NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

As at and for the three months ended March 31, 2020 and 2019

(Unaudited - Expressed in Canadian Dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Provenance Gold Corp. (formerly Sparx Energy Corp.) (“Provenance” or the “Company”) was incorporated in the Province of British Columbia on October 5, 2012. For the period October 5, 2012 to May 31, 2013, the Company was a wholly-owned subsidiary of Aldever Resources Inc. (now Kiplin Metals Inc. and formerly Glenmark Capital Corp.) (“Aldever”), which is a junior exploration company engaged in the business of identification, acquisition and exploration of mineral interests.

During October, 2012, Aldever’s board of directors approved a plan of arrangement (the “Arrangement”) between Aldever and its four wholly-owned subsidiaries, including Provenance. As a result of the completion of the Arrangement on May 31, 2013, Aldever ceased to be a shareholder of Provenance and the Company became a reporting issuer in its own right. Provenance is a junior exploration company engaged in the business of identification, acquisition and exploration of mineral interests.

On January 16, 2017, the Company changed its name to Provenance Gold Corp.

The Company’s principal office and registered and records office is located at 2200-885 West Georgia Street, Vancouver, BC V6C 3E8.

These consolidated interim financial statements have been prepared on a going concern basis which presumes the realization of assets and settlement of liabilities in the normal course of operations in the foreseeable future. The Company has no source of operating revenue, has incurred operating losses and at March 31, 2020 had a cumulative deficit of \$2,587,946 and a working capital deficiency of \$239,533. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to commence profitable operations in the future.

These consolidated interim financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence. The aforementioned factors indicate the existence of a material uncertainty which may cast significant doubt about the Company’s ability to continue as a going concern. Further discussion of liquidity risk is included in notes 7 and 8.

In March 2020 the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. The impact on the Company is not currently determinable but management continues to monitor the situation.

These consolidated interim financial statements were authorized for issue on June 17, 2020 by the directors of the Company.

2. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

These consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of consolidated interim financial statements, including International Accounting Standards (“IAS”) 34, Interim Financial Reporting. These interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Company’s audited annual financial statements for the year ended December 31, 2019, which have been prepared in accordance with IFRS.

2. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

These financial statements have been prepared on the historical cost basis. The presentation and functional currency of the Company is the Canadian dollar.

Basis of consolidation

These consolidated interim financial statements include the accounts of the Company and 1084160 B.C. Ltd., formerly Provenance Gold Corp. ("PGC"), its wholly owned subsidiary in which the Company has control, where control is defined as the power to govern the financial operating policies of an enterprise so as to obtain benefits from its activities.

All intercompany balances and transactions have been eliminated on consolidation.

Details of the Company's subsidiary are as follows:

Name	Place of incorporation	Interest %	Principal activity
1084160 B.C. Ltd.	British Columbia, Canada	100%	Holding company

Significant accounting judgments, estimates and assumptions

The preparation of the Company's consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated interim financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Critical judgments in applying accounting policies:

The following are critical judgments that management has made in the process of applying accounting policies and that have the most significant effect on the amounts recognized in the consolidated interim financial statements:

- The determination that the Company will continue as a going concern for the next year; and
- The determination that there have been no events or changes in circumstances that indicate the carrying amount of exploration and evaluation assets may not be recoverable.

2. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Recent accounting pronouncements

New accounting standards issued but not yet effective

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective. The Company has not early adopted any of these standards and is currently evaluating the impact, if any, that these standards might have on its financial statements.

3. PREPAID EXPENSES

On December 27, 2019, the Company entered into a 12-month media services agreement (the "Agreement") with a private company located in the British Virgin Islands. The consultant is subject, generally, to the direction of the Company's president and chief executive officer and will perform the services in consultation with them. Pursuant to the Agreement, the consultant was engaged to:

- target the Company's most likely investors;
- develop an advertising campaign;
- track, evaluate and manage the advertising campaign; and
- provide monthly campaign metrics on overall performance and results.

A non-refundable, under any circumstances, consulting fee of \$90,000 was paid to the consultant on December 30, 2019 as compensation for these services.

See note 6.

4. EXPLORATION AND EVALUATION ASSETS

2K Gold Property, Yukon, Canada

On June 10, 2016, the Company's CEO entered into the Moosehorn Range Property Option Agreement (the "MRPOA") pursuant to which he was granted the option to purchase a 100% interest in 149 quartz claims located in the Moosehorn Range in Yukon, Canada and the exclusive right to conduct mineral exploration and feasibility study work on the property during the period of the option. On August 4, 2016, the Company and the Company's CEO entered into an assignment agreement whereby the MRPOA was assigned to the Company. On January 31, 2017, the optionor, the Company and the Company's CEO replaced MRPOA in its entirety with MRPOA 2. On September 20, 2019, MRPOA 2 was amended to include an additional 47 quartz claims and, among other items, to defer the scheduled payment of \$130,000 due on June 10, 2019 to March 31, 2020. Based on the remaining cash payments to be made and exploration expenditures to be incurred in order to exercise the option, in combination with a corresponding lack of investor interest in the Property, the Company wrote off exploration and evaluation assets of \$1,256,369 (\$230,000 in cash paid and \$1,026,369 in exploration expenditures incurred) as at December 31, 2019.

On May 8, 2020, the Company received written notice of termination from the optionor because the March 31, 2020 payment was not made. Pursuant to MRPOA 2, the Company is required to ensure that the property is in good standing in respect of assessment work for a period of at least two years from the date of termination.

6. SHARE CAPITAL AND RESERVES (continued)

Stock Options

The Company has adopted an incentive stock option plan which provides that the number of common shares reserved for issuance will not exceed 10% of the issued and outstanding common shares. Such options will be exercisable up to five years from the date of grant, unless the Board establishes more restrictive terms. The fair value of each option grant will be estimated on the date of grant using the Black-Scholes option pricing model.

On September 17, 2018, the Company granted 200,000 share purchase options to a consultant of the Company. The share purchase options are exercisable at \$0.25 per share for a period of one year, expiring September 17, 2019. The estimated fair value was calculated for the options using the Black-Scholes option pricing model based on the following assumptions: risk-free interest rate of 2.12%, expected life of 1 year, no annual dividends and expected volatility of 220%. Total compensation relating to this grant is \$24,640. Of this amount, the Company recognized \$10,765 in share-based payments during the current year (2018 - \$13,875). These share purchase options expired unexercised on September 17, 2019.

Reserves

Reserves records items recognized as share-based payments expense, other share-based payments and the value attributed to unit warrants until such time as the stock options are exercised, at which time the corresponding amount will be transferred to share capital. Amounts recorded for forfeited or expired unexercised options remain in the reserves account. Amounts recorded for exercised, cancelled or expired warrants remain in the reserves account.

7. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

As at March 31, 2020, the Company's financial instruments consist of cash, accounts payable and accrued liabilities, due to related party and loan payable.

The Company classifies the fair value of these financial instruments according to the following hierarchy based on the amount of observable inputs used to value the instrument:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis. The Company does not have any financial instruments classified under Level 1.

Level 2 – Fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (derived from prices). The Company does not have any financial instruments classified under Level 2.

Level 3 – Valuations in the level are those with inputs for the asset or liability that are not based on observable market data. The Company does not have any financial instruments classified under Level 3.

In management's opinion, the Company's carrying values of cash, accounts payable and accrued liabilities, due to related party and loan payable approximate their fair values due to the immediate or short-term maturity of these instruments.

The Company's financial instruments are exposed to the following market risks:

7. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT *(continued)*

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to fulfil an obligation causing the other party to incur a financial loss.
