CANADIAN METALS SECURES FAVOURABLE POWER AGREEMENT WITH QUEBEC GOVERNMENT

September 12, 2017. Montréal, Québec – Canadian Metals Inc. (The “Company”) (CSE : CME) is pleased to announce that it has received a favorable notice from the Department of Energy and Natural Resources. This notice confirms the granting of a 120 megawatt block from Hydro-Québec to the industrial rate (L), which will be made available to Les Métaux Canadiens for its silicon alloy plant in Baie-Comeau.

With this energy, Canadian Metals will be able to supply its silicon alloys plant with hydroelectric power, having that, Canadian metals will be one of the silicon alloys producer with the lowest greenhouse gas (GHG) emissions on the market.

Following that, the Company confirm the demand to Hydro-Québec to get the discount rate for Economic development (TDE).

"Once again, we would like to thank the Quebec government for the power bloc," said Hubert Vallée, CME's President & CEO. "The hydroelectric supply for all of our silicon alloys plant will make the Langis project one of the most environmentally responsible silicon alloys project in the industry."

About Canadian Metals

Canadian Metals is focused on the development of its Langis project, a high-purity silica deposit located in the province of Quebec. The Company is rapidly positioning itself as a supplier of high purity silica and silicon alloy in North America. Silicon based materials can be formulated to provide a broad range of products from more durable, faster building materials with smarter electronic devices, solar panels and more efficient wind turbines. We expect to become a global supplier for a number of industries and applications but without limitation: glass, ceramics, lighting, oil and gas, paint, plastic and rubber. We also want to become an integrated supplier to metallurgical industries including foundries, and participate in a wide range of civil, industrial, environmental and related applications. These target markets are an integral part of the lives of millions of people every day.

Cautionary Statements Regarding Forward Looking Information

Certain statements included herein may constitute “forward-looking statements”. All statements included in this press release that address future events, conditions or results, including in connection with the pre-feasibility study, its financing, the hybrid flex project, job creation, the investments to complete the project and the potential performance, production and environmental footprint of the silicon plant, are forward-looking statements. These forward-looking statements can be identified by the use of words such as “may”, “must”, “plan”, “believe”, “expect”, “estimate”, “think”, “continue”, “should”, “will”, “could”, “intend”, “anticipate” or “future” or the negative forms thereof or similar variations. These forward-looking statements are based on certain assumptions and analyses made by management in light of their experiences and their perception of historical trends, current conditions and expected future developments, as well as other factors they believe are appropriate in the circumstances. These statements are subject to risks, uncertainties and assumptions, including those mentioned in the Corporation’s continuous disclosure documents, which can be found under its profile on SEDAR (www.sedar.com). Many of such risks and uncertainties are outside the control of the Corporation and could cause actual results to differ materially from those expressed or implied by such forward-looking statements. In making such forward-looking statements, management has relied upon a number of material factors and assumptions, on the basis of currently available information, for which there is no insurance that such information will prove accurate. All forward-looking statements are expressly qualified in their entirety by the cautionary statements set forth above. The Corporation is under no obligation, and expressly disclaims any intention or obligation, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as expressly required by applicable law.

Neither the CSE nor its Regulation Services Provider accepts responsibility for the adequacy or accuracy of this release.
