CNRP FILES TECHNICAL REPORT AND REVISED INFORMATION CIRCULAR

Toronto, Ontario, September 28, 2015 – CNRP Mining Inc (CSE:CND) (“CNRP” or “the Company”) announces that, as a result of review by staff of the Ontario Securities Commission, we are issuing the following news release to clarify our disclosure.

When the Company became listed on the CSE on April 17, 2013 it remained an 85% subsidiary of Winston Resources Inc (“Winston”). The Company relied upon the fact that the Elmtree project technical report addressed to the Company and Winston had previously been filed on SEDAR on May 28, 2012. Upon listing, the Company should have also filed the same Elmtree technical report under the Company’s profile and not just relied on the filing previously made by Winston. The Company has now filed the Elmtree technical report under its own SEDAR profile on September 11, 2015.

In relation to the Summary Compensation Table on page 12 of the Information Circular filed May 27, 2015, there was an error. The amount of \$30,000 should have been included in the Table as disclosed in Note 10 of the July 31, 2014 annual financial statements. The Company has filed a revised Information Circular on SEDAR.

The Company is also currently in discussions with staff of the Ontario Securities Commission regarding certain matters affecting its financial statements and management discussions and analysis (MD&A) for the year ended July 31, 2014 and the nine month period ended April 30, 2015. We expect to refile certain of these documents in due course.
