**1. NATURE OF OPERATIONS AND GOING CONCERN**

Good Life Networks Inc. (formerly Exito Energy II Inc.) (the “Company” or “Good Life”) was incorporated under the *Business Corporations Act* on August 17, 2011 in the province of British Columbia. The Company was classified as a Capital Pool Company (“CPC”) as defined in Policy 2.4 of the TSX Venture Exchange (the “TSXV”) until the completion of the qualifying transaction.

Effective January 28, 2018, the Company closed its qualifying transaction (the “Transaction”) with Good Life Networks Inc. (“GLN”), a Vancouver-based, digital media private company. The Transaction was completed by way of a share exchange pursuant to a plan of arrangement under the provisions of the *Business Corporations Act* (British Columbia) (the “Arrangement”), which included the amalgamation of GLN and Exito Energy II Inc. (“Exito”) to form the Company as the resulting issuer. Immediately prior to the completion of the Arrangement, Exito completed a consolidation of its issued and outstanding common shares on the basis of one post-consolidation share for every two pre-consolidation shares and continued from Alberta into British Columbia. Each GLN common share was exchanged for 0.2601 of a common share of the Company. The Company is continuing the business of GLN, as described below. The transaction was considered a reverse takeover (“RTO”) since the legal acquiree is the accounting acquirer, as the former shareholders of GLN obtained a controlling interest of the resulting entity after the completion of the transaction (see note 10).

The Company’s goal is a commercially focused digital branding and advertising agency. The principal business office of the Company is located at Suite 150, 1090 Homer Street, Vancouver, British Columbia, Canada, V6B 2W9.

These condensed consolidated interim financial statements have been prepared on a going concern basis, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Several conditions raise significant doubt regarding the validity of the going concern basis. Except for the year ended 2017, the Company has a history of losses and negative operating cash flows. As at September 30, 2018, the Company has an accumulated deficit of \$11,375,984 (December 31, 2017 - \$9,640,753). The Company will require additional funding in order to satisfy its liabilities as they become due and sustain its ongoing operations in the normal course of business. The Company plans to generate the necessary resources to finance operations by way of a combination of sales of its products, issuance of equity securities and debt instruments.

The condensed consolidated interim financial statements do not reflect adjustments to the amounts and classifications of assets and liabilities that would be necessary if the going concern assumption was not appropriate. Such adjustments could be significant.

**2. BASIS OF PRESENTATION**

(a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with international Accounting Standard 34 *Interim Financial Reporting* (“IAS 34”) using accounting policies consistent with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”). These condensed consolidated interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

**Notes to the Consolidated Financial Statements**  
**Three and Nine Months ended September 30, 2018 and 2017**

**2. BASIS OF PRESENTATION** (Continued)

(a) Statement of compliance (Continued)

These condensed consolidated interim financial statements have been prepared in accordance with the same accounting policies and methods of application as the most recent audited financial statements for the year ended December 31, 2017 of GLN and Exito, except as presented in note 3. These condensed consolidated interim financial statements do not include all the disclosures required for the annual audited financial statements. These financial statements should be read in conjunction with the audited consolidated financial statements for GLN and Exito for the year ended December 31, 2017.

(b) Approval of the condensed consolidated interim financial statements

These condensed consolidated interim financial statements were approved and authorized for issue by the Board of Directors of the Company on November 27, 2018.

(c) Use of estimates and judgments

The preparation of these condensed consolidated interim financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated interim financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

The Company has applied the same significant estimates and judgments in its condensed consolidated interim financial statements as in the audited consolidated financial statements of GLN and Exito for the year ended December 31, 2017

Significant areas requiring the use of judgments include:

(i) The assessment of the Company's ability to continue as a going concern involves judgment regarding future funding available for its product development and working capital requirements.

(ii) The application of the Company's accounting policy for intangible asset capitalization requires judgment in determining whether it is likely that the future economic benefits will flow to the Company, which are based on assumptions about future events or circumstances. Assumptions may change if new information becomes available.

The Company assesses at each reporting date if the intangible has indicators of impairment. In determining whether the intangible is impaired, the Company assesses certain criteria, including observable decreases in value, significant changes with adverse effect on the entity, evidence of technological obsolescence and future plans.

**2. BASIS OF PRESENTATION (Continued)**

- (c) Use of estimates and judgments (Continued)
- (iii) The Company records an allowance for doubtful accounts related to trade and other receivables that are considered to be uncollectable. The allowance is based on the Company's knowledge of the financial condition of its customers, the aging of the receivables, the current business environment and historical experience. A change to those factors could impact the estimated allowance and the provision for bad debts.
  - (iv) Proceeds received on the issuance of units, consisting of common shares and warrant components, are allocated using the residual method whereby proceeds are allocated first to common shares based on an estimate of fair value of the common shares at the time the units are priced, and any excess is allocated to warrants. Management's judgment is used in the method used to establish the fair value of the Company's common shares.
  - (v) The determination of the functional currency for the Company and each of its subsidiaries was based on management's judgment of the underlying transactions, events and conditions relevant to each entity.
  - (vi) Deferred income tax assets and liabilities result from timing differences between the financial reporting and tax bases of assets and liabilities. Loss carry forwards also comprise a portion of the temporary differences and result in a deferred income tax asset. Deferred income tax assets are only recognized to the extent that management considers it probable that a deferred income tax asset will be realized. The assessment for the recognition of a deferred tax asset requires significant judgement. The factors used to assess the likelihood of realization are the Company's forecast of future taxable income and available tax planning strategies that could be implemented to realize the deferred tax assets. The Company has and continues to use tax planning strategies to realize deferred tax assets in order to avoid the potential loss of benefits. Unknown future events and circumstances, such as changes in tax rates and laws, may materially affect the assumptions and estimates made from one period to the next. Any significant change in events, tax laws, and tax rates beyond the control of the Company may materially affect the consolidated financial statements.
  - (vii) Contingencies are subject to measurements of uncertainty as the financial impact will only be confirmed by the outcome of a future event. The assessment of contingencies involves a significant amount of judgement, including assessing whether a present obligation exists, assessing factors that may mitigate or reduce the obligation, and determining a reliable estimate of the amount of cash outflow required to settle the obligation. The Company is required to both determine whether loss is probable and whether the loss can be reasonably estimated. The uncertainty involved with the time and amount at which a contingency may be settled may have a material impact on the consolidated financial statements of future periods to the extent that the amount provided for differs from the actual outcome.

**2. BASIS OF PRESENTATION (Continued)**

(d) Functional and presentation currency

The functional currency of each entity is measured using the currency of the primary economic environment in which that entity operates. The condensed consolidated interim financial statements are presented in Canadian dollars, which is the Company's functional and presentation currency. The functional currency of Good Life Networks USA Inc. and Megacast Networks Inc. is the Canadian dollar.

**3. SIGNIFICANT ACCOUNTING POLICIES**

The Company has applied the same accounting policies and methods of computation in its condensed consolidated interim financial statements as in the audited consolidated financial statements of GLN and Exito for the year ended December 31, 2017, except for those that relate to new standards and interpretations effective for the first time for periods beginning on or after January 1, 2018, and will be adopted in the 2018 annual financial statements.

(a) Basis of consolidation

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that are currently exercisable are taken into account.

These condensed consolidated interim financial statements include the accounts of the Company and its wholly owned subsidiary, Megacast Networks Inc. and 60% interest in Good Life Networks USA Inc. All intercompany transactions and balances have been eliminated.

(b) IFRS standards adopted

As of January 1, 2018, the Company adopted the new and amended IFRS pronouncements in accordance with transitional provisions outlined in the respective standards. The adoption of these standards did not have a material impact on the consolidated results, financial position or accounting policies of the Company. Significant standards adopted include the following:

*IFRS 9, Financial Instruments ("IFRS 9")*

IFRS 9 addresses the classification, measurement and recognition of financial assets and financial liabilities and supersedes the guidance relating to the classification and measurement of financial instruments in IAS 39 *Financial Instruments: Recognition and Measurement* ("IAS 39").

IFRS 9 requires financial assets to be classified into three measurement categories on initial recognition: those measured at fair value through profit and loss, those measured at fair value through other comprehensive income and those measured at amortized cost. Investments in equity instruments are required to be measured by default at fair value through profit or loss. For financial liabilities, the standard retains most of the IAS 39 requirements.

**3. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

(b) IFRS standards adopted (Continued)

The adoption of IFRS 9 did not change the classification and movement of the Company's financial assets and liabilities.

The Company does not have financial instruments measured at fair value through other comprehensive income.

*IFRS 15, Revenue from Contracts with Customers ("IFRS 15")*

The new revenue standard introduces a single principles-based, five-step model for the recognition of revenue when control of goods is transferred to, or a service is performed for, the customer. IFRS 15 also requires enhanced disclosures about revenue to help users better understand the nature, amount, timing and uncertainty of revenue and cash flows from contracts with customers.

The adoption of IFRS 15 did not have any significant impact on the Company's accounting policies.

(c) IFRS standards issued but not yet effective

A number of new standards, amendments to standards and interpretations, are not yet effective for the year ending December 31, 2018, and have not been applied in preparing these condensed consolidated interim financial statements. The Company considers the following standard the most significant and is not a complete list of new pronouncements that may impact the financial statements.

*IFRS 16 Leases ("IFRS 16")*

This new standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both the lessee and the lessor. The new standard introduces a single lessee accounting model that requires the recognition of all assets and liabilities arising from a lease.

The main features of the new standard are as follows:

- (i) An entity identifies as a lease a contract that conveys the right to control the use of an identified asset for a period of time in exchange for consideration.
- (ii) A lessee recognizes an asset representing the right to use the leased asset, and a liability for its obligation to make lease payments. Exceptions are permitted for short-term leases and leases of low-value assets.
- (iii) A lease asset is initially measured at cost, and is then depreciated similarly to property, plant and equipment. A lease liability is initially measured at the present value of the unpaid lease payments.
- (iv) A lessee presents interest expense on a lease liability separately from depreciation of a lease asset in the statement of profit or loss and other comprehensive income.
- (v) A lessor continues to classify its leases as operating leases or finance leases, and to account for them accordingly.
- (vi) A lessor provides enhanced disclosures about its risk exposure, particularly exposure to residual-value risk.

**3. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

(c) IFRS standards issued but not yet effective (Continued)

The new standard supersedes the requirements in IAS 17 *Leases*, IFRIC 4 *Determining Whether an Arrangement Contains a Lease*, SIC-15 *Operating Leases – Incentives* and SIC-27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*.

The new standard is effective for the Company's annual period beginning on January 1, 2019.

**4. FINANCIAL INSTRUMENTS**

Financial instruments are agreements between two parties that result in promises to pay or receive cash or equity instruments. The Company classifies its financial instruments as follows: cash is classified as a financial asset at FVTPL; accounts receivable is classified as loans and receivables; and accounts payable and accrued liabilities, promissory notes, interest payable, bridge financing payable, other liabilities and convertible debentures are classified as other financial liabilities, which are measured at amortized cost. The carrying values of these instruments, other than convertible debentures and bridge financing payable approximate their fair values due to their short term to maturity. The carrying value of convertible debentures and bridge financing payable approximates fair value as they are at market rates of interest.

The Company has exposure to the following risks from its use of financial instruments:

(a) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Cash is placed with a major Canadian financial institution and the Company's concentration of credit risk for cash and maximum exposure thereto is \$364,916 (December 31, 2017 - \$15,468).

With respect to its accounts receivable, the Company assesses the credit rating of all customers and maintains provisions for potential credit losses, and any such losses to date have been within management's expectations. The Company's credit risk with respect to accounts receivable and maximum exposure thereto is \$8,736,742 (December 31, 2017 - \$9,652,926).

(b) Liquidity risk

Liquidity risk is the risk that the Company will be unable to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure, as far as possible, that it will have sufficient liquid funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. At September 30, 2018, the Company has \$364,916 (December 31, 2017 - \$15,468) of cash to settle current liabilities with the following due

dates: accounts payable and accrued liabilities of \$2,890,543 (December 31, 2017 - \$7,854,180) and interest payable of \$50,000 (December 31, 2017 - \$266,824) are due within three months. Promissory notes of \$Nil (December 31, 2017 - \$750,000), convertible debts \$Nil (December 31, 2017 - \$120,000), note payable of \$Nil (December 31, 2017 - \$25,000) and other liabilities of \$1,517,443 (December 31, 2017 - \$1,455,371) are due within twelve months.

The Company manages its liquidity risk by relying upon its cash inflow from revenues, but expects it will have to raise additional funds through equity or debt financing to fund its current liabilities and sustain ongoing operations in the normal course of business.

(c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types of risk: interest rate, foreign currency and other price risk.

(i) Interest rate risk

The Company is not exposed to significant interest rate risk.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value of the Company's assets and liabilities will fluctuate due to changes in foreign exchange rates.

The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in its functional currency. The Company does not manage currency risk through hedging or other currency management tools.

As at September 30, 2018 and December 31, 2017, the Company's net exposure to foreign currency risk on its financial instruments is as follows:

	<b>September 30, 2018</b>		<b>December 31, 2017</b>

**4. FINANCIAL INSTRUMENTS (Continued)**

(c) Market risk (Continued)

(ii) Foreign currency risk (continued)

A 10% (December 31, 2017 - 10%) change in the US dollar against the Canadian dollar at September 30, 2018 would result in a change of approximately \$546,000 (December 31, 2017 - \$152,000) in comprehensive loss.

(iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to other price risk.

**5. INTANGIBLE ASSETS**

In April 2016, the Company entered into an agreement with Stella 3000 Ltd. ("Stella") pursuant to which Stella agreed to design and deliver a desktop video and mobile web video arbitrage platform (the "Platform"). Pursuant to the agreement, the Company will pay Stella a monthly fee of US \$25,000 for the term of the agreement commencing March 1, 2016 and ending September 1, 2017. On September 20, 2016, the Company issued 520,200 common shares to settle \$100,000 payable to Stella.

On October 5, 2016, pursuant to a consulting agreement entered into with Stella, the Company issued 346,800 common shares at a fair value of \$66,667 as consideration for Stella's assignment of intellectual property to the Company. The intellectual property has an estimated useful life of 10 years.

During the period ended September 30, 2018, the Company purchased the commercial relationships, contracts and agreements that existed between a third party and numerous partners for consideration of \$202,367.

#### 6. PROMISSORY NOTES

	September 30, 2018	December 31, 2017
Promissory Note	\$ -	\$ 750,000

On December 21, 2015, and then amended December 21, 2016, the Company entered into a promissory note with a group of lenders. The Company issued promissory notes for gross proceeds of \$750,000, with a term of one year and interest of 24% per annum is payable on a monthly basis. In 2015, \$50,000 was segregated and restricted and was to be used towards interest payments only. To the extent that any revenue or cash flow is generated by AmpDesk Mobile (“AmpMobile”) or by the Company, payments of 80% of such amounts are due at prescribed times during the term of the loan.

For the principal amount of \$750,000 advanced, the lenders received 1,250,000 special warrants (note 9(c)) that automatically converts into share purchase warrants as follows:

- (i) Upon completion of the transaction with Special Purpose Operating Company (“SPOC”), the special warrants will automatically convert, without further consideration, into warrants of the SPOC, exercisable up to December 21, 2020. The exercise price will be the lesser of the share price utilized in completing the RTO discounted by 25% per share, and the share price utilized for the financing completed by the SPOC with respect to the RTO discounted by 25%.

If the Company’s special warrants are converted into warrants of the SPOC and a concurrent financing is completed of no less than \$4,000,000, which results in the aggregate number of shares to be acquired by the holders of the warrants being less than 2% on a fully diluted basis, then warrants of the SPOC issued to the lenders shall be increased to equal 2% of the outstanding warrants of the SPOC on a fully diluted basis.

- (ii) If the RTO is not completed within the term of the loan, the special warrants will automatically convert into 12,500,000 warrants of the Company, exercisable up to December 21, 2020 at an exercise price of \$0.025 per share.

During the year ended December 31, 2017, the Company extended the repayment date of the Loan Agreement to January 31, 2018. In connection with the extension of the Loan Agreement, a bonus interest of 8% was accrued to the lenders. The loan principal of \$750,000 together with accrued interest of \$142,867 were repaid during the period ended September 30, 2018.

As the number of warrants the special warrant holders will receive will vary depending on whether RTO occurs, in accordance with IAS 32 *Financial instruments: Presentation*, the warrants are accounted for as derivative liabilities and are fair valued at each statement of financial position date.

The Company estimated the fair value of the warrants to be \$234,000 and recorded them as derivative liability at December 31, 2017. Upon completion of the RTO, the special warrants converted into 1,250,000 warrants (note 9(c)) and the Company recorded a recovery of fair value change of derivative liability of \$234,000 in the statement of comprehensive loss during the period ended September 30, 2018.

#### 7. BRIDGE FINANCING PAYABLE

On April 27, 2017, the Company entered into a Bridge Financing Agreement (the "Bridge Financing") for issuance of up to 16,842,105 convertible notes, which are convertible into units of the Company, pursuant to a private placement at a conversion price of \$0.0475 per unit, with each unit consisting of one common share and one-half common share purchase warrant. These warrants are exercisable for 24 months at \$0.09 per warrant. The convertible notes are unsecured, have a term of five years and an interest rate of 10% per annum.

The Company amended the Bridge Financing for issuance of up to a total of 32,594,842 convertible notes, which are convertible into units of the Company, pursuant to a private placement at a conversion price of \$0.0475 per unit, with each unit consisting of one common share and one-half common share purchase warrant. The total amount raised from the Bridge Financing is \$1,542,255.

During the period ended September 30, 2018, the Bridge Financing was converted into units (note 9(b))

A continuity of the liability portion of the convertible debentures is as follows:

Balance, December 31, 2017	1,299,292
Accretion interest expense	796
Balance, January 26, 2018 (RTO date)	1,300,088
Converted into units	(1,300,088)
Balance, September 30, 2018	\$ -

As of September 30, 2018, accrued interest of \$Nil (December 31, 2017 - \$65,552) was payable. The Company recorded \$796 (December 31, 2017 - \$15,299) in accretion expense during the nine months ended September 30, 2018.

#### 8. CONVERTIBLE DEBENTURES

During the year ended December 31, 2013, the Company raised \$260,000 through the issuance of convertible debentures. The convertible debentures bear interest at 20% per annum and are convertible into common shares of the Company at a price of \$0.05 per share. Interest is payable monthly. Five of the notes with principal amounts of \$190,000 were convertible on or before June 27, 2018, while one of the notes with a principal amount of \$70,000 was convertible on or before September 6, 2018.

On inception, the Company allocated the total proceeds received between the liability and equity components of the convertible debenture using the residual method, based on a discount rate of 25%, which is the estimated cost at which the Company could borrow similar debt without a conversion feature. The liability component with a fair value of \$225,040 on inception is measured at amortized cost and is accrued over the expected term to maturity using the effective interest method. The equity component with a fair value of \$34,960 on inception is presented as a component of shareholders' deficiency.

Three of the convertible notes with a combined principal of \$140,000 were settled, repaid or converted in prior years.

Three of the convertible notes with a combined principal of \$120,000 were settled during the period ended September 30, 2018 (note 9(b)).

#### 10. REVERSE TAKE OVER OF EXITO

On January 26, 2018, the Company closed the arrangement with Exito (note 1). The Transaction was considered an RTO since the legal acquiree is the accounting acquirer, as the former shareholders of GLN obtain a controlling interest of the resulting entity after the completion of the Transaction.

The following summarizes the reverse takeover of Exito by GLN and the assets acquired and the liabilities assumed on January 26, 2018, the amalgamation date:

Net tangible assets (estimated fair value) acquired:	
Cash and cash equivalents	\$ 67,994
Accounts receivable	9,365
Notes receivable	25,000
	<hr/>
	\$ 102,359
Consideration paid:	
Shares Good Life Network Inc. deemed issued	\$ 1,000,000
Options issued to Exito shareholders	126,000
	<hr/>
	\$ 1,126,000

At the time of the Transaction, Exito's assets consisted primarily of cash and accounts receivable, and it did not have any processes capable of generating outputs; therefore, Exito did not meet the definition of a business. Accordingly, as Exito did not qualify as a business in accordance with IFRS 3 *Business Combinations*, the amalgamation did not constitute a business combination; however, by analogy it has been accounted for as an RTO. Therefore, GLN, the legal subsidiary, has been treated as the accounting parent company, and Exito, the legal parent, has been treated as the accounting subsidiary.

As the acquisition was not considered a business combination, the excess value of consideration paid over the net assets acquired together with the estimated fair value of 750,000 options granted to Exito shareholders, and additional transaction costs are expensed as a listing fee.

The fair value of the common shares amounted to \$1,000,000, based on the shares issued in a concurrent financing of the Company's common shares at the time of the transaction of \$0.25 per share. The fair values of the stock options were determined using the Black-Scholes option pricing model with the following weighted average assumptions: exercise price – \$0.20, expected life – 1 year, volatility – 180%, risk-free rate – 1.77%, and dividend yield – 0%.

Consideration paid	\$ 1,126,000
Net tangible assets acquired	(102,359)

Listing fee	\$ 2,319,543

##### *Lerna Promissory Note*

On April 22, 2015, the Company issued a secured promissory note in the amount of US \$150,000 to Lerna as part of the acquisition of AmpMobile (note 6). The promissory note has a term of one year and interest of 24% per annum. Repayments are based on the net cash flow of the AmpMobile division. Management is in dispute over the promissory note that became due April 22, 2016 with Lerna, as the transaction with Lerna was never completed and thus the amount remains unpaid.

On March 30, 2016, the Company entered into a secured and subordinated loan agreement (the "Loan Agreement") with Lernalabs Ltd. ("Lernalabs"), a company incorporated in Cyprus, and related to Lerna, pursuant to which Lernalabs agreed to loan to the Company an aggregate principal of up to US \$1,000,000. Pursuant to the Loan Agreement, Lernalabs has advanced US \$453,165 to the Company by way of promissory notes. In addition, US \$66,500 was received by the Company for which no promissory note has been issued.

At September 30, 2018, accrued interest of \$201,334 (December 31, 2017 - \$139,262) is included in other liabilities.

#### **14. OTHER LIABILITIES AND CONTINGENCIES (Continued)**

Concurrent with the Loan Agreement, the Company entered into a consulting services agreement (the "Consulting Services Agreement") with Lernalabs pursuant to which Lernalabs agreed to provide consulting services to the Company for a term of three years commencing March 1, 2016 in exchange for a payment of US \$1,500,000 due on the date that is the later of (i) 13 months from the date of listing of the Company's shares for trading on an exchange (as defined in the agreement); and (ii) 18 months from March 1, 2016. The Consulting Services Agreement also provides that the Company will pay Lernalabs a monthly fee of US \$15,000. The Company terminated the Consulting Services Agreement on August 17, 2016.

In December 2016, the Company filed a civil claim against, among others, Lerna, Lernalabs and the lawyers responsible for negotiating the various agreements with Lerna and Lernalabs (the "Claim"). The Company asserts that Lerna breached the terms of the AmpMobile asset purchase agreement and further they were misrepresented into entering into the Loan Agreement and Consulting Services Agreement with Lernalabs.

Accordingly, pursuant to the Claim, the Company is seeking the following relief:

- Recovery of any amounts paid to Lerna with respect to the AmpMobile asset purchase agreement and cancellation of any future obligations with respect thereto;
- Rescission of the Loan Agreement and Consulting Services Agreement with Lernalabs and recovery of any amounts paid pursuant to the Consulting Services Agreement; and
- Recovery of costs associated with the various agreements, including legal fees.

On January 4, 2017, Lerna filed a civil claim against the Company with respect to the AmpMobile asset purchase agreement. Lerna is seeking relief for the promissory note principal in the amount of US \$150,000 issued by the Company and interest accrued at 24% per annum. Management of the Company has accrued amounts for loan principal in promissory notes and interest in interest payable, which are all included in other liabilities above.

Whilst management believes the Company has reasonable defense to the debt claim from Lerna and reasonable arguments to support the Claim, the outcome of these legal proceedings cannot be determined at September 30, 2018 and no additional amounts have been accrued.

#### **15. DEPOSITS**

The Company paid deposits with respect to an agreement with a third party to develop a software platform for the Company's advertising technology to be used in mobile phone applications.
