The GLN Story

GLN's patent pending technology is the engine that sits between advertisers and publishers. A highlight of GLN's tech is that it does not collect PII (Personal Identifiable Information). Built for cross device video advertising: Mobile, In-App, Desktop and CTV (Connected Television) the GLN Programmatic Video Advertising Platform has among the lowest fraud rates of similar vendors in the industry. Advertisers make more money by reaching their target audience more effectively. GLN makes money by retaining a percentage of the advertiser's fee.

GLN is headquartered in Vancouver, Canada with offices in Newport Beach and Santa Monica California, New York and UK and trades on the TSXV under the stock symbol "GOOD" and The Frankfurt Stock Exchange under the stock symbol 4G5. For further information on the Company, visit <u>www.glninc.ca</u>
