1. NATURE OF OPERATIONS AND GOING CONCERNS

E-Play Digital Inc. (the “Company”), was incorporated under the Business Corporations Act in British Columbia on September 19, 2013 under the name of Organach Beverage Acquisition Corp. On August 12, 2014, the Company changed its name to Network Oncology Inc. and on June 17, 2015, the name changed to Network Life Sciences Inc. On October 6, 2016, the Company changed its name to E-Play Digital Inc. in conjunction with its acquisitions of PokerVision Media Inc. (“PV”) and Mobovivo Inc. (“MV”) and change of its business to developing and operating broadcast and live video technologies. The address of the registered office is 246 – 2464 Stewart Green SW, Calgary, Alberta, Canada T3H 3C8.

These consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. At September 30, 2019, the Company had a working capital of $63,703 (December 31, 2018 – deficiency of $58,763) and had an accumulated deficit of $6,819,280 (December 31, 2018 – $6,159,311) which has been funded primarily by the issuance of equity and loans from related parties. The Company’s continuing operations, as intended, and its financial success may be dependent upon the extent to which it can successfully raise the capital to carry out its business plan. If the Company is unable to fund its future plan, its business, financial condition or results of operations could be materially and adversely affected. The success of the Company depends on its ability to profitably penetrate its target market with its new products on a sustainable basis. The Company has never generated revenue, cash flows or profits from operations.

The Company’s ability to launch its operations as intended is dependent on its ability to generate revenue and raise capital sufficient to cover its marketing and other costs. All of these factors indicate a material uncertainty that raise significant doubt about the Company’s ability to continue as a going concern. These consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets and liabilities that might be necessary should the Company be unable to continue in existence.

2. BASIS OF PRESENTATION

These condensed interim consolidated financial statements are prepared in accordance with International Accounting Standards 34 - *Interim Financial Reporting* of the International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretation Committee (“IFRIC”). The interim consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company’s annual consolidated financial statements as at and for the year ended December 31, 2018.

These condensed interim consolidated financial statements are presented in Canadian dollars, which is the reporting and functional currency of the Company, PV and MV. The functional currency of the Company’s wholly-owned subsidiary Emerald Oncology Limited is the Euro (€). These condensed interim consolidated financial statements are prepared on a historical cost basis except for certain financial instruments as described at Note 3, which are stated at their fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

(Expressed in Canadian dollars)

2. BASIS OF PRESENTATION (continued)

Basis of consolidation

Consolidated financial statements include the assets, liabilities and results of operations of all entities controlled by the Company. Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated in preparing the Company's the consolidated financial statements. Where control of an entity is obtained during a financial year, its results are included in the consolidated statements of comprehensive loss from the date on which control commences. Where control of an entity ceases during a financial year, its results are included for that part of the year during which control exists.

These consolidated financial statements include the accounts of the Company and its subsidiaries as follows:

Name	Incorporation / acquisition date	Disposition date	Ownership %	Jurisdiction
PokerVision Media Inc.	November 21, 2016	May 18, 2017	100%	Canada
Mobovivo Inc.	December 20, 2016	N/A	96.70%	Canada
Emerald Oncology Limited	September 29, 2014	N/A	100%	Ireland

As at and for the period ended September 30, 2019, Emerald Oncology Limited was inactive.

3. SIGNIFICANT ACCOUNTING POLICIES

Use of estimates and judgments

The preparation of these condensed interim consolidated financial statements requires management to make judgements and estimates that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these judgements and estimates. The consolidated financial statements include judgements and estimates which, by their nature, are uncertain. The impacts of such judgements and estimates are pervasive throughout the consolidated financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and the revision affects both current and future periods.

Significant assumptions about the future and other sources of judgements and estimates that management has made at the statement of financial position date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

<u>Judgments</u>

i) Going concern

The assessment of the Company's ability to execute its strategy by funding future working capital requirements involves judgement. Management monitors future cash requirements to assess the Company's ability to meet these future funding requirements. Further information regarding going concern is outlined in Note 1.

ii) Accounts receivables

The Company assesses the collectability of receivables on an ongoing basis. A provision for the impairment of receivables involves significant management judgment and includes the review of individual receivables based on individual customer creditworthiness, current economic trends and analysis of historical bad debts.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Significant accounting judgments and estimates (continued)

iii) Acquisition of assets

The assessment of whether the acquisitions should be accounted and disclosed as an acquisition of assets or acquisition of a business involved significant judgement by management of the Company.

iv) Impairment

At the end of each reporting period, the Company's intangible assets are reviewed to determine whether there is any indication that those assets may be impaired. If such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any. The recoverable amount is the higher of fair value less costs to sell and value in use. Fair value is determined as the amount that would be obtained to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks associated with the assets being considered. The amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in the profit of loss for the period. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

v) Intellectual property

The recoverability of the carrying value of the intellectual property is dependent on successful development and commercial stage to the point where revenue is possible. The carrying value of these assets is reviewed by management when events or circumstances indicate that its carrying value may not be recovered. If impairment is determined to exist, an impairment loss is recognized to the extent that the carrying amount exceeds the recoverable amount.

Estimates

vi) Fair value of financial instruments

Management uses valuation techniques, in measuring the fair value of financial instruments, where active market quotes are not available. Details of the assumptions used are provided in the notes regarding financial assets and liabilities.

In applying the valuation techniques, management makes maximum use of market inputs wherever possible, and uses estimates and assumptions that are, as far as possible, consistent with observable data that market participants would use in pricing the instrument. Where applicable data is not observable, management uses its best estimate about the assumptions that market participants would make. Such estimates include liquidity risk, credit risk and volatility may vary from the actual results that would be achieved in an arm's length transaction at the reporting date. The assessment of the timing and extent of impairment of intangible assets involves both significant judgements by management about the current and future prospects for the intangible assets as well as estimates about the factors used to quantify the extent of any impairment that is recognized.

(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Changes in accounting policies

i) IFRS 16 – Leases

On January 13, 2016, the International Accounting Standards Board published a new standard, IFRS 16, Leases, eliminating the current dual accounting model for lessees, which distinguishes between on-balance sheet finance leases and off-balance sheet operating leases. Under the new standard, a lease becomes an on-balance sheet liability that attracts interest, together with a new right-of-use asset. In addition, lessees will recognize a front-loaded pattern of expense for most leases, even when cash rentals are constant. IFRS 16 is effective for reporting periods beginning on or after January 1, 2019, with early application permitted.

The adoption of IFRS 16 did not have a material impact on the Company's financial statements.

4. INTANGIBLE ASSETS

Cost	Brands, trademarks and others $	Licenses and marketing rights $	Goodwill $	Total $
Balance at December 31, 2018	-	1	2,055,580	2,055,581

5. SHORT-TERM LOAN

During the year ended December 31, 2016, the Company received $14,169 (€10,000) from a third party as a short-term loan. As at September 30, 2019, the loan was valued at $13,712 (December 31, 2018: $15,613) due to foreign currency fluctuation. The loan is non-interest bearing, unsecured and is due on demand.

(Expressed in Canadian dollars)

6. LOANS PAYABLE

The Company has the following loans payable as at September 30, 2019 and December 31, 2018:

As at	**September 30, 2019**	December 31, 2018
	$	$
Canada Media Fund – Production Financing Agreement (Xtra)	**485,906**	485,906

On December 20, 2016, the Company acquired 96.7% of the issued and outstanding common shares of MV resulting in an assumption of the loans payable of MV.

On May 18, 2017, the Company sold its wholly owned subsidiary, PV resulting in a derecognition of its loans payable of $31,191.

Canada Media Fund (“CMF”) – Production Financing Agreement (Xtra)

On September 29, 2011, the Company’s subsidiary, MV, entered into a Production Financing Agreement with CMF. Total amount to be invested by CMF was $539,895 (the “Investment”), representing 75% of the production budget. Investment was made in three separate payments. Payments are made upon receipt of three progress and cost reports from MV.

During 2013, MV determined that Xtra was no longer financially feasible and therefore terminated the production progress. As a result, MV received a total of $485,906 in two separate payments.

Should MV determine to complete Xtra in the future, CMF is entitled to recoupment. Recoupment is capped at a maximum of 50% of revenues from Xtra.

In the event of default, the CMF has the right, but not the obligation, to reduce the Investment and, if any portion of the reduced amount has previously been advanced to MV, require immediate repayment of such amount with interest at the rate of prime plus 1% per annum as set by the Bank of Canada.

As at September 30, 2019 and December 31, 2018, MV has not generated revenue from Xtra. CMF has not collected or accrued any recoupment amount.

The potential events of default, as per the agreement, that trigger repayment obligations, are not identifiable based upon current circumstances, and are unforeseeable in the near future.

6. LOANS PAYABLE (continued)

Canada Media Fund – Sales and Marketing Loan (Previiw)

On October 3, 2012, MV entered into a Marketing Financing Agreement with CMF ("Marketing Agreement"). Total amount to be invested by CMF was $203,808 ("Advance"), representing 75% of the sales and marketing budget to Previiw.

During 2013, MV determined that Previiw was no longer financially feasible and therefore terminated the production progress.

Should MV determine to complete Previiw in the future, CMF is entitled to recoupment. Recoupment is capped at a maximum of 50% of revenues from Previiw.

In the event of default, the CMF has the right, but not the obligation, to reduce the Investment and, if any portion of the reduced amount has previously been advanced to MV, require immediate repayment of such amount with interest at the rate of prime plus 1% per annum as set by the Bank of Canada.

As at September 30, 2019 and December 31, 2018, MV has not generated revenue from Xtra. CMF has not collected or accrued any recoupment amount.

The potential events of default, as per the agreement, that trigger repayment obligations, are not identifiable based upon current circumstances, and are unforeseeable in the near future.

Canada Media Fund – Production Financing Agreement (Previiw)

On January 26, 2011, MV entered into a Production Financing agreement with CMF. Total amount to be invested by CMF was $430,725 ("Equity Investment"), representing 75% of the production budget. As at September 30, 2017, $387,653 of the Equity Investment has been disbursed to MV.

Should MV determine to complete Previiw in the future, CMF is entitled to recoupment. Recoupment is capped at a maximum of 50% of revenues from Previiw.

In the event of default, the CMF has the right, but not the obligation, to reduce the Investment and, if any portion of the reduced amount has previously been advanced to MV, require immediate repayment of such amount with interest at the rate of prime plus 1% per annum.

As at September 30, 2019 and December 31, 2018, MV has not provided production revenues to CMF. CMF has not collected or accrued any recoupment amount.

The potential events of default, as per the agreement, that trigger repayment obligations, are not identifiable based upon current circumstances, and are unforeseeable in the near future.

Canada Media Fund – Sales and Marketing Loan (Xtra)

On October 3, 2012, MV entered into another Marketing Financing Agreement with CMF. Total amount to be advanced by CMF was $206,058, representing 75% of the sales and marketing budget to Xtra. As at September 30, 2017, total advanced amount by CMF to the Company was $164,846.

During 2013, MV determined that Xtra was no longer financially feasible and therefore terminated the production progress.

6. LOANS PAYABLE (continued)

Canada Media Fund – Sales and Marketing Loan (Xtra) (continued)

Should MV determine to complete Xtra in the future, CMF is entitled to recoupment. The CMF is entitled to receive 50% of Production Revenues until recoupment of the advance in full.

In the event of default, the CMF has the right, but not the obligation, to reduce the Investment and, if any portion of the reduced amount has previously been advanced to MV, require immediate repayment of such amount with interest at the rate of prime plus 1% per annum.

As at September 30, 2019 and December 31, 2018, MV has not provided any production revenues to the CMF. CMF has not collected or accrued any recoupment amount.

The potential events of default, as per the agreement, that trigger repayment obligations, are not identifiable based upon current circumstances, and are unforeseeable in the near future.

AVAC Ltd.

On November 6, 2008, and later amended on December 21, 2016, MV entered into an Investment Agreement with AVAC Ltd. ("AVAC") for up to $1,000,000. AVAC reduced the maximum investment amount from $1,000,000 to $600,000. The Company received a total of $600,000 from AVAC. A 3% royalty on all gross revenues is to be paid quarterly in arrears until an aggregate return of two (2) times the gross amount invested by AVAC is remitted commencing with the quarter ending September 30, 2011. At the discretion of MV, MV has the option to prepay royalties by paying AVAC an amount equal to the amount of the Company actually advanced plus 20% compounded annually from the date each advance was received, to a maximum of two times the original advances by AVAC, less royalties paid to date. The advances are secured by the General Security Agreement dated November 7, 2008.

Should the Company choose to exercise the right to terminate the agreement, the total amount due and payable as at September 30, 2018 was $1,141,350.

Pursuant to the Investment Agreement, the Company shall (1) pay the royalty within 45 days of the end of each fiscal quarter, (2) provide unaudited quarterly unconsolidated financial statements, and (3) the Company shall not, without the prior written consent of AVAC, permit any transfer of its securities which would result in an effective change of control of the Company.

As of December 31, 2017, the Company was in breach of its Investment Agreement for failing to provide the royalty payment within the prescribed due dates and not providing the unaudited unconsolidated financial statements of MV. As a result, the AVAC loan has been classified as a current liability for the year ended December 31, 2017.

On November 13, 2018, the Company entered into a Termination and Mutual Release Agreement with AVAC whereby the parties have agreed to settle the dispute and terminate the Investment Agreement in the amount of $575,281. AVAC has agreed to fully discharge the security and terminate the Security Agreement and the Company agreed to issue to AVAC 1,568,628 units at a deemed price of $0.145 per unit. Each unit consists of one common share and one-half share purchase warrant (Note 7). Each warrant can be exercised to purchase one additional common share at $0.15 per share for a period of 12 months from the date of issuance. 8. CAPITAL DISCLOSURES

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders. The Company considers the items included in shareholders' equity as capital. The Company manages the capital structure and makes adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets. The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to fund the operation of the Company. To secure the additional capital necessary to pursue these plans, the Company intends to raise additional funds through equity or debt financing. The Company is not subject to any capital requirements imposed by a regulator.

9. FINANCIAL INSTRUMENTS

Short-term loan	-	-	15,613
Loans payable	-	-	1,242,325

The fair value of the Company's financial assets and liabilities approximates the carrying amount because of their nature and relatively short maturity dates or durations.

The Company's financial instruments are exposed to certain financial risks, which include the following:

Credit risk

Credit risk is the risk of loss due to the counterparty's inability to meet its obligations. The Company's exposure to credit risk is on its cash. Risk associated with cash is managed through the use of major banks which are high credit quality financial institutions as determined by rating agencies.

9. FINANCIAL INSTRUMENTS (continued)

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting obligations when they become due. The Company intends to ensure that there is sufficient capital in order to meet short-term operating requirements, after taking into account the Company's holdings of cash. As at September 30, 2019, the Company had cash of $100,246 (December 31, 2018 - $148,433) to settle the total current liabilities of $173,316 (December 31, 2018 - $229,510).

Foreign exchange risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency.

At September 30, 2019, the Company had nominal amounts of accounts payable and loans denominated in Euro. A 10% change in the currency exchange rates between the Canadian dollars relative to the Euro would have an immaterial effect on the Company's results of operations, financial position and/or cash flows. The Company has not hedged its exposure to currency fluctuations.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk.
