MERYLLION RESOURCES CORP.

Notes to the Condensed Interim Financial Statements (Unaudited)

For the three and nine months ended June 30, 2024, and 2023

(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Meryllion Resources Corp. (the "Company" or "Meryllion") was incorporated on July 25, 2013, under the laws of British Columbia. Meryllion is a natural resource company, at the exploration stage, engaged in the acquisition and exploration of resource properties. The Company's shares trade on the Canadian Securities Exchange ("CSE") under the symbol MYR.

The Company's head office is located at 301-217 Queen St. West, Toronto, Ontario, Canada, M5V 0R2.

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Realization values may be substantially different from carrying values as shown and the financial statements do not given effect to adjustments that would be necessary to the carrying values and the classification of assets and liabilities should the Company be unable to continue operating as a going concern. Such adjustments could be material.

At June 30, 2024, the Company had an accumulated deficit of \$18,284,736 (September 30, 2023 - \$18,003,832) and working capital deficit of \$172,449 (September 30, 2023 - \$160,652). The Company incurred a net loss of \$280,904 during the nine months ended June 30, 2024 (2023 - \$296,002). These circumstances raise material uncertainties which may cast substantial doubt as to the ability of the Company to meet its ongoing obligations as they come due, and accordingly, the appropriateness of the use of the accounting principles applicable to a going concern. The Company's ability to continue as a going concern is dependent upon its ability to raise adequate financing to meet its present and future commitments and to generate profitable operations in the future.

2. BASIS OF PRESENTATION

(a) Statement of compliance

The condensed interim financial statements of the Company have been prepared in accordance with IAS 34 Interim Financial Reporting. The condensed interim financial statements of the Company should be read in conjunction with the Company's 2023 annual financial statements which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The condensed interim financial statements have been prepared using accounting policies consistent with those used in the Company's 2023 annual financial statements except for income tax expense which is recognized and disclosed for the full financial year in the audited financial statements.

(b) Basis of presentation

These financial statements are expressed in Canadian Dollars, the Company's presentation currency and have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value. These financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The accounting policies set out in Note 3 of the audited annual financial statements for the year ended September 30, 2023, have been applied consistently to all periods presented in these condensed interim financial statements as if the policies have always been in effect.

These financial statements were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on August 26, 2024.

For the three and nine months ended June 30, 2024, and 2023
(Expressed in Canadian Dollars)

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these condensed interim financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities at the date of the condensed interim financial statements and reported amounts of revenue and expenses during the reporting period. Actual outcomes could differ from these estimates. The condensed interim financial statements include estimates, which, by their nature, are uncertain. The impact of such estimates is pervasive throughout the condensed interim financial statements and may require accounting adjustments based on future occurrences.

The estimates and underlying assumptions are reviewed on a regular basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected. The areas involving a higher degree of judgment or complexity, or areas where the assumptions and estimates are significant to the financial statements were the same as those applied to the Company's audited financial statements for the year ended September 30, 2023.

4. FUTURE ACCOUNTING POLICIES AND ACCOUNTING CHANGES

Standards issued and adopted

During the period ended June 30, 2024, the Company adopted certain IFRS amendments. The application of these amendments had no significant impact on the Company's financial position or results of operations.

IAS 1 – *Presentation of Financial Statements* ("IAS 1") was amended in January 2020 to provide a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. The amendments clarify that the classification of liabilities as current or noncurrent is based solely on a company's right to defer settlement at the reporting date. The right needs to be unconditional and must have substance. The amendments also clarify that the transfer of a company's own equity instruments is regarded as settlement of a liability, unless it results from the exercise of a conversion option meeting the definition of an equity instrument. The amendments are effective for annual periods beginning on January 1, 2023.

5. FINANCIAL INSTRUMENTS

(a) Designation and valuation of financial instruments

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the rights to receive cash flows from the assets have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership.

All the Company's financial instruments are classified as amortized costs. All financial instruments are measured in the statement of financial position at fair value initially. Subsequent measurement and changes in fair value will depend on their initial classification.

The Company has designated its cash and amounts receivable as amortized cost and accounts payable and accrued liabilities and loan payable as amortized cost. Cash and accounts receivable are included in current assets due to their short-term nature. Accounts payable and accrued liabilities are included in current liabilities and loan payable due to their short-term nature.

Total financial liabilities	\$ 217,599	\$ 244,825

(b) Financial risks

The Company may be exposed to risks of varying degrees of significance which could affect its ability to achieve its strategic objectives. The Company manages risks to minimize potential losses. The main objective of the Company's risk management process is to ensure that the risks are properly identified and that the capital base is adequate in relation to those risks. The Company's risk exposure and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations.

The Company is exposed to credit risk with respect to its cash. The Company's maximum exposure to credit risk is the amounts disclosed in the condensed interim statement of financial position. Credit risk associated with cash is minimized by placing these instruments with major Canadian financial institutions with strong investment-grade ratings as determined by a primary ratings agency.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they fall due.

As at June 30, 2024, the Company had a cash balance of \$1,581 (September 30, 2023 - \$69,913) to settle current liabilities of \$217,599 (September 30, 2023 - \$244,825). All the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

The Company intends to finance future requirements from share issuances, debt or other sources. There can be no certainty of the Company's ability to raise additional financing through these means.

5. FINANCIAL INSTRUMENTS (Continued)

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market factors. Market risk comprises three types of risk: price risk, interest rate risk and currency risk.

Price risk

Price risk is the risk that the fair value of future cash flows of the Company's financial instruments will fluctuate because of changes in market prices. The Company is not exposed to price risks.

Interest rate risk

Interest rate risk is the risk that the fair values and future cash flows of the Company will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk to the extent that the cash maintained at financial institutions is subject to a floating rate of interest. The interest rate risk on cash is not considered significant.

Currency risk

Currency risk is the risk that the fair values or future cash flows of the Company's financial instruments will fluctuate because of changes in foreign currency exchange rates. The Company's functional and reporting currency is the Canadian dollar.

6. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to maintain a flexible capital structure, which optimizes the costs of capital to an acceptable risk.

The Company depends on external financing to fund its activities and there can be no guarantee that external financing will be available at terms acceptable to the Company. The Company does not believe its current working capital is sufficient to maintain its core operations for the next twelve months, and additional funding will be required by the Company to complete its strategic objectives and continue as a going concern. There is no certainty that additional financing at terms that are acceptable to the Company will be available. The capital structure of the Company currently consists of common shares, warrants and stock options. The Company manages the capital structure and adjusts it in light of changes in economic conditions and risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may issue new debt or new shares. Management reviews its capital management approach on a regular basis. There were no changes in the Company's approach to capital management during the periods ended June 30, 2024, and 2023 and the Company is not subject to any externally imposed capital requirements.

7. SHARE CAPITAL (Continued)

c) Warrants

As at June 30, 2024, the Company has 8,034,025 warrants outstanding (September 30, 2023 - Nil).

For the nine months ended June 30, 2024

On January 8, 2024, the Company issued 8,011,625 financing warrants and 22,400 finders' warrants at a price of \$0.07 per share per a period of 24 months, in connection with the private placement. The \$133,170 total fair value of the warrants was estimated using the Black-Scholes pricing model using the following assumptions: expected life – 2 years; annualized volatility – 170%; risk-free interest rate – 4.06%; dividend rate - 0%; and stock price - \$0.04. Share issuance costs of \$5,198 were allocated to the warrants.

For the nine months ended June 30, 2023

On February 27, 2023, the Company issued 2,000,000 warrants as part of a private placement with an exercise price of \$0.08 per common share, exercisable until July 1, 2023. The \$36,226 fair value of the warrants was estimated using the Black-Scholes pricing model using the following assumptions: expected life – 2 years; annualized volatility – 136%; risk-free interest rate – 4.29%; dividend rate - 0%; and stock price - \$0.069. Share issuance costs of \$1,449 were allocated to the warrants.

(d) Stock options

The Company has implemented a stock option plan whereby the Board of Directors of the Company may grant directors, officers, employees and consultants' stock options to acquire common shares of the Company. Under the stock option plan, options granted are non-assignable and may be granted for a term not exceeding ten years. The plan is administered by the Board of Directors, which determines individual eligibility under the plan, the number of shares reserved underlying the options granted to each individual (not exceeding 10% of issued and outstanding shares to any insider; not exceeding 2% of the issued and outstanding shares to any consultant or persons employed to provide investor relations services) and any vesting period which, pursuant to the stock option plan can be determined and imposed by the Board of Directors. As at June 30, 2024, the maximum number of common shares that may be reserved for issuance under the plan is 4,228,712.

9. EXPLORATION AND EVALUATION ASSETS

Tasmanian Strategic Green Metals Pty Ltd.

The Company entered into an arm's-length Option and Earn-In Agreement dated as of July 17, 2023 (the "Agreement") with Tasmanian Strategic Green Metals Pty Ltd. ("TSGM"), a private Australian company, to acquire an interest on four rare earth exploration leases located in northeast Tasmania totaling approximately 809 square kilometres (the "Project"). The Agreement was amended on October 3, 2023, and further amended on January 15, 2024, which superseded all previous terms from the previous agreements.

On January 15, 2024, the Company entered into an amended agreement with TSGM and Westbury Resources Pty Ltd. ("Westbury"), a private Australian company, whereby it intends to exercise its previously announced option in respect of the Project. The option agreement originally required an initial cash payment of AUD\$125,000 (CAD\$ 112,500) to TSGM/Westbury. Pursuant to varied terms, the Company would make an initial payment to TSGM and Westbury in the aggregate amount of AUD\$200,000 (CAD\$180,000) by way of issuance of a total of 4,186,046 common shares at a deemed issue price of \$0.043 per share (the "Initial Shares"). During the period ended June 30, 2024, the Company issued 4,186,046 common shares to TSGM/Westbury and satisfied the option exercise payment (Note 7).

Once the Initial Shares have been allotted, Meryllion will have the right, but not the obligation, to earn a 50% interest in and to the Project by (i) spending a minimum of AUD\$300,000 (CAD\$270,000) in project expenditures forming part of an agreed initial exploration program within 180 days of the date on which Meryllion exercises the option; (ii) committing to spending an additional AUD\$200,000 (CAD\$180,000) in project expenditures within the subsequent 90 days (the "Earn-In Date"); (iii) paying to TSGM the sum of AUD\$100,000 (CAD\$90,000) which amount shall be refunded by TSGM to certain seed investors of TSGM; and (iv) subject to usual regulatory approvals, allotting to said seed investors an aggregate of AUD\$100,000 (CAD\$90,000) worth of common shares in the capital stock of the Company. This section of the Agreement was amended subsequent to June 30, 2024 (Note 10).

Upon having earned its 50% interest in the Project, Meryllion will have the right, but not the obligation, to acquire additional interests in the Project, by way of 10% increments over time up to a maximum 80%, through the funding of additional Project expenditures totaling AUD\$600,000 (CAD\$540,000) and aggregate payments to TSGM/Westbury of AUD\$200,000 (CAD\$180,000) in cash and AUD\$160,000 (CAD\$144,000) in common shares of Meryllion. The Company will have a 30-month period as of the Earn-In Date, during which it may earn up to its maximum interest.

Other than the Initial Shares, all common shares issuable pursuant to the option shall be issued at a deemed issue price equal to the 10-day volume weighted average price of the shares on the date of each respective share issuance or such other period as may be required by the Canadian Securities Exchange (the "CSE").

Upon having earned its 80% interest in the Projects and a production decision being made in respect thereto, Meryllion will have the option to buy the remaining 20% of the Projects at a price based upon an independent evaluation which would be made at that time. All shares issued are subject to a hold period equal to four months and one day from the date of issuance.

Oldham Range

On July 26, 2021, the Company signed an option to acquire a 100% interest in the Oldham Range base and battery metal exploration property in Western Australia.

During the year ended September 30, 2023, the Company did not have sufficient funds to pursue this project, therefore, the exploration costs incurred up to this date of \$103,471 were written off and included in the Company's net loss and comprehensive loss for the period. As at September 30, 2023 and June 30, 2024, the Company no longer has an interest in the Oldham Range property.

Mt Turner Joint Venture

On April 26, 2022, the Company announced that it has reached terms with Essex Minerals Inc., for an arm's length option and earn-in joint venture on the Mt Turner copper-molybdenum and Drummer Fault gold projects in north Queensland, Australia.

During the year ended September 30, 2023, the Company decided not to further pursue the project. Therefore, the exploration costs incurred up to this date of \$375,000 were written off and included in the Company's net loss and comprehensive loss for the year. As of September 30, 2023, and June 30, 2024, the Company no longer has an interest in the Mt Turner property.

10. SUBSEQUENT EVENT

On July 22, 2024, the Company entered into a second amending agreement with TSGM and Westbury (Note 9), whereby the reference to '180 days' in paragraph 3.2(a)(i) of the Agreement, as amended by the first amending agreement was replaced by '270 days'. All other terms and conditions of the Agreement not specifically amended by the first amending agreement and second amending agreement shall remain in full force in effect.
