

Prospect Park Capital Corp. Announces Tutors On Demand's Launch of EDSY, a TelEdTech Product

NEWS RELEASE

CSE: PPK

- A TelEdTech product delivering educational support globally
- Creating a safe and easy to use virtual classroom for educators and their students
- EDSY streamlines the virtual experience educators can provide a secure, simple, and efficient virtual learning environment

News Release - Vancouver, British Columbia, February 2, 2022 – Prospect Park Capital Corp. (CSE: PPK (“**Prospect**” or the “**Company**”) is pleased to provide a corporate update regarding 102130706 Saskatchewan Inc. (dba Tutors On Demand) (“**Tutors On Demand**”), a wholly owned subsidiary of the Company. Tutors On Demand has released its TelEdTech product under the name “EDSY”. EDSY delivers a robust, easy to use virtual learning product for education and instructional support utilizing a purpose-built digital learning environment. The technology has been built in-house with the student and educator’s needs in mind.

The EDSY platform is website specific and does not require any application, software downloads or installations like its competitors. Although EDSY is best utilized from a desktop, it is supported by all browsers and offers scalability for all monitors, desktops, tablets, and mobile devices. This versatile virtual learning tool can be used by individuals and small and medium sized businesses. The product provides the opportunity for the user to create their own “branded” link to their virtual classroom environment.

EDSY incorporates the ability to put students into a queue, to securely allow and deny students into the class session, and supports an environment where an instructor may have multiple student clients at the same time. An instructor starts a session by simply signing in and sending a uniquely generated link to a student client and having them click the link and start the class.

Anthony Zelen, director of Prospect Park Capital Corp. and Tutors On Demand, commented “We are excited that the Tutors On Demand team of developers have managed to put together an amazing product that will help differentiate Tutors On Demand. We believe EDSY is the first of its kind, delivering educational support to students all over the world. In the field of EdTech this is a special type of TelEdTech built in-house that provides a safe and easy to use virtual classroom. EDSY is more applicable than simply using other video communication platforms. With interactive text, audio, video and a white board, we believe we have created a superior solution for virtual learning”.

Tutors On Demand is a signatory to the Student Privacy Pledge (2020). The Student Privacy Pledge (2020) commitments are intended to concisely detail existing federal law and regulatory guidance regarding the collection and handling of student data, and to encourage service providers to more clearly articulate these practices.

About Tutors On Demand

Tutors On Demand is a Canadian based company in the EdTech sector that connects qualified tutors and

student learners who are seeking additional educational support. The platform is an effective, flexible, and affordable solution developed with responsiveness and the safety of interaction between tutors and students in mind. Tutors On Demand's mandate is to help deliver courses online in a multitude of subjects, including math, sciences and languages in a secure, safe, and efficient environment.
