

**PRESS RELEASE**  
**EARLY WARNING REPORT**  
**For AUXELLENCHE HEALTH CORPORATION**  
**CSE:AID**

VANCOUVER, BC, September 21, 2014 – Lorna Chan, (the “Securityholder”) announced today that she has acquired common shares and share purchase warrants pursuant to section 2.14 of National Instrument 45-106 *Prospectus and Registration Exemptions* in connection with Auxellence Health Corporation’s (“Auxellence”) recently announced non-brokered private placement of units of Auxellence at a price per unit of \$0.05, with each unit consisting of one common share and one common share purchase warrant of the Company, with each such warrant entitling the holder to purchase an additional common share of the Company at a price of \$0.10. All such securities issued by the Company are subject to a four month statutory hold period.

As a result of the foregoing, the Securityholder acquired 2,680,000 common shares and 2,680,000 share purchase warrants (each a “Unit”).

Prior to the private placement, the Securityholder beneficially owned 5,652,483 common shares. The Securityholder had become an insider holding 13.34% of the Company on July 23<sup>rd</sup>, 2014 upon acquiring shares that exceeded 10% or more of the Company’s issued and outstanding share capital representing 42,377,684 as at that date. Subsequent shares issuance including this private placement has reduced her holding to below 10% of the issued and outstanding share capital, however, with the inclusion of her warrants should no other party exercise their warrants, there is the possible event that she may exceed 10% holdings of the Company.

As a result of this private placement, the Securityholder acquired 2,680,000 Units and now the Securityholder beneficially owns 8,332,483 common shares or approximately 7.91% of the Company’s current issued and outstanding common shares, representing 105,379,284 common shares currently issued and outstanding. Should the Securityholder exercise the warrants in full to purchase an additional 2,680,000 common shares, the Securityholder then would beneficially own 11,012,483 common shares or approximately 8.58% of the Company’s then fully diluted issued and outstanding common shares, representing 128,380,884 common shares. Should the Securityholder exercise her warrants in full, and no other Warrantholder exercises their warrants, then the Securityholder would then beneficially own 11,012,483 commons shares or approximately 10.19% of the then partially, or then non-fully diluted issued and outstanding common shares representing 108,059,284 common shares then outstanding. The Securityholder has acquired the common shares for investment purposes.

This press release is being issued pursuant to National Instrument 62-103 – *The Early Warning System and Related Take-Over Bid and Insider Reporting Issuers* which requires a report to be filed under the Corporation’s profile on SEDAR ([www.sedar.com](http://www.sedar.com)) containing additional information respecting the foregoing matters.

For inquiries or a copy of the related early warning report required under Canadian provincial securities legislation, a copy of which has also been filed on [www.sedar.com](http://www.sedar.com), please contact:
