

Beyond Oil Launches Commercialization Stage in the North American Market With 2,000 KG Order From TEJA

VANCOUVER, B.C. and KIBBUTZ YIFAT, ISRAEL / ACCESSWIRE / November 23, 2022 – Beyond Oil Ltd. (**CSE: BOIL**) (“**Beyond Oil**” or the “**Company**”) a food-tech innovation company extending the life of frying oil, reducing costs and waste, is pleased to announce that following its news release dated July 19, 2022, TEJA Food Group (“**TEJA**”), a distributor of Beyond Oil’s product in Canada and the United States, has successfully completed Beyond Oil’s product testing. As a result, TEJA has signed a purchase order for 2,000 kg of Beyond Oil’s product that will be integrated into selected restaurants in Canada.

“In the past few weeks, our team conducted extensive in-house testing of the Beyond Oil formulation,” said Tom Grande, President of TEJA. “Using feedback from prior in-restaurant trials, the Beyond Oil product has been refined and improved and based on the results of our testing, has the potential to be a true game changer for fry oil users. Those results encouraged us to immediately start commercial distribution.”

“We are pleased with the results of this testing program with TEJA,” said Dr. Tamir Gedo, CEO of Beyond Oil. “Working together with TEJA allowed our team to make modifications that increased the density of the product, improved the efficacy, and resulted in a faster and easier dispensing method. All-in-all, we agree that this could be a real game changer for the food industry, and we are excited to begin commercial distribution in North America through TEJA.”

Product Highlights

Frying Oils Recovery: Extensive testing indicates that Beyond Oil’s product extends the usable life of frying oil, improves product quality, and reduces frying oil costs. As a preferential adsorbent, the product reduces soluble impurities formed during the frying process that cause damaging free fatty acids (“FFA”) and polar compound formation, undesirable odors, off-flavors, and off-colors. The product is simple to integrate into existing daily filtration processes.

One-of-a-Kind: To the Company’s knowledge, Beyond Oil has developed a unique solution that can eliminate FFA almost completely without damaging oil quality. This solution compares to other filter powders that have existed for years that can only marginally reduce FFA levels.

Patent Protected: The Company has a portfolio of registered and patent-pending solutions that extend the shelf-life of produced and used vegetable oils.

Bottom-Line Savings: Beyond Oil’s unique value proposition is that it could dramatically lower costs for quick service restaurants by significantly extending the useful life of the oil while retaining the original taste profile.

Distribution Ready: The Company received a non-objection letter from the US Food & Drug Administration (“FDA”) in March 2022, on the basis that all the Beyond Oil product ingredients meet food-grade specifications of the FDA. In May 2022, Beyond Oil received a non-objection letter from Health Canada and a National

Sanitation Foundation certification. In September 2022, Beyond Oil received a non-objection letter from the Israel Ministry of Health for use of the product in Israel.

How Our Product Works

The Beyond Oil solution integrates with existing processes as a processing aid or as a filter aid. The process includes passive microfiltration designed to remove all components through a combination of active filtration by the powder and passive filtration by a microfiltration paper. This process ensures no residue is left in the oil while maximizing the efficiency of removing other degradation particles.

About TEJA Food Group

TEJA Food Group is based in Calgary, Alberta, Canada, and continues to evolve and become a boutique food company that deals both in Canada and the United States. Their motto is Global Source: Local Values and they continue to add new items to their line up every month. Its focus has been food service, but it is expanding quickly into retail, both traditional and the on-line world. The recent purchase of Canadian Trade House allows TEJA to expand into the C-store and hotel sectors covering the full range of customers. TEJA also continues to expand its product offerings, keeping customer needs at the forefront of its development. Through its customer distribution channel, TEJA ultimately reaches over 20,000 restaurants and food service and retail companies in Canada and the United States. TEJA continues to expand its product offerings from traditional seafood to value added seafood, appetizers, premium proteins, breakfast offerings and a range of specialty retail products. FORWARD LOOKING STATEMENT AND INFORMATION

This press release contains forward-looking statements and information based on our management's beliefs and reflects Beyond Oil's expectations and views of future events. When used in this press release, the words "estimate", "project", "belief", "anticipate", "intend", "expect", "plan", "predict", "may" or "should" and the

negative of these words or such variations thereon or comparable terminology are intended to identify forward-looking statements and information. The forward-looking statements and information in this press release include information relating to the use of its product in the food service industry, the effects of such product on the industry as a whole and anticipated benefits of using the Beyond Oil product. All statements in respect of the potential market for the Company's product and anticipated test results are also forward-looking statements.

Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which Beyond Oil will operate in the future, including: general business and economic conditions; the demand for our products; consumer preferences, that test results are reliable and will be replicated in commercial environments, that commercial quantities of the product will be purchased, the availability of financing on reasonable terms as needed; our ability to attract and retain skilled staff; that there will be no regulation or law that will prevent us from operating our business and that we will be able to deliver adequate quantity and quality of product and in accordance with the terms of any definitive sales or distribution agreements. Although Beyond Oil believes the assumptions underlying these statements are reasonable, they may be incorrect.

By their nature, forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements, or other future events, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, the following risks: business, economic and capital market conditions; our ability to obtain additional financing as needed on terms and conditions acceptable to the Company; our ability to remain competitive as other better financed competitors develop and release competitive products; legal and regulatory uncertainties including new laws or regulations which could adversely affect the Company's business and results of operations; market conditions and the demand and pricing for our products; our relationships with our customers, distributors, suppliers and business partners; our ability to successfully define, design and release new products in a timely manner that meet our customers' needs; our ability to attract, retain and motivate qualified personnel; our ability to maintain technological leadership; the impact of technology changes on our products and industry; our failure to develop new and innovative products; our ability to successfully maintain and enforce our intellectual property rights and defend third-party claims of infringement of their intellectual property rights; our ability to manage working capital; our dependence on key personnel; the risk that consumer interest in and sentiment towards Beyond Oil's products adversely changes; the impact of COVID-19 or other viruses and diseases on Beyond Oil's ability to operate; equipment failures; unanticipated increases in operating costs and fluctuations in commodity prices; security threats; the failure of counterparties to perform their contractual obligations; risks related to Beyond Oil's corporate strategy including that previous and future acquisitions do not meet expectations; anticipated commercialization of the Company's products may not materialize as contemplated in this news release or at all, the risk that sufficient quantities of product are not delivered under any distribution or sales agreement. In addition, Beyond Oil's products have yet to be produced on a large scale.

Forward-looking statements and information have been prepared by our management to provide information about management's current expectations and plans relating to the future. Readers are cautioned that reliance on such information may not be appropriate for other purposes, such as making investment decisions. While our management believes that the forward-looking statements have been prepared on a reasonable basis, reflecting management's best estimates and judgments, Beyond Oil is an early-stage company with a short operating history and it may not actually achieve its plans, projections, or expectations. Readers should read this document knowing that our future results may be materially different from what we expect. Given these risks, uncertainties, and assumptions, you should not place undue reliance on these forward-looking

statements.

The forward-looking information included in this new release is expressly qualified in its entirety by this cautionary statement. The Company cautions that the foregoing lists of assumptions, risks and uncertainties is not exhaustive. The forward-looking information contained in this news release is made as of the date hereof and the Company undertakes no obligation to update publicly or revise any forward-looking information, whether as a result of new information, future events or otherwise, unless required by applicable securities laws.
