Notes to the Condensed Consolidated Interim Financial Statements

For the three and six months ended July 31, 2020 and 2019

(Expressed in Canadian dollars)

(Unaudited)

1. Nature and Continuance of Operations

International Battery Metals Ltd., (the “Company”) was incorporated under the Business Corporations Act (British Columbia) on July 29, 2010. The Company trades on the Canadian Securities Exchange under the stock symbol “IBAT”.

The Company’s head office is located at 625 Howe Street, Suite 1140, Vancouver, British Columbia, V6C 2T6 and the Company’s registered and records office is located at Suite 704, 595 Howe Street, Vancouver BC, V6C 2T5.

The Company is an advanced technology company focused on lithium extraction from salars, geothermal brines and oil field brines.

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to a going concern which assumes that the Company will be able to continue its operations and will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

The Company incurred a net loss of \$197,294 for the six months ended July 31, 2020 and as of that date the Company’s accumulated deficit was \$10,812,930. The Company will periodically have to raise funds to continue operations and, although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future. These factors comprise a material uncertainty which may cast significant doubt about the Company’s ability to continue as a going concern. These condensed consolidated interim financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate.

Since March 2020, several measures have been implemented in Canada and the rest of the world in response to the increased impact from novel coronavirus (“COVID-19”). The Company continues to operate its business at this time. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on business operations, cannot be reasonably estimated at this time. The Company anticipates this could have an adverse impact on its operations.

Basis of Preparation

Statement of compliance

The condensed consolidated interim financial statements of the Company have been prepared in accordance with IFRS applicable to the preparation of interim financial statements, including International Accounting Standards (“IAS”) 34, Interim Financial Reporting, as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

The Company’s condensed consolidated interim financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value.

2. Basis of Preparation *(continued)*

In addition to the Company, the condensed consolidated interim financial statements incorporate the financial statements of its wholly owned subsidiaries in the United States, IBAT USA, Inc. and Selective Adsorption Lithium, Inc. (“SAL”) (Note 6).

Basis of consolidation

A subsidiary is an entity over which the Company has control, directly or indirectly, where control is defined as the power to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. A subsidiary is consolidated from the date upon which control is acquired by the Company and all intercompany transactions and balances have been eliminated on consolidation.

3. Summary of Significant Accounting Policies

The accounting policies followed by the Company are set out in Note 3 to the audited annual financial statements for the year ended January 31, 2020 and have been consistently followed in the preparation of these condensed consolidated interim financial statements.

Accounting standards issued but not yet effective

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective. The Company has not early adopted any new standards and determined that there are no standards that are relevant to the Company.

4. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the Company’s condensed consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the condensed consolidated interim financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. In preparing these condensed consolidated interim financial statements, the significant estimates and critical judgments were the same as those applied to the audited financial statements as at and for the year ended January 31, 2020.

As at July 31, 2020, the deposit has a balance of USD\$81,874 (CAD\$109,821). As at July 31, 2020 Company has recorded \$201,531 as an obligation to issue shares to the third party.

7. Lithium Extraction Technology Asset Purchase

On April 12, 2018, the Company closed an asset purchase agreement with North American Lithium Inc. ("NAL") and SAL, a company formerly controlled by shareholders of NAL, pursuant to which the Company acquired (i) NAL's data, analysis and reports related to lithium extraction from oilfield brines for petro-lithium extraction projects for consideration of US\$875,000 cash and (ii) 100% of the outstanding shares of SAL, which holds intellectual property for consideration of up to 25,309,488 common shares of the Company (the "Acquisition"). As part of the exchange, the Company also granted a 5% gross profits royalty to NAL.

The 25,309,488 in share-based consideration for the acquisition is in the form of milestone shares ("Milestone shares") will be issued upon SAL achieving certain milestones (the "Milestones") as follows:

Milestone	Number of performance shares to be issued
Shares on closing date (issued on April 12, 2018)	4,700,000
Shares on SAL and the Company filing three U.S. or foreign patent applications with respect to intellectual property	4,000,000
Shares on SAL and the Company filing three additional patents with respect to intellectual property	5,536,496
Shares on SAL and the Company filing three additional patents with respect to intellectual property	5,536,496
Shares upon the Company completing either of the following: one or more private placement financing(s) resulting in the issuance of an aggregate of no less than 5,000,000 common shares in the Company; or completing a laboratory – scale pilot plant for the processing of lithium or lithium concentrates (issued on November 7, 2018)	5,536,496

During the year ended January 31, 2019, the Company issued 4,700,000 common shares with a fair value of \$2,256,000 on the date of closing the acquisition.

The remaining shares are contingently issuable, and their fair value was estimated using a probability-weighted analysis based on the probability of achieving the Milestones. The resulting valuation was recorded as obligation to issue Milestone shares of \$3,201,185. On November 7, 2018, the Company issued 5,536,496 Milestone shares and transferred \$2,657,734 from obligation to issue shares to share capital.

7. Lithium Extraction Technology Asset Purchase (*continued*)

As at July 31, 2020, the Company has an obligation to issue Milestone shares of \$543,451 (January 31, 2020 – \$543,451). The Company incurred an additional \$50,000 in costs associated with the closing of the Acquisition and is required to issue a finder's fee of 100,000 common shares, valued at \$48,000 (Note 14). As at July 31, 2020 the Company has yet to issue these shares and has recorded an obligation to issue shares of \$48,000 (January 31, 2020 - \$48,000) (Note 14).

In November 2018, the Company entered into licensing agreements as amended with Ensorcia Metals Corporation ("Ensorcia") and its wholly-owned subsidiaries, Sorcia Minerals LLC ("Sorcia") and Ensorcia Argentina LLC ("EAL") whereby the Company issued lithium extraction technology licenses to Sorcia and EAL to use Extraction systems manufactured by the Company in exchange for a six percent royalty (6%) on the gross sales price of all products produced and sold, less selling costs, using the Licensed Technology and a ten percent (10%) common membership interest in Sorcia and EAL. The agreements can be terminated by the Company if the first extraction system is not installed or operational by June 30, 2021. As a signing incentive, the Company issued 1,000,000 common share purchase warrants valued at \$103,512 to Ensorcia for the agreement with Sorcia which were expensed as a share-based payment expense to obtain a contract. The Company has been delayed in finalizing the engineering and the sourcing of equipment and fabricators to build the initial mobile extraction unit for deployment in South America. As a result, the current proposed build of the extraction system is expected to be delayed. These delays resulted in the Company agreeing to extend the Ensorcia Licensing agreement until June 30, 2021 due to the various issues, delays, and problems created by the coronavirus.

The investments in Sorcia and EAL are accounted for as investments carried at FVTPL. As the entities are shell holding companies, their fair value at initial recognition, July 31, 2020 and January 31, 2020 are \$nil.

8. Intangible Assets

On April 12, 2018, upon completion of the Acquisition (Note 6), the Company acquired certain intellectual property (the "Intellectual Property"), from the shareholders of SAL. A continuity of the Company's intangible assets is as follows:

13. Reserves (continued)

As at January 31, 2020, 300,000 special unit warrants were outstanding and exercisable. Each special unit warrant outstanding was exercisable at \$0.35 for a period of 24 months from the date of issuance into one common share and one share purchase warrant. On May 10, 2020, the special unit warrants expired unexercised. As a result, \$109,547 was reversed from reserves and credited to share capital.

Derivative liability

The Company's derivative liability arises as a result of the issuance of warrants exercisable in United States dollars. As the denomination is different from the Company's Canadian dollar functional currency, the Company recognizes a derivative liability for these warrants and remeasures the liability at the end of each reporting period using the Black-Scholes option pricing model.

A reconciliation of the changes in the derivative liability during the period is as follows:

Balance, January 31, 2019	-
Recognition upon issuance	1,147,173
Change in fair value	(59,318)
Balance, January 31, 2020	1,087,855

Fair value determination

Fair values were estimated using the Black-Scholes Option Pricing Model with the following assumptions:

	Six months ended July 31, 2020		Year-ended January 31, 2020	
	Options	Warrants	Options	Warrants
Risk-free interest rate	0.24%	1.33 – 1.74%	-	1.33 – 1.74%
Expected volatility	128%	122 - 133%	-	122 - 133%
Expected life (years)	3.00	2.00	-	2.00
Expected dividend yield	0.00%	0.00%	-	0.00%

The expected volatility assumptions have been developed taking into consideration historical volatility of the Company's share price.

17. Capital Risk Management

The Company manages its capital structure and makes adjustments to it to effectively support the development and acquisition of technologies extraction and processing of lithium from various sources, as well as the acquisition of lithium resource properties. In the definition of capital, the Company includes, as disclosed on its statement of financial position: share capital, deficit and reserves.

The Company is dependent on external financing to fund its activities. In order to carry out the planned development and acquisitions and pay for general administrative costs, the Company will be using its existing working capital and will raise additional amounts as needed. The Company will continue to develop and acquire new technology if it feels there is sufficient economic potential and if it has adequate financial resources to do so.

17. Capital Risk Management (continued)

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the six months ended July 31, 2020. The Company is not subject to externally imposed capital requirements and does not have exposure to asset-backed commercial paper or similar products.

18. Financial Instruments and Risk Management

Categories of financial instruments

	July 31, 2020	January 31, 2020
	\$	\$

Other liabilities, at amortized cost		
Trade payables and other liabilities	604,286	640,427
Lease liability	-	5,572
Total financial liabilities	1,100,749	1,733,854

The Company has classified fair value measurements of its financial instruments using a fair value hierarchy that reflects the significance of inputs used in making the measurements as follows:

- Level 1 fair value measurements are those derived from quoted prices in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1, that are observable either directly or indirectly.
- Level 3 fair value measurements are those derived from valuation techniques that include inputs that are not based on observable market data.

The fair value of financial assets and financial liabilities at amortized cost is determined based on discounted cash flow analysis or using prices from observable current market transactions. The Company considers that the carrying amount of all its financial assets and financial liabilities recognized at amortized cost in the condensed consolidated interim financial statements approximates their fair value due to the demand nature or short-term maturity of these instruments. Cash is measured using level 1 of the fair value hierarchy. Derivative liability is measured at level 3 of the fair value hierarchy. The financial asset portion of amounts receivable does not include amounts due from a government agency as it is a statutory (not contractual) obligation.

17. Financial Instruments and Risk Management (continued)

Credit risk

Financial instruments that potentially subject the Company to credit risk consist of cash and amounts receivable. The Company manages its credit risk relating to cash by dealing only with high-rated financial institutions as determined by rating agencies. As at July 31, 2020, amounts receivable of \$6,389 are due from a government agency. As a result, credit risk is considered insignificant. The Company does not consider any of its financial assets to be impaired.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The Company manages liquidity risk by maintaining sufficient cash balances to enable settlement of transactions on the due date. The Company addresses its liquidity by raising capital through the issuance of equity. While the Company has been successful in securing financings in the past, there is no assurance that it will be able to do so in the future. The Company is exposed to liquidity risk.

Foreign currency risk

Foreign currency risk is the risk that a variation in exchange rates between the Canadian dollar and the U.S. dollar will affect the Company's operations and financial results. The operating results and financial position of the Company are reported in Canadian dollars.

As at July 31, 2020, if the value of the Canadian dollar had strengthened or weakened by 5% against the U.S. dollar, with all other variables held constant, comprehensive loss would have been approximately \$16,000 lower or higher respectively.

Other risks

Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest rate risk and commodity price risk arising from financial instruments.

18. Segmented Information

The Company has a single reportable segment, the acquisition and development of advanced technology focused on Lithium brine extraction from oil field brines for petro lithium extraction projects. All non-current assets are domiciled in the United States.
