Significant Accounting Policies:

The Company's significant accounting policies are summarized in Note 2 to the Company's unaudited condensed interim financial statements for the three and six month periods ended June 30, 2013.

Accounting standards issued but not yet applied:

IFRS 9 "Financial Instruments" ("IFRS 9") was issued by the International Accounting Standards Board ("IASB") in October 2010 and will replace IAS 39 "Financial Instruments: Recognition and Measurement" ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2015.

The Company is currently evaluating the impact of the above standard on its financial performance and financial statement disclosures but expects that such impact will not be material.

Off Balance Sheet Arrangements:

The Company had no off balance sheet arrangements.

Disclosure Controls and Procedures:

Management of the Company, consisting of the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures as required by Canadian securities laws. Based on that evaluation, he has concluded that, as of the end of the period covered by this MD&A, the disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in the Company's

annual filings and interim filings (as such terms are defined under Multilateral Instrument 52-109 - *Certification of Disclosure in Issuers' Annual and Interim Filings*) and other reports filed or submitted under Canadian securities laws is recorded, processed, summarized and reported within the time periods specified by those laws and that material information is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure.

Internal Control Risks:

The Chief Executive Officer and Chief Financial Officer is responsible for designing internal controls over financial reporting in order to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external purposes in accordance with International Financial Reporting Standards. The design of the Company's internal control over financial reporting was assessed as of the date of this MD&A.

Based on this assessment, it was determined that certain weaknesses existed in internal controls over financial reporting. As indicative of many small companies, the lack of segregation of duties and effective risk assessment were identified as areas where weaknesses existed. The existence of these weaknesses is to be compensated for by senior management and specific audit committee monitoring, which exists. The Chief Executive Officer and Chief Financial Officer and the Chair of the audit committee will continue to monitor very closely all financial activities of the Company and increase the level of supervision in key areas as required. It is important to note that this issue would also require the Company to hire additional staff in order to provide greater segregation of duties. Since the increased costs of such hiring could threaten the Company's financial viability, management has chosen to disclose the potential risk in its filings and proceed with increased staffing only when the budgets and work load will enable the action. The Company has attempted to mitigate these weaknesses, through a combination of extensive and detailed review by the Chief Executive Officer and Chief Financial Officer of the financial reports, the integrity and reputation of senior accounting personnel and candid discussion of those risks with the board of directors of the Company.

Risk Factors:

The Company's overall performance and results of operations are subject to a number of risks and uncertainties. Please refer to the risk factors outlined in the Prospectus.
