NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (unaudited) FOR THE THREE AND SIX MONTHS ENDED OCTOBER 31, 2019 EXPRESSED IN CANADIAN DOLLARS

1. NATURE OF OPERATIONS

TruTrace Technologies Inc. (formerly "BLOCKStrain Technology Corp.") (the "Company" or "TruTrace") was incorporated under the British Columbia Business Corporations Act on October 19, 2011 and is listed on the TSX Venture Exchange "TSXV", under the trading symbol "TTT". The head office and the records and registered office is located at L120, 2303 – 4th St SW, Calgary, AB, T2S 2S7.

TruTrace Technologies Inc. is a full-service software company that has developed the first integrated blockchain platform that registers and tracks cannabis intellectual property ("IP") from genome to sale. It is proprietary, immutable, and cryptographically secure, thereby establishing, in a single source, an accurate, validated, and permanent accounts for cannabis strains from ownership to market.

On May 17, 2018, the Company completed its Qualifying Transaction ("the Transaction") (Note 4), pursuant to which it acquired all of the issued and outstanding shares of BLOCKStrain Technology Group Inc. ("PrivCo"), a private company incorporated on November 22, 2017, under the laws of British Columbia.

The Company changed its name from "BLOCKStrain Technology Corp." to "TruTrace Technologies Inc." on April 26, 2019.

These condensed consolidated interim financial statements have been prepared on a going concern basis, which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. As of October 31, 2019, the Company has incurred losses and generated negative cash flows from operations. The Company's ability to continue as a going concern is dependent upon the continued financial support from its shareholders, the ability of the Company to obtain necessary financing to continue operations, and ultimately the attainment of profitable operations. These factors indicate the existence of a material uncertainty that may cast significant doubt on the ability of the Company to continue as a going concern. These condensed consolidated interim financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

2. BASIS OF PREPARATION

Statement of Compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including International Accounting Standards ("IAS") 34, Interim Financial Reporting.

The notes presented in these condensed consolidated interim financial statements include only significant events and transactions occurring since PrivCo's last fiscal year end and they do not include all of the information required in PrivCo's most recent annual financial statements. These condensed consolidated interim financial statements follow the same accounting policies and methods of application as PrivCo's annual financial statements and should be read in conjunction with PrivCo's annual financial statements for the year ended April 30, 2019, which were prepared in accordance with IFRS as issued by IASB. There have been no changes in judgment or estimates from those disclosed in the consolidated financial statements for the year ended April 30, 2019 except for the adoption of IFRS 16.

2. BASIS OF PRESENTATION (CONT'D)

Statement of Compliance (cont'd)

These condensed consolidated interim financial statements were authorized for issuance by the Board of Directors as of December 20, 2019.

Basis of Measurement

The condensed consolidated interim financial statements have been prepared on a historical cost basis; modified where applicable.

Presentation Currency

The condensed consolidated interim financial statements are presented in Canadian dollars, which is also the Company's functional currency.

Use of Estimates and Judgements

The preparation of condensed consolidated interim financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgements in applying the Company's accounting policies.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

New standard IFRS 16 Leases

The Company has adopted the new IFRS pronouncement as at May 1, 2019 in accordance with the transitional provisions of the standard and as described below. The adoption of this new IFRS pronouncement has not resulted in any adjustments to previously reported figures.

On January 13, 2016, the IASB issued IFRS 16. The new standard is effective for annual periods beginning on or after January 1, 2019. IFRS 16 replaced IAS 17 - Leases ("IAS 17"). This standard introduced a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. IFRS 16 substantially carries forward the lessor accounting requirements of IAS 17, while requiring enhanced disclosures to be provided by lessors. Other areas of the lease accounting model have been impacted, including the definition of a lease. At May 1, 2019, the Company adopted this standard and there was no material impact on the Company's condensed interim financial statements as the Company has no material lease contracts that fall under IFRS 16.

4. REVERSE TAKEOVER

On May 17, 2018, the Company completed its Qualifying Transaction whereby each outstanding share of PrivCo was exchanged, on a one for one basis, for the issued and outstanding common shares of the Company, with PrivCo becoming a wholly-owned subsidiary of the Company.

The Transaction constituted a reverse takeover of the Company by the shareholders of PrivCo but did not meet the definition of a business combination as defined under IFRS 3. As such, the Transaction is accounted under IFRS 2, where the difference between the consideration given to acquire the Company and the net asset value of the Company is recorded as a listing expense. Since PrivCo is deemed to be the accounting acquirer for accounting purposes, these financial statements present the historical financial information of PrivCo up to the date of the Transaction.

The fair value of the consideration issued for the net assets of the Company is as follows:

Fair value of shares issued (6,854,382 @ \$0.30)	\$	2,056,315
Fair value of net liabilities	·	, ,
Prepaid deposits		32,750

On October 24, 2019, the Company issued Debenture 1 for gross proceeds of \$200,000, less issue costs of \$10,100. This Debenture is unsecured, matures three years from the date of issuance, and bears interest of 8.25% per annum.

On October 31, 2019, the Company issued Debentures 2 through 4 for gross proceeds of \$25,000 each for a total of \$75,000, less issue costs of \$3,850. These Debenture are unsecured, mature three years from the date of issuance, and bear interest of 8.25% per annum.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (unaudited) FOR THE THREE AND SIX MONTHS ENDED OCTOBER 31, 2019 EXPRESSED IN CANADIAN DOLLARS

9. CONVERTIBLE DEBENTURES (CONT'D)

The initial liability component of the convertible debentures was calculated at the present value of interest payments and expected return at a rate of 15%, representing the interest rate that would have been charged for a nonconvertible debenture. The equity component was measured based on the residual value of the instrument taken as a whole after deducting the amount determined separately for the liability component.

The Company estimates 15% to be the market interest rate for a similar debt instrument without a conversion option of these convertible debentures and applied this rate to obtain the fair value (\$235,369) of the convertible debentures at inception. The Company applied the residual method to record the fair value of the conversion option of (\$39,631) to the Company's equity reserve. As at October 31, 2019, these convertible debentures had a carrying value of \$223,621 with accrued interest of \$316, totaling \$223,937.

The holders of the Debentures are entitled to convert the unpaid principal and interest into units of the Company (each, a "Debenture Unit") at a conversion price of \$0.25 per Debenture Unit, with each Debenture Unit comprised of one common share of the Company and one transferable share purchase warrant (each, a "Debenture Warrant"), with each Debenture Warrant exercisable into one additional common share at an exercise price of \$0.30 per Debenture Warrant for a period equal to the later of: (i) ninety days from the date of conversion, or (ii) three years from the date of issue.

The Company shall have the right to require the holders to convert any principal and interest amount outstanding if, for any 10 consecutive trading days commencing on the date that is four months plus one day following the grant date and prior to the maturity date, the closing price of the common shares of the Company is greater than \$0.50, subject to adjustment as provided for in the certificate representing the Debenture.

10. CONTRACT ASSETS AND LIABILITIES

The Company enters into contracts to sell its services in the normal course of its operations. Contract assets represent the incremental costs of completing a contract with a customer on the expectation these costs will be recovered. These costs will be recognized when the performance obligation to recognize the revenues has been met. When the customer's payment precedes the completion of performance, the Company recognizes a contract liability.

As at October 31, 2019, the Company had contract liabilities of \$12,534 (April 30, 2019 - \$Nil). This contract liability is in relation to work being done to establish a new ecommerce platform and is partially offset by its related contract asset. Revenue will be recognized upon the transfer of management of the ecommerce platform to the client.

13. FAIR VALUE OF FINANCIAL INSTRUMENTS

The judgements and estimates are made in determining the fair values of the financial instruments that are recognized and measured at fair value in the consolidated financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standards. An explanation of each level is as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The Company's cash and cash equivalents are classified as Level 1 whereas trade receivables and GST receivables are classified as Level 2.

The Company's accounts payable and accrued liabilities are classified as Level 2.

The fair value of cash, trade receivables, and accounts payable and accrued liabilities approximate fair value due to the short-term nature of the financial instruments.
