Klocked Announces Indoor Running Feature Compatible with Coros Watches
Klocked now compatible with Coros watches enabling indoor activities such as treadmill

[ePlay Digital Inc.](#) (CSE:EPY | OTC:EPYFF | FSE:2NY2) (the “Company”) today announced that Klocked’s revolutionary real-time Sports Science Platform is now compatible with [Coros*](#) watches. In the next Klocked app update, Coros Pace 2, Apex Pro, Vertex, and Vertex 2 watches will connect in the Klocked 2D Activity Menu by tapping the Bluetooth symbol.

Earlier this year, Klocked announced at the CES Tech Event in Las Vegas compatibility with Under Armour* sneakers and Bowflex treadmills. The Klocked app adds Bluetooth connectivity to wearables from [Coros](#), Under Armour, Run, and Bowflex that track and transmit cadence, stride length, distance, and other data in real-time.

Compatible watches, treadmills, and sneakers are paired to the Klocked app to provide more accurate activity data which helps with indoor and outdoor activity tracking.

“Immersing runners in a 3D and augmented reality audio and video experience before, during, and after their run is totally unique to Klocked,” says Trevor Doerksen, CEO of ePlay Digital and co-creator of Klocked fitness app. “Working with Coros watches is a key goal to help runners create epic sports moments indoors and out.”

Klocked new 3rd party watch, treadmill, and sneaker compatibility supports existing Klocked audio and video cues, adaptive music to optimize cadence, pre-race and in-race coaching, and the P4 AI performance-enhancing audio cues that improve training and race-day performance.

Real-time evaluation is powered by Klocked P4 AI and [Weav Music](#)'s performance-enhancing adaptive music & AR coaching technology.

Klocked's [Coros](#) features will be released in the next version of the free [Klocked App](#). Existing users will receive the Coros compatibility update automatically. This new athlete-friendly feature is part of a series of new features including Siri Shortcuts, P4AI, Coach Kelly, and Weav Music announced previously.

Klocked P4 AI

Klocked helps everybody to get outdoors and provides daily real-time motivation towards healthy living. The Klocked P4 AI system augments a user's experience with real-time and interval audio cues making fitness fun, competitive, and gamified. Klocked not only equips users with motivation but with real-time information and data that is not available anywhere else. Klocked P4 AI includes Place, Placement, Performance, and Personal Best Augmented Reality (AR).

Coach Kelly

Coach Kelly joins Klocked users on race and fun run days. [Upcoming races](#) and fun runs include Berlin, Paris, and New York. Join 30-minutes before start time and Coach Kelly walks participants through the upcoming event. Coach Kelly is with you at race start, during the race, and through to the finish line. Check out the [schedule](#).

More Sports Science

Additional Advanced Sports Science Features include:

- Placement visual and audio cues to advance race position by gender and age division
- Gamification to advance to the next level
- Leaderboards by age and gender divisions
- Special challenges and races
- Bonus points and special effects for passing and participating in challenges
- Earn real and augmented reality t-shirts, race bibs, and medals

Klocked Sports Science Platform is now available in the free [Klocked App](#).
