NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED JUNE 30, 2014 AND 2013

(Expressed in Canadian Dollars)

(Unaudited)

1. NATURE AND CONTINUANCE OF OPERATIONS

Rift Valley Resources Corp. was incorporated under the Laws of the Province of British Columbia on December 14, 2009. On March 20, 2013, Rift Valley amalgamated with Avatar Ocean Technology Inc. ("Avatar"), a reporting issuer and continues under the name Rift Valley Resources Corp. (the "Company" or "Rift Valley") (see Note 2(b)). The address of the Company's corporate office and its principal place of business is 500-900 West Hastings Street, Vancouver, British Columbia, Canada.

The Company began operations on September 19, 2011 and its principal business activity is the acquisition, exploration and development of mineral properties in British Columbia, Canada. As of June 30, 2014 the Company was in the exploration stage.

For the six months ended June 30, 2014, the Company reported a net loss of \$35,738, negative cash flow from operating activities of \$35,394 and an accumulated deficit of \$1,135,310. This raises uncertainty about the Company's ability to continue as a going concern. The Company's ability to continue its operations as intended are dependent on its ability to obtain necessary financing and raise capital sufficient to cover its exploration and operating costs.

These condensed financial statements ("financial statements") do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

2. BASIS OF PRESENTATION

a) Statement of compliance

These financial statements are prepared in compliance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34"). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), have been omitted or condensed. These financial statements should be read in conjunction with the Company's financial statements for the year ended December 31, 2013.

These financial statements were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on August 29, 2014.

b) Amalgamation of Rift Valley Resources Corp. and Avatar

On March 20, 2013, Rift Valley amalgamated with Avatar, a reporting issuer in each of the provinces of British Columbia, Alberta and Ontario. Effective on that date, a total of 20,391,652 common shares were allotted to the former shareholders of Avatar and Rift Valley pursuant to the Amalgamation Agreement. 1,999,985 common shares were issued to the former shareholders of Avatar who received one (1) share of the Company for every three and one-half (3.5) shares of Avatar, and 18,391,667 common shares were issued to the shareholders of the Company. The Company continued under the name of Rift Valley Resources Corp. following the amalgamation.

This transaction is considered to be outside the scope of IFRS 3 *Business Combinations* ("IFRS 3") since Avatar does not meet the requirement of a business under IFRS 3. For accounting purposes, the transaction is accounted for in accordance with IFRS 2 *Share-based Payment* whereby Rift Valley is deemed to have issued shares in exchange for obtaining the reporting issuer status of Avatar and ultimately, a listing on a stock exchange.

2. BASIS OF PRESENTATION (continued)**b) Amalgamation of Rift Valley Resources Corp. and Avatar (continued)**

The fair value of the 1,999,985 shares issued to the former shareholders of Avatar was determined to be \$399,997, based on a value of \$0.20 per share realized by the Company in a private placement issued on March 11, 2013. In addition, the Company also incurred listing expenses of \$40,490 for this amalgamation. As at March 20, 2013, Avatar did not have any identifiable assets or liabilities, as a result, the total amount of the consideration of \$440,487 given was recorded as listing expense in the financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The policies applied in these unaudited condensed interim financial statements are based on IFRS issued and outstanding as of May 29, 2014, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2013. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2014 could result in restatement of these unaudited condensed interim consolidated financial statements.

5. MINERAL PROPERTY INTERESTS (continued)

Cat Mountain Claims, British Columbia

In September 2011, the Company entered into a memorandum of understanding to acquire an option to acquire an undivided 75% right, title and interest to twenty contiguous mineral claims located in west central British Columbia, except for a 2% net smelter royalty (the "NSR"), comprised of approximately 5,984 hectares. The memorandum of understanding was extended into an Option Agreement (the "Agreement") on November 30, 2011. The agreement was amended on January 9, 2013 (with a correction on April 30, 2013), for the purpose of deferral of the terms of cash payments and share issuances. The consideration for this amended agreement is a cash payment of \$10,000 to be made by January 31, 2013 and the issuance of 100,000 common shares to the optionors on the date that the shares of the Company initially begin trading to be made on the stock exchange. On January 24, 2013, the Company made the \$10,000 cash payment. On May 14, 2013, the 100,000 common shares were issued (see Note 14).

Pursuant to the agreement, the Company may purchase 1% of the two percent 2% NSR at any time for \$2,000,000. The Company can maintain its option to acquire the interest in the claims by issuing an aggregate of 1,000,000 common shares of Rift Valley, paying \$500,000 in cash and incurring \$1,500,000 in expenditures on the property within five years. The payments are due as follows:

The Company can acquire an additional 10% undivided interest upon funding the property until commercial production has begun.

On March 11, 2013, the Company issued 100,000 common seed shares at \$0.20 per share for a total of \$20,000.

(c) Stock Options

(d) Shares held in escrow

As at June 30, 2014, the company has 10,754,643 common shares held in escrow (2013 – 12,905,752). 9. CONTRIBUTED SURPLUS

On March 13, 2013, the founders contributed an additional \$37,000 to increase the cash paid for 2,466,667 of the 7,500,000 common seed shares issued on September 20, 2011 from \$0.005 to \$0.02 per share. The contribution has been recorded as contributed surplus.

10. INCOME TAXES

Future tax benefits which may arise as a result of these non-capital losses and other income tax pools have not been recognized in these financial statements and have been offset by a valuation allowance.

No deferred income tax asset has been recognized because the amount of future taxable profit that will be available to realize such assets is unpredictable. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. The amount of deferred income tax asset considered realizable could change materially in the near term based on future taxable income during the carry forward period.

11. MANAGEMENT OF CAPITAL

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern (see Note 1). The Company does not have any externally imposed capital requirements to which it is subject.

As at June 30, 2014, the Company had capital resources consisting of all components of shareholders' equity. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue common shares.

12. FINANCIAL INSTRUMENTS

Fair values

The Company's financial instruments include cash and accounts payable. The carrying amounts of these financial instruments are a reasonable estimate of their fair values because of their current nature. The fair value of these financial instruments approximates their carrying value because of the current nature.

The following table summarizes the carrying values of the Company's financial instruments:

	June 30, 2014	December 31, 2013
	\$	\$
FVTPL (i)	54,749	93,532
Other financial liabilities (ii)	36,924	36,984

(i) Cash

(ii) Accounts payable

The Company classifies its fair value measurements in accordance with the three level fair value hierarchy as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices), and

Level 3 – Inputs that are not based on observable market data

The following table sets forth the Company's financial assets measured at fair value on a recurring basis by level within the fair value hierarchy as follows:

12. FINANCIAL INSTRUMENTS (continued)

Financial risk management objectives and policies

The Company's financial instruments include cash and accounts payable. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(i) *Currency risk*

The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada and current exposure to exchange rate fluctuations is minimal.

(ii) *Interest rate risk*

The Company is exposed to interest rate risk on the variable rate of interest earned on bank deposits. The fair value interest rate risk on bank deposits is insignificant as the deposits are short-term. The Company has not entered into any derivative instruments to manage interest rate fluctuations.

(iii) *Credit risk*

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. Financial instruments that potentially subject the Company to concentrations of credit risks consist principally of cash. To minimize the credit risk on cash the Company places the instrument with financial institution.

(iv) *Liquidity risk*

In the management of liquidity risk of the Company, the Company maintains a balance between continuity of funding and exploration activity. Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Company's projects and operations.

13. COMMITMENTS

Pursuant to the option agreement entered on November 30, 2011 and amended on January 9, 2013, (with a correction on April 30, 2013), the Company is committed to the payments, share issuance and exploration expenditure required to maintain the option to acquire the 75% undivided interest on the Cat Mountain properties as described in Note 5.
