

EVITRADE HEALTH SYSTEMS to Develop Medical Blockchain Technologies, appoints Mr. Brendan Purdy as COO to Division, and to Seek Opportunity to Up-List on Senior Exchange

VANCOUVER, BC, Monday November 20th, 2017 – EVITRADE Health Systems Corp. (CSE: EVA, OTCQB: AXHLF) (the “Company” or “EVITRADE”) is pleased to announce that it intends to focus its efforts on developing the medical blockchain services and applications aspects of its healthcare software system. The company is also pleased to announce that Mr. Brendan Purdy, J.D. has been appointed as Interim COO of the medical blockchain & data security division, and to be a member of the business advisory committee. The company expects to also seek an opportunity to list on a senior exchange subject to meeting any and all financing, regulatory, and listing requirements.

Mr. Purdy currently serves on the board of Global Blockchain Technologies Inc, Enforcer Gold Corp, and is also CEO and Director of High Hampton Holdings Corp. Additionally, Mr. Purdy has previously acted as CEO of Enforcer Gold Corp. (formerly Natan Resources Ltd.) and Seaway Energy Services Inc., both TSX-V listed mining issuers. In addition, Mr. Purdy is an active practicing securities lawyer focused on technology, medical, and resource issuers. In his private practice, he has developed domestic and international experience with respect to public companies, reverse takeovers, mergers and acquisitions (M&A) and many facets fundamental to successful transactions at all levels of capital market transactions. Prior to receiving his J.D. from the common-law section at the University of Ottawa, Mr. Purdy completed a bachelor of management and organizational studies degree from the University of Western Ontario, majoring in finance and administration.

“I am glad to finally be able to bring Brendan on board in a more formal capacity; his breadth of experience in the blockchain technology, medical cannabis, and capital markets sector will be instrumental to both business and corporate development” said Syd Au, Chairman and CEO.

Management believes that there is significant value to be realized from developing the medical blockchain aspects from its digital healthcare software application as well as from seeking and potentially up-listing on a senior non-Canadian exchange. Both these events are expected to provide better opportunities for financing, visibility and for increasing shareholder value; and management looks forward to providing additional updates as soon as possible.
