## **NOTICE OF NO AUDITOR REVIEW OF CONDENSED INTERIM FINANCIAL STATEMENTS**

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these unaudited condensed interim financial statements in accordance with the standards established by the Chartered Professional Accountants of Canada for a review of interim financial statements by an entity's auditor.

The accompanying notes are an integral part of these condensed interim financial statements.

**1. NATURE OF OPERATIONS AND GOING CONCERN**

Meryllion Resources Corp. (the "Company" or "Meryllion") was incorporated on July 25, 2013 under the laws of British Columbia as a wholly owned subsidiary of Kaizen Discovery Inc., formerly Concordia Resource Corp. ("Concordia"). On December 4, 2013, a Plan of Arrangement (the "Arrangement") was approved by the shareholders of Concordia whereby Concordia distributed 100% of its interest in the Company to its shareholders. Concurrently with the completion of the Arrangement, Meryllion Resources Corp. together with its subsidiaries (collectively known as the "Company" or "Meryllion") obtained approval to list its common shares on the TSX Venture Exchange ("TSX-V") and began trading under the ticker symbol MYR on December 6, 2013. On May 13, 2015, the Company received approval to list its common shares on the Canadian Securities Exchange ("CSE"), and voluntarily delisted its common shares from the TSX-V.

The Company's head office is located at 8 King Street East, Suite 1005, Toronto, Ontario, Canada, M5C 1B5.

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Realization values may be substantially different from carrying values as shown and the financial statements do not given effect to adjustments that would be necessary to the carrying values and the classification of assets and liabilities should the Company be unable to continue operating as a going concern. Such adjustments could be material.

At December 31, 2021, the Company had an accumulated deficit of \$16,932,080 (September 30, 2021 - \$16,850,666) and working capital of \$226,866 (September 30, 2021 - \$338,418). The Company incurred a net loss of \$81,414 during the three months ended December 31, 2021 (2020 - \$56,630). These circumstances raise material uncertainties which may cast substantial doubt as to the ability of the Company to meet its ongoing obligations as they come due, and accordingly, the appropriateness of the use of the accounting principles applicable to a going concern. The Company's ability to continue as a going concern is dependent upon its ability to raise adequate financing to meet its present and future commitments and to generate profitable operations in the future.

**2. BASIS OF PRESENTATION**

**(a) Statement of compliance**

The condensed interim financial statements of the Company have been prepared in accordance with IAS 34 Interim Financial Reporting.

The condensed interim financial statements of the Company should be read in conjunction with the Company's 2021 annual financial statements which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The condensed interim financial statements have been prepared using accounting policies consistent with those used in the Company's 2021 annual financial statements except for income tax expense which is recognized and disclosed for the full financial year in the audited financial statements.

**2. BASIS OF PRESENTATION (Continued)**

**(b) Basis of presentation**

These financial statements are expressed in Canadian Dollars, the Company's presentation currency and have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value. These financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The accounting policies set out in Note 3 of the audited annual financial statements for the year ended September 30, 2021 have been applied consistently to all periods presented in these condensed interim financial statements as if the policies have always been in effect.

These financial statements were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on February 28, 2022.

**3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS**

The preparation of these condensed interim financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities at the date of the condensed interim financial statements and reported amounts of revenue and expenses during the reporting period. Actual outcomes could differ from these estimates. The condensed interim financial statements include estimates, which, by their nature, are uncertain. The impact of such estimates are pervasive throughout the condensed interim financial statements, and may require accounting adjustments based on future occurrences.

The estimates and underlying assumptions are reviewed on a regular basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected. The areas involving a higher degree of judgment or complexity, or areas where the assumptions and estimates are significant to the financial statements were the same as those applied to the Company's audited financial statements for the year ended September 30, 2021.

**4. FUTURE ACCOUNTING POLICIES AND ACCOUNTING CHANGES**

*Accounting Standards Issued But Not Yet Applied*

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for annual periods beginning on or after January 1, 2021 or later periods.

IAS 1 – *Presentation of Financial Statements* ("IAS 1") was amended in January 2020 to provide a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. The amendments clarify that the classification of liabilities as current or noncurrent is based solely on a company's right to defer settlement at the reporting date. The right needs to be unconditional and must have substance. The amendments also clarify that the transfer of a company's own equity instruments is regarded as settlement of a liability, unless it results from the exercise of a conversion option meeting the definition of an equity instrument. The amendments are effective for annual periods beginning on January 1, 2023.

#### **4. FUTURE ACCOUNTING POLICIES AND ACCOUNTING CHANGES (Continued)**

IAS 37 – *Provisions, Contingent Liabilities and Contingent Assets* (“IAS 37”) was amended. The amendments clarify that when assessing if a contract is onerous, the cost of fulfilling the contract includes all costs that relate directly to the contract – i.e. a full-cost approach. Such costs include both the incremental costs of the contract (i.e. costs a company would avoid if it did not have the contract) and an allocation of other direct costs incurred on activities required to fulfill the contract – e.g. contract management and supervision, or depreciation of equipment used in fulfilling the contract. The amendments are effective for annual periods beginning on January 1, 2022.

IFRS 3 – *Business Combinations* (“IFRS 3”) was amended. The amendments introduce new exceptions to the recognition and measurement principles in IFRS 3 to ensure that the update in references to the revised conceptual framework does not change which assets and liabilities qualify for recognition in a business combination. An acquirer should apply the definition of a liability in IAS 37 – rather than the definition in the Conceptual Framework – to determine whether a present obligation exists at the acquisition date as a result of past events. For a levy in the scope of IFRIC 21, the acquirer should apply the criteria in IFRIC 21 to determine whether the obligating event that gives rise to a liability to pay the levy has occurred by the acquisition date. In addition, the amendments clarify that the acquirer should not recognize a contingent asset at the acquisition date. The amendments are effective for annual periods beginning on January 1, 2022.

#### **5. FINANCIAL INSTRUMENTS**

##### **(a) Designation and valuation of financial instruments**

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the rights to receive cash flows from the assets have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership.

All of the Company's financial instruments are classified as amortized costs. All financial instruments are measured in the statement of financial position at fair value initially. Subsequent measurement and changes in fair value will depend on their initial classification.

The Company has designated its cash and amounts receivable as amortized cost and accounts payable and accrued liabilities as amortized cost. Cash and accounts receivable are included in current assets due to their short-term nature. Accounts payable and accrued liabilities are included in current liabilities due to their short-term nature.

**MERYLLION RESOURCES CORP.**  
**Notes to the Condensed Interim Financial Statements**  
**For the Three Months Ended December 31, 2021 and 2020**  
(Unaudited)  
(In Canadian Dollars)

---

**5. FINANCIAL INSTRUMENTS (Continued)**

The Company's financial instruments are as follows:

	<b>As at</b>	
	<b>December 31, 2021</b>	September 30, 2021 (Audited)
<b>Financial assets</b>		
Assets at amortized cost		
Cash	\$ 381,049	\$ 554,621
Amounts receivable	30,167	25,018
<b>Total financial assets</b>	<b>\$ 411,216</b>	<b>\$ 579,639</b>
<b>Financial liabilities</b>		
Liabilities at amortized cost		
Accounts payable and accrued liabilities	\$ 184,350	\$ 241,221
<b>Total financial liabilities</b>	<b>\$ 184,350</b>	<b>\$ 241,221</b>

**(b) Financial risks**

The Company may be exposed to risks of varying degrees of significance which could affect its ability to achieve its strategic objectives. The Company manages risks to minimize potential losses. The main objective of the Company's risk management process is to ensure that the risks are properly identified and that the capital base is adequate in relation to those risks. The Company's risk exposure and the impact on the Company's financial instruments are summarized below:

*Credit risk*

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations.

The Company is exposed to credit risk with respect to its cash. The Company's maximum exposure to credit risk is the amounts disclosed in the condensed interim statement of financial position. Credit risk associated with cash is minimized by placing these instruments with major Canadian financial institutions with strong investment-grade ratings as determined by a primary ratings agency.

*Liquidity risk*

Liquidity risk is the risk that the Company will not be able to meet its obligations as they fall due.

At December 31, 2021, the Company had a cash balance of \$381,049 (September 30, 2021 - \$554,621) to settle current liabilities of \$184,350 (September 30, 2021 - \$241,221). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

The Company intends to finance future requirements from share issuances, debt or other sources. There can be no certainty of the Company's ability to raise additional financing through these means.

**5. FINANCIAL INSTRUMENTS (Continued)**

**(b) Financial risks (Continued)**

*Market risk*

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market factors. Market risk comprises three types of risk: price risk, interest rate risk and currency risk.

*Price risk*

Price risk is the risk that the fair value of future cash flows of the Company's financial instruments will fluctuate because of changes in market prices. The Company is not exposed to price risks.

*Interest rate risk*

Interest rate risk is the risk that the fair values and future cash flows of the Company will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk to the extent that the cash maintained at financial institutions is subject to a floating rate of interest. The interest rate risk on cash is not considered significant.

*Currency risk*

Currency risk is the risk that the fair values or future cash flows of the Company's financial instruments will fluctuate because of changes in foreign currency exchange rates. The Company is not exposed to significant currency risk.

**6. CAPITAL MANAGEMENT**

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to maintain a flexible capital structure, which optimizes the costs of capital to an acceptable risk.

The Company depends on external financing to fund its activities and there can be no guarantee that external financing will be available at terms acceptable to the Company. The Company does not believe its current working capital is sufficient to maintain its core operations for the next twelve months, and additional funding will be required by the Company to complete its strategic objectives and continue as a going concern. There is no certainty that additional financing at terms that are acceptable to the Company will be available. The capital structure of the Company currently consists of common shares, warrants and stock options. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new debt or new shares. Management reviews its capital management approach on a regular basis. There were no changes in the Company's approach to capital management during the periods ended December 31, 2021 and 2020 and the Company is not subject to any externally imposed capital requirements.

**MERYLLION RESOURCES CORP.**  
**Notes to the Condensed Interim Financial Statements**  
**For the Three Months Ended December 31, 2021 and 2020**  
(Unaudited)  
(In Canadian Dollars)

---

**7. SHARE CAPITAL**

**(a) Authorized**

Unlimited Class A common shares without par value.

**(b) Issued and outstanding**

As at December 31, 2021, the Company had 20,834,840 (September 30, 2021 - 20,834,840) common shares issued and outstanding. During the year ended September 30, 2021, the Company consolidated its common shares on a 10 for 1 basis. The share consolidation has been retrospectively applied in these financial statements.

**(c) Warrants**

The Company did not have any outstanding warrants as at December 31, 2021 (September 30, 2021 - Nil).

**(d) Stock options**

The Company has implemented a stock option plan whereby the Board of Directors of the Company may grant directors, officers, employees and consultants' stock options to acquire common shares of the Company. Under the stock option plan, options granted are non-assignable and may be granted for a term not exceeding ten years. The plan is administered by the Board of Directors, which determines individual eligibility under the plan, the number of shares reserved underlying the options granted to each individual (not exceeding 10% of issued and outstanding shares to any insider; not exceeding 2% of the issued and outstanding shares to any consultant or persons employed to provide investor relations services) and any vesting period which, pursuant to the stock option plan can be determined and imposed by the Board of Directors. The maximum number of common shares that may be reserved for issuance under the plan is 2,083,484.

The Company had 2,290,000 outstanding stock options as at December 31, 2021 (September 30, 2021 - 2,290,000). There were no stock options granted during the three months ended December 31, 2021 and 2020.

<b>Grant Date</b>	<b>Exercise Price (\$)</b>	<b>Weighted Average Remaining Life (yrs)</b>	<b>Number of Options Outstanding</b>	<b>Number of Options Exercisable</b>
March 19, 2021	0.105	4.22	900,000	900,000
May 27, 2021	0.115	4.41	1,390,000	1,390,000
	0.111	4.33	2,290,000	2,290,000

## **8. RELATED PARTY TRANSACTIONS**

Transactions with related parties are incurred in the normal course of business and are measured at their fair values, which is the amount of consideration established and approved by the related parties.

During the three months ended December 31, 2021, the Company incurred \$36,000 (2020 - \$36,000) in management fees to the CEO and CFO of the Company. As at December 31, 2021, accounts payable and accrued liabilities included \$126,000 (September 30, 2021 - \$180,000) payable to the CEO and CFO.

## **9. EXPLORATION AND EVALUATION ASSETS**

On July 26, 2021, the Company signed an option to acquire a 100% interest in the Oldham Range base and battery metal exploration property (the "Property") in Western Australia. The Property comprises a 14,700 ha granted exploration license, 320km northeast of Wiluna, Western Australia.

The Company can earn a 100% interest in the Property by incurring AUD \$300,000 of expenditures based on an agreed budget on or before December 31, 2021 (Note 10). Following the minimum expenditure being met, Meryllion will have an exclusive right to acquire the Property at any time subject to:

1. Issuing 2,000,000 Meryllion shares
2. Payment of AUD \$50,000; and
3. Granting a 1% net smelter royalty for all metals produced from the Property.

The following expenditures were incurred by the Company during the three months ended December 31, 2021:

	<b>Oldham Range</b>
	<b>\$</b>
Balance, September 30, 2020	-
Geological consulting	11,481
Logistics	11,891
Travel and lodging	9,560
Balance, September 30, 2021	32,932
Geological consulting	12,799
Contract labour	3,507
Travel and lodging	12,338
Field supplies	304
Drilling	1,190
<b>Balance, December 31, 2021</b>	<b>63,070</b>

**10. SUBSEQUENT EVENTS**

On January 6, 2022, the Company announced that it has signed an extension to the option agreement over the Oldham Range Project in Western Australia to April 1, 2022. All other terms of the agreement have remained the same.

On January 17, 2022, the Company announced that it has completed a shares-for-debt transaction pursuant to which the Company issued a total of 900,000 common shares at deemed issue a price of \$0.07 per share in settlement of \$63,000 of outstanding management fees owing to two of the Company's officers and directors.

The issuance of shares to each of the officers and directors constitutes a related-party transaction within the meaning of *Multi-Lateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions* ("MI 61-101").

The issuances to the insiders are exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 pursuant to Sections 5.5(a) and 5.7(1)(a) of MI 61-101 as neither the fair market value of the subject matter of, nor the fair market value of the consideration for, the transaction, insofar as it involves interested parties, exceeds 25% of the Company's market capitalization.

The Company did not file a material change report more than 21 days before the expected closing of the shares-for-debt transaction because the details of the participation therein by related parties to the Company were not settled until shortly prior to the closing and the Company wished to close on an expedited basis for business reasons.

All shares issued pursuant to the shares-for-debt transaction are subject to a hold period of four months and one day from the date of issuance.
