3. Stock Option Grants

On December 18, 2015 (the “**Grant Date**”) the Company granted to certain of its directors, officers and consultants incentive stock options exercisable to purchase an aggregate of 2,900,000 common shares at an exercise price of \$0.20 each for a period of 5 years from the Grant Date.

Certain of the above optionees are also Insiders of the Company. The number of common shares issuable on exercise of options granted to Insiders are: 1,200,000 to CEO and major shareholder GwanJe Woo, 250,000 to CFO Michael Malana, 500,000 to director Jong Hyub Choi, 200,000 to director Soo Rae Park, 200,000 to director Yong Chul Kim and 100,000 to Secretary David Schwartz.

All of the foregoing options vest as to 25% every 3 months after the grant date, except those granted to GwanJe Woo which vest immediately as Mr. Woo has served as CEO of the Company since its inception.

The 2,900,000 optionable shares above represents 5.5% of the 52,295,234 outstanding common shares of the Company, and is thus within the 10% maximum permitted on a rolling basis under the Company’s stock option plan dated July 15, 2014.

Prior to the above grant, the Company had 52,295,234 common shares issued and outstanding, with 5,408,931 common shares reserved for issuance (comprised of nil upon the exercise of options and 5,408,931 upon the exercise of warrants). After the grant, the Company has 52,295,234 common shares issued and outstanding, with 8,308,931 common shares reserved for issuance (comprised of 2,900,000 upon the exercise of options and 5,408,931 upon the exercise of warrants).

4. Shareholder’s Early Warning of an Acquisition

Pursuant to National Instrument 62-103 *The Early Warning System and Related Take-Over Bid and Insider Reporting Issues*, GwanJe Woo of Seoul, South Korea (the “**Acquiror**”), hereby provides early warning of his acquisition of securities convertible into an additional 2% or more of the common shares of the Company (the “**Shares**”).

Before the above Grant Date, the Acquiror beneficially owned and controlled 8,902,000 Shares and no securities convertible into Shares. On a partially-diluted basis, this represents approximately 17.0% of 52,295,234 Shares (based on 52,293,234 outstanding and nil additional Shares convertible from securities held by the Acquiror). On a fully-diluted basis, this represents approximately 15.4% of 57,704,165 Shares (based on 52,295,234 outstanding and 5,408,931 additional Shares convertible from securities held by all holders including the Acquiror.)

As of the Grant Date, the Acquiror beneficially owns and controls 8,902,000 Shares and securities convertible into 1,200,000 Shares. On a partially-diluted basis, this represents approximately 18.9% of 53,493,234 Shares (based on 52,293,234 outstanding and 1,200,000 additional Shares convertible from securities held by the Acquiror). On a fully-diluted basis, this represents approximately 16.7% of 60,602,165 Shares (based on 52,293,234 outstanding and 8,308,931 additional Shares convertible from securities held by all holders including the Acquiror.)

The convertible securities are options acquired by the Acquiror privately by way of grant from the Company, and were not purchased in any market. The Acquiror paid no consideration, as the Company granted the options as an incentive bonus for the services of the Acquiror as CEO of the Company. By the terms of a stock option agreement dated the Grant Date between the Company and the Acquiror, the Acquiror may

exercise an option to purchase 1,200,000 common shares at an exercise price of \$0.20 per share for a period of 5 years from the date of grant. The Company issued the options to the Acquiror pursuant to an exemption from prospectus requirements provided under section 2.24 of National Instrument 45-106 *Prospectus Exemptions*.
