The new assets announced today include over 10 million followers which will decrease Cost Acquisition Customer (CAC) and increase downloads by approximately 10 times.

Metric	103K IG Followers (Actuals)	10M IG Followers (Projected)
Downloads (5.6%)	5,680	560,000
Engagement (2.5%)	2,575	250,000

"As we release various titles on our augmented reality mobile game platform, ePlay's product-placement, marketing, celebrity, and technology partners play a role in driving downloads and revenue," says Trevor Doerksen, CEO of ePlay. "Amortizing the costs of marketing and customer acquisition with unfair marketing advantages such as the celebrities ePlay continues to build directly into Big Shot is vastly expanded through this new acquisition."

The newly acquired game assets are being leveraged in new and existing mobile games. Further details will be made available alongside the launch date for new mobile game titles and new features for Big Shot. Related news to follow.
