Notes to the Condensed Interim Consolidated Financial Statements For the nine-month period ended February 28, 2021 and February 29, 2020 Expressed in US Dollars, unless otherwise stated

### 1. NATURE AND CONTINUANCE OF OPERATIONS

Koios Beverage Corp. (the "Company") was incorporated on November 13, 2002, under the *Business Corporations Act (British Columbia)*. On April 13, 2018, the Company completed a transaction with Koios Inc. (formerly Koios, LLC) ("Koios"), a company incorporated under the laws of the State of Colorado, which is in the business of producing, marketing and selling functional beverages.

The corporate registered and records offices of the Company are located at 810 - 789 West Pender Street, Vancouver, British Columbia, V6C 2V6. The Company's common shares are listed for trading on the Canadian Securities Exchange ("CSE") under the symbol "KBEV" and the United States OTC stock market', under the symbol "KBEVF".

### a) Statement of compliance

These unaudited condensed interim consolidated financial statements have been prepared in accordance with IAS 34 – Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain disclosures included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the IASB have been condensed or omitted and therefore, these unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended May 31, 2020.

### b) Basis of measurement

These condensed interim consolidated financial statements have been prepared on a historical cost basis except for certain financial instruments which are measured at fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The functional currency of the Company is the Canadian dollar. The presentation currency of these condensed interim consolidated financial statements is the US dollar. Certain comparative figures have been reclassified to conform to the current year's presentation.

### c) Going concern

These financial statements have been prepared on a going concern basis, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business in the foreseeable future. During the period ended February 28, 2021, the Company incurred comprehensive loss of \$1,391,614 (2020 - \$1,993,204), had an accumulated deficit of \$15,041,592 (May 31, 2020 - \$13,649,978) and had working capital deficiency of \$319,032 (May 31, 2020 – working capital of \$556,690). The Company anticipates that further losses will be incurred. The Company's ability to continue as a going concern and meet its corporate objectives will require additional financing through debt or equity issuances or other available means. There is no assurance that the Company will be able to obtain adequate financing in the future or that such financing will be available on terms advantageous to the Company. These conditions indicate the existence of material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern. These condensed interim consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue its existence.

In March 2020, the World Health Organization declared the outbreak of COVID-19 a global pandemic. Government measures to limit the spread of COVID-19, including the closure of non-essential businesses, did not materially disrupt the Company's operations during the nine-month period ended February 28, 2021. The beverage industry has not been recognized as essential services. As at February 28, 2021, the Company has not observed any material impairments of its assets or a significant change in the fair value of assets, due to the COVID-19 pandemic.

Notes to the Condensed Interim Consolidated Financial Statements For the nine-month period ended February 28, 2021 and February 29, 2020 Expressed in US Dollars, unless otherwise stated

### 1. NATURE AND CONTINUANCE OF OPERATIONS (CONTINUED)

### c) Going concern (continued)

Due to the rapid developments and uncertainty surrounding COVID-19, it is not possible to predict the impact that COVID-19 will have on the business, financial position and operating results in the future. In addition, it is possible that estimates in the Company's financial statements will change in the near term as a result of COVID-19 and the effect of any such changes could be material, which could result in, among other things, impairment of assets. The Company is closely monitoring the impact of the pandemic on all aspects of its business.

### d) Basis of consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Koios, Cannavated Beverage Co. (BC) ("Cannavated BC") and Cannavated Beverage Corp. (Nevada) ("Cannavated Nevada"). Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Inter-company balances and transactions, and any unrealized income and expenses arising from inter-company transactions, are eliminated in preparing the condensed interim consolidated financial statements.

### 2. SIGNIFICANT ACCOUNTING POLICIES

In preparing these condensed interim consolidated financial statements, the significant accounting policies and the significant judgments made by management in applying the Company's significant accounting policies and key sources of estimation uncertainty were the same as those that applied to the Company's audited consolidated financial statements for the year ended May 31, 2020.

The preparation of condensed interim consolidated financial statements requires that the Company's management make judgments and estimates of effects of uncertain future events on the carrying amounts of the Company's assets and liabilities at the end of the reporting period. Actual future outcomes could differ from present estimates and judgments, potentially having material future effects on the Company's condensed interim financial statements. Estimates are reviewed on an ongoing basis and are based on historical experience and other facts and circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively.

Certain new accounting standards and interpretations have been published that are not mandatory for the February 28, 2021 reporting period. Management does not expect these standards will have a significant impact on the measurement or presentation of balances or transactions as reported in these condensed interim consolidated financial statements.

Accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's consolidated financial statements.

### 6. INVESTMENT IN JOINT VENTURE

On February 18, 2021, the Company partnered with Beauty Gourmet LLC, a woman's functional beverage Company and formed a subsidiary named BevCreation, LLC ("BevCreation"). BevCreation is a manufacturer of functional beverages and operates in Denver, Colorado. Pursuant to terms of the Operating Agreement ("Operating Agreement"), the Company owns 50% of BevCreation and has advanced cash and equipment to BevCreation. BevCreation will streamline the Company's canning processes and will improve the Company's supply chain efficiency.

Based on the terms of the Operating Agreement, management has determined that BevCreation meets the definition of a joint venture. Accordingly, the investment is accounted for using the equity method in these consolidated financial statements.

The loans are non-interest-bearing, due on demand and not collateralized.

### 10. LEASE LIABILITY

As at February 28, 2021, the Company has three equipment leases and an office lease (Collectively, the "Leases"). The Leases were measured at the present value of the future lease payments. These lease payments are discounted using a discount rate of 8% per annum, which represents the Company's estimated incremental borrowing rate.

The following is a continuity schedule of lease liabilities for the period ended February 28, 2021:

	\$
Balance, June 1, 2019	-

### Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash and accounts receivable. The Company limits its exposure to credit risk on liquid financial assets through maintaining its cash with high-credit quality financial institutions. Receivables consist of Goods and Services Tax ("GST") receivable from the Canadian government and receivables from trade customers. The credit risk is considered low.

### Currency risk

The Company and its subsidiaries do not have significant financial assets and liabilities denominated in foreign currencies. Management monitors its foreign currency balances and makes adjustments based on anticipated need for currencies. The Company does not engage in any hedging activities to reduce its foreign currency risk.

### Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with its financial liabilities. The Company has historically relied upon equity financings to satisfy its capital requirements and will continue to depend heavily upon equity capital to finance its activities. There can be no assurance the Company will be able to obtain required financing in the future on acceptable terms. The Company anticipated it will need additional capital in the future to finance ongoing operations, such capital to be derived from the exercise of outstanding warrants and/or the completion of other equity financings. The Company has limited financial resources, has no source of operating income and has no assurance that additional funding will be available to fund its beverage operations, although the Company has been successful in the past in financing its activities through the sale of equity securities.

The ability of the Company to arrange additional financing in the future will depend, in part, on the prevailing capital market conditions and operational success. There can be no assurance that continual fluctuations in price will not occur. Any quoted market for the common shares may be subject to market trends generally, notwithstanding any potential success of the Company in creating revenue, cash flows or earnings.

### Interest rate risk

The Company normally invests in short-term interest-bearing financial instruments. There is a minimal risk that the Company would recognize any loss as a result of a decrease in the fair value of any guaranteed bank investment certificate included in cash as they would be held in large financial institutions.

Notes to the Condensed Interim Consolidated Financial Statements For the nine-month period ended February 28, 2021 and February 29, 2020 Expressed in US Dollars, unless otherwise stated

### 14. FINANCIAL INSTRUMENTS (CONTINUED)

Fair value measurements of financial assets and liabilities

The Company believes that the recorded values of its accounts receivable, short term loans and accounts payable and accrued liabilities, approximate their current fair values because of their nature and relatively short maturity dates or durations.

### 15. PROVISION FOR INDEMNITY

### Flow-Through Exploration Expenditures

During the year ended May 31, 2013, the Company raised a total of C\$85,440 in flow-through funds, which the Company committed to use in exploration activities on its active projects. The Company allocated C\$14,240 of the proceeds to the flow through share premium liability and the remaining proceeds of C\$71,200 to share capital. As at May 31, 2014, the Company did not incur eligible exploration expenses which resulted in a penalty and accrued interest totaling approximately \$25,399 (C\$32,219). As at February 28, 2021, the balance is still owing.

### 16. CAPITAL MANAGEMENT

The Company's capital structure consists of shareholders' equity. The Company's objective when managing capital is to maintain adequate levels of funding to support the development of its business and maintain the necessary corporate and administrative functions to facilitate these activities. This is done primarily through equity financing. Future financings are dependent on market conditions and there can be no assurance the Company will be able to raise funds in the future. The Company invests all capital that is surplus to its immediate operational needs in short-term, highly-liquid, high-grade financial instruments. There were no changes to the Company's approach to capital management since the period ended February 28, 2021and February 29, 2020. The Company is not subject to externally imposed capital requirements. The Company does not currently have adequate sources of capital for the development of its business, and will need to raise additional capital by obtaining equity financing through private placements or debt financing. The Company may raise additional debt or equity financing in the near future to meet its current obligations.

### 17. SUBSEQUENT EVENTS

On March 8, 2021, the Company completed a private placement and issued 45,000,000 warrants at a price of C\$0.02 per warrant for gross proceeds of C\$900,000.
