### 1. Incorporation and operations

Exito Energy II Inc. (formerly Capitalize Acquisition I Corp.) ("Exito" or the "Corporation") was incorporated under the laws of the Province of Alberta on November 11, 2010 and is based in Calgary, Alberta. The Corporation is classified as a Capital Pool Company ("CPC") as defined in Policy 2.4 of the TSX Venture Exchange (the "Exchange") is listed on the Exchange under the symbol "EXI.P" and commenced trading on May 8, 2013. The principal business of the Corporation will be to identify and evaluate assets or businesses with a view to potentially acquiring them or an interest therein by completing a purchase transaction, by exercising an option or by any concomitant transaction. The purpose of such an acquisition will be to satisfy the related conditions of a qualifying transaction under the Exchange rules within two years of becoming a CPC. The address of the head office of the Corporation is 1350, 734 – 7<sup>th</sup> Avenue S.W. Calgary, Alberta.

The condensed interim financial statements of the Corporation for the three and nine months ended September 30, 2013 were authorized for issue in accordance with a resolution of the Board of Directors on November 27, 2013.

In order to complete an acquisition or participate in an operation, additional funding may be required. The ability of the Corporation to fund its potential future operations and commitments is dependent upon the ability of the Corporation to complete a qualifying transaction.

There is no assurance that the Corporation will identify a business or asset that warrants acquisition or participation within the time limitations permissible under the policies of the Exchange, at which time the Exchange may suspend or de-list the Corporation's shares from trading.

During 2012, the Corporation's year end was changed from October 31<sup>st</sup> to December 31<sup>st</sup>, therefore the comparative figures are for the three and nine months ended October 31, 2012.

### 2. Basis of preparation

#### Statement of compliance

These condensed interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 – Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards ("IFRS"). These condensed interim financial statements do not include all of the information required for full annual financial statements. The condensed interim financial statements should be read in conjunction with the Corporation's annual financial statements for the period from November 1, 2011 to December 31, 2012.

#### Basis of preparation

These condensed interim financial statements have been prepared using historical costs and fair values of certain items, as detailed in the accounting policies set out in Note 3 below. These policies have been applied consistently to all periods presented in these condensed interim financial statements.

#### Use of estimates and judgments

The preparation of condensed interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

## Notes to the Financial Statements

For the three and nine months ended September 30, 2013 and for the three and nine months ended October 31, 2012  
In Canadian Dollars

---

The key sources of estimation uncertainty that have a significant risk of causing material adjustment to the amounts recognized in the financial statements relate to, but are not limited to, the following:

### *Cash*

Cash consists of the proceeds generated on the issuance of common shares, which is being held as cash and short term deposits.

### *Share-based compensation*

Management is required to make certain estimates when determining the fair value of stock options issued and the number of stock options that are expected to vest. These estimates affect the amount recognized as share-based compensation in the statements of loss and comprehensive loss based on estimates of forfeiture, expected lives and volatility.

### *Income Taxes and Recovery of Deferred Tax Assets*

The measurement of income taxes payable and deferred income tax assets and liabilities requires management to make judgements in the interpretation and application of the relevant tax laws. The actual amount of income taxes only becomes final upon filing and acceptance of the tax return by the relevant authorities, which occurs subsequent to the issuance of the financial statements.

### **Functional and presentation currency**

These financial statements are presented in Canadian dollars, which is the Corporation's functional and presentation currency.

### **3. Summary of significant accounting policies**

These condensed interim financial statements have been prepared following the same accounting policies and methods of computation as described in note 4 of the Corporation's annual financial statements for the period from November 1, 2011 to December 31, 2012 and in the following supplemental disclosure. The disclosures provided below are incremental to those included with the annual financial statements and certain disclosures, which are normally required to be included in the notes to the annual financial statements, have been condensed or omitted.

#### **Basic and diluted loss per share**

The Corporation presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Corporation by the weighted average number of common shares outstanding during the period. Diluted loss per share is determined by adjusting the loss attributable to common shareholders and the weighted average number of common shares outstanding for the effects of all dilutive potential common shares.

#### **Share-based payments**

The Corporation issues equity-settled share-based payments under which it receives services from directors, officers, employees and consultants as consideration for equity instruments of the Corporation.

Where equity-settled share options are granted to employees, directors or officers the fair value of the options at the date of the grant is charged to the statement of comprehensive loss. The Corporation uses the Black-Scholes pricing model to estimate the fair value of equity-settled awards at the grant date. The expense is recognized over the vesting period, which is the period over which all of the specified vesting conditions are satisfied. For awards with graded vesting, the fair value of each tranche is recognized over its respective vesting period. No expense is recognized for awards that do not ultimately vest.

Where equity-settled share options are granted to non-employees they are recorded at the fair value of the goods or services received in the statement of comprehensive loss, unless they are related to the issuance of shares. Amounts related to the issuance of shares are recorded as a reduction of share capital. When the value of goods or services received in exchange for the share-based payment cannot be reliably estimated, the fair value is

measured using the Black-Scholes pricing model.

All equity-settled share-based payments are reflected in contributed surplus until exercised. Upon exercise, shares are issued from treasury and the amount reflected in contributed surplus is reclassified to share capital.

#### 4. Cash restrictions

The proceeds raised from the issuance of common shares may only be used to identify and evaluate assets or businesses for future investment, with the exception that up to 30% of the gross proceeds may be used to cover prescribed costs of issuing the common shares or administrative and general expenses of the Corporation. These restrictions apply until completion of a Qualifying Transaction by the Corporation as defined under the policies of the Exchange.

#### 5. Share capital

##### Authorized

The Corporation has authorized an unlimited number of voting common shares and an unlimited number of preferred shares.

##### Issued and outstanding common shares

	Number of Shares	Amount \$

Share issue costs (2)	-	(131,446)
As at September 30, 2013	10,000,000	618,554

- (1) On January 16, 2013, the Corporation issued 5,000,000 shares to third parties and Directors of the Corporation at a price of \$0.05 per share for gross proceeds of \$250,000. Upon closing of the IPO these shares were deposited into escrow and will be released from escrow over a period of up to three years from the date that the Corporation completes a qualifying transaction. If the issuer resulting from the completion of a qualifying transaction meets the Exchange's Tier 1 initial listing requirements then the period for which these shares will be escrowed will be shortened to 18 months from the date of closing of the qualifying transaction. If the corporation fails to complete a qualifying transaction within 24 months of the closing of the IPO then all escrowed shares held by non-arm's length parties may be cancelled or discounted to create an average purchase price for these escrowed shares equal to the IPO subscription price per share.
- (2) On May 7, 2013 the Corporation closed an initial public offering ("IPO") of 5,000,000 common shares at \$0.10 per share for gross proceeds of \$500,000. Share issue costs of \$105,138 were paid related to the initial public offering. The fair value of the agent options granted as a result of the initial public offering (note 6), of \$26,308 were recorded as share issue costs.

### 6. Share-based Payments

The Corporation has adopted a stock option plan (the "Plan") which provides that the Board of Directors of the Corporation may from time to time, in its discretion, and in accordance with the Exchange requirements, grant to directors, officers and employees of the Corporation, non-transferable options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the issued and outstanding common shares. Such options will be exercisable for a period of up to 10 years from the date of grant. In connection with the foregoing, the number of common shares reserved for issuance to any individual director or officer will not exceed 5% of the issued and outstanding common shares and the number of common shares reserved for issuance to all technical consultants will not exceed 2% of the issued and outstanding common shares. Vesting terms will be determined at the time of grant by the Board of Directors.

A summary of the stock option plan transactions for the nine months ended September 30, 2013 are as follows (there were no stock option transactions prior to May 2013):

	Number of options	Weighted average exercise price
Outstanding at beginning of period	-	\$ -
Options granted to directors and officers	1,000,000	0.10
<b>Outstanding at end of period</b>	<b>1,000,000</b>	<b>\$ 0.10</b>

All options outstanding vested upon issuance and have a weighted average remaining contractual life of 4.6 years.

The fair value of each share-based payment transaction was estimated on the date of the grant, as determined by using the Black-Scholes option-pricing model with the following assumptions:

Dividend yield	0%
Grant date share price	\$0.10
Exercise price	\$0.10
Expected volatility	100%
Forfeitures	0%
Risk-free interest rate	1.57%

The Corporation's stock has less than two years of trading history; therefore the Corporation has used the historical volatilities of certain members of its peer group for input into the Black-Scholes Option Pricing Model.

During the nine months ended September 30, 2013 the Corporation recorded share-based compensation expense for

options granted of \$74,760, none of which was recorded during the three months ended September 30, 2013 (\$ nil during the three and nine months ended October 31, 2012) with an offsetting increase to contributed surplus.

### Agent compensation options

The Corporation issued agent options as compensation to agents to purchase common shares in conjunction with share issuances.

A summary of agent option transactions for the nine months ended September 30, 2013 are as follows (there were no agent compensation option transactions prior to May 2013):

	Number of options	Weighted average exercise price
Outstanding at beginning of period	-	\$ -
Options granted	500,000	0.10
Outstanding at end of period	500,000	\$ 0.10

All agent options outstanding vested upon issuance and have a weighted average remaining contractual life of 1.6 years.

The fair value of each share-based payment transaction was estimated on the date of the grant, as determined by using the Black-Scholes option-pricing model with the following assumptions:

Dividend yield	0%
Grant date share price	\$0.10
Exercise price	\$0.10
Expected volatility	100%
Forfeitures	0%
Risk-free interest rate	1.18%

The Corporation's stock has less than two years of trading history; therefore the Corporation has used the historical volatilities of certain members of its peer group for input into the Black-Scholes Option Pricing Model.

For the nine months ended September 30, 2013, the Corporation recorded \$26,308 (\$ nil during the three and nine months ended October 31, 2012) as share issue costs for agent options issued with an offsetting increase to contributed surplus, none of which was recorded during the three months ended September 30, 2013.

### 7. Loss per share

	Three months ended		Nine months ended	
	September 30, 2013	October 31, 2012	September 30, 2013	October 31, 2012
Weighted average common shares outstanding	10,000,000	1	7,683,824	1
Diluted common shares outstanding	10,000,000	1	7,683,824	1

The basic and diluted loss per share amounts are the same, as the stock options and agent options were excluded from the dilution calculation, as they were anti-dilutive.

As at September 30, 2013	32,833	1,251

As at September 30, 2013 and December 31, 2012 the Corporation has a non-capital loss carry-forward of \$47,223 available to reduce future years' income for tax purposes. This non-capital loss carry-forward has not been recognized in the financial statements and will begin to expire in 2031.

### 9. Capital disclosures

The Corporation's capital consists of share capital. The Corporation's objective for managing capital is to maintain sufficient capital to identify, evaluate and complete an acquisition or other transaction as disclosed in note 1.

The Corporation sets the amount of capital in relation to risk and manages the capital structure and makes adjustments to it in light of changes to economic conditions and the risk characteristics of the underlying assets.

The Corporation's objectives when managing capital are:

- i. to maintain a flexible capital structure, which optimizes the cost of capital at acceptable risk; and,
- ii. to maintain investor, creditor and market confidence in order to sustain the future development of the business.

The Corporation is not subject to any externally or internally imposed capital requirements at period end.

### 10. Related party transactions

Pursuant to an Administration Services Agreement, Exito pays \$1,500 per month to a corporation wholly owned by two directors of the Corporation for the use of office space, reception and boardrooms, equipment (including computers, telephones, vehicles, etc.), printing and all other necessary administrative functions and services required to permit Exito to review and evaluate potential Qualifying Transactions. During the three and nine months ended September 30, 2013, \$4,500 and \$9,000 respectively (\$nil during the three and nine months ended October 31, 2012) was paid in accordance with this arrangement.

During the three and nine months ended September 30, 2013, \$1,000 and \$4,150 respectively (\$nil during the three and nine months ended October 31, 2012) in professional fees were incurred from a partnership, for accounting services relating to the preparation of financial statements, in which a Director of the Corporation is a Partner. There was \$2,000 in accounts payable and accrued liabilities at September 30, 2013 (\$ nil at December 31, 2012) for these professional fees.

During the three and nine months ended September 30, 2013, \$1,606 and \$11,606 respectively (\$nil during the three and nine months ended October 31, 2012) in legal fees was incurred and was paid to a law firm, for legal services relating to the IPO, in which a Director of the Corporation is a Partner.

These transactions were incurred during the normal course of operations on similar terms and conditions to those entered into with unrelated parties. These transactions are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.
