisition of technologies are recorded as deferred acquisition costs until the transaction is completed.

### New accounting pronouncements

IFRS 16 *Leases:* A new standard that sets out the principles for recognition, measurement, presentation, and disclosure of leases including guidance for both parties to a contract, the lessee and the lessor. The new standard eliminates the classification of leases as either operating or finance leases as is required by IAS 17 Leases and instead introduces a single lease accounting model. The standard is effective for annual periods beginning on or after January 1, 2019. The standard, made mandatory by the IASB, has not yet been adopted by the Company and is being evaluated to determine its impact.

(Formerly - Rheingold Exploration Corp.) Notes to the Condensed Consolidated Interim Financial Statements Nine Months Ended October 31, 2018 and 2017 (Expressed in Canadian Dollars)

### 4. Significant Accounting Judgements, Estimates and Assumptions

In the preparation of the condensed consolidated interim financial statements the Company has made the following significant critical judgements and estimates:

- The Company made critical judgements to determine the accounting treatment of the acquisition
  of SAL as an asset acquisition. The benefit of the Company acquiring SAL was the acquisition of
  its intellectual property.
- Management concluded that because SAL did not possess the necessary inputs and processes
  capable of producing outputs it did not meet the definition of a business as defined by IFRS.
  Accordingly, the transaction was accounted for as an acquisition of assets and the fair value of the
  consideration aid was allocated to the assets acquired.
- Evaluating whether the costs incurred by the Company in its acquisition of SAL meet the criteria for capitalizing as intangible assets. Management determined that as the acquisition constituted an acquisition of assets, all transaction costs have been appropriately capitalized.
- The Company assesses the carrying values of its intangible assets annually or more frequently if warranted by a change in circumstances. If it is determined that carrying values of assets cannot be recovered, the unrecoverable amounts are charged against current earnings. Recoverability is dependent upon assumptions and judgements regarding market conditions, costs of production and sustaining capital requirements. Other assumptions used in the calculation of recoverable amounts are discount rates, and future cash flows. A material change in assumptions may significantly impact the potential impairment of these assets.

Other significant judgements in applying the Company's accounting policies relate to the assessment of the Company's ability to operate as a going concern, functional currency determinations and the classification of its financial instruments.

# 5. Lithium Extraction Technology Asset Purchase

On April 13, 2018, the Company closed an asset purchase agreement with North American Lithium Inc. ("NAL") and Selective Adsorption Lithium ("SAL") a company controlled by shareholders of NAL pursuant to which the Company acquired NAL's data, analysis and reports related to lithium extraction from oil field brines for petro-lithium extraction projects for USD\$875,000 and acquired 100% of SAL which holds intellectual property for 25,309,488 common shares of the Company (the "Acquisition") at a price of \$0.225 per share. The Company granted a 5% gross profits royalty to NAL.

# 5. Lithium Extraction Technology Asset Purchase (Continued)

Additional consideration for the acquisition is in the form of performance shares, which will be issued upon SAL achieving certain milestones (the "Milestones") as follows:

	Number of performance shares
Milestone	to be issued
Shares on Closing Date (issued on April 13, 2018)	4,700,000
Shares on SAL and the Company filing three US or foreign patent applications	
with respect to intellectual property	4,000,000
Shares on SAL the Company filling thee additional patents with respect to	
intellectual property	5,536,496
Shares on SAL the Company filling thee additional patents with respect to	
intellectual property	5,536,496
Shares upon the Company completing either of the following: one or more	
private placements financing(s) resulting in the issuance of an aggregate of no	
less than 5,000,000 common shares in the Company; or completing a laboratory	
– scale pilot plant for the processing of lithium or lithium concentrates	5,536,496

As further consideration for the Acquisition the Company paid \$459,025 (US \$350,000) in cash. The 4,700,000 common shares had a deemed fair value of \$2,585,000 based on a closing price of \$0.55 of the Company's stock on the date of the closing of the acquisition.

The Company incurred \$50,000 in costs associated with the closing of the Acquisition and is required to issue a finder's fee of 100,000 common shares, deemed at fair value at the closing of the acquisition of \$55,000 based on a closing price of \$0.55 of the Company's stock on the date of the closing of the acquisition. As at October 31, 2018, the Company has yet to issue these shares and has recorded an obligation to issue shares of \$55,000 for the finder's shares to be issued upon successful completion of the milestone.

The Acquisition was considered an asset purchase for accounting purposes and the acquisition of the net assets of SAL and accounted for using the acquisition method, whereby the purchase consideration was allocated to the estimated fair values of the identifiable assets and liabilities acquired at the date of the Acquisition.

(Formerly - Rheingold Exploration Corp.) Notes to the Condensed Consolidated Interim Financial Statements Nine Months Ended October 31, 2018 and 2017 (Expressed in Canadian Dollars)

# 5. Lithium Extraction Technology Asset Purchase (Continued)

The purchase price was allocated to the net assets acquired in the acquisition as follows:

	Total
Purchase price:	
Performance shares	\$ 2,585,000
Finder's fee	105,000
Transaction costs	1,162,302
	\$ 3,852,302
Net assets acquired:	
Intellectual property	\$ 3,852,302
	\$ 3,852,302

### 6. Intangible Assets

On April 13, 2018, upon completion of the Acquisition (Note 5), the Company acquired certain intellectual property (the "Intellectual Property"), from the shareholders of SAL. The Intellectual Property was recorded at \$3,852,302. The acquired asset is considered to still be in development stage and is not amortized.

# 7. Related Party Balances and Transactions

### **Key management personnel compensation**

Key management personnel includes directors and officers of the Company. The remuneration of directors and other members of key management are as follows:

For the nine months ended October, 31,	2018	2017
Share-based payments	\$ 784,210	\$ 1,343,198
Retirement compensation	40,000	-

(Formerly - Rheingold Exploration Corp.) Notes to the Condensed Consolidated Interim Financial Statements Nine Months Ended October 31, 2018 and 2017 (Expressed in Canadian Dollars)

### 7. Related Party Balances and Transactions (Continued)

The Company entered into the following transactions with related parties for the nine months ended October 31, 2018:

- i. Incurred management fees of \$135,000 to a company controlled by the Chief Financial Officer of the Company;
- ii. Incurred salaries and benefits of \$233,889 to the Chief Executive Officer ("CEO") and the Chief Legal Officer of the Company;
- iii. Incurred consulting fees of \$4,200 to a director of the Company;
- iv. Incurred directors fees of \$45,000 to directors of the Company; and
- v. Incurred \$40,000 in retirement compensation to a company controlled by the former CEO of the Company.

Included in management fees is a \$50,000 incentive cash bonus paid to a company controlled by a director of the Company due and paid upon the completion of the agreement with NAL. Futher to the incentive package on the completion of the agreement are 100,000 common shares to be issued to the director of the Company. The Company has not yet issued the common shares.

During the nine months ended October 31, 2018. The Company terminated the employment contacts of two management members and paid out \$105,414 in serverance fees.

#### Due from/to related parties

Trade payables and accrued liabilities of the Company include the following amounts due to related parties:

	As at (	October 31, 2018	As at January, 30 2018
Directors of the Company	\$	34,000	\$ 56,482
Total amount due to related parties	\$	34,000	\$ 56,482

#### 8. Loans Payable

On October 4, 2017, the Company entered into a loan agreement with Mackie Research Capital Corp. (the "Lender") for \$200,000. The initial term of the loan was for a period of one year with interest payable at ten percent per annum, payable at maturity. As further consideration for providing the loan, the Company granted the Lender 500,000 special units (fair valued at \$200,000), exercisable at \$0.40 into an underlying unit of one common share and one common share purchase warrant. Each underlying warrant will be exercisable for a period of two years at an exercise price of \$0.52.

The Company has fair valued the cost of the warrants using the Black-Scholes Option Pricing model with the following assumptions: no expected dividends to be paid; volatility of 150% based on historical volatility; risk-free interest rate of 2.38%; and a term of 1 year. The discount is being amortized over the term of the debt. During the nine month period ended October 31, 2018, the Company recorded an accretion expense of \$134,795 (2017 - \$nil) related to this debt. The principle balance of the loan was repaid on April 17, 2018.

(Formerly - Rheingold Exploration Corp.) Notes to the Condensed Consolidated Interim Financial Statements Nine Months Ended October 31, 2018 and 2017 (Expressed in Canadian Dollars)

### **8. Loans Payable** (Continued)

A summary of the loan is as follows:

	Amount
Loan proceeds	\$ 200,000
Loan costs (special units value)	(200,000)
	-
Interest accrued	10,932
Interest accreted	200,000

Total	\$ 10,932

# 9. Share Capital

#### **Share Issuances**

Nine months ended October 31, 2018

During the nine month period ended October 31, 2018, the Company:

- a) Throughout the nine months ended October 31, 2018, the Company issued 2,319,300 common shares on the exercise of 2,319,300 warrants for proceeds of \$1,119,036. 2,219,300 common shares exercised were eligible for a warrant incentive program whereby the Company granted an additional warrant of \$0.75 per share for a period of two years from the date of issuance upon the exercise of certain outstanding warrants. The issuance of incentive warrants is accounted for as a modification to share purchase warrants reserve and the Company determined the fair value of these incentive warrants to be \$967,200 using the Black-Scholes Pricing Model.
- b) On May 22, 2018 the Company closed second tranche of its previously announced non-brokered private placement by issuing 799,999 units at a price of \$0.35 per unit for gross proceeds of \$280,000. Each unit consists of one common share and one half of one non-transferable share purchase warrant.
