1. Nature and continuance of operations

Scorpion Resources Inc. (the "Company") was incorporated under the British Columbia Business Corporations Act on October 19, 2011. The Company was formed for the primary purpose of completing an Initial Public Offering ("IPO") on the TSX Venture Exchange ("Exchange") as a Capital Pool Company ("CPC") as defined in Policy 2.4 of the Exchange. As a CPC, the Company's principal business would be to identify, evaluate and acquire assets, properties or businesses which would constitute a qualifying transaction in accordance with Policy 2.4 of the Exchange ("Qualifying Transaction"). A CPC has 24 months from when the shares are listed on the Exchange to complete a Qualifying Transaction. Such a transaction will be subject to shareholder and regulatory approval. Until completion of the Qualifying Transaction, the Company will not carry on any business other than the identification and evaluation of businesses or assets with a view to completing a potential Qualifying Transaction.

The head office and principal address is 608, 1199 West Pender Street, Vancouver, B.C. V6E 2R1 and the records and registered office is located at 1500, 1055 West Georgia Street, Vancouver, B.C. V6E 4N7.

These condensed interim financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. The proposed business of the Company involves a high degree of risk and there is no assurance that the Company will identify an appropriate business for acquisition or investment, and even if so identified and warranted, it may not be able to finance such an acquisition or investment. Additional funds may be required to enable the Company to pursue such an initiative and the Company may be unable to obtain such financing on terms which are satisfactory to it, particularly in the current economic environment. Furthermore, there is no assurance that the business will be profitable. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with funds on hand, loans from directors and companies controlled by directors and or private placement of common shares. Should the Company be unable to continue as a going concern, the net realizable value of its assets may be materially less than the amounts on its statement of financial position.

2. Significant accounting policies

The condensed interim financial statements were approved and authorized for issue, by the board of directors of the Company, on February 22, 2013.

Statement of compliance with International Financial Reporting Standards

The condensed interim financial statements and comparatives of the Company have been prepared in accordance with International Accounting Standards ("IAS") 34 "Interim Financial Reporting" ("IAS 34") using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and including interpretations of the International Financial Reporting Interpretations Committee ("IFRIC") as applicable to the preparation of interim financial statements.

Basis of preparation

These condensed interim financial statements have been prepared on an accrual basis and are based on historical cost, modified where applicable. The condensed interim financial statements are presented in Canadian dollars, which is the Company's functional and presentation currency.

These condensed interim financial statements follow the same accounting policies and methods of application as the Company's annual financial statements for the year ended March 31, 2013.

Certain comparative figures have been reclassified to conform to the current year's presentation. Such reclassification is for presentation purpose only and has no effect on previously reported results.

2. Significant accounting policies (cont'd)

Significant estimates and assumptions

The preparation of the Company's financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected. Significant areas requiring the use of estimates include the fair value of stock-based compensation, and the recoverability of deferred tax assets.

Significant judgments

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments in applying the Company's financial statements include the assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to a significant uncertainty.

Loss per share

Basic loss per share is calculated by dividing net loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the reporting period. Diluted loss per share is determined by dividing the net loss attributable to common shares and the weighted average number of common shares outstanding, for the effects of all dilutive potential common shares.

Share-based payments

The Company operates a stock option plan. Share-based payments to employees are measured at the fair value of the instruments issued and amortized over the vesting periods. Share-based payments to non-employees are measured at the fair value of goods or services received or the fair value of the equity instruments issued, if it is determined the fair value of the goods or services cannot be reliably measured, and are recorded at the date the goods or services are received. The corresponding amount is recorded to the option reserve. The fair value of options is determined using the Black-Scholes Option Pricing Model. The number of shares and options expected to vest is reviewed and adjusted at the end of each reporting period such that the amount recognized for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest.

3. Accounting Standards Issued but not yet effective

A number of IFRS standards or amendments to existing accounting standards that have been issued are either not applicable or are not expected to have a significant impact on the Company's financial statements.

4. Proposed Qualifying Transaction – Subject to the approval of the Exchange and other.

CWT Property

The Property consists of 173 unpatented mining claims, and 7 mineral exploration permits situated in Township 17 South, Range 12 East, Gila and Salt River Meridian, Pima County, Arizona. MAG holds a 100% interest in the Property.

4. Proposed Qualifying Transaction (cont'd)

Summary of the Proposed Transaction

Pursuant to the Agreement dated August 27, 2013 the Company can earn up to an undivided 80% interest in and to the Property upon the following terms:

1. The Company shall earn a 50% interest by making the following payments and expenditures:
 - a. US\$50,000 in cash upon signing the Agreement - Paid;
 - b. 1,000,000 common shares of the capital stock of the Company upon regulatory approval;
 - c. US\$75,000 cash and 1,000,000 common shares on or before the first anniversary of regulatory approval;
 - d. US\$100,000 and 1,000,000 common shares on or before the second anniversary of regulatory approval;

 - f. US\$250,000 and 1,000,000 common shares on or before the fourth anniversary of regulatory approval;
 - g. On or before the date that is four years from regulatory approval the Company shall incur exploration expenditures of at least US\$500,000 on the Property.
2. The Company shall earn an additional 10% interest in the Property upon completion and regulatory approval of a NI 43-101 compliant resource report (in any category [i.e. inferred, indicated, measured] prepared according to the standards of the Canadian Institute of Mining, Metallurgy and Petroleum (“CIM”).
3. The Company shall earn an additional 10% interest in the Property upon completion and regulatory approval of a Preliminary Economic Assessment prepared according to CIM standards.
4. The Company shall earn an additional 5% interest in the Property upon completion and regulatory approval of a Pre-feasibility Study prepared according to CIM standards.
5. The Company shall earn an additional 5% interest in the Property upon completion and regulatory approval of a Bankable Feasibility Study prepared according to CIM standards.

Sponsorship of a Qualifying Transaction of a capital pool company is required by the Exchange unless exempt according to Exchange policies. The Company intends to apply for an exemption from sponsorship requirements, however there is no assurance that the Company will obtain this exemption.

A filing statement in respect of the Proposed Transaction will be prepared and filed in accordance with CPC Policy on SEDAR at www.sedar.com. A press release will be issued once the filing statement has been filed as required pursuant to Exchange policies.

The Proposed Transaction is subject to the approval of the Exchange and to other standard closing conditions, including satisfactory due diligence review of the Property by Scorpion, approval of the board of directors of Scorpion, and the completion of a financing (the “Offering”) on terms satisfactory to Scorpion, in its sole discretion, as may be necessary in order to meet the minimum listing requirements of the Exchange.

<u>465,000</u>	Shares to be released 36 months following the Final Exchange Bulletin;
<u>3,100,000</u>	Total – see subsequent event Note 10.

Basic and diluted loss per share

The calculation of basic and diluted loss per share for the period ended December 31, 2013 was based on the loss attributable to common shareholders of \$202,476 (2012 - \$72,683) and the weighted average number of common shares outstanding of 3,000,000 (2012 – 1,254,545).

Diluted loss per share did not include the effect of 900,000 stock options as the effect would be anti-dilutive and 3,100,000 common shares held in escrow.

6. Share capital (cont'd)

Stock options

The Company has adopted an incentive stock option plan, which provides that the board of directors of the Company may from time to time, in its discretion, and in accordance with the Exchange requirements, grant to directors, officers, employees and technical consultants to the Company, non-transferable stock options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the Company's issued and outstanding common shares. Such options will be exercisable for a period of up to 10 years from the date of grant. In connection with the foregoing, the number of common shares reserved for issuance to any one optionee will not exceed five percent (5%) of the issued and outstanding common shares and the number of common shares reserved for issuance to all technical consultants will not exceed two percent (2%) of the issued and outstanding common shares. Options may be exercised no later than 90 days following cessation of the optionee's position with the Company or 30 days following cessation of an optionee conducting investor relations activities' position.

For the period ended December 31, 2013:

During the period ending December 31, 2013 the Company did not issue any stock options.

For the year ended March 31, 2013:

On September 7, 2012, the Company granted 300,000 incentive stock options to the agent of the IPO exercisable at a price of \$0.10 for a 2 year term. The fair value was determined using the Black-Scholes Option Pricing Model using the following assumptions: expected dividend yield – 0; expected stock price volatility – 103%; risk-free interest rate – 1.09%; expected life of options – 2 years. The fair value was determined to be \$16,095 and was charged to share issuance costs and recorded in the stock option reserve.

On July 17, 2012, the Company granted 600,000 incentive stock options to directors and officers exercisable at a price of \$0.10 for a 5 year term from the date that the Company's shares are listed for trading on the Exchange. The fair value was determined using the Black-Scholes Option Pricing Model using the following assumptions: expected dividend yield – 0; expected stock price volatility – 103%; risk-free interest rate – 1.23%; expected life of options – 5 years. The fair value was determined to be \$45,351 and was charged to stock based compensation expense and recorded in the stock option reserve.

The following table summarizes the continuity of the Company's stock options:

	Number of Options	Weighted average exercise price - \$ -
Balance, March 31, 2012	-	-
Granted	900,000	0.10
Balance, March 31, 2013 and December 31, 2013	900,000	0.10

At December 31, 2013 the following share purchase options were outstanding:

Number of Options	Exercise Price - \$ -	Weighted average Exercise contractual Life (Years)	Expiry Date
300,000	0.10	0.23	September 7, 2014
600,000	0.10	2.46	September 7, 2017
900,000		2.69	

7. Reserves

Stock option reserve

The stock option reserve records items recognized as stock-based compensation expense until such time that the stock options are exercised, at which time the corresponding amount will be transferred to share capital. If the options expire unexercised, the amount recorded is transferred to deficit.

8. Related party transactions

There were no transactions with related parties during the period and there is no amounts payable to or due from related parties as at December 31, 2013 or December 31, 2012.

9. Capital management

The Company's capital structure consists of cash and share capital. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to complete a Qualifying Transaction. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. In order to carry out the planned activities and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management since inception. The Company is not subject to externally imposed capital requirements.

10. Subsequent events

i) There are no subsequent events to report on.
