Appia Rare Earths and Uranium Corp. to Present at the Emerging Growth Conference on May 29th, 2024

Toronto, Ontario--(Newsfile Corp. - May 28, 2024) - Appia Rare Earths & Uranium Corp. (CSE: API) (OTCQX: APAAF) (FSE: A0I0) (MUN: A0I0) (BER: A0I0) (the "Company" or "Appia") is pleased to announce that it has been invited to present at the Emerging Growth Conference on May 29th, 2024.

This live, interactive online event will give existing shareholders, and the investment community, the opportunity to interact with the Company's President, Stephen Burega, in real time.

Stephen will provide a 20-minute corporate update and will then open the floor for questions from the audience.

Appia will be presenting at 2:20 PM Eastern time for 30 minutes.

Please register to ensure you are able to attend the conference and receive any updates that are released. (<u>Click here</u>)

If attendees are not able to join the event live on the day of the conference, an archived webcast will also be made available on EmergingGrowth.com and we will also release a link to the presentation after the event.

About the Emerging Growth Conference

The Emerging Growth conference is an effective way for public companies to present and communicate their new products, services and other major announcements to the investment community from the convenience of their office, in a time efficient manner.

The Conference focus and coverage includes companies in a wide range of growth sectors, with strong management teams, innovative products & services, focused strategy, execution, and the overall potential for long term growth. Its audience includes potentially tens of thousands of Individual and Institutional investors, as well as Investment advisors and analysts.

All sessions will be conducted through video webcasts and will take place in the Eastern time zone.

About Appia Rare Earths & Uranium Corp. (Appia)

Appia is a publicly traded Canadian company in the rare earth element and uranium sectors. The Company holds the right to acquire up to a 70% interest in the PCH lonic Adsorption Clay Project (See June 9th, 2023 Press Release - Click <u>HERE</u>) which is 40,963.18 ha. in size and located within the Goiás State of Brazil. (See January 11th, 2024 Press Release - <u>Click HERE</u>) The Company is also focusing on delineating high-grade critical rare earth elements and gallium on the Alces Lake property, and exploring for high-grade uranium in the prolific Athabasca Basin on its Otherside, Loranger, North Wollaston, and Eastside properties. The Company holds the surface rights to exploration for 94,982.39 hectares (234,706.59 acres) in Saskatchewan. The Company also has a 100% interest in 13,008 hectares (32,143 acres), with rare earth elements and uranium deposits over five mineralized zones in the Elliot Lake Camp, Ontario.

Appia has 136.3 million common shares outstanding, 145 million shares fully diluted.
