

Good Life Networks Inc. Announces CEO Jesse Dylan to Speak at Cantech Convention In Toronto

VANCOUVER, Jan. 24, 2019 /CNW/ - Good Life Networks Inc. ("**GLN**", or the "**Company**") (TSXV: GOOD) (FSE: 4G5), a programmatic advertising technology company, today announced that CEO Jesse Dylan will speak at the upcoming Cantech Conference in Toronto.

"I'm looking forward to sharing the GLN success story, our leadership role in digital technology, and our strategy for the future with current and prospective investors at the Cantech Conference," stated CEO Jesse Dylan.

The Cantech Investment Conference takes place January 29th and 30th at the Metro Toronto Convention center, where CEO Jesse Dylan will be a guest speaker. You can join him for his presentation on Tuesday 29th at 1:50 pm on the Paradigm stage. We would also like to invite everyone attending the convention to visit us at the GLN booth on both days (Booth 520).

The GLN Story

GLN's technology is the engine that sits between advertisers and publishers. The GLN Platform is built for cross device video advertising: Mobile, In-App, Desktop and CTV (Connected Television). The Programmatic Video Marketing Platform is powered by GLN's Patent Pending proprietary machine learning technology that targets and connects digital advertisers with consumers three times faster than industry standards, with among the lowest fraud rates of similar vendors without collecting PII (Personal Identifiable Information).

The Programmatic Video Technology Platform features integrations at the server level with both Publishers and Advertisers. Our technology quickly finds the most valuable advertisement for every consumer. Publishers make more money through improved CPM (advertising fill rate) combined with a more engaged consumer experience. Advertisers make more money by reaching their target audience more effectively. GLN makes money by retaining a percentage of the advertiser's fee.

GLN is headquartered in Vancouver, Canada with offices in Newport Beach and Santa Monica California, New York and UK and trades on the TSX Venture Exchange under the stock symbol "GOOD" and The Frankfurt Stock Exchange under the stock symbol 4G5.

Addressable Market: Programmatic trading of digital ads continues to rise with 65% of all ad expenditure in 2019 being traded programmatically. This year, advertisers are projected to spend \$84 billion programmatically, up from \$70 billion in 2018, representing 62% of digital media expenditure according to Zenith Media's latest Programmatic Marketing Forecasts.

Forward Looking Statements:

Forward-looking statements relate to future events or future performance and reflect the expectations or beliefs regarding future events of management of GLN. This information and these

statements, referred to herein as "forward-looking statements", are not historical facts, are made as of the date of this news release and include without limitation, statements regarding discussions of future plans, estimates and forecasts and statements as to management's expectations and intentions with respect to the performance of the company.
