1. NATURE AND CONTINUANCE OF OPERATIONS

Provenance Gold Corp. (formerly Sparx Energy Corp.) ("Provenance" or the "Company") was incorporated in the Province of British Columbia on October 5, 2012. For the period October 5, 2012 to May 31, 2013, the Company was a wholly-owned subsidiary of Aldever Resources Inc. (now Kiplin Metals Inc. and formerly Glenmark Capital Corp.) ("Aldever"), which is a junior exploration company engaged in the business of identification, acquisition and exploration of mineral interests.

During October, 2012, Aldever's board of directors approved a plan of arrangement (the "Arrangement") between Aldever and its four wholly-owned subsidiaries, including Provenance. As a result of the completion of the Arrangement on May 31, 2013, Aldever ceased to be a shareholder of Provenance and the Company became a reporting issuer in its own right. Provenance is a junior exploration company engaged in the business of identification, acquisition and exploration of mineral interests.

On January 16, 2017, the Company changed its name to Provenance Gold Corp.

The Company's principal office and registered and records office is located at 2200-885 West Georgia Street, Vancouver, BC V6C 3E8.

These consolidated interim financial statements have been prepared on a going concern basis which presumes the realization of assets and settlement of liabilities in the normal course of operations in the foreseeable future. The Company has no source of operating revenue, has incurred operating losses and at June 30, 2021 had a deficit of \$3,313,166. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to commence profitable operations in the future.

These consolidated interim financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence. The aforementioned factors indicate the existence of a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern. Further discussion of liquidity risk is included in notes 7 and 8.

The outbreak of the Coronavirus Disease 2019, or COVID-19, has spread across the globe and is impacting worldwide economic activity. This global pandemic poses the risk that the Company or its clients, employees, contractors, suppliers, and other partners may be unable to conduct regular business activities for an indefinite period of time. At this point, the impact on the Company has been minimal. The Company continues to monitor the situation and is taking all necessary precautions in order to follow rules and best practices as set out by the federal and provincial governments in the United States and Canada.

These consolidated interim financial statements were authorized for issue on August 27, 2021 by the directors of the Company.

2. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

These consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of consolidated interim financial statements, including International Accounting Standards ("IAS") 34, Interim Financial Reporting. These interim financial statements do not include all the information required for full annual financial statements and should be read in conjunction with the Company's audited annual financial statements for the year ended December 31, 2020, which have been prepared in accordance with IFRS.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

As at and for the six months ended June 30, 2021 and 2020

(Unaudited - Expressed in Canadian Dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

These financial statements have been prepared on the historical cost basis. The presentation and functional currency of the Company is the Canadian dollar.

Basis of consolidation

These consolidated interim financial statements include the accounts of the Company and its wholly owned subsidiaries 1084160 B.C. Ltd., formerly Provenance Gold Corp. ("PGC"), and Provenance Gold USA ("PG USA"). PGC is incorporated in the Province of British Columbia and PG USA is incorporated in the State of Nevada, U.S.A.

All intercompany balances and transactions have been eliminated on consolidation.

Significant accounting judgments, estimates and assumptions

The preparation of the Company's consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated interim financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Critical judgments in applying accounting policies:

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments applying to the Company's financial statements include:

- The assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty; and
- The assessment of indications of impairment of each mineral property and related determinations of the net realizable value and write-down of those properties where applicable.

Recent accounting pronouncements

New accounting standards issued but not yet effective

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective. The Company has not early adopted any of these standards and is currently evaluating the impact, if any, that these standards might have on its financial statements.

3. EXPLORATION AND EVALUATION ASSETS

On August 4, 2016, the Company and the Company's CEO entered into an assignment agreement whereby the MRPOA was assigned to the Company. On January 31, 2017, the optionor, the Company and the Company's CEO replaced MRPOA in its entirety with MRPOA 2. Consequently, the Corporation has no further interest in this property. 6. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Cash is classified under Level 1.

Level 2 – Fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (derived from prices). The Company does not have any financial instruments classified under Level 2.

Level 3 – Valuations in the level are those with inputs for the asset or liability that are not based on observable market data. The Company does not have any financial instruments classified under Level 3.

In management's opinion, the Company's carrying values of cash, accounts payable and accrued liabilities, due to related parties and loan payable approximate their fair values due to the immediate or short-term maturity of these instruments.

The Company's financial instruments are exposed to the following risks:

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to fulfil an obligation causing the other party to incur a financial loss. The Company is exposed to credit risk arising from its cash holdings. The Company manages credit risk by placing cash with major Canadian financial institutions. Credit risk is assessed as low.

Liquidity Risk

Liquidity risk is the risk that the Company will not have sufficient funds to meet its financial obligations when they are due. To manage liquidity risk, the Company reviews additional sources of capital to continue its operations and discharge its commitments as they become due. Historically, the Company's sole source of funding has been the issuance of equity securities for cash primarily through private placements and loans and advances from lenders and related parties. The Company's access to financing is always uncertain and there can be no assurance of continued access to significant equity funding. Liquidity risk is assessed as high.

Price Risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company is not affected by price risk.

Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in exchanges rates. The Company's property interests in the USA make it subject to foreign currency fluctuations. As at June 30, 2021, the Company had liabilities of \$16,850 denominated in US dollars which were translated into Canadian Dollars for financial reporting. The Company does not use any form of derivative or hedging instruments to reduce its foreign currency risk.

Interest Rate Risk

Interest rate risk is the risk that a financial instrument's value will change due to a change in the level of interest rates. The Company's exposure to interest rate risk is minimal.
