FOR THE THREE & SIX MONTHS ENDED JUNE 30, 2013

This management's discussion and analysis ("MD&A") presents an analysis of the financial position of Sparx Energy Corp. ("Sparx" or the "Corporation") for the three and six months ended June 30, 2013. The following information should be read in conjunction with the financial statements of the Corporation as at and for the period ended June 30, 2013, and the Corporation's audited annual financial statements for the period ended December 31, 2012, which have been prepared in accordance with International Financial Reporting Standards (IFRS).

Date of Report

This MD&A is dated August 26, 2013 and presents material information up to this date.

Forward-Looking Statements

This MD&A may contain forward-looking statements relating to future events. In some cases, forward-looking statements can be identified by words such as "anticipate", "continue", "estimate", "expect", "forecast", "may", "will", "project", "should", "believe", or similar expressions. These forward-looking statements by their nature involve risks and uncertainties that could cause actual results to differ materially from those contemplated by such statements, including the "Risks and Uncertainties" discussed in this MD&A. The Corporation considers the assumptions on which these forward-looking statements are based to be reasonable at the time they were prepared, but cautions the reader that these assumptions regarding future events, many of which are beyond the control of management, may ultimately prove to be incorrect.

Description of Business

Sparx is classified as a reporting issuer for purposes of the British Columbia Securities Commission. As a reporting issuer, the Corporation's current business is to comply with all reporting requirements while endeavouring to find, acquire and finance a suitable business or project. The Corporation has not conducted commercial operations other than to meet filing requirements.

Although the Corporation believes it will have enough capital resources to meet filing requirements until a suitable opportunity is identified and financing arranged, there is no guarantee that the Corporation will be able to do so, or to secure additional financings in the future on terms that are acceptable to it or at all.

Strategy

During October, 2012, Abbastar Resources Corp.'s ("Abbastar") board of directors approved a plan of arrangement ("the Arrangement") between Abbastar and its four wholly-owned subsidiaries Anacott Resources Corp. ("Anacott"), Brunello Resources Corp. ("Brunello"), Sparx Energy Corp. ("Sparx") and Teldar Resources Corp. ("Teldar"). The Arrangement was approved by shareholders of Abbastar on November 30, 2012, by the Supreme Court of British Columbia on December 5, 2012 and by the TSX Venture Exchange on January 14, 2013.

On the closing of the Arrangement on May 31, 2013, Abbastar will transfer the following to Sparx: \$17,500 in cash and the Doran Interest (described below) in exchange for the same number of Sparx shares as the number of Abbastar shares that are issued on the distribution record date multiplied by the conversion factor.

Doran Interest

In 2007 Abbastar and Entourage Mining Ltd. (“Entourage”) entered into an option agreement (the “Doran Agreement”) wherein Abbastar was granted the sole option and right to acquire up to 70% of Entourage’s interest in the Doran uranium property (the “Doran Property”) situated in Costebelle Township, on the north shore of the Gulf of St. Lawrence in south-eastern Quebec. Abbastar paid Entourage the \$100,000 required pursuant to the Doran Agreement in order to exercise and acquire the interest in the Doran Property.

To March 31, 2013, Abbastar has incurred \$1,520,190 in mineral property exploration expenditures as defined in the Doran Agreement and earned a 35% interest. Abbastar elected not to make the necessary mineral exploration expenditures on the Doran Property during the third year of the agreement and may, pursuant to the Doran Agreement, proceed on a joint venture basis with Entourage.

During the year ended December 31, 2012, Abbastar wrote down the property to \$35,000.

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from potential aboriginal claims and frequently ambiguous conveyancing history characteristic of many mineral properties. At the time of the acquisition, Abbastar had investigated title to all properties and, to its knowledge, titles to all properties are in good standing.

History of the Corporation and Overall Performance

Sparx was incorporated October 5, 2012 in the Province of British Columbia and December 31 is the date of its fiscal year end.

The Corporation does not currently have operations or assets capable of generating ongoing revenue or cash flows and there is no certainty that it will be successful in acquiring a suitable opportunity. Although these financial statements have been prepared and presented on a going concern basis, there is significant risk that the Corporation will not become a going concern, in which case this basis of presentation will not be appropriate.

Equity or debt financing may be required to complete the implementation of its business plan. There can be no assurance that the Corporation will be able to obtain adequate financing to continue. f) if the Corporation fails to complete a the acquisition of a suitable business or project, an interim cease trade order may be issued against the Corporation's securities by an applicable securities commission.

Events After the Reporting Period

Effective July 10, 2013, the Arrangement (see Strategy above) between the Corporation and Abbastar was amended. Under the original plan, the Corporation was required to issue one common share to warrant holders of Abbastar for each Abbastar warrant exercised in return for a portion of the proceeds received by Abbastar. The exact amount to be paid would be determined by the fair market value of the assets received by Sparx under the Arrangement compared to the total fair market value of the assets of Abbastar as of May 31, 2013 immediately prior to the completion of the Arrangement.

Under the amended Arrangement, Abbastar warrant holders will receive an equal number of Sparx warrants exercisable on the same terms as the Abbastar warrants. Upon exercise of any current outstanding Abbastar share purchase warrants, Abbastar will not be required to remit any portion of the exercise price of these warrants to Sparx.

In connection with this amendment, Sparx has completed the issuance of 12,100,000 share purchase warrants on August 12, 2013. Each warrant entitles the holder to acquire common shares of Sparx at a price of \$0.10 per share until April 8, 2018. All of the warrants issued will be subject to a statutory hold period expiring December 13, 2013.
