1. Nature of Operations and Going Concern

Revive Therapeutics Ltd. (the "Company" or "Revive") was incorporated under the Business Corporations Act (Ontario) on March 27, 2012. The Company's shares traded on the TSX Venture Exchange (the "Exchange") under the symbol "RVV" and the Frankfurt Stock Exchange in Germany under the symbol "31R". Revive also trades in the United States under pink sheets as RVVTF. On July 19, 2019, the Company received final approval to list its common shares on the Canadian Securities Exchange (the "CSE"), and to voluntarily delist its common shares from the Exchange. The common shares commenced trading on the CSE at the market opening on July 23, 2019. The Company is focused on the development and commercialization of drugs for underserved medical needs. The Company's registered and legal office is located at The Canadian Venture Building, 82 Richmond Street East, Toronto, Ontario M5C 1P1.

These unaudited condensed interim consolidated financial statements were prepared on a going concern basis of presentation, which assumes that the Company will continue operations for the foreseeable future and be able to realize the carrying value of its assets and discharge its liabilities and commitments in the normal course of business. To date, the Company has not earned revenue and has an accumulated deficit of $55,906,093 as at September 30, 2022 (June 30, 2022 - $54,246,777). As at September 30, 2022, the Company had cash and cash equivalents of $1,586,479 (June 30, 2022 - $3,915,527) and a working capital deficiency of $1,561,962 (June 30, 2022 - working capital deficiency of $2,215). The Company’s ability to continue as a going concern is dependent upon its ability to obtain additional financing and or achieve profitable operations in the future. Management is aware, in making its assessment, of material uncertainties related to events or conditions that cast significant doubt upon the Company's ability to continue as a going concern. These consolidated financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. These adjustments could be material. The Company anticipates that it will have sufficient cash on hand to service the liabilities and fund operating costs for the period ending twelve months from these financial statements. The Company believes that, based on its cash flow forecasts, expected opportunities in the marketplace and the ability to reduce expenditures, if required, it could continue as a going concern for the foreseeable future. To achieve that, the Company will need to arrange future financing that will largely depend upon prevailing capital market conditions and the continued support of their shareholder base. Management will need to continue assessing its financing options to raise the funds required to continue its growth plans. However, there can be no assurance that management’s fund-raising plans will be successful. As a result, these factors indicate the existence of a material uncertainty that may cast significant doubt upon the Company’s ability to continue as a going concern.

The Company’s operations could be significantly adversely affected by the effects of a widespread global outbreak of a contagious disease, including the recent outbreak of respiratory illness caused by Novel Coronavirus (“COVID-19”). The Company cannot accurately predict the impact COVID-19 will have on its operations and the ability of others to meet their obligations with the Company, including uncertainties relating to the ultimate geographic spread of the virus, the severity of the disease, the duration of the outbreak, and the length of travel and quarantine restrictions imposed by governments of affected countries. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could further affect the Company’s operations and ability to finance its operations.

These consolidated financial statements were authorized for issuance by the Board on November 25, 2022.

2. Significant Accounting Policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board (“IASB”). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Any subsequent changes to IFRS that are given effect in the Company’s annual consolidated financial statements for the year ending June 30, 2023 could result in restatement of these unaudited condensed interim consolidated financial statements.

New interpretations issued but not yet effective

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods on or after July 1, 2022 or later periods. Many are not applicable or do not have a significant impact to the Company and have been excluded. The following has not yet been adopted and is being evaluated to determine their impact on the Company.

IFRS 10 – Consolidated Financial Statements (“IFRS 10”) and IAS 28 – Investments in Associates and Joint Ventures(“IAS 28”) were amended in September 2014 to address a conflict between the requirements of IAS 28 and IFRS 10and clarify that in a transaction involving an associate or joint venture, the extent of gain or loss recognition dependson whether the assets sold or contributed constitute a business. The effective date of these amendments is yet to bedetermined, however early adoption is permitted.

3. Capital Management

The Company manages its capital with the following objectives:

- to ensure sufficient financial flexibility to achieve the ongoing business objectives including funding of future growth opportunities, and pursuit of accretive acquisitions; and
- to maximize shareholder return through enhancing the share value.

The Company monitors its capital structure and makes adjustments according to market conditions in an effort to meet its objectives given the current outlook of the business and industry in general. The Company may manage its capital structure by issuing new shares, repurchasing outstanding shares, adjusting capital spending, or disposing of assets. The capital structure is reviewed by management and the Board of Directors on an ongoing basis. The Company considers its capital to be equity comprising share capital, warrants, broker and finder warrants, contributed surplus and accumulated deficit which at September 30, 2022 totalled $11,038,600 (June 30, 2022 - $12,602,716). The Company manages capital through its financial and operational forecasting processes. Selected information is provided to the Board of Directors of the Corporation. The Company’s capital management objectives, policies and processes have remained unchanged during the three months ended September 30, 2022.

11. Statute Barred Liabilities

During the year ended June 30, 2020, the Company transferred $63,511 of accounts payable (the "Statute-barred Claims") to non-current liabilities on the basis that any claims in respect of the Statute-barred Claims were statute barred under the Limitations Act (Ontario). The Statute-barred Claims relate to expenses billed by third-party vendors. Under IFRS, a financial liability can only be derecognized from the Company's Statement of Financial Position when it is extinguished, meaning only when the contract is discharged or canceled or expires. The effect of the Limitations Act is to prevent a creditor from enforcing an obligation, but it does not formally extinguish the financial liability under IFRS.

It is the position of management of the Company that the Statute-barred Claims cannot be enforced by the creditors, do not create any obligation for the Company to pay out any cash and do not affect the financial or working capital position of the Company. The Statute-barred Claims are required to be reflected on the Company's Statement of Financial Position as a result of the current interpretation of IFRS, but they are classified as non-current liabilities as the Company has no intention to pay these Statute-barred Claims and the creditors cannot enforce payment of the Statute-barred Claims.

As at September 30, 2022, the Company had statute-barred liabilities of $80,391 (June 30, 2022 - $76,652).

13. Loan Payable

During the year ended June 30, 2020, the Company applied for the COVID-19 Relief Line of Credit as part of the Government-sponsored Canada Emergency Business Account (CEBA). The credit limit of $60,000 has an interest rate of 0% until December 31, 2020. On January 1, 2021, the operating line of credit was converted to a 3-year 0% interest term loan, to be repaid by December 31, 2023 of which $20,000 of the loan will be forgiven if $40,000 is repaid in full on or before December 31, 2023. If on December 31, 2023 the loan is not repaid, the Company can exercise the option for a 3-year term extension at an interest rate of 5% on the balance over the term extension period. The Company expects to pay the loan prior to December 31, 2023.

On January 12, 2022, the Government of Canada announced that the repayment deadline for CEBA Loans to qualify for partial loan forgiveness is being extended from December 31, 2022 to December 31, 2023 for all eligible borrowers in good standing. Repayment on or before the new deadline of December 31, 2023 will result in loan forgiveness of up to a third of the value of the loans (ie. up to $20,000 with respect to the CEBA Loans). Conversely, if any such loans are not repaid in full by December 31, 2023, they will automatically renew with a maturity date of December 31, 2025, subject to interest at 5% per annum, commencing on January 1, 2024.
