The Corporation has applied to list its Common Shares on the Exchange. Listing will be subject to the Corporation fulfilling all of the listing requirements of the Exchange.

As of the date of this prospectus, the Corporation does not have any of its securities listed or quoted, has not applied to list or quote any of its securities, and does not intend to apply to list or quote any of its securities, on the Toronto Stock Exchange, a U.S. marketplace, or a marketplace outside Canada and the United States of America other than the Alternative Investment Market of the London Stock Exchange or the PLUS markets operated by PLUS Markets Group plc.

Investment in the Common Shares offered by this prospectus is highly speculative due to the nature of the Corporation's business and its present stage of development. This Offering is suitable only to those investors who are prepared to risk the loss of their entire investment. See "Risk Factors".

Jordan Capital Markets Inc., as Agent, offers these Common Shares on a commercially reasonable efforts basis, if, as and when subscriptions are accepted by the Corporation, subject to prior sale, in accordance with the terms and conditions of the Agency Agreement referred to under "Plan of Distribution" and subject to the approval of certain legal matters by Anfield Sujir Kennedy & Durno LLP ("**ASKD**"), on behalf of the Corporation and by Getz Prince Wells LLP ("**GPW**"), on behalf of the Agent.

PROSPECTUS SUMMARY

The following is a summary of the principal features of this distribution and should be read together with the more detailed information and financial data and statements contained elsewhere in this prospectus.

Business of the Corporation: The principal business of the Corporation will be the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Corporation has not commenced commercial operations and has no assets other than a minimal amount of cash. The Corporation has not identified any potential acquisitions. An acquisition financed by the issuance of Common Shares could result in a change in control of the Corporation and may cause the shareholders' interests in the Corporation to be diluted. See "Business of the Corporation" and "Dilution".

Offering: A total of 3,000,000 Common Shares are being offered under this prospectus at a price of \$0.10 per Common Share. In addition, the Corporation will grant to the Agent the Agent's Option to purchase up to 300,000 Common Shares at an exercise price of \$0.10 per Common Share which will be exercisable for a period of 24 months from the date of listing of the Common Shares on the Exchange. The grant of the Agent's Option is qualified under this prospectus.

The Corporation has also granted options to purchase an aggregate of 600,000 Common Shares to directors and officers under the Corporation's share option plan. The grant of all of these stock options is also qualified under this prospectus. See "Options to Purchase Securities".

Use of Proceeds: The net proceeds of this Offering together with the proceeds from the prior sales of Common Shares, in the aggregate amount of \$345,300, will be used to provide the Corporation with a minimum of funds with which to identify and evaluate assets or businesses for acquisition with a view to completing a Qualifying Transaction. The Corporation may not have sufficient funds to secure such businesses or assets once identified and evaluated and additional funds may be required. Until Completion of the Qualifying Transaction and except as otherwise provided in the CPC Policy, a maximum of the lesser of 30% of the gross proceeds realized or \$210,000 may be used for purposes other than evaluating businesses or assets. See "Use of Proceeds", "Business of the Corporation" and "Risk Factors".

Management and Directors:	John Eckersley	-	President, CEO, CFO, Corporate Secretary and Director
	Joshua Bleak	-	Director
	Roy Fuller	-	Director

Escrowed Securities: All 3,100,000 of the currently issued and outstanding Common Shares of the Corporation have been deposited in escrow pursuant to the terms of an Escrow Agreement and will be released from escrow in stages

over a period of up to three years after the date of the Final Exchange Bulletin. See "Escrowed Securities".

Risk Factors:

Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation's business and its present stage of development. The Corporation was only recently incorporated and has no active business or assets other than cash. It does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction. **The Offering is only suitable to investors who are prepared to rely entirely on the directors and management of the Corporation and can afford to risk the loss of their entire investment.** The directors and officers of the Corporation will only devote part of their time and attention to the affairs of the Corporation and there are potential conflicts of interest to which some of the directors and officers of the Corporation will be subject in connection with the operations of the Corporation. Assuming completion of the Offering, an investor will suffer an immediate dilution on investment of 25.4% or \$0.025 per Common Share based on the gross proceeds of this Offering and prior issues, before deduction of selling commissions or related expenses of the Offering. There can be no assurance that an active and liquid market for the Corporation's Common Shares will develop and an investor may find it difficult to resell the Common Shares. Until Completion of the Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Corporation has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Corporation will be able to identify or complete a suitable Qualifying Transaction.

The Qualifying Transaction may involve the acquisition of a business or assets located outside of Canada. It may therefore be difficult or impossible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and it may not be possible to enforce against such persons or companies judgments obtained in Canadian courts predicated upon the civil liability provisions applicable to securities laws in Canada. See "Business of the Corporation", "Directors, Officers and Promoters", "Capitalization", "Dilution", "Risk Factors" and "Conflicts of Interest".

THE CORPORATION

The Corporation was incorporated on October 19, 2011, pursuant to the provisions of the *Business Corporations Act* (British Columbia) under the name "Scorpion Resources Inc."

The head office and the registered office of the Corporation is located at Suite 1600, 609 Granville Street, Vancouver, British Columbia, V7Y 1C3.

BUSINESS OF THE CORPORATION

Preliminary Expenses

Other than a non-refundable deposit of \$5,600 (inclusive of HST), paid to the Agent to be applied against the corporate finance fee of \$10,000, (plus applicable taxes), \$5,000 paid to the Agent as an advance retainer covering part of the Agent's legal fees and out of pocket expenses, and Exchange filing fees of \$5,600 (inclusive of HST), the Corporation has not incurred any expenses to date in proceeding with the Offering. However, certain of the Offering proceeds will be utilized to satisfy the obligations of the Corporation related to the Offering, including filing fees, the expenses of its auditor, legal expenses and the Agent's legal counsel. See "Use of Proceeds".

Proposed Operations until Completion of a Qualifying Transaction

The Corporation proposes to identify and evaluate businesses and assets with a view to completing a Qualifying Transaction. Any proposed Qualifying Transaction must be accepted by the Exchange and in the case of a Non Arm's Length Qualifying Transaction is also subject to Majority of the Minority Approval in accordance with the CPC Policy. The Corporation has not conducted commercial operations. The Corporation currently has not identified a specific business sector in which it proposes to pursue a Qualifying Transaction.

Until Completion of a Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of businesses or assets with a view to completing a potential Qualifying Transaction. With the consent of the Exchange, this may include the raising of additional funds in order to finance an acquisition. Except as described under "Private Placement for Cash" and "Restrictions on Use of Proceeds", the funds raised pursuant to this Offering and any subsequent financing will be utilized only for the identification and evaluation of potential Qualifying Transactions and not for any deposit, loan or direct investment in a potential acquisition.

The Corporation has not yet entered into an Agreement in Principle.

Method of Financing

The Corporation may use either cash, bank financing, the issuance of treasury shares, public debt or equity financing or a combination of these for the purpose of financing its proposed Qualifying Transaction. **A Qualifying Transaction financed by the issue of treasury shares could result in a change in the control of the Corporation and may cause the shareholders' interest in the Corporation to be further diluted.**

Criteria for a Qualifying Transaction

The Corporation will consider acquisitions of assets or businesses operated or located both inside and outside of Canada, as permitted by the CPC Policy. All potential acquisitions will be screened initially by management of the Corporation to determine their economic viability. Approval of acquisitions will be

made by the board of directors. The board of directors will examine proposed acquisitions having regard to sound business fundamentals, utilizing the expertise and experience of the directors. The board of directors of the Corporation must approve any proposed Qualifying Transaction. In exercising their powers and discharging their duties in relation to a proposed Qualifying Transaction, the directors will act honestly and in good faith with a view to the best interests of the Corporation and will exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

Filings and Shareholder Approval of a Non Arm's Length Qualifying Transaction

Upon the Corporation reaching an Agreement in Principle, the Corporation must issue a comprehensive news release, at which time the Exchange generally will halt trading in the Corporation's Common Shares until the filing requirements of the Exchange have been satisfied as set forth under "Trading Halts, Suspensions and Delisting". Within 75 days after issuance of such news release, the Corporation shall be required to submit for review to the Exchange either an information circular that complies with applicable corporate and securities laws or a filing statement that complies with Exchange requirements. An information circular must be submitted where there is a Non Arm's Length Qualifying Transaction. A filing statement must be submitted where the Qualifying Transaction is not a Non Arm's Length Qualifying Transaction. The information circular or filing statement, as applicable, must contain prospectus level disclosure of the Target Company and the Corporation, assuming Completion of the Qualifying Transaction, and be prepared in accordance with the CPC Policy and Form 3B1 or Form 3B2, as the case may be, of the Exchange. Upon acceptance by the Exchange, the Corporation must then either:

1. file the filing statement on SEDAR at least seven business days prior to closing of the Qualifying Transaction, and issue a news release which discloses the scheduled closing date for the Qualifying Transaction as well as the fact that the filing statement is available on SEDAR; or
2. mail the information circular and related proxy material to its shareholders in order to obtain the Majority of the Minority Approval of the Qualifying Transaction or other requisite approval, at a meeting of shareholders.

Unless waived by the Exchange, the Corporation will also be required to retain a Sponsor, who must be a Member of the Exchange, and who will be required to submit to the Exchange a Sponsor Report prepared in accordance with the policies of the Exchange. The Corporation will no longer be considered to be a CPC upon the Exchange having issued the Final Exchange Bulletin. The Exchange will generally not issue the Final Exchange Bulletin until the Exchange has received:

1. in the case of a Non Arm's Length Qualifying Transaction, confirmation of Majority of Minority Approval of the Qualifying Transaction;
2. confirmation of closing of the Qualifying Transaction; and
3. all post-meeting or final documentation, as applicable, otherwise required to be filed with the Exchange pursuant to the CPC Policy.

Upon issuance of the Final Exchange Bulletin, the CPC Policy will generally cease to apply, with the exception of the escrow provisions of the CPC Policy and the restrictions in the CPC Policy precluding the Corporation from completing a reverse takeover for a period of one year from the Completion of the Qualifying Transaction.

Initial Listing Requirements

The Resulting Issuer must satisfy the Exchange's Initial Listing Requirements for the particular industry sector in either Tier 1 or Tier 2 as prescribed under the applicable Policies of the Exchange.

Trading Halts, Suspensions and Delisting

The Exchange will generally halt trading in the Common Shares from the date of the public announcement of an Agreement in Principle until all filing requirements of the Exchange have been satisfied, which includes the submission of a Sponsorship Acknowledgment Form where the Qualifying Transaction is subject to sponsorship. In addition, personal information forms, or, if applicable, declarations for all individuals who may be directors, senior officers, Promoters, or Insiders of the Resulting Issuer must be filed with the Exchange and any preliminary background searches that the Exchange considers necessary or advisable must also be completed before the trading halt will be lifted by the Exchange.

Even if all filing requirements have been satisfied and preliminary background checks completed, the Exchange may continue or reinstate a halt in trading of the Common Shares for public policy reasons including:

1. the unacceptable nature of the business of the Resulting Issuer; or
2. the number of conditions precedent to, or the nature and number of deficiencies required to be resolved prior to, completion of the Qualifying Transaction, are so significant or numerous as to make it appear to the Exchange that the halt should be reinstated or continued.

A trading halt may also be imposed by the Exchange where the Corporation fails to file the supporting documents relating to the Qualifying Transaction within a period of 75 days after public announcement of the Agreement in Principle or if the Corporation fails to file post-meeting or final documents, as applicable, within the time required. A trading halt may also be imposed if a Sponsor terminates its sponsorship.

The Exchange may suspend from trading or delist the Common Shares of the Corporation where the Exchange has not issued a Final Exchange Bulletin to the Corporation within 24 months of the date of listing. In the event that the Common Shares of the Corporation are delisted by the Exchange, within 90 days from the date of such delisting, the Corporation shall wind up and shall make a pro rata distribution of its remaining assets to its shareholders, unless shareholders, pursuant to a majority vote exclusive of the votes of Non Arm's Length Parties to the Corporation, determine to deal with the issuer or its remaining assets in some other manner. See "Filings and Shareholder Approval of a Non Arm's Length Qualifying Transaction".

Refusal of Qualifying Transaction

The Exchange, in its sole discretion, may not accept a Qualifying Transaction where:

1. the Resulting Issuer fails to satisfy the applicable Initial Listing Requirements of the Exchange;
2. the aggregate number of securities of the Resulting Issuer owned, directly or indirectly, by:
 - (a) a Member firm of the Exchange;
 - (b) registrants, unregistered corporate finance professionals, employee shareholders and partners of such Member firm; and

(c) Associates of any such person;

collectively, would exceed 20% of the issued and outstanding securities of the Resulting Issuer;

3. the Resulting Issuer will be a financial institution, finance company, finance issuer or mutual fund, as defined in the securities legislation;
4. the majority of the directors and senior officers of the Resulting Issuer are not residents of Canada or the United States or are individuals who have not demonstrated positive association as directors or officers with public companies that are subject to a regulatory regime comparable to the companies listed on a Canadian exchange;
5. notwithstanding the definition of a Qualifying Transaction, there is any other reason for denying acceptance of the Qualifying Transaction.

Permitted Use of Funds

Until the Completion of the Qualifying Transaction and except as otherwise specifically provided by the CPC Policy and described in "Restrictions on Use of Proceeds", "Private Placements for Cash", and "Prohibited Payments to Non Arm's Length Parties", the gross proceeds realized from the sale of all securities issued by the Corporation will be used by the Corporation only to identify and evaluate businesses or assets and obtain shareholder approval for a proposed Qualifying Transaction.

A maximum

aggregate amount of \$25,000 may also be advanced as a non-refundable deposit, unsecured deposit or advance to a Vendor or Target Company, as the case may be, to preserve assets without the prior acceptance of the Exchange.

Restrictions on Use of Proceeds

Until Completion of a Qualifying Transaction, not more than the lesser of 30% of the gross proceeds from the sale of all securities issued by the Corporation or \$210,000 will be used for purposes other than those described above. For greater certainty, expenditures which are not included as "Permitted Uses of Funds", listed above, include:

Private Placements for Cash

After the closing of the Offering and until the Completion of the Qualifying Transaction, the Corporation will not issue any securities unless written acceptance of the Exchange is obtained before issuance. Prior to the Completion of a Qualifying Transaction, the Exchange generally will not accept a private placement by the Corporation where the gross proceeds raised from the issuance of securities both prior to and pursuant to the Offering, together with any proceeds anticipated to be raised upon closing of the private placement, will exceed \$5,000,000. The only securities issuable pursuant to such a private placement will be Common Shares. Subject to certain limited exceptions, any Common Shares issued pursuant to the private placement to Non Arm's Length Parties to the Corporation and to Principals of the Resulting Issuer will be subject to escrow.

Prohibited Payments to Non Arm's Length Parties

Except as described under "Options to Purchase Securities" and "Restrictions on Use of Proceeds", the Corporation has not made, and until the Completion of the Qualifying Transaction will not make, any payment of any kind, directly or indirectly, to a Non Arm's Length Party to the Corporation or a Non Arm's Length Party to the Qualifying Transaction, or to a person engaged in investor relations activities, by any means, including:

Further, no such payment will be made on or after the Completion of a Qualifying Transaction if such payment relates to services rendered or obligations incurred prior to or in connection with the Qualifying Transaction.

Notwithstanding the above, the Corporation may reimburse a Non Arm's Length Party to the Corporation for reasonable expenses for office supplies, office rent and related utilities, equipment leases (excluding vehicle leases), and legal services (provided that neither the lawyer providing the legal services nor any member of the law firm providing the services is a Promoter of the Corporation or in the case of a law firm, no member of the firm owns greater than 10% of the outstanding Common Shares of the Corporation), and the Corporation may also reimburse a Non Arm's Length Party to the Corporation for reasonable out-of-pocket expenses incurred in pursuing the business of the Corporation described in "Permitted Use of Funds".

The foregoing restrictions on the use of proceeds and prohibitions on payments to Non Arm's Length Parties and persons engaged in investor relations activities continue to apply until the Completion of the Qualifying Transaction.

OPTIONS TO PURCHASE SECURITIES

The Corporation has adopted an incentive share option plan (the "**Option Plan**") which provides that the board of directors of the Corporation may from time to time, in its discretion, and in accordance with the Exchange requirements, grant to directors, officers, employees and consultants to the Corporation, non-transferable options to purchase Common Shares, provided that the number of Common Shares reserved for issuance will not exceed 10% of the issued and outstanding Common Shares at the time of completion of the Offering. Such options will be exercisable for a period of up to ten years from the date of grant. In connection with the foregoing, the number of Common Shares reserved for issuance to: (a) any individual will not exceed 5% of the issued and outstanding Common Shares; and (b) all consultants will not exceed 2% of the issued and outstanding Common Shares. In addition, the Option Plan provides that no more than 2% of the issued Common Shares of the Corporation will be granted to any one consultant in any 12 month period; and no more than an aggregate of 2% of the issued Common Shares of the Corporation will be granted to an employee conducting investor relations activities in any 12 month period. Options may be exercised for up to 90 days following cessation of the optionee's position with the Corporation, or such longer period as the board of directors of the Corporation may determine, provided that if the cessation of office, employment, directorship, or consulting arrangement was by reason of death, the option may be exercised within a maximum period of one year after such death, subject to the expiry date of such option. Notwithstanding any other provisions of this Option Plan, if a participant does not continue as an eligible person of the Resulting Issuer following the Completion of the Qualifying Transaction, then each option held by such participant shall terminate and therefore cease to be exercisable on the later of:

1. 12 months after the Completion of the Qualifying Transaction; and
2. 90 days after the participant ceases to be an eligible person of the Resulting Issuer, or such longer period as the board of directors of the Corporation may determine.

Any Common Shares acquired pursuant to the exercise of options under the Option Plan prior to Completion of the Qualifying Transaction must be deposited in escrow and will be subject to escrow until the Final Exchange Bulletin is issued. See "Escrowed Securities".

All Common Shares acquired on exercise of stock options prior to the Completion of a Qualifying Transaction must also be deposited in escrow and will be subject to escrow until the Final Exchange Bulletin is issued.

In addition, all Common Shares of the Corporation acquired in the secondary market prior to the Completion of a Qualifying Transaction by any person or company who becomes a Control Person are required to be deposited in escrow. Subject to certain exemptions permitted by the Exchange, all securities of the Corporation held by Principals of the Resulting Issuer, will also be escrowed.

Chris Bond Gilbert, AZ USA	50,000	50,000	1.61%	0.82%

Notes:

(1) Assuming no Common Shares are purchased by these persons under the Offering.

Where the Common Shares of the Corporation which are required to be held in escrow are held by a non-individual (a "**holding company**"), each holding company pursuant to the Escrow Agreement, has agreed, or will agree, not to carry out any transactions during the currency of the Escrow Agreement which would

result in a change of control of the holding company, without the consent of the Exchange. Any holding company must sign an undertaking to the Exchange that, to the extent reasonably possible, it will not permit or authorize any issuance of securities or transfer of securities that could reasonably result in a change of control of the holding company. In addition, the Exchange may require an undertaking from any control person of the holding company not to transfer the shares of that company.

Under the Escrow Agreement, 10% of the escrowed Common Shares will be released from escrow on the issuance of the Final Exchange Bulletin (the "**Initial Release**") and an additional 15% will be released on the dates 6 months, 12 months, 18 months, 24 months, 30 months and 36 months following the Initial Release.

If the Resulting Issuer meets the Exchange's Tier 1 Initial Listing Requirements either at the time the Final Exchange Bulletin is issued or subsequently, the release of the escrowed Common Shares will be accelerated. An accelerated escrow release will not commence until the Resulting Issuer has made application to the Exchange for listing as a Tier 1 issuer and the Exchange has issued a bulletin that announces the acceptance for listing of the Resulting Issuer on Tier 1 of the Exchange.

The Exchange's prior consent must be obtained before a transfer within escrow of escrowed Common Shares may be completed. Generally, the Exchange will only permit a transfer within escrow to be made to incoming Principals in connection with a proposed Qualifying Transaction.

If a Final Exchange Bulletin is not issued, the escrowed Common Shares will not be released. Under the Escrow Agreement, each Non Arm's Length Party to the Corporation who holds escrowed Common Shares acquired at a price below the Offering price under this prospectus has irrevocably authorized and directed Computershare Investor Services Inc., the escrow agent, to immediately:

1. cancel all of those escrowed Common Shares upon the issuance by the Exchange of a bulletin delisting the Common Shares of the Corporation; or
2. if the Corporation lists on NEX, either
 - (a) cancel all Seed Shares purchased by Non Arm's length Parties to the CPC at a discount from the IPO price, in accordance with section 11.2(a) of the CPC Policy, or
 - (b) subject to majority shareholder approval, cancel an amount of Seed Shares purchased by Non Arm's Length Parties to the CPC so that the average cost of the remaining Seed Shares is at least equal to the IPO price.

Escrowed Securities on Qualifying Transaction

Generally, if at least 75% of the securities issued pursuant to the Qualifying Transaction are "Value Securities", then all the securities issued to Principals of the Resulting Issuer pursuant to the Qualifying Transaction will be deposited into escrow pursuant to a value security agreement (the "**Value Security Escrow Agreement**"). "Value Securities" are securities issued pursuant to a transaction for which the deemed value of the securities at least equals the value ascribed to the assets, using a valuation method acceptable to the Exchange, or securities that are otherwise determined by the Exchange to be Value Securities and required to be placed in escrow under a Value Security Escrow Agreement. However, if at least 75% of the securities issued pursuant to the Qualifying Transaction are not Value Securities, all securities issued pursuant to the Qualifying Transaction will be deposited into a surplus security escrow agreement (a "**Surplus Security Escrow Agreement**").

The principal distinction between a Value Security Escrow Agreement and a Surplus Security Escrow Agreement is the time period for release of securities from escrow. In the case of a Resulting Issuer that

will be a Tier 2 issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for a three year escrow release mechanism with 10% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 15% of the escrowed securities being releasable every six months thereafter, until the date which is 36 months after the Final Exchange Bulletin. In the case of a Resulting Issuer that will be a Tier 2 issuer subject to a Surplus Security Escrow Agreement, when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a three year escrow release mechanism with: 5% of the escrowed securities being releasable at the time of the Final Exchange bulletin, 5% on the date which is six months after the Final Exchange Bulletin, 10% on each of the dates which are 12 and 18 months after the Final Exchange Bulletin, 15% on each of the dates which are 24 and 30 months after the Final Exchange Bulletin and 40% on the date which is 36 months after the Final Exchange Bulletin.

In the case of a Resulting Issuer that will be a Tier 1 issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for an 18 month escrow release mechanism with 25% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and with 25% of the escrowed securities being releasable every six months thereafter. In the case of a Resulting Issuer that will be a Tier 1 issuer when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a 18 month escrow release mechanism with 10% of the escrowed securities being releasable upon the issuance of the Final Exchange Bulletin, 20% on the date which is six months after the Final Exchange Bulletin, 30% on the date which is 12 months after the Final Exchange Bulletin and 40% on the date which is 18 months after the Final Exchange Bulletin.

Escrowed Securities on Private Placement

Securities issued pursuant to a private placement to Principals of the Corporation and the proposed Resulting Issuer will generally be exempt from escrow requirements where:

1. the private placement is announced at least five trading days after the news release announcing the Agreement in Principle and the pricing for the financing is at not less than the discounted market price, as determined in accordance with the policies of the Exchange; or
2. the private placement is announced concurrently with the Agreement in Principle; and
 - (a) at least 75% of the proceeds from the private placement are not from Principals of the Corporation or the proposed Resulting Issuer;

Corporate Cease Trade Orders or Bankruptcies

Except as set-out below, no director, officer, Insider or Promoter of the Corporation, or any shareholder holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation is or has within the ten years before the date of this prospectus been a director, officer, Insider or Promoter of any issuer that, while such person was acting in that capacity, was the subject of a cease trade or similar order or an order that denied the issuer access to any exemptions under applicable securities legislation for a period of more than 30 consecutive days or became a bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver-manager or trustee appointed to hold its assets.

John Eckersley, a director and officer of the Corporation, was a director of Silver Horn Mining Ltd. ("Silver Horn") during which time Silver Horn was subject to a cease trade order, issued by the British Columbia Securities Commission on February 1, 2012. The order was issued as a result of a failure to file required documents on SEDAR, as required by BC Instrument 51-509, and is still in effect. As of the date of this Prospectus, Mr. Eckersley remains a director of Silver Horn.

Penalties or Sanctions

No director, officer, Insider or Promoter of the Corporation, or any shareholder holding sufficient securities of the Corporation to affect materially the control of the Corporation has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by any securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority, or has been subject to any other penalties or sanctions imposed by a court or regulatory body or self-regulatory authority that would be likely to be considered important to a reasonable investor making an investment decision.

Personal Bankruptcies

Except as set out below, no director, officer, Insider or Promoter of the Corporation, or any shareholder holding sufficient securities of the Corporation to affect materially the control of the Corporation, or a personal holding company of any such persons, has, within the ten years preceding the date of this prospectus, as applicable, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or been subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold their assets.

John Eckersley, a director and officer of the Corporation, was subject to a personal bankruptcy which was discharged on October 20, 2006.

Conflicts of Interest

There are potential conflicts of interest to which the directors, officers, Insiders and Promoters of the Corporation may be subject in connection with the operations of the Corporation. All of the directors, officers, Insiders and Promoters are engaged in and will continue to be engaged in corporations or

businesses which may be in competition with the search by the Corporation for businesses or assets in order to close a Qualifying Transaction. Accordingly, situations may arise where all of the directors, officers, Insiders and Promoters will be in direct competition with the Corporation. Conflicts, if any, will be subject to the procedures and remedies as provided under the *Business Corporations Act* (British Columbia).

Executive Compensation

Except as set out below or otherwise disclosed in this prospectus, prior to Completion of a Qualifying Transaction, no payment of any kind has been made, or will be made, directly or indirectly, by the Corporation to a Non Arm's Length Party to the Corporation or a Non Arm's Length Party to the Qualifying Transaction, or to any person engaged in investor relations activities in respect of the securities of the Corporation or any Resulting Issuer by any means, including:

- (a) remuneration, which includes but is not limited to:
 - (i) salaries;
 - (ii) consulting fees;
 - (iii) management contract fees or directors' fees;
 - (iv) finder's fees;
 - (v) loans, advances, bonuses; and
- (b) deposits and similar payments.

However, the Corporation may reimburse Non Arm's Length Parties for the Corporation's reasonable allocation of rent, secretarial services and other general administrative expenses, at fair market value ("**Permitted Reimbursement**"). However, there have been no reimbursements since incorporation. No reimbursement may be made for any payment made to lease or buy a vehicle.

The directors and officers of the Corporation have also been granted stock options pursuant to the Option Plan.

Following Completion of the Qualifying Transaction, it is anticipated that the Corporation shall pay compensation to its officers. However, no payment other than the Permitted Reimbursements will be made by the Corporation or by any party on behalf of the Corporation after Completion of the Qualifying Transaction if the payment relates to services rendered or obligations incurred or in connection with the Qualifying Transaction.

PROMOTER

John Eckersley is the Promoter of the Corporation, in that he took the initiative in founding the Corporation. Mr. Eckersley directly holds 500,000 Common Shares (representing 16.13% of the outstanding common shares before the Offering) and 200,000 options.

DILUTION

Purchasers of Common Shares under this prospectus will suffer an immediate dilution of 25.4% or \$0.025 per Common Share on the basis of there being 6,100,000 Common Shares of the Corporation issued and outstanding following completion of the Offering. Dilution has been computed on the basis of total gross

proceeds to be raised by this prospectus and from sales of securities prior to filing of this prospectus, without deduction of commissions or related expenses incurred by the Corporation.

RISK FACTORS

Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation's business and its present stage of development. The following are risk factors associated with the Corporation:

1. the Corporation was only recently incorporated, has not commenced commercial operations and has no assets other than cash. It has no history of earnings, and shall not generate earnings or pay dividends until at least after Completion of the Qualifying Transaction;
2. investment in the Common Shares offered by the prospectus is highly speculative given the proposed nature of the Corporation's business and its present stage of development;
3. the directors and officers of the Corporation will only devote a portion of their time to the business and affairs of the Corporation and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time. See "Conflicts of Interest";
4. assuming completion of the Offering, an investor will suffer an immediate dilution to its investment of 25.4% or \$0.025 per Common Share;
5. there can be no assurance that an active and liquid market for the Corporation's Common Shares will develop and an investor may find it difficult to resell its Common Shares;
6. until Completion of a Qualifying Transaction, the Corporation is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions;
7. the Corporation has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Corporation will be able to identify a suitable Qualifying Transaction;
8. even if a proposed Qualifying Transaction is identified, there can be no assurance that the Corporation will be able to successfully complete the transaction;
9. Completion of a Qualifying Transaction is subject to a number of conditions including acceptance by the Exchange and, in the case of a Non Arm's Length Qualifying Transaction, Majority of the Minority Approval;
10. unless the shareholder has the right to dissent and be paid fair value in accordance with applicable corporate or other law, a shareholder who votes against a proposed Non Arm's Length Qualifying Transaction for which Majority of the Minority Approval by shareholders has been given, will have no rights of dissent and no entitlement to payment by the Corporation of fair value for the Common Shares;
11. upon public announcement of a proposed Qualifying Transaction, trading in the Common Shares of the Corporation will be halted and will remain halted for an indefinite period of time, typically until a Sponsor has been retained and certain preliminary reviews have been conducted. The Common Shares of the Corporation will be reinstated to trading before the Exchange has reviewed the transaction and before the Sponsor has completed its full review. Reinstatement to

trading provides no assurance with respect to the merits of the transaction or the likelihood of the Corporation completing the proposed Qualifying Transaction;

12. trading in the Common Shares of the Corporation may be halted at other times for other reasons, including for failure by the Corporation to submit documents to the Exchange in the time periods required;
13. the Exchange will generally suspend trading in the Corporation's Common Shares or delist the Corporation in the event that the Exchange has not issued a Final Exchange Bulletin within 24 months from the date of listing;
14. neither the Exchange nor any securities regulatory authority passes upon the merits of the proposed Qualifying Transaction;
15. in the event that management of the Corporation resides outside of Canada or the Corporation identifies a foreign business as a proposed Qualifying Transaction, investors may find it difficult or impossible to effect service of notice to commence legal proceedings upon any management resident outside of Canada or upon the foreign business and may find it difficult or impossible to enforce against such persons, judgments obtained in Canadian courts;
16. the Qualifying Transaction may be financed in whole or in part by the issuance of additional securities by the Corporation and this may result in further dilution to the investor, which dilution may be significant and which may also result in a change of control of the Corporation; and
17. subject to prior acceptance by the Exchange, the Corporation may be permitted to loan or advance up to an aggregate of \$250,000 of its proceeds to a target business without requiring shareholder approval and there can be no assurance that the Corporation will be able to recover that loan.

As a result of these factors, this Offering is only suitable to investors who are willing to rely solely on management of the Corporation and who can afford to lose their entire investment. Those investors who are not prepared to do so should not invest in the Common Shares.

LEGAL PROCEEDINGS

The Corporation is not currently a party to any legal proceedings, nor is the Corporation currently contemplating any legal proceedings. Management of the Corporation is currently not aware of any legal proceedings contemplated against the Corporation.

RELATIONSHIP BETWEEN THE CORPORATION AND THE AGENT

Corporation or any Associate or Affiliate of the Corporation; and as at the date hereof, the aforementioned Persons beneficially own, directly or indirectly, no securities of the Corporation or its Associates and Affiliates. In addition, none of the aforementioned Persons nor any director, officer or employee of any of the aforementioned Persons, is or is expected to be elected, appointed or employed as a director, senior officer or employee of the Corporation or of an Associate or Affiliate of the Corporation, or a Promoter of the Corporation or of an Associate or Affiliate of the Corporation.

1. Agency Agreement dated as of ♦, 2012 between the Corporation and the Agent. See "Plan of Distribution".
2. Escrow Agreement dated as of May 8, 2012 among the Corporation, Computershare Investor Services Inc., and those shareholders that executed such agreement. See "Escrowed Securities".

OTHER MATERIAL FACTS

There is no other material fact relating to the securities to be offered hereunder not disclosed elsewhere in this prospectus.

PURCHASERS' STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in the provinces of British Columbia, Alberta and Ontario provide purchasers with the right to withdraw from an agreement to purchase securities. The right may be exercised within two

business days after receipt or deemed receipt of a prospectus and any amendment. The securities legislation further provides a purchaser with remedies for rescission or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of these rights or consult with a legal adviser.

ELIGIBILITY FOR INVESTMENT

In the opinion of Legacy Tax & Trust Lawyers, special tax counsel to the Corporation, based on the provisions of the *Income Tax Act* (Canada) (the "Tax Act"), and the regulations thereunder in force as of the date hereof and the proposals to amend the Tax Act and the regulations thereunder publicly announced by the Minister of Finance (Canada) prior to the date hereof, provided that the Common Shares are listed on a "designated stock exchange" (as defined in the Tax Act and which includes the Exchange) or are or deemed to be shares of a "public corporation" (as that term is defined in the Tax Act) at the time of issuance upon closing of the Offering, the Common Shares will be "qualified investments" under the Tax Act for trusts governed by registered retirement savings plans ("RRSPs"), registered retirement income funds ("RRIFs"), deferred profit sharing plans, registered education savings plans, registered disability savings plans and tax-free savings accounts ("TFSA") as defined in the Tax Act (collectively, the "Plans").

The Shares are not currently listed on a designated stock exchange and the Corporation is not currently a "public corporation", as that term is defined in the Tax Act. The Corporation will elect to be a public corporation in its first income tax return, and will file the income tax return by its first filing due date if the Common Shares are listed on a "designated stock exchange" on or before that date. Under those circumstances, a duly filed election after the Common Shares are listed on the TSXV will result in the Common Shares being a qualified investment at the time of closing of the Offering.

If the Corporation is unable to make the public corporation election noted above because the Common Shares are not listed on a "designated stock exchange" on or before Corporation's first filing due date, then the Corporation will apply to list the Shares on the Exchange as of the day before closing of the Offering, followed by an immediate halt in trading, to be lifted after the closing. In this case, the Corporation will rely on the Exchange to list the Common Shares on the Exchange prior to the issuance of the Shares and otherwise proceed in the manner described above to render the Shares to be listed on a designated stock exchange within the meaning of the Tax Act for the Plans at the time of issuance. If the Exchange does not proceed as anticipated and described above, and a valid public corporation election is not made as contemplated above, the Shares will not be a "qualified investment" for the Plans at the time of issuance.

Notwithstanding the foregoing, if the Common Shares are a "prohibited investment" (as defined in the Tax Act) for a trust governed by a TFSA, RRSP or RRIF (a "Registered Plan"), the holder of the TFSA or the annuitant of the RRSP or RRIF, as the case may be, (such holder or annuitant being a "Controlling Individual" of the Registered Plan) will be subject to a penalty tax on the Common Shares as set out in the Tax Act. A Common Share will generally not be a prohibited investment for a trust governed by a Registered Plan held by a particular holder provided that the Controlling Individual deals at arm's length with the Company for the purposes of the Tax Act, and does not have a "significant interest" (as defined in the Tax Act) in either the Company or a company, partnership or trust that does not deal at arm's length with the Company for purposes of the Tax Act. In general terms, a Controlling Individual of a Registered Plan will have a significant interest in the Company if the Registered Plan, the Controlling Individual, and other persons not at arm's length with the Controlling Individual together, directly or indirectly, own not less than 10% of the outstanding Common Shares of the Company.

Prospective purchasers who intend to hold Common Shares in their TFSA, RRSP or RRIF should consult their own tax advisors regarding their particular circumstances.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audit is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these financial statements present fairly, in all material respects, the financial position of Scorpion Resources Inc. as at March 31, 2012 and the results of its operations and its cash flows for the period from incorporation on October 19, 2011 to March 31, 2012 then ended in accordance with International Financial Reporting Standards.

1. NATURE AND CONTINUANCE OF OPERATIONS

Scorpion Resources Inc. (the "Company") is in the process of completing an Initial Public Offering ("IPO") to be classified as a Capital Pool Company as defined in the TSX Venture Exchange ("TSX-V") Policy 2.4. The Company will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Company was incorporated as a private company by Certificate of Incorporation issued pursuant to the provisions of the *British Columbia Business Corporations Act* on October 19, 2011.

The Company's head office and registered and records office address is 1600 – 609 Granville Street, Vancouver, B.C., V7Y 1C3.

The statement of financial position of the Company is presented in Canadian dollars, which is the functional currency of the Company.

These financial statements are authorized for issue by the Board of Directors on _____.

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

The Company's continuing operations are dependent upon its ability to identify, evaluate and negotiate an agreement to acquire an interest in a material asset or business with 24 months of listing on the TSX-V (Note 9). Any acquisition or investment proposed by the Company will be subject to regulatory approval.

2. BASIS OF PREPARATION

These financial statements have been prepared using accounting policies consistent with IFRS. The financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information.

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the period. Actual results could differ from these estimates.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- i) Estimates used in the calculation of share-based payments and the valuation of warrants.
- ii) The valuation allowance applied to deferred tax assets.

3. SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents

The Company considers cash and cash equivalents to include cash on deposit, cash held in trust, highly liquid short term interest bearing variable rate Guaranteed Investment Certificates, and Bankers' Acceptance Papers.

Deferred financing costs

Costs directly identifiable with the raising of capital will be charged against the related capital stock. Costs related to shares not yet issued are recorded as deferred financing costs. These costs will be deferred until the issuance of the shares to which the costs relate, at which time the costs will be charged against the related capital stock or charged to operations if the shares are not issued.

Share-based payments

The Company uses the fair value method whereby the Company recognizes compensation costs for the granting of all stock options and direct awards of stock based on its fair value over the period of vesting. Any consideration paid by the option holders to purchase shares is credited to capital stock.

Foreign exchange

The Company's functional and reporting currency is the Canadian dollar. Transactions denominated in other currencies are translated into their Canadian dollar equivalents at exchange rates prevailing at the transaction date. Carrying values of monetary assets and liabilities denominated in foreign currencies are adjusted at the statement of financial position date to reflect exchange rates prevailing at that date. Non-monetary assets and liabilities are translated at historical exchange rates. Gains and losses on translation are included in determining net loss for the period.

Income taxes

Income tax is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity. Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at period end, adjusted for amendments to tax payable with regards to previous years.

Deferred tax is recorded using the liability method, providing for temporary differences, between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: goodwill not deductible for tax purposes; the initial recognition of assets or liabilities that affect neither accounting or taxable loss; and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the statement of financial position date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. To the extent that the Company does not consider it probable that a future tax asset will be recovered, it provides a valuation allowance against that excess.

3. **SIGNIFICANT ACCOUNTING POLICIES** (cont'd...)

Income taxes (cont'd)

Additional income taxes that arise from the distribution of dividends are recognized at the same time as the liability to pay the related dividend. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Loss per share

The Company presents basic loss per share for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive. There are no shares outstanding as at March 31, 2012, as they have been excluded from the weighted average number of shares because they are contingently returnable.

Comprehensive loss

Comprehensive income (loss) consists of net income (loss) and other comprehensive income (loss) and represents the change in shareholders' equity which results from transactions and events from sources other than the Company's shareholders. For the periods presented, comprehensive loss includes holding gains and losses from financial instruments classified as available-for-sale.

Financial instruments

Financial assets

The Company classifies its financial assets into one of the following categories, depending on the purpose for which the asset was acquired. The Company's accounting policy for each category is as follows:

Fair value through profit or loss - This category comprises derivatives, or assets acquired or incurred principally for the purpose of selling or repurchasing it in the near term. They are carried in the statement of financial position at fair value with changes in fair value recognized in the statement of comprehensive loss.

Loans and receivables - These assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are carried at cost less any provision for impairment. Individually significant receivables are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty will default.

Held-to-maturity investments - These assets are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Company's management has the positive intention and ability to hold to maturity. These assets are measured at amortized cost using the effective interest method. If there is objective evidence that the investment is impaired, determined by reference to external credit ratings and other relevant indicators, the financial asset is measured at the present value of estimated future cash flows. Any changes to the carrying amount of the investment, including impairment losses, are recognized in the statement of comprehensive loss.

3. **SIGNIFICANT ACCOUNTING POLICIES** (cont'd...)

Financial instruments (cont'd...)

Financial assets (cont'd...)

Available-for-sale - Non-derivative financial assets not included in the above categories are classified as available-for-sale. They are carried at fair value with changes in fair value recognized directly in equity. Where a decline in the fair value of an available-for-sale financial asset constitutes objective evidence of impairment, the amount of the loss is removed from equity and recognized in the statement of comprehensive loss.

All financial assets except for those at fair value through profit or loss are subject to review for impairment at least at each reporting date. Financial assets are impaired when there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described above.

Financial liabilities

The Company classifies its financial liabilities into one of two categories, depending on the purpose for which the asset was acquired. The Company's accounting policy for each category is as follows:

Fair value through profit or loss - This category comprises derivatives, or liabilities acquired or incurred principally for the purpose of selling or repurchasing it in the near term. They are carried in the statement of financial position at fair value with changes in fair value recognized in the statement of comprehensive loss.

Other financial liabilities: This category includes promissory notes, amounts due to related parties and accounts payables and accrued liabilities, all of which are recognized at amortized cost.

The Company has classified its cash as fair value through profit and loss, and receivables are classified as loans and receivables. The Company's accounts payable and accrued liabilities are classified as other financial liabilities.

Financial instruments measured at fair value are classified into one of three levels in a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

See Note 6 for relevant disclosures.

New accounting pronouncements

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective. The Company has not early adopted any of these standards and is currently evaluating the impact, if any, that these standards might have on its financial statements.

New accounting pronouncements (cont'd...)

Accounting Standards Issued and Effective January 1, 2012

IAS 12 – *Income Taxes (Amended)* (“IAS 12”), introduces an exception to the general measurement requirements of IAS 12 in respect of investment properties measured at fair value.

IFRS 7 – *Financial instruments: Disclosures (Amended)* require additional disclosures on transferred financial assets.

Accounting Standards Issued and Effective January 1, 2013

IFRS 9 *Financial Instruments* replaces the current standard IAS 39 *Financial Instruments: Recognition and Measurement*, replacing the current classification and measurement criteria for financial assets and liabilities with only two classification categories: amortized cost and fair value.

IFRS 10 *Consolidated Financial Statements* establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. IFRS 10 supersedes IAS 39, *Financial Instruments: Recognition and Measurement*.

IFRS 11 *Joint Arrangements* establishes the core principle that a party to a joint arrangement determines the type of joint arrangement in which it is involved by assessing its rights and obligations and accounts for those rights and obligations in accordance with that type of joint arrangement.

IFRS 12 *Disclosure of Involvement with Other Entities* requires the disclosure of information that enables users of financial statements to evaluate the nature of, and risks associated with, its interests in other entities and the effects of those interests on its financial position, financial performance and cash flows.

IFRS 13 *Fair Value Measurement* defines fair value, sets out in a single IFRS framework for measuring fair value and requires disclosures about fair value measurements. IFRS 13 applies when another IFRS requires or permits fair value measurements or disclosures about fair value measurements (and measurements, such as fair value less costs to sell, based on fair value or disclosures about those measurements), except for: share-based payment transactions within the scope of IFRS 2 *Share-based Payment*; leasing transactions within the scope of IAS 17 *Leases*; measurements that have some similarities to fair value but that are not fair value, such as net realizable value in IAS 2 *Inventories* or value in use in IAS 36 *Impairment of Assets*.

IAS 27 *Separate Financial Statements* has the objective of setting standards to be applied in accounting for investments in subsidiaries, joint ventures, and associates when an entity elects, or is required by local regulations, to present separate (non-consolidated) financial statements.

IAS 28 *Investments in Associates and Joint Ventures* prescribes the accounting for investments in associates and sets out the requirements for the application of the equity method when accounting for investments in associates and joint ventures. IAS 28 applies to all entities that are investors with joint control of, or significant influence over, an investee (associate or joint venture).
