

PRESS RELEASE
EARLY WARNING REPORT
For AUXELLENC HEALTH CORPORATION
CSE:AID

VANCOUVER, BC, September 21, 2014 – This amended press release for James Scott Munro corrects the wording for the applicable National Instrument 45-106 exemption for the issuance of the securities as section 2.14 and not section 2.12 as was previously announced. Please see the filed early warning report for more details. The press release should be read as follows:

James Scott Munro, Audrey Munro, Intrinsic Venture Corporation, and Embella Holdings Ltd. (the “Securityholder”) announced today that it has acquired common shares and share purchase warrants pursuant to section 2.14 of National Instrument 45-106 *Prospectus and Registration Exemptions* in connection with Auxellence Health Corporation’s (“Auxellence”) recently announced non-brokered private placement of units of Auxellence at a price per unit of \$0.05, with each unit consisting of one common share and one common share purchase warrant of the Company, with each such warrant entitling the holder to purchase an additional common share of the Company at a price of \$0.10. All such securities issued by the Company are subject to a four month statutory hold period.

As a result of the foregoing, the Securityholder acquired 6,530,000 common shares and 6,530,000 share purchase warrants (each a “Unit”).

Prior to the private placement, the Securityholder beneficially owned 3,410,500 common shares and also has the option to acquire 30,000 common shares of Auxellence from a third party shareholder.

As a result of the private placement, the Securityholder acquired 6,530,000 Units and now the Securityholder beneficially owns 9,970,500 common shares or 9.46% of the Company’s current issued and outstanding common shares, representing 105,379,284 common shares. Should the Securityholder exercise the warrants in full to purchase an additional 6,530,000 common shares and exercise the option to acquire the other 30,000 common shares, and assuming exercise of all other outstanding warrants or options to acquire common shares, the Securityholder then would beneficially own 16,500,500 common shares or 12.85% of the Company’s then fully diluted issued and outstanding common shares, representing 128,380,884 common shares. The Securityholder has acquired the common shares for investment purposes.

This press release is being issued pursuant to National Instrument 62-103 – *The Early Warning System and Related Take-Over Bid and Insider Reporting Issuers* which requires a report to be filed under the Corporation’s profile on SEDAR (www.sedar.com) containing additional information respecting the foregoing matters.

For inquiries or a copy of the related early warning report required under Canadian provincial securities legislation, a copy of which has also been filed on www.sedar.com, please contact:
