Vancouver, August 29, 2013 – **Super Nova Minerals Corp.** (CNSX: SNP) (the “Company”) announces that as a result of review by the British Columbia Securities Commission (“BCSC”), the Company is issuing the following news release to clarify certain oil and gas disclosures.

Further to the Company’s news release of August 16, 2013, the Company provides the following additional clarification of certain disclosure relating to the Company’s previously filed report entitled “Evaluation of Contingent Resources and other Petroleum Information for the Morris Block located in the Elk Hills Region Twp. 4S, Rge. 24E of Montana, USA” dated effective September 1, 2012, prepared September 18, 2012 by B.L. Whelan, P. Geo (the “Morris Report”) and certain disclosure contained in the Company’s Corporate Presentation dated August 2013 which was posted on the Company’s website, as such related to the Company’s Morris Block, Elk Hills Oil & Gas Property.

The Company retracts all prior disclosure relating to oil resource estimates and associated economic parameters as disclosed by the Morris Report and as disclosed in the Company’s Corporate Presentation.

In connection with the BCSC’s review, the Company has shut down its website and is in the process of amending the website to address comments received from the BCSC relating to the Company’s disclosure, including the deletion of all retracted statements.

The Company is also in the process of preparing its Oil and Gas Annual filing, as required by NI 51-101, for the year ended May 31, 2013. The Company intends to file this new report by September 30, 2013 and will issue a news release disclosing the results of this new oil and gas report, when delivered.
