

**DATE AND SIGNATURE PAGE**

I, Donald Théberge, Eng., M.B.A., do hereby certify that:

- a) I am registered under the name Solumines, and my place of business is located at 54 De La Vigie, Lévis, Province of Quebec, G6V 5W2;
- b) I am the qualified person, responsible for the preparation of all the sections of the technical report entitled *“NI 43-101 Technical Report Pertaining to Massicotte Property, Northwestern Quebec, Selbaie and Matagami Mining Camp. Prepared for Canadian Metals Inc.”* and dated December 21, 2012;
- c) I graduated with a degree in geological engineering from the University du Québec à Chicoutimi in 1978. I obtained a Master of Business Administration (M.B.A.) from Laval University in 1994. I am a member in good standing of the Ordre des Ingénieurs du Québec (No. 32368) and the Professional Engineers of Ontario (licence #100166433). I have worked as a geological engineer since my graduation in 1978. My relevant experience for the Massicotte project was acquired during my years working as a project geologist for Serem (1978-1981), as a senior geologist for Agnico-Eagle (1982-1989) and as a technical inspector for the C.E.I.P. program of Natural Resources Canada (1989-1990), and during the course of many mandates for junior exploration companies;
- d) I visited the property on October 2, 2012. One day was required for the visit. I used the old Selbaie Mine road and logging roads to check for outcrops on the different claim blocks. However, due to the thick overburden in this area, I saw no outcrops, excepted along the Harricana River at the junction with the Selbaie road bridge.
- e) I am responsible for all the sections of the technical report;
- f) I am independent of the issuer in accordance with Section 1.5 of NI 43-101;
- g) I have read the definition of “qualified person” set out in Regulation 43-101 respecting standards of disclosure for mineral project, and certify that by reason of my education, affiliation with a professional association (as defined in Regulation 43-101) and past relevant work experience, I fulfill the requirements to be a “qualified person” for the purposes of Regulation 43-101;

- h) I have read National Instrument 43-101 and Form 43-101F1, and the Technical Report has been prepared in compliance with that Instrument and Form;
- i) As of December 21, 2012, to the best of my knowledge, information and belief, the Technical Report contains all the scientific and technical information that is required to be disclosed to make the Technical Report not misleading.

Dated this December 21, 2012,

*Donald Th  berge*
