NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIODS ENDED JUNE 30, 2022 ND 2021
UNAUDITED – EXPRESSED IN CANADIAN DOLLARS

1. NATURE OF OPERATIONS AND GOING CONCERN

Canadian GoldCamps Corp. the (“Company”), is engaged in the acquisition, exploration and development of natural resource properties with a focus on making new gold discoveries in established gold camps in Canada, and exploration of lithium properties in Peru. Effective August 12, 2020, the Company changed its name from Supreme Metals Corp. to Canadian GoldCamps Corp.

The Company’s head office and registered records office is located at Suite 810 - 789 West Pender Street, Vancouver, BC, V6C 1H2. The Company’s shares are listed on the Canadian Securities Exchange (“CSE”) under the symbol “CAMP”, the Frankfurt Stock Exchange under the symbol “A68”, and the OTC, under the symbol “SMATF”.

Effective September 15, 2021, the Company completed a consolidation of its share capital on a one new for twenty old basis. The share and per share amounts have been adjusted within these financial statements to reflect the share consolidation.

As is common with many small companies, the Company raises financing for its exploration and acquisition activities in discrete tranches.

These condensed interim consolidated financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business operations for the foreseeable future. Realization values may be substantially different from carrying values as shown and these consolidated financial statements do not give effect to the adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. The Company's ability to continue as a going concern is dependent upon obtaining additional financing and eventually achieving profitable production in the future. There can be no assurance that the Company's financing activities will continue to be successful or sufficient, in which case the Company may be unable to meet its obligations. Should the Company be unable to continue as a going concern, the net realizable values of its assets may be materially less than the amounts recorded on the consolidated statement of financial position.

The Company has working capital of \$2,790,886 (December 31, 2021 - \$2,769,468). For the period ended June 30, 2022, the Company had a net income and comprehensive income of \$19,361 (2021 - \$6,713,710) and had cash outflows from operations of \$237,939 (2021 - \$270,725). These condensed interim consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets, liabilities and reported expenses should the Company be unable to continue as a going concern. These adjustments could be material.

2. BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE

Basis of presentation

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and in accordance with IAS 34 – Interim Financial Reporting. These condensed interim consolidated financial statements do not include all of the information required for annual financial statements and should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2021. These condensed interim consolidated financial statements have been prepared following the same accounting policies as the Company’s audited consolidated financial statements for the year ended December 31, 2021.

The Board of Directors approved these condensed interim consolidated financial statements on August 29, 2022.

Basis of measurement

These condensed interim consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information. In addition, these condensed interim consolidated financial statements have been prepared on the historical-cost basis, except for the revaluation of certain financial assets and financial liabilities to fair value.

2. BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE (CONTINUED)

Basis of consolidation

These condensed interim consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the condensed interim consolidated financial statements from the date that control commences until the date that control ceases. All intercompany transactions and balances have been eliminated. The Company’s subsidiaries are as follows:

Entity	June 30, 2022	December 31, 2021
Sol Sureno Canada Inc.	-	100%
Iberian Lithium Corp.	100%	100%

On July 9, 2020, the Company acquired 100% of Sol Sureno Canada Inc. (“Sol Sureno”), an Ontario based exploration corporation focused on the acquisition and development of lithium properties in Peru, via its wholly-owned subsidiary, Sol Sureño Sociedad Anonima Cerrada (Sol Sureño S.A.C.) (“Sol Sureno Peru”) a corporation formed under the laws of Peru.

On June 6, 2022, the Company completed a share purchase and sale agreement with Salt Cay Horizon Ltd. (“Salt Cay SPA”) providing for the sale of all of the issued and outstanding shares of Sol Sureno, in consideration of \$200,000 and the assumption of all liabilities of Sol Sureno. Sol Sureno is the owner of the Macusani Project located in the Macusani Plateau area, Peru. In connection with the Salt Cay SPA, Salt Cay Horizon Ltd. issued a promissory note to the Company for the principal sum of \$200,000.

COVID-19

In March 2020, the World Health Organization declared the outbreak of COVID-19 a global pandemic. Government measures to limit the spread of COVID-19, including the closure of non-essential businesses, did not materially disrupt the Company’s operations during the period ending March 31, 2022. The mining industry has not been recognized as essential services across Canada. As at June 30, 2022, we have also not observed any material impairments of our assets or a significant change in the fair value of assets due to the COVID-19 pandemic.

Due to the rapid developments and uncertainty surrounding COVID-19, it is not possible to predict the impact that COVID-19 will have on our business, financial position and operating results in the future. In addition, it is possible that estimates in the Company’s financial statements will change in the near term as a result of COVID-19 and the effect of any such changes could be material, which could result in, among other things, impairment of long-lived assets including intangibles and goodwill. The Company is closely monitoring the impact of the pandemic on all aspects of its business.

2. BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE (CONTINUED)

Functional and presentation currency

These condensed interim consolidated financial statements are presented in Canadian Dollars, which is the Company's functional currency.

3. SIGNIFICANT ACCOUNTING POLICIES

In preparing these condensed interim consolidated financial statements, the significant accounting policies and the significant judgments made by management in applying the Company's significant accounting policies and key sources of estimation uncertainty were the same as those that applied to the Company's audited consolidated financial statements for the year ended December 31, 2021.

The preparation of condensed interim consolidated financial statements requires that the Company's management make judgments and estimates of effects of uncertain future events on the carrying amounts of the Company's assets and liabilities at the end of the reporting period. Actual future outcomes could differ from present estimates and judgments, potentially having material future effects on the Company's condensed interim financial statements. Estimates are reviewed on an ongoing basis and are based on historical experience and other facts and circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively.

4. CAPITAL RISK MANAGEMENT

The Company includes equity, comprising issued share capital and deficit, in the definition of capital, which as at June 30, 2022 was a share capital of \$2,790,886 (December 31, 2021 – \$2,769,468).

The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to fund its exploration commitments. To secure the additional capital necessary to continue with the exploration of mineral properties, the Company may attempt to raise additional funds through the issuance of debt or equity. The Company is not subject to any capital requirements imposed by a lending institution.

The Company monitors its capital structure and makes adjustments according to market conditions in an effort to meet its objectives given the current outlook of the business and industry in general. The Company may manage its capital structure by issuing new shares and adjusting capital spending. The capital structure is reviewed by management and the Board of Directors on an ongoing basis.

There were no changes in the Company's process, policies and approach to capital management during the period ended June 30, 2022 and the year ended December 31, 2021.

5. FINANCIAL INSTRUMENTS AND RISK FACTORS

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate risk, foreign currency risk and price risk).

(i) Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash, amounts receivable and promissory note receivable. Cash is held with a Canadian chartered bank, from which management believes the risk of loss to be minimal.

Amounts receivable consists of sales tax receivable from government authorities in Canada and amounts due from an arms-length party in relation to exploration and evaluation expenditures. Amounts receivable are in good standing as of June 30, 2022. Management believes that the credit risk with respect to these amounts' receivable is minimal.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIODS ENDED JUNE 30, 2022 ND 2021
UNAUDITED – EXPRESSED IN CANADIAN DOLLARS

5. FINANCIAL INSTRUMENTS AND RISK FACTORS (CONTINUED)

(ii) Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they come due. The Company's liquidity and operating results may be adversely affected if its access to the capital market is hindered, whether as a result of a downturn in stock market conditions generally or matters specific to the Company. The Company generates cash flow primarily from its financing activities. As at June 30, 2022, the Company had cash of \$1,980,289 (December 31, 2021 - \$2,462,982) to settle trade accounts payable and accrued liabilities of \$67,940 (December 31, 2021 - \$97,234), the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. The Company regularly evaluates its cash position to ensure preservation and security of capital as well as liquidity. As discussed in Note 1, the Company's ability to continually meet its obligations and carry out its planned exploration activities is uncertain and dependent upon the continued financial support of its shareholders and securing additional financing. Management is continuing in its efforts to secure financing and believes it will be successful.

(iii) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates and foreign exchange rates.

iv) Interest rate risk

The Company has cash and cash equivalent balances and no variable interest-bearing debt. The Company's current policy is to invest excess cash in guaranteed investment certificates issued by a Canadian chartered bank with which it keeps its bank accounts. The Company periodically monitors the investments it makes and is satisfied with the creditworthiness of its Canadian chartered bank. The Company is not exposed to interest rate risk in respect of any loans payable and received which are subject to fixed rate of interest.

v) Price risk

The Company is exposed to price risk with respect to equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. The Company's marketable securities amounting to \$40,000 are subject to fair value fluctuations. As at June 30, 2022, if the fair value of the Company's marketable securities had decreased/increased by 10% with all other variables held constant, loss and comprehensive loss for the period ended June 30, 2022 would have been approximately \$4,000 higher/lower. Similarly, as at June 30, 2022, reported equity would have been approximately \$4,000 lower/higher as a result of a 10% decrease/increase in the fair value of the Company's marketable securities.

vi) Foreign currency risk

The Company's functional and presentation currency is the Canadian dollar and major purchases are transacted in Canadian dollars. The Company at the present time does not have any foreign currency balances subject to foreign currency risk.

vii) Sensitivity analysis

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are reasonably possible over a twelve month period:

Cash is subject to floating interest rates. The Company has no variable debt and receives low interest rates on its cash and cash equivalents balances. As such, the Company does not have significant interest rate risk.

5. FINANCIAL INSTRUMENTS AND RISK FACTORS (CONTINUED)

The Company’s financial instruments consist of cash, amounts receivables, promissory note receivable, market securities, accounts payable and accrued liabilities, and promissory notes payable.

The Company has classified fair value measurements of its financial instruments using a fair value hierarchy that reflects the significance of inputs used in making the measurements as follows:

- Level 1: Valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Valuations based on directly or indirectly observable inputs in active markets for similar assets or liabilities, other than Level 1 prices, such as quoted interest or currency exchange rates; and
- Level 3: Valuations based on significant inputs that are not derived from observable market data, such as discounted cash flow methodologies based on internal cash flow forecasts.

The fair value of the Company’s cash is classified as a Level 1 fair value measurement. The Company does not have any Level 2 or 3 fair value measurements.

7. ASSET DISPOSAL (CONTINUED)

Sale of asset to Mongoose

On February 9, 2022, the Company entered into an asset purchase agreement with Mongoose Mining Ltd. (“Mongoose”) for the sale of the Company's Mt Thom project, in consideration for 200,000 common shares of Mongoose (Note 6). The Company recorded a gain on sale of exploration and evaluation properties of \$49,000.

Sale of asset to Salt Cay Horizon Ltd

On June 6, 2022, the Company entered into the Share Purchase Agreement (“SPA”) with Salt Cay Horizon Ltd. (“Salt Cay”) whereby the Company sold Sol Sureno, a wholly owned subsidiary, which held all of the Company’s Peruvian assets. As consideration, Salt Cay, issued a \$200,000 promissory note and assumed all liabilities of Sol Sureno. The promissory note is non-interest bearing, due on demand and unsecured. Sol Sureno’s assets consisted of:

- all the issued and outstanding shares of Sol Sureno subsidiary
- the Mausam Project located in the Macusani Plateau area, Peru

The net liabilities disposed of were as follows:

	\$
Promissory note receivable	200,000
Net liabilities disposed of:

Net liabilities disposed of:	(5,853)
Gain on disposition of exploration and evaluation properties	205,853

8. EXPLORATION AND EVALUATION EXPENDITURES

The Company’s exploration and evaluation expenditures are mainly related to the acquisition of various property rights and finder’s fees. Many of these property rights were either sold, terminated or returned to the original claim holders as the Company decided against further expenditures on these properties. The exploration and evaluation expenditures are summarized as follows:

	June 30, 2022	June 30, 2021
	\$	\$
Acquisitions costs	-	-
General exploration expenditures	-	132,060
	-	132,060

During the period ended June 30, 2022, the Company paid a total of \$Nil (2021 - \$132,060) for exploration and evaluation expenditures. The 2021 exploration and evaluation expenditures of \$132,060 is comprised of \$22,080 for staking and geology and \$23,441 for geological consulting related to the Elm Project and \$86,539 to renew concessions relating to the Macusani Project.

8. EXPLORATION AND EVALUATION EXPENDITURES (CONTINUED)

(1) The Bloom Lake East Project

On February 3, 2017, the Company entered into an agreement of purchase and sale (the “Bloom Lake East Purchase Agreement”) with Thomas Poupore and Ryan Kalt (the “BL Vendors”) providing for the acquisition of a one hundred percent (100%) undivided interest in and to the Bloom Lake East Project located in Newfoundland and Labrador. Pursuant to the Bloom Lake East Purchase Agreement, the Company earned 100% of the Project by paying \$100,000 and issuing 12,500 common shares to the BL Vendors. The Bloom Lake East Project is subject to a 1.5% gross royalty payable to the BL Vendors.

On March 19, 2020, a purchase and sale agreement (“Purchase & Sale Agreement”) of the Bloom Lake East Property was made with Champion Iron Limited’s subsidiary Quebec Iron Ore Inc. (“Quebec Iron”). The Purchase & Sale Agreement consisted of a cash payment of \$61,400 paid to the Company. On May 6, 2020, the Board of Directors approved the Purchase & Sale Agreement.

A gross royalty of 1.25% is held by the Company, and an additional 1% gross royalty will be held by the original claimholder. The 1.25% gross royalty held by the Company can be purchased at the discretion of Champion Iron Limited at a rate of \$100,000 for each 0.1%.

(2) Mt. Thom Project

On February 3, 2017, the Company entered into a purchase and sale agreement with arm’s length parties (the “Vendors”) for the acquisition of a 100% undivided interest in the Mt. Thom Project. The Mt. Thom property is believed to be an “IOCG-type” copper-cobalt-gold prospect located in central Nova Scotia, Canada, approximately 22 km east of Truro. The project consists of 39 mineral claims over five contiguous licenses and covers 13 approximately 1,560 acres located in the Province of Nova Scotia. In consideration for the acquisition of the Mt. Thom Project, the Company paid \$20,000 and issued 125,000 common shares to the Vendors.

The Mt. Thom Project is subject to a 1.5% gross royalty payable to the Vendors.

On April 13, 2018, the Company entered into an option agreement (the “Option Agreement”) with American Cobalt Corp (Formerly 1156010 BC Ltd.) (the “Purchaser”), a wholly owned subsidiary of International Cobalt Corp (CSE:CO) for its Mt. Thom Project. On August 20, 2019, the Option Agreement with American Cobalt Corp. was terminated and the Property was returned to the Company.
