NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2016 AND 2015

(Expressed in Canadian Dollars) (Unaudited)

1. NATURE AND CONTINUANCE OF OPERATIONS

Rift Valley Resources Corp. (the "Company" or "Rift Valley") was incorporated under the Laws of the Province of British Columbia on December 14, 2009. On March 20, 2013, Rift Valley amalgamated with Avatar Ocean Technology Inc. ("Avatar"), a reporting issuer and continues under the name Rift Valley Resources Corp. (the "Company" or "Rift Valley") (see Note 2(b)). The address of the Company's corporate office and its principal place of business is 6511 Housman Place, Richmond, British Columbia, Canada. The Company's shares were listed on the Canadian Securities Exchange on August 27, 2013.

The Company began operations on September 19, 2011 and its principal business activity is the acquisition, exploration and development of mineral properties in British Columbia, Canada. As of September 30, 2016 the Company was in the exploration stage.

The Company has never generated revenue or positive cash flows from operations. For the nine months ended September 30, 2016, the Company reported a net loss of \$21,264, negative cash flow from operating activities of \$10,993 and an accumulated deficit of \$1,665,962. This raises significant doubt about the Company's ability to continue as a going concern. The Company's ability to continue its operations as intended are dependent on its ability to obtain necessary financing and raise capital sufficient to cover its exploration and operating costs.

These condensed financial statements ("financial statements") do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

2. BASIS OF PRESENTATION

a) Statement of compliance

These financial statements are prepared in compliance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34"). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), have been omitted or condensed. These financial statements should be read in conjunction with the Company's financial statements for the year ended December 31, 2015.

These financial statements were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on November 28, 2016.

b) Measurement basis

The financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value, as explained in the accounting policies set out in Note 3 paragraphs (n) and (o) to the Company's financial statements for the year ended December 31, 2015. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The functional and presentation currency of the Company is the Canadian dollar.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The policies applied in these unaudited condensed interim financial statements are based on IFRS issued and outstanding as of November 28, 2016, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2015. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2016 could result in restatement of these unaudited condensed interim consolidated financial statements.

7. CONTRIBUTED SURPLUS

On March 13, 2013, the founders contributed an additional \$37,000 to increase the cash paid for 2,466,667 of the 7,500,000 common seed shares issued on September 20, 2011 from \$0.005 to \$0.02 per share. The contribution has been recorded as contributed surplus.

9. INCOME TAXES

Future tax benefits which may arise as a result of these non-capital losses and other income tax pools have not been recognized in these financial statements and have been offset by a valuation allowance.

No deferred income tax asset has been recognized because the amount of future taxable profit that will be available to realize such assets is unpredictable. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. The amount of deferred income tax asset considered realizable could change materially in the near term based on future taxable income during the carry forward period.

9. MANAGEMENT OF CAPITAL

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern (see Note 1). The Company does not have any externally imposed capital requirements to which it is subject.

As at September 30, 2016, the Company had capital resources consisting of all components of shareholders' equity. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue common shares.

10. FINANCIAL INSTRUMENTS

Fair values

The Company's financial instruments include cash and accounts payable. The carrying amounts of these financial instruments are a reasonable estimate of their fair values because of their current nature. The fair value of these financial instruments approximates their carrying value because of the current nature.

The following table summarizes the carrying values of the Company's financial instruments:

	September 30, 2016	December 31, 2015
	\$	\$
FVTPL (i)	2,449	13,442
Other financial liabilities (ii)	22,249	12,274

- (i) Cash
- (ii) Accounts payable

The Company classifies its fair value measurements in accordance with the three level fair value hierarchy as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices), and
- Level 3 – Inputs that are not based on observable market data

The following table sets forth the Company's financial assets measured at fair value on a recurring basis by level within the fair value hierarchy as follows:

	Level 1	Level 2	Level 3	Total

As at September 30, 2016:				
Cash	2,449	–	–	2,449

10. FINANCIAL INSTRUMENTS (continued)**Financial risk management objectives and policies**

The Company's financial instruments include cash and accounts payable. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(i) *Currency risk*

The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada and current exposure to exchange rate fluctuations is minimal.

(ii) *Interest rate risk*

The Company is exposed to interest rate risk on the variable rate of interest earned on bank deposits. The fair value interest rate risk on bank deposits is insignificant as the deposits are short-term. The Company has not entered into any derivative instruments to manage interest rate fluctuations.

(iii) *Credit risk*

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. Financial instruments that potentially subject the Company to concentrations of credit risks consist principally of cash. To minimize the credit risk on cash the Company places the instrument with financial institution.

(iv) *Liquidity risk*

In the management of liquidity risk of the Company, the Company maintains a balance between continuity of funding and exploration activity. Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Company's projects and operations.

12. COMMITMENT

The Company does not have any commitments at September 30, 2016.
